OFFICIAL PROPOSALS

(Docking Facilities—Sunnyvale)

SEALED BIDS, indorsed "Bids for additional docking facilities in airship hangar, Specification 7264", will be received at the Public Works Office, 12th Naval District, 100 Harrison Street, San Francisco, Calif., until 11 o'clock A. M. April 4, 1933, and then and there publicly opened for additional docking facilities in airship hangar at the Naval Air Station Sunnyvale, California. The work includes milling lumber, fabrication of metal straps and the assembly, erection and fitting of the same on the structural steel frame of the airship hangar to afford points of suspension for cables. Specification 7264 and accompanying drawing may be obtained on application to the Public Works Officer, 12th Naval District, 100 Harrison Street, San Francisco, Calif. Deposit of a check or postal money order for \$5.00 payable to the Chief of the Bureau of Yards and Docks is required as security for the safe return of the drawing and specification. The Government reserves the right to require, prior to the award of the contract, a statement of facts in detail of the business and technical organization and plant of the bidder available for the contemplated work, including financial resources for such part of the work as is not provided for by the stipulation in article 16 of the Standard Form of Contract (Construction) to be used, and experience of organization of comparable work. The Government reserves the right to reject any bid respecting which the facts as to business and technical organization, financial resources, plant or experience compared with the project bid upon, justify such rejection.

A. L. PARSONS,
 Chief of Bureau.

March 7, 1933.

(Spec. No. 7224—Pearl Harbor—Pier)

Sealed Bids, indorsed "Bids for pier, Specification No. 7224," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock A. M., May 3, 1933 and then and there pub-

licly opened for a pier and two quays of reinforced concrete construction supported on concrete cylinders on wood piles and on concrete piles and includes a steel sheet pile bulkhead, timber fender systems, track work, piping systems and electrical conduits at the Navy Yard, Pearl Harbor, T. H.

Specification No. 7224 and accompanying drawings may be obtained on application to the Bureau or to the Commandant, Navy Yard, Pearl Harbor, T. H., or to the Commandant, 12th Naval District, 100 Harrison St., San Francisco. Deposit of a check or postal money order for \$25, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specification.

The Government reserves the right to require, prior to the award of the contract, a statement of facts in detail of the business and technical organization and plant of the bidder available for the contemplated work, including financial resources for such part of the work as is not provided for by the stipulation in article 16 of the Standard Government Form of Contract (Construction) to be used, and experience of organization in construction of comparable work. The Government reserves the right to reject any bid respecting which the facts as to business and technical organization, financial resources, plant, or experience, compared with the project bid upon, justify such rejection.

A. L. PARSONS,
 Chief of Bureau.

February 2, 1933.

Fire Hose Houses—Government Island

United States Department of Agriculture, Bureau of Public Roads, San Francisco, Calif., March 18, 1933.

SEALED BIDS will be received at the office of the Bureau of Public Roads, 807 Sheldon Building, 461 Market Street, San Francisco, Calif., until 2:00 o'clock P. M., on April 4, 1933, for furnishing all labor and materials required in the erection of Units 27, 28 and 29, Fire Hose Houses, on the United States 15 acre tract, Government Island, Alameda, Alameda Co. Calif. Where copies of plans and specifications are requested a deposit of \$10 will be required to insure their return. If these are not returned within 15 days after opening of bids the deposit will be forfeited to the Government. Checks should be certified and made payable to the Regional Fiscal Agent, U. S. Forest Service. Plans, specifications and proposals may be obtained at the office of the Bureau of Public Roads, 807 Sheldon Bldg., 461 Market Street, San Francisco, or the Bureau of Public Roads, Government Island, Alameda.

C. H. SWEETSER,
 District Engineer.

21—BRIDGES

LOS ANGELES, Cal.—The engineering department of the Santa Fe Railway Company, of Chicago, is taking bids for the fabrication of Carnegie beams to be used in the superstructure of the Orange Ave. Grade Separation at Arcadia. Bids on the substructure and other work to be done by the county were opened by the county supervisors March 20. The proposed structure will be an 80-foot through girder span. The Santa Fe will erect the steel when the abutments are built, probably in July.

MONTEREY COUNTY, Cal.—Until April 7, 2 P. M., bids will be received by L. H. Gibson, District Engineer, State Highway Commission, 50 Higuera St., San Luis Obispo, to extend existing reinforced concrete box culvert about 3 miles south of San Lucas. Specifications obtainable from the above. Certified check 10%.

SAN JOSE, Santa Clara Co., Cal.—Until April 17, 5 P. M., to be opened at 8 P. M., bids will be received by John J. Lynch, City Clerk, to construct Julian St. Bridge over Coyote Creek, involving:

- (1) 1548 cu. yds. excav.;
- (2) 823 cu. yds. concrete;
- (3) 75.17 tons steel;
- (4) 177 concrete piles 20-ft. long;
- (5) 314 lin. ft. concrete handrail;
- (6) 100 lin. ft. galv. pipe handrail;
- (7) 6360 sq. ft. 2-in. asph. conc. surf.;
- (8) 560 cu yds. excav. in widening channel;
- (9) 36 lin. ft. 27-in. Portland cement concrete pipe.

NOTE: Steel and concrete estimate exclusive of piles and handrail. Handrail consists of 23.26 cu. yds. concrete and 1.44 tons steel. Piles consist of 152.75 cu. yds. concrete and 15.2 tons steel.

NOTE: Bridge approach:
1672 sq. ft. 5-in. asph. conc. pavement
281 sq. ft. 2-in. asph. conc. surfacing;
25 lin. ft. 8x10x14-in. Portland cement concrete curb;
31 sq. ft. 15x6-in. Portland cement concrete gutter.

Specifications obtainable from W. L. Popp, City Engineer. Certified check 10% required with bids.

LOS ANGELES, Cal.—Atlas Const. Co., 39 Congress St., Pasadena, awarded contract by county supervisors on March 27, at \$19,600, for the construction of a railroad grade separation structure in Arcadia. The project calls for a highway subway under the Santa Fe tracks, connecting Orange Ave. and Colorado St. The total length of the subway will be about 900 ft., with a steel superstructure 80 ft. in length.

The width of the street will be 40 ft. Contract for the steel superstructure will be let by the Santa Fe Railway and the subway portion by the county. The total cost will be paid as follows: \$4000 by the City of Arcadia; \$16,532 by the railroad, and \$62,123 by the county.

22—DREDGING, HARBOR WORKS, EXCAVATION

SACRAMENTO, Cal.—R. P. Easley, Antioch, at \$52,003 submitted low bid to U. S. Engineer Office, Sacramento, to construct new levee and raise old levee along the northeasterly side of Haas Slough from near its junction with Cache Slough to its junction with Reclamation District No. 2968 canal, and on the easterly side of said canal to near the pumping plant, total length of levee 16,400 ft., involving 440,000 cu. yds. embankment in place in levee. Complete unit and total bids follow:

R. P. Easley, Antioch, .1182, \$52,003.
Haas, Doughty & Jones, San Francisco, .1288; \$56,672.

Franks Constr. Co., S. F., .149; \$65,560
Delta Dredging Co., Pittsburg, .159; \$69,960.

Olympian Dredging Co., San Francisco, .1784; \$78,496.

Engineer's estimate, .1064.
Bids held under advisement.

LOS ANGELES, Cal.—C. B. Ursching, General Manager Harbor Department, has recommended that a 5-year construction plan be financed by a \$3,250,000 loan to be obtained from the Reconstruction Finance Corp. The list of projects included in the program follows:

Extension of the belt line railway in the inner harbor area—\$250,000.

Repairing earthquake damage to docks and wharves—\$250,000.

America-La France & Foamite Corp. \$8145 each; \$15,945. Alternate bid, 6-cylinder, \$7145 each; \$13,739.

Bids held under advisement.

LOS ANGELES, Calif.—Shepherd Tractor & Equipment Co. awarded contract by A. J. Holm, city purchasing agent, March 23, at an estimated total of \$15,000 (items 3 and 4), for the rental of used Diesel-operated caterpillar "65" tractors under Spec. No. 3019. Bids on items 1 and 2 were rejected. The bids were opened Mar. 8.

DALY CITY, San Mateo Co., Cal.—Until April 10, 8 P. M., bids will be received by B. C. Ross, City Clerk, to furnish one panel truck, 141-in. wheelbase, 7-in. frame; further specifications obtainable from above office. Certified check 10% required with bid. Bids were to have been opened March 27.

30—RESERVOIRS & DAMS

SOUTHGATE, Los Angeles Co., Cal.—Louis M. Rothkranz Water Superintendent, preparing plans for 500,000 gallon reservoir, 80x80 feet of reinforced concrete; it will be 4 ft. below the surface and 8 ft. above with booster pump, etc.

LOS ANGELES, Cal.—E. C. Eaton, chief engineer, County Flood Control District, 202 N Broadway, is preparing specifications for the furnishing of reinforcing steel for use in connection with the construction of San Gabriel Dam No. 1. The contract, which was awarded to the West Slope Construction Co., calls for the placing of

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

7,675,000 lbs. reinforcing steel. Other materials and equipment for this dam for which specifications are being prepared are: Portland cement, vent pipes 36,000 lin. ft. metal seals, valves. Bids will be taken through the board of supervisors.

32—SEWERS & SEWAGE DISPOSAL PLANTS

MARTINEZ, Contra Costa Co., Cal.—Until April 17, 11 A. M., bids will be received by S. C. Wells, County Clerk, to construct reinforced concrete culvert under spill on Road D-17, Supervisor's District No. 4, about 2.5 mi. southwest of Antioch, involving:

- (1) 241 cu. yds. concrete;
- (2) 37,498 lbs. reinf. steel.

Specifications obtainable from County Surveyor R. R. Arnold. Certified check 10% required with bid.

LOS ANGELES, Cal.—American Concrete & Steel Pipe Co. awarded contract by H. E. Russell, County Purchasing Agent, for furnishing reinforced centrifugal spun concrete pipe as follows:

- (1) 347 8-ft. lengths, 36-in. (1700D) loading, at \$25.12.
- (2) 4 8-ft. lengths, 36-in., beveled, at \$25.12.
- (3) 49 8-ft. lengths, 24-in., at \$17.20.
- (4) one 8-ft. length, 18-in., at \$11.60. Specification No. 5443.

LOS ANGELES, Cal.—A. K. Warren chief engineer, County Sanitation Districts, 139 N Broadway, is preparing plans for proposed White's Point Outfall Sewer line to be built from the sanitation districts joint sewage treatment plant in the vicinity of Figueroa St. and Lomita Blvd. through the Palos Verdes Hills to a point near White's Point, approx. 38,800 ft. The line lies in a general southwesterly direction from the treatment plant.

SOUTH SAN FRANCISCO, San Mateo Co., Cal.—South City Lumber & Supply Co., at \$545.70 awarded contract by city council to furnish 20-, 370 bd. ft. redwood lumber to extend outfall sewer. Only other bid submitted by Industrial City Lumber Co. at \$569.02.

MONTEREY PARK, Los Angeles Co., Calif.—Application for a loan of \$161,171 for the installation of a municipal disposal system has been made to the Reconstruction Finance Corp. by the City of Monterey Park. The proposed plant, designed ultimately to serve a population of 150,000, was designed by C. H. Ellison, city engineer. The engineer estimates that 2600 connections will be required. The first unit to be built will serve a population of 6000.

LOS ANGELES, Cal.—Hearing on the proposed construction of sewers in Belvedere Gardens, Unit No. 4, under C. 1. No. 757, continued by county supervisors from March 27 to September 25. The work as planned involves 4.73 miles of sewer and is estimated to cost \$66,300.

LOS ANGELES, Cal.—Hearing on the proposed construction of sewers in Belvedere Gardens, Unit No. 5, under County Improvement No. 770, continued by county supervisors from March 27 to September 25.

33—WATER WORKS

LOS ANGELES, Cal.—West Coast Pump & Sales Co. has been awarded contract by D. P. Nicklin, Purchasing Agent, Water & Power Bureau, for

one rotary pump under Spec. No. 6074. 33

LA HABRA, Orange Co., Cal.—Purchase of the water system of the American States Water Co. at a total price of \$100,000, ordered by the city council, following negotiations between the city and the water company over a period of several months. City Attorney Harold McCabe was authorized to prepare the necessary contracts. The city recently voted a \$100,000 bond issue for the purchase of the existing system or the construction of a new one. City Engineer, John Sanks.

SANTA BARBARA, Cal.—City Engineer E. B. Brown has prepared an estimate of \$59,670.00 as the cost of the proposed east side drainage project. The project will involve:

Storm drain in Alameda Padre Serra from Garcia to Sycamore Canyon, diverting water in Sycamore Creek, \$16,100.

A drain on Quarantina St. from Canyon Perdido to Ortega St., \$11,000.

Enlargement of the Ortega Street drain to serve Spring St., \$3,900.

Pumping station, three pumps with total combined capacity of 200 second feet, automatically operated, \$28,000.

LYNWOOD, Los Angeles Co., Cal.—City Council is seeking ways and means to finance the construction of an elevated steel water tank to replace the one destroyed by the recent earthquake. The new tank will be of 100,000-gal. capacity with 115-ft. steel tower. A. J. Bateman, city engineer.

VICTORVILLE, Fresno Co., Calif.—Chas. L. Foulke, consulting engineer, 455 4th St., San Bernardino, has completed preliminary plans for a water system to be built in the Victorville County Water District under a \$50,000 bond issue voted recently. The plans provide for work as follows:

Drilling of two 18-inch wells.
Installation of deep well pumps, capacity 100,000 gallons per day, and sand filters.

Construction of a 150,000-gal. reinforced concrete reservoir or steel water tank.

37,000 lin. ft. of 4- to 6-in. cast iron water pipe.

The district is considering proposals of contractors to accept the bonds in payment for the construction. W. G. Roberts, Victorville, is president of the District.

OAKLAND, Cal.—Fred. W. Snook, 596 Clay St., San Francisco, at \$43,040 submitted low bid to East Bay Municipal Utility District to furnish:

- (1) 8,800 lin. ft. 8-in. cast iron pipe;
- (2) 16,075 lin. ft. 6-in. do;
- (3) 28,225 lin. ft. 4-in. do;
- (4) 2,200 lin. ft. 2-in. do.

Pipe is for the Fairview County Water District.

Complete bids follow:

Bids held under advisement.
SAN FRANCISCO.—Fred W. Snook, 596 Clay St., at \$30,892 awarded contract by Department of Public Works to construct water system about three

miles in length from San Andreas to the site of the Sneath Ranch jail in San Mateo County.

West Coast Const. Co. submitted low bid at \$29,700 which was rejected as it did not comply with specifications.

35—TUNNELS

SEATTLE, Wash.—Puget Sound Machinery Depot at \$23,500 submitted low bid to Board of Public Works to construct steel standpipe near intersection of North 145 St. and Dayton Ave. at Foy, King County.

Newkirk & Munter at \$3472 submitted low bid to Board of Public Works to construct foundation for above standpipe.

35

29—STREETS AND HIGHWAYS

ARIZONA STATE.—Until 2 P. M., April 5, new bids will be received by State Highway Commission, Phoenix, for highway construction on the Holbrook-Winslow Highway, E-40, Schedules 1 and 2 (A. F. E. No. 6656).

The work on E-40, Schedule 1 which begins at the west city limits of Holbrook and extends westerly about 10.2 miles, consists of constructing two culverts, placing subgrade stabilizer and oil processing by the plant mix method, using cutback asphaltic cement.

The work on E-40, Schedule 2, which begins at a point about 10.2 miles west of the town of Holbrook and extends westerly about 11 miles, consists of constructing one C.M.P. culvert and oil processing by either the road or plant mix method, using asphaltic road oil.

Awards, previously having been announced as made to L. E. Dixon Co. of Los Angeles, on Schedule No. 1, and Heafey-Moore Co. and J. A. Casson, Phoenix, have been recalled and all bids rejected.

INGLEWOOD, Los Angeles Co., Cal.—Arthur W. Cory, City Engineer, is preparing specifications for the surfacing of Freeman Ave. bet. Redondo Blvd. and Edith St. with rock and oil.

LOS ANGELES, Cal.—Ordinance of intention for the improvement of Strickland Ave. bet. Burwood Terrace and 220 ft. west, under the 1911 Act, adopted by city council March 23. Hearing has been set for May 1.

BANNING, Riverside Co., Calif.—Walter Hoenecke, Hotel Banning, Banning, general superintendent for Wenzel & Henoch Const. Co., general contractors for the San Jacinto Tunnel, is taking bids for the construction of approx. four miles of 30-foot road adjacent to the Potrero Adit, involving grading and disintegrated granite surfacing. Ben Radtke, Purchasing Agent for the contractors, is also at the Hotel Banning.

TEHAMA COUNTY, Cal.—O'Connor Bros., Red Bluff, awarded sub-contract by Frank C. Cuffe, Box 441, San Rafael, to construct two bridges and two culverts in connection with 3.277 miles of grading the Deer Creek Meadows National Forest Highway, U. S. Bureau of Public Roads Project.

SAN FRANCISCO.—Until April 5, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, secretary, to improve north half of Army St., Castro to 75 ft. east, involving:

- (1) 75 ft. armored concrete curb;
- (2) 450 sq. ft. 1-course conc. sidewalk;

(3) 20 ft. 6-in. V.C.P. side sewer;
 (4) 1,500 sq. ft. asph. conc. pave.

Specifications obtainable from J. J. Casey, city engineer, 3rd floor, City Hall. Estimated cost, \$550.

HUMBOLDT COUNTY, Calif.—As previously reported, Smith Bros. Co., 1636 B St., Eureka, at \$3252.80 (\$3.04 per cu. yd.) submitted low bid to the District Engineer, State Highway Commission, Eureka, to furnish and stockpile screenings in Humboldt Co. near Mad River Bridge about 1.4 mi. west of Essex.

Only other bid submitted by Basalt Rock Co., Inc., Napa, at \$3,723.60 (unit bid. \$3.48 per cu. yd.) Bids held under advisement.

LAKE COUNTY, Cal.—T. J. Doyle, 1527 17th Ave., San Francisco, at \$7,757 awarded contract by State Highway Commission to remove an existing timber bridge and construct a reinforced concrete slab bridge across Morrison Creek, 28 miles east of Mendocino County line, consisting of two 30-ft. spans on a concrete pier and concrete abutments.

SAN MATEO COUNTY, Cal.—Basich Bros., 20,550 Normandie Avenue, Torrance, and Los Angeles, at \$166,161.70 awarded contract by State Highway Commission to grade and pave with Portland cement concrete 3.3 miles between San Francisco and South San Francisco.

VENTURA COUNTY, Calif.—Until April 12, 2 P. M., bids will be received by S. V. Courtelyou, District Engineer, State Highway Commission 808 California State Office Bldg., Los Angeles, to treat earth shoulders with fluel oil between Oxnard and Santa Clara River Bridge, about 2.3 miles, involving 1700 barrels heavy fuel oil in place. Specifications obtainable from above office. Certified check 10% required with bid.

SAN FRANCISCO.—Until April 5, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, secretary, to improve crossing of Fitzgerald and Jennings; also Jennings, Fitzgerald to Gilman, involving:
 (1) 195 ft. armored concrete curb;
 (2) 660 sq. ft. 1-course conc. sidewalk;
 (3) 4 brick catchbasins;
 (4) 90 ft. 10-in. V.C.P. culverts;
 (5) 32 ft. 12-in. V.C.P. sewer;
 (6) 68 ft. 6-in. V.C.P. side sewer;
 (7) 6,113 sq. ft. asph. conc. pave.

Specifications obtainable from the office of John J. Casey, city engineer, 3rd floor, city hall. Estimated cost, \$2980.

LOS ANGELES, Cal.—Consolidated Rock Products Co., awarded contract by A. J. Holm, city purchasing agent, March 21, at \$16,000 (estimated total), for furnishing Department of Water and Power, Bureau of Power and Light with sand, gravel and rock for six month period. Spec. No. 3003. The bids were opened March 1.

LOS ANGELES Cal.—Until 2 P. M., April 10, bids will be received by County Supervisors for the paving of Mission Road, from Hidalgo St. in the City of Alhambra to Santa Anita Ave. in the City of San Gabriel, 1666 ft. or 0.32 miles, under Cash Contract No. 451, involving:

- (1) 34,132 sq. ft. 2-in. asph. concrete wearing surface;
 - (2) 34,132 sq. ft. 4-in. asph. concr. base
- Plans prepared by Geo. W. Jones, County Road Commissioner. Mame B. Beatty, 501 Hall of Records, Clerk of the Board.

LOS ANGELES, ORANGE, SAN Diego and Imperial Cos., Cal.—Square Oil Co., 16 Adobe St., Los Angeles,

at \$2752.20 awarded contract by State Highway Commission to apply 1390 bbls. Diesel oil to roadside vegetation over 79.4 miles.

Complete bids published March 16.

LOS ANGELES, Cal.—Chutuk, Kordich & Vukojevlch, 4935 West Blvd. submitted low bid to Board of Public Works, March 22, at \$22,833.75 for improving Woodlawn Ave., between 37th St. and Vernor Ave., under Cash Contract.

LOS ANGELES, Cal.—Griffith Co., 502 L. A. Railway Bldg., Los Angeles, awarded contract by Board of Public Works, March 22, at \$2050, for the improvement of the alleys in block south of 6th St., between Mesa St. and Pacific Ave., under the 1911 Act.

MONTEBELLO, Los Angeles Co., Cal.—J. L. Cole, city engineer, is preparing specifications for the furnishing of asphaltic concrete material for the resurfacing of about 300,000 sq. ft. of pavement on E 9th St. bet. 4th St. and the west city limits. The surfacing will vary from 1½- to 2-in. involving approx. 3000 tons of premix material (plant mix) delivered f.o.b. job. The laying will be done by city forces. Bids will be called within a week.

FRESNO COUNTY, Cal.—Until Apr. 19, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphalt concrete 0.7 mi. between Church Ave. and California Ave. in Fresno, involving:

- (1) 3070 cu. yds. rdwy. excav., unclass.;
- (2) 20,060 sta. yds. overhaul;
- (3) 2430 cu. yds. imported borrow;
- (4) 310 cu. yds. struc. excav.;
- (5) 12,850 sq. yds. subgrade for pave.;
- (6) 5560 tons asphalt concrete;
- (7) 50 cu. yds. class A Portland cement concrete (struc.);
- (8) 1500 lbs. bar reinf. steel (struc.);
- (9) 360 lin. ft. 18-in. corr. metal pipe
- (10) 8 concrete joints complete in place;
- (11) 60 cu. yds. drainage sumps;
- (12) 90 cu. yds. Portland cement concrete to be removed;
- (13) 380 M. gals. water;
- (14) 1035 bbls. fuel oil;
- (15) 38 sta. finish roadway.

State will furnish corrugated metal pipe.

SAN JOSE, Santa Clara Co., Cal.—Until April 10, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, for road surfacing as follows:

Whisman road from the Mountain View-Alviso Road to the Bayshore Highway, involving 155,930 sq. ft. oil macadam;

East Highland and Edgemont Sts., in the eastern foothills, involving 162,600 sq. ft. oil macadam;

Gilroy-Hollister and Fourth and Sixth Sts., near Gilroy—Gilroy-Hollister road involves:

- 35,500 sq. ft. paving;
 - 11,000 sq. ft. rebuild.
- Fourth St. involves 19,925 sq. ft. paving;

Sixth St. involves 29,307 sq. ft. paving; oil macadam;

Race St. and Fruitvale Ave. on the outskirts of San Jose, involving 58,800 sq. ft. oil macadam;

Plummer Ave. from the Foxworthy Road to Curtner Ave., involving 89,700 sq. ft. oil macadam.

Specifications obtainable from Robt. Chandler, County Surveyor, on payment of \$1.

SANTA CRUZ COUNTY, Cal.—Until April 10, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission,

Room 211, State Bldg., San Francisco, to apply 950 barrels of fuel oil to 7 miles of existing roadbed between Slippery Rock Maintenance Station and Waterman Switch, as a dust palliative. Specifications obtainable from above office. Certified check 10% required with bid.

KERN COUNTY, Cal.—Until April 19, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 3.7 mi. between Oak Glen and one mi. north of Grapevine Station, involving:

- (1) clear and grub right-of-way;
 - (2) 782,000 cu. yds. rdwy. excav., unclass.;
 - (3) 14,172,000 sta. yds. overhaul;
 - (4) 10,000 cu. yds. imp. borrow;
 - (5) 10,920 cu. yds. struc. excac.;
 - (6) 40,370 sq. yds. subgrade for pave;
 - (7) 6000 tons cru. gravel or stone (bit. treated borders);
 - (8) 235 tons cut-back asphalt;
 - (9) 8600 cu. yds. class A Portland cement concrete (pavement);
 - (10) 750 cu. yds. class A Portland cement concrete (struc.);
 - (11) 238,200 lbs. bar reinf. steel (pavement and struc.);
 - (12) 708 lin. ft. 8-in. corr. metal pipe;
 - (13) 482 lin. ft. 18-in. do;
 - (14) 2552 lin. ft. 24-in. do;
 - (15) 318 lin. ft. 30-in. do;
 - (16) 486 lin. ft. 36-in. do;
 - (17) 310 lin. ft. 42-in. do;
 - (18) 124 lin. ft. 48-in. do;
 - (19) 600 lin. ft. 8-in. pref. metal pipe
 - (20) 2550 cu. yds. concrete remove from existing pave. and struc. and dispose of;
 - (21) 8.4 mi. new property fence;
 - (22) 6 fence gates;
 - (23) 0.5 mi. property fence remove and dispose of;
 - (24) 9300 lin. ft. lam. timber guard rail;
 - (25) 200 timber guide posts;
 - (26) 65 culvert markers;
 - (27) 3380 cu. yds. special riprap;
 - (28) 60 cu. yds. light riprap;
 - (29) 585 cu. yds. rubble masonry (retaining walls);
 - (30) 960 bbls. fuel oil;
 - (31) 47,400 M. gals. water (embankment);
 - (32) 199 sta. finish roadway;
 - (33) 72 monuments complete in place.
- State will furnish corrugated metal pipe, perforated metal pipe and spillway assemblies.

SAN FRANCISCO.—Department of Public Works, S. J. Hester, secretary, plans to improve crossing of Quintara and 32nd Ave., and Quintara, 32nd to 33rd Avenues, involving:

- (1) 4000 cu. yds. excavation;
- (2) 40 ft. 8-in. V.C.P. sewer;
- (3) 310 ft. 21-in. do;
- (4) 8 Y branches;
- (5) 200 ft. V.C.P. side sewer;
- (6) 1 brick manhole;
- (7) 3 brick catchbasins;
- (8) 105 ft. V.C.P. culvert;
- (9) 574 ft. unarmored concrete curb;
- (10) 660 sq. ft. 1-course conc. sidewalk;
- (11) 16,894 sq. ft. asph. conc. pave.

Specifications obtainable from the office of John J. Casey, city engineer, 3rd floor, City Hall. Estimated cost, \$6,912.53.

CONTRA COSTA COUNTY, Calif.—Until April 10, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission, Room 211, State Bldg., San Francisco to apply 2500 barrels of fuel oil to 19.1 miles of existing roadbed in Mount Diablo Park, between Danville and the Summit and between the Forks and Walnut Creek, as a dust palliative. Specifications obtainable from above office. Certified check 10% required with bid.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

SAN FRANCISCO—OAKLAND BAY BRIDGE (Contract 5) Yerba Buena Island Crossing

Clinton Construction Co., 923 Folsom Street, San Francisco, at \$1,821,292.50 submitted low bid March 28 to State Department of Public Works to construct Contract No. 5, Yerba Buena Crossing, San Francisco-Oakland Bay Bridge, involving:

- (1) 330,000 cu. yds. excav., unclass.
- (2) anchorage tunnels (lump sum);
- (3) 3,000,000 lbs. anchorage steelwork
- (4) 2,750 cu. yds. concrete anchorage foundations;
- (5) 8,350 cu. yds. concrete anchorage above foundations;
- (6) 3,000 cu. yds. concrete viaduct and wall footings;
- (7) 10,000 cu. yds. concrete viaduct and wall above footings;
- (8) 300 cu. yds. concrete railings;
- (9) tunnel const. (lump sum);

- (10) 3,500 cu. yds. concrete foundations, Piers YB-2 to YB-4 and E-1;
- (11) 8,500 cu. yds. conc. above foundations, Piers YB-2 to YB-4 and E-1;
- (12) 250 cu. yds. concrete sidewalks, curbs and gutters;
- (13) 850 cu. yds. crusher run base;
- (14) 650 cu. yds. crushed stone surf.;
- (15) 50 barrels fuel oil;
- (16) 50 tons cut-back asphalt;
- (17) 4,400,000 lbs. reinforcing steel;
- (18) 10,000 lbs. misc. metal work;
- (19) electrical conduits and fittings (lump sum);
- (20) 1,500 cu. yds. concrete pavement, lower deck;
- (21) 51,000 lbs. c. i. drain pipe and fittings;
- (22) 13,000 lbs. castings;

- (23) drain tile 4- to 12-in. lump sum);
- (24) 2,300 barrels Portland cem. roof grouting;
- (25) 23,000 lin. ft. pipe piles in place;
- (26) 200 lin. ft. jet drilling;
- (27) 100 lin. ft. diamond drilling;
- (28) 2,000 barrels extra Portland cement.

Complete bids follow:

- (A) Clinton Const. Co., \$1,821,292.50.
- (B) Connolly-Hanrahan Co. and Geo. Pollock, \$1,871,670.
- (C) Bridge Builders, Inc., \$1,874,000.
- (D) Silas Mason Co., \$1,993,050.
- (E) Youdall Const. Co., C. M. Elliott, and Stroud Bros. and Seabrook, \$1,967,833.
- (F) Lindgren & Swinerton and Associates, \$2,150,850.
- (G) Winston Bros. and L. E. Dixon, \$2,249,958.

**SAN FRANCISCO—OAKLAND BAY BRIDGE (Contract 3)
San Francisco Anchorage**

SAN FRANCISCO — Healy Tibblitts Construction Co., 64 Pine St., San Francisco, at \$1,036,500 submitted low bid March 29 to State Department of Public Works, Room 235, City Hall, San Francisco, to construct Contract No. 3, San Francisco Anchorage, San Francisco-Oakland Bay Bridge, involving:

- (1) 50,000 cu. yds. excav., unclass.;
- (2) 2,700,000 lbs. anchorage steel work;
- (3) 31,000 cu. yds. mass conc. erection block;
- (4) 34,000 cu. yds. concrete anchorage, mass concrete;
- (5) 3,000 cu. yds. concrete anchorage above lower deck;
- (6) 300 cu. yds. concrete viaduct, footings;

- (7) 5,800 cu. yds. concrete viaduct above footings;
- (8) 200 cu. yds. concrete railings;
- (9) 7,900 cu. yds. concrete foundations, Piers A, B and 1;
- (10) 11,500 cu. yds. concrete above foundations, Piers A, B and 1;
- (11) 2,800,000 lbs. reinf. steel;
- (12) 25,000 lbs. misc. metal work;
- (13) electric conduits and fittings, a lump sum;
- (14) 20,000 lbs. cast iron drain pipe & fittings;
- (15) 10,000 lbs. castings;
- (16) 2,000 bbls. extra Port. cement;
- (A) Healy Tibblitts Constr. Co., \$1,036,500.
- (B) Clinton Constr. Co., San Francisco, \$1,048,675.

- (C) Winston Eros. and L. E. Dixon, \$1,136,378.
- (D) MacDonald & Kahn, San Francisco, \$1,139,998.
- (E) George Pollock, Sacramento, \$1,146,730.
- (F) Youdall Constr. Co., C. M. Elliott, Stroug Eros. and Seabrooke, \$1,224,950.
- (G) Mercer Fraser Co. and Geo. R. Cook, Eureka, \$1,281,835.
- (H) Silas Mason Co., New York and San Francisco, \$1,296,650.
- (I) Bridge Builders, Inc., San Francisco, \$1,297,950.
- (J) Walsh Constr. Co., Los Angeles, \$1,376,400.

ARCHITECTS FOR S. F. BAY BRIDGE ARE APPOINTED

Commission Names Three Ad-
visers on Crossing Design
Detail

Appointment of the architects for the San Francisco-Oakland Bay Bridge was announced yesterday by Earl Lee Kelly, State Director of Public Works. The architects appointed are: Arthur Brown, Jr., of San Francisco, John J. Donovan of Oakland, and Timothy L. Pflueger of San Francisco.

These appointments had the approval of Governor James Rolph, Jr., and were made as a result of conferences between the San Francisco Art Commission and Director of Public Works Kelly and Chief Engineer C. H. Purcell.

Brown was the architect on the San Francisco City Hall, and has been a guiding influence in the maintenance of the architectural beauty of the Civic Center. He is also architect on the Department of Labor and Interstate Commerce Buildings now in construction at Washington, D. C., and is acting as consulting architect on the government group building program in Washington, D. C. He was also architect for the Federal Building in San Francisco.

Donovan is President of the Northern California Chapter of the American Institute of Architects, and was supervising architect on the construction of the Oakland City Hall, the Oakland Auditorium, St. Mary's College, Santa Clara College, and approximately 250 schools throughout California.

Pflueger is an architect with many beautiful buildings to his credit, notable among which is the Pacific Telephone and Telegraph Building on New Montgomery St. in San Francisco.

In making the appointments, Kelly said:

"It is our plan that the San Francisco-Oakland Bridge be not only the greatest bridge in the world, but the most beautiful. To this end we consulted with the Architectural Committee of the San Francisco Art Commission and have, as a result, selected architects in whom we can place the utmost confidence. These architects are our assurance that the bridge will be a bridge of beauty as well as utility."

THE WEEK'S NEWS Highlights

CONTRACTORS' LICENSES—A sub-committee of three will report to the Senate committee on governmental efficiency early next week its findings on legislation involving the state licensing of contractors. A hearing on the Ingels repeal measure was conducted by the committee April 5 at Sacramento. Speakers for contractors' organizations vigorously opposed the repeal proposal. Recommendation of the committee probably will be based on the report of the three members, Senators Ingels, Difani and Bush, who are instructed to reconcile the repeal bill with proposed amendments designed by Sen. Chris Jespersion to strengthen the act.

BUILDING PERMITS—Despite the abnormal conditions prevailing in March, San Francisco building permit totals show a substantial gain in private building operations during the month compared with January and February. (See Pg. 8.)

AQUEDUCT TUNNELS—Bids totaling \$3,548,658 for construction of Valverde and Bernasconi tunnels of the Colorado River Aqueduct were opened in Los Angeles by directors of the Metropolitan Water District. (See Page 6 and Unit Price Review.)

FEDERAL OPENINGS—Although the Federal government temporarily has withheld award of contracts on all Federal construction, bids were received during the week on the San Diego and Phoenix post office buildings. Largura Construction Co., Gary, Indiana, low at \$509,000, on San Diego; Great Lakes Construction Co., at \$848,848, on Phoenix.

BOHEMIAN CLUB—Architect Lewis P. Hobart has set April 15 as the closing date for bids on the \$600,000 San Francisco Bohemian Club building. Bids are being received from a selected list of contractors.

REILLY AWARDED SHED EXTENSION JOB AT \$32,831

Twenty Firms Bid on Refrig-
eration Terminal Addition
for Harbor

Frank J. Reilly, San Francisco, submitted the low bid for building an 84-foot shed extension to Pier 35 among fifteen bidders who submitted proposals to the state harbor commission yesterday. Reilly's bid was \$32,831. The second low bid was that of Leo Epp at \$33,877.

The contract will be awarded to Reilly, the commission announced immediately after the opening. A contract for steel rolling doors for the shed went to Kennerson Manufacturing Company at \$5,411.

Bids were received at the same time for construction and equipment of Unit Three of the State Refrigeration Terminal. The contract will approximate \$55,000 it was indicated by bids received. The award will be determined by the specifications selected, three alternatives being offered.

Twenty firms bid on various portions of the work, which include alterations to the buildings, insulation and refrigeration equipment. The bids were referred to Chief Engineer Frank G. White for recommendation.

STATE TO READVERTISE 2 HIGHWAY CONTRACTS

All bids on two highway contracts were rejected yesterday by the State Highway Commission and the contracts will be readvertised, omitting reference to the Federal aid provisions which were incorporated in the first bid call.

It was held by attorneys that the contracts could not be awarded legally under the Federal aid clause because all federal highway work is temporarily delayed. The commission, however, will proceed with the work as planned, utilizing state funds.

The two contracts are for paving approaches to the Merced river bridge on the Golden Gate Highway and for surfacing two miles between Susanville and Johnstonville, Lassen county. Bids were opened March 29.

MATERIAL LIEN RIGHT FORFEITED BY TAKING NOTE

Attorney Discusses Court Ruling Recognizing Collateral as Payment

Lien rights for the furnishing of materials are voided if a note is accepted from the contractor in payment of his account, the California courts have held, Harry C. Westover, attorney, points out in an article written for the Orange County Builders' Exchange Bulletin.

Following is his article reprinted from the bulletin:

The payment of an account for labor and materials, always extinguishes the lien which is filed or which may be filed for the amount due. Payment need not always be in money. It may be made by giving a note or other collateral security. Where one has a claim for labor or materials he should be very careful in accepting from the contractor a note or other security, as he may waive his lien rights.

However, the mere execution and delivery of a note representing the value of materials or labor furnished in the course of the construction of an improvement does not discharge the indebtedness or release the principal of the sureties on the original indebtedness, but if the note is given and received with an agreement that it is to constitute a payment of the original indebtedness the original debt is satisfied by the acceptance of the note.

It is right and proper to take a note from the contractor, but it should be distinctly understood that the note is taken as additional security and not as payment of the original account.

In the recent case of Giant Powder Co. vs. Fidelity & Deposit Co. of Maryland (83 CD 130, decided Jan. 26, 1932) the powder company furnished the contractor powder until it had an account against the contractor and the job of approximately \$75,000. The company in order to protect itself took from the contractor a promissory note for the amount due, which when not paid was reduced to judgment. Subsequently the powder company attempted to impress a lien on the property on which its materials had been used. The owner and the bonding company which has furnished a bond, set up the defense that the account had been paid inasmuch as the powder company had taken a note for its account and then reduced the same to judgment. The trial court held on this

ATKINSON LOW ON OREGON RIVER JOB

PORTLAND, Ore., March 31.—Guy F. Atkinson, San Francisco, submitted the low bid today on repairs for the South Jetty at the mouth of the Columbia river. Atkinson's bid was \$1,686,403.50. The work is being done under supervision of the United States District Engineer.

The contract involves furnishing and placing 1,250,000 tons of stone and 165,000 lineal feet of timber piling.

CONTRACTOR SUES FOR PAVING MONEY

Suit has been instituted in the Marin county superior court by J. C. Dowling, contractor, to compel the city council of Sausalito to issue street improvement bonds covering work done nearly ten years ago.

Dowling was not paid after property owners had won a suit in superior court to declare the assessment illegal. The contractor carried the case to the supreme court where the decision was reversed.

Judge Hillard Comstock of Sonoma county will hear the case on April 18 when Dowling will ask for a writ of mandamus to compel the city to issue bonds for \$115,000 in unpaid assessments.

A.G.C. MEMBERS TOUR BOULDER DAM SITE

Thirty-six members of the Inter-mountain Branch, Associated General Contractors, recently made a four-day trip from Salt Lake City to Boulder City where they were guests of the Six Companies on a tour of the Boulder Dam project.

The expedition was arranged by Mark Tuttle, manager of the branch. It was made in a bus chartered from the Union Pacific railroad. Banners advertising the A. G. C. decorated the bus.

W. A. Bechtel, president of the Six Companies, was at Boulder City to greet the party and arrange for their entertainment.

particular point that the evidence disclosed that the powder company had accepted the note as payment of its account and that it could not impress a lien on the property or hold the bonding company liable for the claim.

WEEK'S LUMBER ORDERS 14% OVER TOTAL YEAR AGO

New Business at National Mills Highest for 1933 To Date

New business booked at the lumber mills during the week ended March 18, 1933, was 31 per cent above the previous highest week of 1933, 38 per cent above that received during the preceding week, and 14 per cent above the corresponding week of 1932, according to telegraphic reports to the National Lumber Manufacturers' Association covering the operations of 695 leading hardwood and softwood mills. This new business amounted to 156,370,000 feet. Production totaled 87,571,000 feet, which was slightly higher than the previous week and 22 per cent below the corresponding week of 1932. Softwood production was 20 per cent below that of last year; hardwood, 45 per cent below.

Most of the gain in orders was in the softwood regions, Southern pine, West Coast and Western pine showing the heaviest orders of the year, as well as Northern hardwoods.

New business at the Southern pine mills was 51 per cent of capacity, compared with 24 per cent the previous week; at the Western pine mills orders were 22 per cent of capacity compared with 14 per cent the week before; at Southern hardwood mills 25 per cent, compared with 20 per cent the week before. Northern mills also showed substantial gains.

Compared with corresponding week of 1932, softwood orders were 17 per cent above; hardwood orders, 15 per cent below. Orders reported by Southern pine and West Coast mills were nearly 40 per cent above those of the corresponding week of 1932; Northern hemlock were 62 per cent above, and Northern hardwoods 79 per cent above. Other regions showed decreases as compared with last year.

Forest products carloadings during the week ended March 11 were 13,262 cars, a decline from the previous week of 1,978 cars and from the corresponding week of 1932 of 5,705 cars.

Lumber orders reported for the week ended March 18, 1933, by 425 softwood mills totaled 142,262,000 feet, or 77 per cent above the production of the same mills. Shipments as reported for the same week were 100,908,000 feet, or 25 per cent above production. Production was 80,456,000 feet.

NATIONAL MEET ON SELLING IS SET FOR APRIL

Trade Groups Outline Confer- ence Program Scheduled in Chicago

A national home-selling conference will be held in Chicago in April. Leaders of all the varied lines that make up the building industry will attend. Participating in arrangements are representatives of city planning, lumber, cement, brick, real estate, plumbing and heating, finance, furniture and publishing interests.

The purpose is to focus attention of men in these and related lines on what must be done to sell homes now. Coordinated action will be sought.

Two special committees, cooperating with the committee on arrangements, have significant assignments. One is the committee on a long-term program; the other the committee on coordination of publicity.

"A long-term program for home-selling, to be presented for discussion and approval at the conference will recognize the fact," states Bernard L. Johnson, committee chairman, "that the prime reason for building homes is not to sell materials or make jobs, but rather to give people places where they can live normal, healthy, happy lives, and raise children, with safety and economy. This program, recognizing land as the basic raw material of home-building, will advocate improved urban land policies and better control of land use. It will stress the greater stability of homes that are units in well-organized communities, as against those that are simply houses on separate lots."

"Co-ordination of publicity," states Norman J. Rader, committee chairman, "is needed to get before the public systematically and continuously, facts as to cost-cutting, waste-elimination and improvements already accomplished by various units of the building industry."

San Francisco Electrical Bureau Issues New Orders Governing Local Installations

Orders affecting installation of service switches, convenience plugs and changes in knob and tube wiring were issued yesterday by Ralph Wiley, chief of the San Francisco Department of Electricity.

The text of the orders follows:

SERVICE SWITCHES

In buildings served through 2, 3 or 4 meters from a single set of service conductors not exceeding 150 volts to ground, the service conductors may be run to a separate service switch and cut-out for each meter, if grouped at the same service switch location. The service run shall be continuous to the last service switch and cut-out, or to the bus on the switchboard, but

taps may be made to the individual service switches. In installations involving more than 4 meters, the entire current shall be taken thru one main service switch.

ADDITIONAL PLUG RECEPTACLES

A total of not more than three convenience outlet receptacles may be added to the existing 660 watt lighting circuits in dwellings, flats and apartment houses, providing there are no plug circuits installed, and the total wattage, including the plug receptacles, does not exceed 660 watts. Each lamp receptacle shall be computed at 40 watts and each plug receptacle at 100 watts.

KNOB AND TUBE INSTALLATION

In dwellings, flats and apartment houses, where the existing wiring has been installed in knob and tube methods, alterations and minor extensions to said installations may be installed in knob and tube, with the following exceptions:

The feeders to the existing circuits and new wiring installed in the basement shall be enclosed in conduit.

The above mentioned conditions will be approved, only when said alterations and extensions comprises less than 50% of the total

Following are the committees:

Arrangements: John H. Millar, (Chairman), Millar's Housing Letter; W. D. M. Allan, Manager, Cement Products Bureau, Portland Cement Assn.; C. E. Close, Construction Engineer, National Lumber Mfrs. Assn.; David B. Gibson, Vice-President, Industrial Publications, Inc.; Arthur A. Hood, Vice-President, National Homes Finance Corp., and L. Porter Moore, Director, Publicity, Home Construction Division, Sears, Roebuck & Co.

Long-Term Program: Bernard L. Johnson (Chairman), Editor, American Builder & Building Age; Jacob L. Crane Jr., City Planner; Jos. Eves, Western Manager, Better Homes & Gardens; A. P. Haake, Manager-Director, National Assn. of Furniture Mfrs., Inc.; and Herbert U. Nelson, Executive Secretary, National Assn. of Real Estate Boards.

Coordination of Publicity: Norman J. Rader (Chairman) Secretary-Manager, Plumbing & Heating Industries Bureau; George S. Eaton, Secretary-Treasurer, American Face Bick Assn.; Henry A. Guthrie Millar's Housing Letter; Harold O. Hayes, Editor, Concrete Products, and C. K. Kelsey, Publicity Manager, National Assn. of Furniture Mfrs., Inc.

RIPON BRIDGE BIDS TO BE ASKED SOON

Bids on the contract for construction of a bridge across the Stanislaus river near Ripon will be advertised in April, according to word from the State Highway Commission received by the Stanislaus county board of supervisors.

The cost of the bridge is estimated at \$105,300. Delay in construction has been occasioned by the impossibility of working during the period of high water, engineers said.

METALLIC PAPER MARKETED AS NEW INSULATION

**Thin Sheet Efficiency Claimed
Equal To Thick
Wall**

An entirely new insulation both in type and principle is being introduced by Reynolds Metals Company. This new product is but 5/1000 of an inch thick, yet will insulate against heat and cold to the same extent as 20 to 40 inches of concrete, it is claimed. The material itself is a thin flexible highly-polished sheet of non-tarnishing metal reinforced with paper.

This product obtains its insulating efficiency from two unique qualities, that of high reflectivity and low emissivity of radiant heat. From 50 to 80 per cent of the heat which escapes through frame or hollow walls is in the form of radiant heat. While ordinary materials and insulations absorb most of this heat and emit or throw it off very readily, the bright metallic surface of this product reflects 95 percent of this heat and emits only 5 percent.

To utilize these principles either one or both metal surfaces must face an air space. This is accomplished by applying the insulation either against the studs, joists, or rafters, under the sheathing or plaster base, so that one metal surface faces the air space formed by the framing members, or by applying it midway between the framing members so each metal surface is left exposed. Extensive tests have shown that with one metal surface exposed, the material will insulate to the same extent as 3/4-inch of the ordinary insulating board, 12 inches of brick, or 20-inches of concrete. When applied midway between the framing members, its insulating value is just doubled and it will retard the flow of heat just as efficiently as 1 1/2-inches of insulating board, 20-inches of brick, and 40-inches of concrete.

Other qualities which characterize this product are water-proofness, and wind-proofness. It is also odorless and vermin-proof. Its lasting qualities as an insulation are assured since the metal will not tarnish or corrode and will retain its bright surface indefinitely.

While foil insulation is new to the building industry, this type of insulation has proved unusually efficient in other fields. The United States Navy is using it as an insulation in cruisers. Its use in refrigerators has been sensational since it has enabled the manufacturer to increase the inside dimensions of the cabinet 25 percent without increasing the size of the cabinet or sacrificing any efficiency.

Foil insulation for building is not only low in first cost but is easy and economical to apply. It sells for approximately 40 percent less than an insulating board of comparable efficiency and is furnished in rolls 17 inches and 32 inches

MIDWESTERN FIRMS BID SAN DIEGO P.O.

WASHINGTON, D. C.—April 3—Three low bids on the construction of the San Diego post office building were submitted by midwestern contractors. Larga Construction Company, Gary, Indiana, at \$509,00 and \$523,000 on the alternate proposal was low bidder. A. W. S. Construction Company, Chicago, at \$510,000 and \$525,000 and Ring Construction Company, Minneapolis, Minn., at \$562,000 and \$584,000 were second and third low respectively.

William Templeton Johnson, San Diego, is the architect for the new building, which will be two stories of steel and masonry construction.

INSPECTORS APPOINTED FOR GATE BRIDGE WORK

Robert P. Winton, Belvedere, has been appointed assistant engineer in the inspection bureau of the Golden Gate Bridge district, it was announced yesterday. Winton formerly was with the Southern Pacific in Mexico on bridge construction and has been engaged in harbor engineering.

Appointment of nine other inspectors for duty in the eastern shopwork inspection bureau also was confirmed by the bridge directors. They are:

F. R. Rusiackas, \$250 a month; Emil Hertel, \$240; Geo. W. Prie, \$175; F. A. Schiertz, \$240; H. W. Dick, \$185; Jos. Levin, \$225; Wm. O'Donnell, \$200; J. A. Kilkenny, \$200; R. S. Kelley, \$170.

Progress payments of \$89,720 to Pacific Bridge Co. and \$14,400 to Barrett & Hilp were approved.

SAN JOSE BRICK TO REOPEN PLANT

San Jose Brick & Tile Company will reopen its plant in about two weeks, J. F. Dair, manager, announced yesterday. Dair said 65 men would be employed at the opening, with additions to the force being made as business warrants.

The plant has been closed for about three years. It is one of the oldest in the district, having been operated for more than 55 years. The stock of 3,000,000 common brick on hand when the plant closed has been reduced to about 700,000, less than enough to fill current orders, Dair said.

Production at peak is 75,000 bricks a day.

wide, each roll containing 250 sq. ft. It weighs approximately 17 lbs. per roll, or 68 lbs. per 1,000 sq. ft. It is being distributed through the retail lumber and building material dealers.

OPEN BIDS ON TWO TUNNELS OF L. A. AQUEDUCT

**Dravo Contracting Company
Low on Seven-Mile
Valverde Bore**

(SPECIAL TO DAILY PACIFIC BUILDER)
LOS ANGELES, April 3—Combination low bids for construction of Valverde and Bernasconi tunnels of the Colorado River Aqueduct, part of the Los Angeles Metropolitan Water District Project, total \$3,548,658 for full-size bore and \$3,215,077 for the half-size alternate. The combination low total on both schedules is that of the bids of Hamilton & Gleason Company, Redlands, on Proposals 1 and 2 and Dravo Contracting Company, Pittsburgh, Pa., on Proposals 3 and 5 and Proposals 4 and 6.

The Hamilton & Gleason bids were \$412,055 and \$354,907 to construct Bernasconi tunnel.

The Dravo Contracting Company bids were \$1,584,614 and \$1,369,974 to construct the west portion of the Valverde tunnel; \$1,701,989 and \$1,491,206 to construct the west portion. The bidder offered a reduction of \$150,000 from the combined total if awarded contracts for both portions of the tunnel.

Bernasconi tunnel will be 1.1 mile in length. Valverde tunnel will be 7.2 miles. The work is divided into two contracts, the east portion being 3.3 miles and the west portion 3.9 miles.

(Other bids and a detailed list of construction items involved appears in the Advance Report section of today's issue.)

CALIFORNIA WHITE PINE USE VALIDATED

Use of the description "California white pine" was held valid in a decision of the United States Circuit Court of Appeals which reverses the ruling of the Federal Trade Commission.

Though in fact a wood of the yellow pine family, the decision says, California white pine has been known for so many years by that name that so describing it is not "deceiving the public" or "injuring competitors" as held by the commission. Twelve Pacific coast lumber concerns joined in carrying an appeal from the trade commission ruling to the federal courts.

SPECIAL ENGINEER TO INSPECT BRIDGE

Alameda city council has under consideration the appointment of an engineer to inspect and report on the safety of the Park street bridge across the estuary.

William R. Calcutt, former city councilman, appeared before the council and urged that a new bridge be constructed by the county. He said \$65,000 remaining in the bond fund for the Webster St. bridge could be applied toward cost of a new Park St. bridge.

Faulty Design, Lack of Supervision Caused Long Beach Building Failures, Says Report

Following is the complete text of the report of Building Inspector John B. Leonard and Prof. Charles Derleth, Jr., submitted to Director of Public Works Wm. H. Worden of San Francisco, and made public Saturday:

In accordance with your directions we have examined structures in Los Angeles, Long Beach and environment, with a view to studying the effects on buildings due to the earthquake of March 10, 1933. We arrived in Los Angeles Friday morning, March 17, and spent five full days in our investigations.

There are few if any new lessons to be learned from the Long Beach earthquake which were not taught by previous temblors. The shock on March 10 was less violent than that at Santa Barbara in 1925 which in turn was less severe than that at San Francisco in 1906. Complete destruction was meted out to certain classes of buildings, improperly designed and executed. Schools were especially prominent in this unfortunate group of buildings which included also commercial buildings, stores, apartment houses, etc. The scenes of destruction were practically identical with what one observed at Santa Barbara and at San Francisco.

In the midst of this destruction, framed buildings, honestly constructed, fared satisfactorily, receiving only minor cracks in walls or interior plaster and partitions.

On the other hand, buildings with unwise combinations of materials, unscientifically designed and dishonestly assembled, fared frightfully, especially where the discordant parts of the buildings were unintelligently tied together by inadequate anchors or connections.

High buildings of many floors must have adequate structural frames designed to withstand lateral forces. These frames must be of proper materials, such as structural steel or reinforced concrete; and all secondary parts, exterior or interior, must be reinforced and be tied together and be anchored to the frames. None of these parts, especially cornices and ornaments, should be top heavy. Fire walls particularly did great damage, due to improper workmanship and lack of anchorage. Pent houses, water tanks and elevator shafts projecting above the main roofs of buildings in many instances were entirely void of proper framing, adequate to withstand horizontal wind or earthquake forces. Many of them were demolished.

There are plenty of monumental tall buildings in the Southland which have successfully withstood the earthquake. These comply with the Los Angeles regulation limiting height to 150 feet. Notable exception is the City Hall at Los Angeles whose tower rises 435 feet. After visiting a glut of demolished buildings all day long one felt depressed. But with a view of the

City Hall there came a feeling of relief and reassurance that buildings can be built practically and economically of great height and proportions to withstand violent shocks provided they are competently designed and built. When great tall structures commanding enormous loads, long spans and high walls as successfully resist an earthquake as did the Los Angeles City Hall, it must be obvious to laymen that smaller commercial buildings, stores, apartment houses churches, schools, hospitals and theaters, surely can be built to protect life and limb.

Herein is the indictment of these classes of buildings which wreaked so much damage for school houses and commercial structures at Long Beach and environment. The earthquake came at 5:55 p.m. Had it visited the region three hours sooner, while people were in stores and children in schools, the loss of life would have been appalling.

One cannot say that any particular individual or interest is wholly responsible for building collapse. For example, in the case of schools the public demands a school of a certain size. The money provided is less than the amount needed for a safe building. Those in authority then are faced with the urge to build more than the money available will buy. This places pressure

upon the architect and engineer to skimp the design; also pressure is brought to find a contractor who will erect the building cheaply.

The disaster at Long Beach is directly attributable to lack of adequate design by omitting consideration of horizontal forces and by failure to properly supervise the construction.

This is a repetition of the lessons of San Francisco and Santa Barbara. The code now in preparation and near completion for San Francisco will safeguard future design and assure us buildings capable of withstanding lateral forces.

In conclusion we commend the City of San Francisco through its properly constituted officials for the steps they already have taken to co-operate with the various agencies of the State to secure adequate building ordinances.

Respectfully submitted,
JOHN B. LEONARD,
Superintendent, Bureau of Building Inspection, San Francisco.
C. DERLETH, Jr.,
Consulting Engineer.

MATERIALS PRICE INDEX DECLINES

The index of wholesale building materials prices stood at 69.6 for the week ending February 11, compared with 70.0 for the preceding week. The price index has shown a steady trend downward for the past five weeks, following the general course of the average wholesale commodity prices.

The index of metal and metal products prices is at 77.9 for the week.

LUMBER ASSN. ISSUES HOME PLAN BOOKLET

Inexpensive House Designs
Prepared for Distribution
of Dealers

The first distribution of a new architectural service, consisting of an eight-page pamphlet giving four floor plans and perspectives of homes which can be built at a cost of from \$800 to \$1800, depending on local price, is being mailed to retail lumber dealers throughout the country by the West Coast Lumbermen's Association.

In the announcement to retail lumber dealers, the Association expressed the belief that a million small homes might be sold in the United States during the year 1933 if the proper kind of small home plans could be gotten to the public. Dealers were urged to secure copies of the booklet, "West Coast Plans for Small Homes," for local distribution and to advertise these modern small houses in their local newspapers, the Association to provide at cost the necessary illustrations.

The booklet contains four perspectives and floor plans as follows

1. A studio home with a vaulted ceiling, by H. E. Crawford and Arnett Woodroffe, associate architects, Walla Walla, Wash. Has living room 16x24 feet; two bedrooms and kitchen; cost at Walla Walla, \$1,250.

2. Early American cottage, 1933 model, by F. M. Smith, Jr., architectural designer, Seattle; 4 rooms and garage; cost at Seattle, \$1,000.

3. New England cottage in the modern style, by H. H. Riley, architect, Seattle; four rooms and garage, cost about \$1,000 at Seattle.

4. A simple Colonial, by H. H. Riley, architect, Seattle; 3 rooms, bath, breakfast nook and garage; cost about \$800 at Seattle. Provision for extra room upstairs.

Plans, specifications and bills of materials, the Association announced, will be furnished at cost to retail lumber dealers. Copies of the booklet may be had by the public at ten cents each to cover printing and mailing costs.

MOORE ELECTED TO INSTITUTE BOARD

Joseph A. Moore of the Moore Drydock Company has been elected to the board of directors of the American Institute of Steel Construction.

Mr. Moore is one of six new board members representing steel companies in various parts of the nation. The other new directors are J. F. Duthie, Wallace Bridge & Structural Steel Co., Seattle; C. Edwin Michael, Virginia Bridge and Iron Co., Roanoke, Va.; G. H. Blakeley, McClintic-Marshall Corp., Bethlehem, Pa.; Ralph J. Stayman, Jones & Laughlin Steel Corp., and L. A. Paddock, American Bridge Co., Pittsburgh.

SCRIP TO FINANCE PORTLAND BUILDING

Remodeling of the Portland city hall at an estimated cost of \$100,000 has been approved by the city council. Municipal scrip is to be used in payment of all material and labor costs. Unemployed architects and engineers will be given an opportunity to prepare plans and to supervise the work. This is one of a group of remodeling and repair jobs on public buildings which have been proposed for the stimulation of building industry activity and their accomplishment by the use of scrip is being advocated.

EXCHANGE OFFICERS RE-ELECTED FOR 1933

W. H. George of the Cowell Lime and Cement Company, was re-elected president of the San Francisco Builders' Exchange at the organization meeting of the board of directors.

Other officers of the Exchange were re-elected for 1933 with the exception of treasurer, a post that had been vacant due to the death of Alex Mennie. E. M. Hundley of the Hundley Hardware Company, was elected treasurer. The other officers are Joseph B. Keenan, first vice-president; Emil Hogberg, second vice-president; Chas. W. Carle, third vice-president; R. J. H. Forbes, secretary.

FRESNO EXCHANGE ELECTS DIRECTORS

Two new directors were elected to the board at the annual meeting of the Fresno Builders' Exchange for 1933.

They are Charles Stewart and B. A. Newman. Other members of the board who were re-elected are J. M. Brown, H. G. Rohr, F. M. Low, A. M. Healey, L. G. Jeffrey, M. W. Hancock, R. E. Jolly, A. M. Loper and T. A. Osborne.

Officers are to be elected at the organization meeting which will be held shortly.

TOOL SERVICE FIRM IS ESTABLISHED HERE

Electric Tool Service has been formed by W. A. McAuley and A. R. Toole to specialize in sales and repairs on all types of portable electric tools. They are established at 220 First street, San Francisco.

Both members of the firm have been engaged in the electric tool business here for several years. The shop is equipped to service all makes of electric saws, concrete hammers, drills and grinders.

A rental service for contractors will be operated also.

The company is the local representative of M. N. Thackaberry, Los Angeles electric tool distributor.

PERMITS SHOW GAIN HERE FOR PRIVATE WORK

March Totals Ahead of January and February in
San Francisco

A gain in private building over both January and February is shown by March building permit totals in San Francisco, issued last night by Building Inspector John B. Leonard.

The total for the month is \$548,231 for 343 permits, virtually all of the month's work being for private owners. Municipal, state and federal work accounted for less than fifty thousand dollars of the total.

Alteration permits, although fewer in number, compare favorably with those of March a year ago in dollar value. Following is a comparison of figures for alterations for the first three months of the year and for the corresponding month a year ago: January, 107,200; February, \$147,785; March, \$154,075; March, 1932, \$190,997.

Following is the comparison of all private work, excepting alterations for the same months: January, \$120,750; February, \$152,035; March, \$345,905; March, 1932, \$646,860.

The classification of permits for months of March in both years follows:

	March, 1933		March, 1932	
	No. P'mts	Est. Cost	No. P'mts	Est. Cost
A	2	\$160,000	\$.....
C	1	11,000	5	137,500
Frames	59	174,905	121	509,360
Alter.	277	154,075	419	190,997
Public	2	35,882	3	50,990
State	1	1,639	3	202,444
U.S. Govt. 1		10,730	2	1,000
Total	343	\$548,231	553	\$1,092,291

FALLING WALL COSTS CONTRACTOR \$10,000

After more than six hours' deliberation, a jury in the court of Superior Judge P. F. Gosbey awarded \$10,000 to Mrs. Margaret Williams in her suit against H. A. Bridges, San Jose contractor, for injuries suffered in a freak accident June 5, 1931.

Mrs. Williams had asked \$51,606. She claimed that she was walking along the sidewalk when a temporary wall erected by Bridges during construction work at 130-34 S First street, San Jose, blew over in the wind and fell on her. She alleged that she sustained concussion of the brain, a fractured skull and internal injuries.

Thirty-eight pieces of motor driven fire apparatus were sold in the first two months of 1933, according to manufacturers' reports to the Department of Commerce. In the same period 22,590 hand-extinguishing units were shipped, comparing with 36,125 units in the first two months of 1932.

21—BRIDGES

SANTA CLARA COUNTY, Cal.—Until April 26, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct an undergrade crossing under the tracks of the Southern Pacific railroad near Madrone, consisting of two concrete abutments with wing walls, installing drainage system, and pumping equipment, and grading and paving approximately .74 mi. of roadway with Protland cement concrete, involving:

- (1) 430 class #1 trees remove and dispose of;
- (2) 8 class #2 do;
- (3) 31,700 cu. yds. rdwy. excav.;
- (4) 2,693,987 sa. yds. overhaul;
- (5) 1600 cu. yds. struc. excav.;
- (6) 1000 cu. yds. ditch excav.;
- (7) 880 cu. yds. class B Port. cem. concrete;
- (8) 63 cu. yds. class A do (struc.);
- (9) 3210 cu. yds. do (pave.);
- (10) 260 cu. yds. class A Portland cem. conc. (curbs and gutters);
- (11) 126,000 lbs. bar reinf. steel;
- (12) 2080 lbs. cast steel (catchbasin frames and covers);
- (13) 6000 tons cru. run base;
- (14) 600 tons asph. conc. pavement;
- (15) 565 lin. ft. 8-in. perf. metal pipe;
- (16) 2650 lin. ft. 10-in. do;
- (17) 400 lin. ft. 8-in. corru. metal pipe
- (18) 320 lin. ft. 10-in. do;
- (19) 65 lin. ft. 12-in. do;
- (20) 200 lin. ft. 18-in. do;
- (21) 96 lin. ft. 24-in. do;
- (22) 323 lin. ft. 12-in. extra strength reinf. conc. pipe;
- (23) 2 12-in. extra str. reinf. conc. 90° ells;
- (24) 2 30-in. x 6-ft. reinf. conc. basins with lids;
- (25) 240 lin. ft. 8-in. cast iron pipe;
- (26) 2770 lin. ft. 1¼-in. c. i. Irrig. pipe
- (27) 110 lin. ft. 2-in. do;
- (28) 24 irrigation outlets;
- (29) 720 cu. yds. rock filling material;
- (30) 32 lin. ft. hand rail;
- (31) 1 lot pumping equipment complete (2 units);
- (32) 830 cu. yds. old pavement to be removed, crushed and stockpiled;
- (33) 45 sta. finish roadway;
- (34) .161 mi. new property fence;
- (35) 1 16-ft. x 58-in. tubular steel gate
- (36) 2 12-ft. x 58-in. do;
- (37) 20 mounments complete in place;
- (38) 175 sq. yds. waterproofing;
- (39) 1 lot misc. items of work.

State will furnish corrugated metal pipe, perforated metal pips for underdrain.

SEWARD, Alaska—Bids will be called about April 15 and a contract awarded about July 1 for the placing of about 2000 cu. yds. of armor rock on the existing breakwater (580 feet long) at Resurrection Bay, Seward.

C. L. Sturdevant, Lt.-Col., Corps of Engineers, District Engineer, 412 Federal Office Bldg., Seattle, Wash.

SANDPOINT, Ida.—Until April 20, 2 P. M., bids will be received by Bonner county commissioners to construct concrete piers, steel superstructure and timber deck of 102-ft. bascule span under Sec. 3, Sandpoint Bridge, North and South Highway, involving:

- (1) 400 cu. yds. struc. excav.;
- (2) 110 pieces drive foundation piles;
- (3) 20 cu. yds. Class A concrete;
- (4) 484 cu. yds. Class B concrete;
- (5) 150 cu. yds. seal concrete;
- (6) 25,000 lbs. reinf. steel;
- (7) 152,000 lbs. struc. steel;
- (8) 30,000 M. ft. b.m. untreated timber (place and paint only);
- (9) operating equip., lump sum;
- (10) 5 tons scrap iron.

Specifications obtainable from the above on deposit of \$5. Certified check 5% required with bid.

PORTLAND, Ore.—As previously reported, Guy F. Atkinson Co., 658 Russ Bldg., San Francisco, at \$1,686,403.50 submitted low bid to U. S. Engineer Office, Portland, to repair South Jetty at mouth of Columbia River, Oregon and Washington, involving furnishing and placing 1,250,000 tons of stone. Complete bids follow:

Guy F. Atkinson Co., San Francisco, \$1,686,403.40.
 Winston Bros. Co., Minneapolis, \$1,710,810.
 Daniel Kern & Columbia Contract Co., Portland, \$2,211,680.
 Northwest Roads Co., Portland, \$2,448,092.
 Government Estimate, \$2,032,222.

LOS ANGELES, Cal.—R. E. Campbell, Central Bldg., Los Angeles, was awarded contract by board of public works April 3 at \$209,960.01 (without structural steel and ornamental lighting system, and based on the lowest possible combination of alternatives) for the construction of the Sunset Blvd. and Silver Lake Blvd. and the Silver Lake Blvd. and Temple Street Grade Separations, under cash contract. The award was based on Units I, III and VIII, the latter a deduction of \$2000 for combined award.

Consolidated Steel Corp., 6500 East Slauson Ave., Los Angeles, awarded contract on structural steel at \$53,400. This figure was a combination of \$20,323 on Unit No. 2, \$33,458 on Unit No. 4, less a deduction of \$381 for combined award.

W. H. Rumble, 6507 Haas Avenue, awarded contract for the ornamental lighting system (Unit No. 5) at \$28,980.

The total of bids amounts to \$292,340.01.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
 Manager

914 Seventh Street
 Sacramento :: California

24—ST. LIGHT. SYSTEMS

LOS ANGELES, Calif.—Until 10 A. M., April 12, bids will be received by board of public works for the installation of ornamental concrete work and an ornamental lighting system in Whittier Blvd. bet. Boyle Ave. and Inez St. Cash contract for the east approach to the 6th St. Viaduct, involving:

- (1) ornamental conc. work (art. stone)
- (2) electric conduit system;
- (3) ornamental lighting stand., pylons and ornamental lighting units.

Plans prepared by R. W. Stewart, engineer of bridges and structures. The proposed work will consist of two concrete pylons at Boyle Ave., including bronze lighting units with special concrete bases, the lighting conduit, concrete curved hand rail, and nine Marbelite or equal concrete standards of special design.

25—MACHINERY AND EQUIPMENT

LOS ANGELES, Calif.—Southwestern Engr. Corp., 4800 Santa Fe Ave., will install machinery and equipment in a building located at 5501 Slauson Ave. for the General Air Ice Corp., 514 Merritt Bldg. The plant will have a daily capacity of ten tons, which may be increased to 20 or 30 tons if conditions warrant expansion. The improvements will involve the expenditure of approx. \$85,000. General Air Ice Corp. proposes establishing a plant in Oakland; also one in Seattle or Portland.

SAN FRANCISCO.—Following bids received by T. A. Brooks, City Purchasing Agent, under Bid No. 985 to furnish automobiles for Police Dept.:

- (1) 10 4-cylinder sedans, lump sum;
- (2) 10 6-cylinder do;
- (3) 10 8-cylinder do.

Street & Co., (1) \$5998.45.
 Remensperger Bros., (1) \$6045.45 (2) \$6522.15.

Chevrolet Motor Co., (1) \$5687.
 Earle C. Anthony, (2) \$6385.50, Essex.

J. F. Waters Co., (2) \$6400, Plymouth.

J. W. McAllister Co., (2) \$6400, Plymouth.

J. E. French Co., (2) \$6400, Plymouth.

Kresteller Motor Co. (1) \$5752.50 (3) \$6,174.20.

C. H. Waite Motors, (1) \$5869.25 (3) \$6981.80.

Doherty Bros., (1) \$5812.45 (3) \$6,289.15. Combination 4-8 cylinder and 6-4 cylinder, \$5,788.42.

W. G. Campbell, (1) \$5840.45 (3) \$6317.15

Don Gilmore, Inc., (2) \$5910, Chevrolet.

Figures are net, with turn-in value of eleven cars subtracted. Bids held under advisement.

FRESNO, Cal.—Frank E. Beckett, Fresno, at \$1195 to furnish one truck chassis for fire department awarded contract on Dodge truck. Complete bids follow:

Frank E. Beckett, Inc, Fresno..\$1195.00
 White Co., Fresno..... 1565.38
 Robinson-Marshall Motors Co. 1229.00
 Getchell & Roed, Fresno..... 1688.00
 Logan Auto Co., Fresno..... 1790.00
 Mack Inter. Motor Truck..... 1925.00
 Moreland Motor Truck Co..... 2250.00

SAN FRANCISCO—Following bids received by Quartermaster Supply Officer, Fort Mason, to furnish one tractor complete with power driven crane:

J. P. Adams Co., Indianapolis, Ind., \$4592 (International Harvester) f. o. b. Mansfield, Ohio. None telescopic—not considered.

Joshua Hendy Iron Works, San Francisco, \$5950 (Hendy) f. o. b. San Francisco. Alt. \$5700—engine fitted with Thermo Syphon cooling system in place of a pump.

Honolulu Iron Works—\$5850 (Hendy) f. o. b. S. F. Alt. same as above \$5600

Kratz & McClelland, San Francisco \$5812.50 f. o. b. San Francisco (Silent Hoist & Crane). Alt. \$5087.50 f. o. b. Brooklyn, same, f. o. b., San Francisco \$5337.50.

Bids held under advisement.

30—RESERVOIRS & DAMS

LOS ANGELES, Calif.—H. A. Van Norman, Chief Engineer and General Manager of the Bureau of Water Works and Supply, has been authorized by the board of water commissioners to prepare plans for a rock and earth fill abutment to reinforce the Mulholland Dam above Hollywood. The proposed work will involve approximately:

- 300,000 cu. yds. material;
- Concrete spillway.

The present capacity is 8000 ac. ft. but will be used in the future for only 3000 feet. The work is to be done to satisfy the public, although the dam has been declared safe.

LOS ANGELES, Cal.—Plans for proposed dam at mouth of Eaton Canyon, in the Rancho Santa Anita sent to State Engineer for approval. Dam will be a rolled earth fill dam, 37½ ft. above streambed, with a storage capacity of 1040 ac. ft. The fill will involve 325,000 cu. yds. material. The upstream side of the dam will be faced with either Gunite or poured concrete. The estimated cost is \$441,376.

GLENDALE, Los Angeles Co., Cal. P. Diederich, Superintendent of Plant and Production, is preparing plans for two reservoirs to be built in Brand Park for the park department. They will be of the lined cistern type, one 250,000-gal. capacity, the other 100,000 gallons. The excavation will be done by force account from R.F.C. funds. Bids will probably be taken on the Gunite lining which will be 2½ inches to 3 inches thick. One tank will be built on the 1250-ft. level and the other on the 1600-ft. level.

SEATTLE, Wash.—J. D. Ross, general superintendent, City Light and Power Department, proposed to city council that the city start work on the Ruby Dam and clearing of the reservoir site which extends into Canada. The site is located 7 miles north of Diablo Dam. The cost is estimated at \$18,500,000. Under the proposed plan the city would build the dam and issue serial utility bonds in the sum of \$18,500,000, running 30 years, redemption to start in the 11th year. The Reconstruction Finance Corp. will be asked to purchase the bonds and the federal government asked to assume all interest charges as its contribution toward the cost of flood control.

LOS ANGELES, Cal.—Lowest combination of bids received April 4 to construct a portion of the water supply line and three reservoirs for the Metropolitan Water District follows: Long Transportation Co., 5501 Santa Fe Ave., Los Angeles, Schedule No. 1 water line, \$6420, Schedule No. 2, \$17,797.59. Alex. D. Chalmers and Max

Winter, Jr., 2926 Knox Ave., Los Angeles, low on Schedule No. 3 at \$10,264. This bid is low by reason of stipulations as to combinations of bids in other bidders' figures. Clark and Campbell and A. J. Callahan submitted second low combination at \$9670, \$15,535.30 and \$9805 respectively.

Complete unit and total bids will be published shortly.

31—PIPE LINES & WELLS

SEATTLE, Wash.—Board of Public Works will call bids shortly to construct Cedar River pipe lines Nos. 1 and 2. Estimated cost, \$750,000. M. O. Sylliaasen, city engineer.

33—WATER WORKS

TORRANCE, Los Angeles Co., Cal.—F. B. Leonard, city engineer, has completed plans for a water system to be built under the \$400,000 bond issue voted Sept. 25, 1930. The issue has been validated by the California Supreme Court and an application to the Reconstruction Finance Corp. for funds will probably be made within the next few weeks. The city may consider the purchase of some part of the existing system which is owned by the Torrance Water, Light and Power Co. The company originally offered to sell for \$140,000. The proposed system as planned by the city engineer will involve:

Reinforced concrete reservoir, 29x 167 ft., and 20 ft. deep, with wooden roof.

Elevated steel tank of 250,000-gal. capacity with steel tower 150 ft. high. Three 16-in. diameter wells.

Purification and aeration plants. The aeration plant will be 18x30 ft., one-story. The purification plant will be equipped with chlorinating and ammoniating equipment.

Water distributing system involving 35 miles of cast iron pipe and 1500 services, as follows:

- 48,000 ft. 4-in. C. I. pipe;
- 87,000 ft. 6-in. do;
- 30,950 ft. 8-in. do;
- 10,750 ft. 10-in. do;
- 4,200 ft. 12-in. do;
- 900 ft. 14-in. do;
- 650 ft. 16-in. do;

- 120 4-in. gate valves;
- 135 6-in. gate valves;
- 33 8-in. gate valves;
- 5 12-in. gate valves;
- 3 14-in. gate valves;
- 3 16-in. gate valves.

The 1500 services will include ¾- ½- 1- 1½- 2- 3- and up to 6-in.

SAN FRANCISCO.—As previously reported, until April 12, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, secretary, Room 225, City Hall, to construct the Crystal Springs Pumping Station extension, San Francisco Water Department Contract No. 32, involving:

- (1) remove existing structures (lump sum);
- (2) 900 cu. yds. excav., all classes;
- (3) 150 cu. yds. concrete;
- (4) 5,000 lbs. reinf. steel in place;
- (5) 45,000 lbs. furnish and install welded steel pipe and fittings;
- (6) 3000 lbs. furnish and install cast steel fittings;
- (7) 5000 lbs. do semi-steel fittings;
- (8) install pumps, motors, valves & furnish and install misc. equip. (lump sum);
- (9) 130 lin. ft. furnish and install 12-in. cast iron drain pipe;
- (10) 50 lin. ft. 6-in. soil pipe;
- (11) 600 lin. ft. 4-in. do;
- (12) furnish and install septic tank (lump sum);
- (13) 110 lin. ft. furnish and install pipe railing;

(14) electrical work, install equipment, furnished by the City and all other electrical equip. (lump sum);

(15) construct extension to pumping station building stations and alter and repair existing building (lump sum).

Estimated cost, \$27,500. Specifications obtainable from office of the San Francisco Water Department, 425 Mason St., San Francisco.

BELLFLOWER, Los Angeles Co., Calif.—Plans for the replacement of three wood stave tanks, destroyed by the recent earthquake, are being formulated by the Somerset Mutual Water Co. and the Bellflower Water Co., 458 Somerset Ave., Bellflower. The Somerset Company's tanks were of approximately 50,000 gallons each, on elevated towers, one tower being of wood, the other of steel. The Bellflower Company's tank was of wood stave construction. The companies have not determined whether replacements will be of wood stave or steel construction. The replacements proposed will involve construction of some riveted steel pipe and some new cast iron pipe.

E. R. Jones, superintendent of the Somerset Mutual Water Co.

Jack Hammond, superintendent of the Bellflower Water Co.

PALO ALTO, Santa Clara Co., Cal.—Until April 18, 2:30 P. M., bids will be received by Veterans' Administration, Construction Service, Palo Alto, to raze the 100,000-gal. redwood stave water tank and 100-ft. high supporting tower and to re-erect 100,000-gal. redwood stave water tank, including concrete foundations, new roof for tank and connecting pipes, valves and fittings.

Specifications obtainable from above.

OAKLAND, Cal.—All bids rejected by East Bay Municipal Utility District to furnish cast iron pipe for Fairview County Water District. Award of contract was conditional upon acceptance by contractor of \$56,000 bond issue of the district. The low bidder, F. W. Snook of San Francisco, did not conform to this provision, and the one bidder to do so, W. J. Tobin, of Oakland, was second low bidder. New bids may be called in the future, as soon as some plan is worked out by which the award will not be conditional upon the acceptance of bonds in payment for the work.

LOS ANGELES, Calif.—Santa Fe Pipe & Supply Co. awarded contract by Saul Joseph, Purchasing Agent, Metropolitan Water District, room 504 306 W 3rd St., Los Angeles, April 1, at \$1128.96, for furnishing 6400 ft. 4-in. welded steel pipe f.o.b. Los Angeles, under Bid No. 2987.

SAN QUENTIN, Marin Co., Cal.—California Steel Products Co., 452 Bay St., San Francisco, at \$10,477 submitted low bid April 4 to State Department of Public Works, Sacramento, for one water tube boiler at San Quentin. Complete bids follow:
 Calif. Steel Products.....\$10,477
 R. G. Meyler, Los Angeles..... 10,570
 C. C. Moore & Co., S. F..... 11,404
 Dorward Engineering Co., S. F. 13,297
 Consolidated Steel Corp., S. F.... 13,543
 Bids held under advisement.

LOS ANGELES, Calif.—Until 11 A. M., April 12, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish and deliver to Water and Power Department, f. o. b. warehouse at 1630 N Main Street, galvanized rigid steel conduit in 10-ft. lengths, reamed and threaded with galvanized conduit coupling at onend.

Spec. No. 3049. The items are:

- (1) 5000 ft. 3/4-in. conduit;
- (2) 10,000 ft. 1-in. conduit;
- (3) 4000 ft. 1 1/2-in. conduit;
- (4) 3000 ft. 1 1/2-in. conduit;
- (5) 2000 ft. 2-in. conduit;
- (6) 500 ft. 3-in. conduit;
- (7) 1000 ft. 4-in. conduit;
- (8) 50 ft. 6-in. conduit.

29—STREETS AND HIGHWAYS

LOS ANGELES, Cal.—Geo. R. Curtis Paving Co., 2440 E 26th Street, awarded contract by board of public works March 29, at \$9730.59, for improving Ascot Ave. between 55th St. and Slauson Ave. under cash contract.

MONTEBELLO, Los Angeles Co., Cal.—Until April 17, 7:30 P. M., bids will be received by city council for the furnishing of asphaltic concrete material for the resurfacing of about 300,000 sq. ft. of pavement on East 9th St. bet. 4th St. and the west city limits. The surfacing will vary from 1 1/2- to 2-in., involving approx. 3700 tons of premix material (plant mix) delivered f.o.b. job. The laying will be done by city forces. The city wishes bids on a price per ton delivered at the rate of approx. 200 tons per day. J. L. Cole is the city engineer.

SAN GABRIEL, Los Angeles Co., Cal.—County supervisors have authorized the appropriation of \$9646.06 for street improvement in City of San Gabriel, as follows:

Roses Road (55-ft. roadway) San Marino Ave. to Alhambra Road, 3200 ft. of 30-ft. pavement; 96,000 sq. ft. 1-in. Topeka or 1-in. pre-mix pavement.

Manley Drive (50-ft. roadway) Hale Ave. to Hovey Ave., 133 ft. of 34-ft. pave.; 4526 sq. ft. macadam.

Del Mar Ave. (80-ft. roadway) between Longden Ave. and end of the pavement; 150 ft. of 30-ft. pavement; 4500 sq. ft. of 6-in. pavement.

Santa Anita St. (60-ft. roadway), between Las Tunas Drive and Mission Drive; 1900 ft. of 30-ft. pavement; 38,000 sq. ft. 6-in. rock and oil pavement; 19,000 sq. ft. 4-in. pavement (shoulders). 29

ARIZONA STATE.—The call for bids for Federal Aid Project No. E-40, Schedules 1 and 2, Holbrook-Winslow Highway, previously advertised to be opened by State Highway Commission April 5, has been withdrawn by the department. The state highway engineer, T. S. O'Connell, has announced that this action is due to word received from the U. S. Government advising the state that it would not concur in the award of any new federal aid or emergency contracts until further notice.

SAN FRANCISCO.—Chigris & Sutso, 2211 18th St., at \$795 submitted low bid to Constructing Quartermaster, Fort Mason, for clearing and grubbing land at the San Francisco National Cemetery, Presidio. Following bids received:

Chigris & Sutso	\$ 795
J. P. Lawlor	1,200
P. L. Burr	2,730
James Currie	3,300
Severin Electric Co.	4,389
Fay Improvement Co.	5,555
E. Anderson	5,637
C. J. Haglund	5,840
A. G. Raisch	6,400
William Spivock	6,470
F. M. McGaw	10,000

Bids held under advisement.

LOS ANGELES, Cal.—Geo. R. Curtis Paving Co., 2440 E 26th Street, awarded contract by board of public works March 29 at \$8261.13 for im-

proving 67th St. between Main Street and Broadway, under cash contract.

SAN FRANCISCO.—Fay Imp. Co., Phelan Building, at \$20,275.95 awarded contract by Dept. of Public Works to widen Turk St. from St. Joseph's to Masonic Ave.
Complete bids published March 30.

SAN FRANCISCO.—Until April 12, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, secretary, to improve Laidley, Fairmount to Miguel, including crossing Fairmount and Laidley, involving:

- (1) 1400 cu. yds. excavation;
- (2) 220 cu. yds. Class B concrete;
- (3) 16,200 lbs. bar reinf. steel;
- (4) 565 ft. reinf. concrete fence;
- (5) 407 ft. 12-in. V.C.P. sewer;
- (6) 310 ft. 8-in. do;
- (7) 122 ft. 6-in. V.C.P. side sewer;
- (8) 10 12x6-in. Y branches;
- (9) 10 8x6-in. do;
- (10) 8 brick manholes;
- (11) 2 brick catchbasins;
- (12) 1 do, reset;
- (13) 26 ft. 10-in. V.C.P. culverts;
- (14) 2 red reflectors.

Specifications obtainable from the office of John J. Casey, city engineer, 3rd floor, City Hall. Estimated cost \$8,500.

HUMBOLDT COUNTY, Cal.—Smith Bros. Co., 1636 B St., Eureka, at \$3252.80 awarded contract by State Highway Commission to furnish and stockpile screenings in Humboldt County near Mad River Bridge about 1.4 ml. west of Essex.

MENDOCINO COUNTY, Cal.—Until April 17, 2 P. M., bids will be received by John H. Skeggs, District Engineer, State Highway Commission, 211 State Bldg., San Francisco, to treat with asphaltic road oil as a dust palliative 19.7 miles between McDonald and Boonville, involving 1750 bbls. Specifications obtainable from above office. Certified check 10% required with bid.

LOS ANGELES, Cal.—Southern California Roads Co., 2145 E 25th Street, was awarded contract by the board of public works, April 3 at \$24,500.29 for improving Woodlawn Ave. bet. 37th St. and Vernon Ave., under cash contract.

LOS ANGELES, Calif.—Proceedings for improving Orange Avenue from Briggs Ave. to Rosemont Ave., near Montrose, under County Improvement No. 944, were abandoned by county supervisors April 3.

LOS ANGELES, Calif.—City council has requested the county board of supervisors to appropriate \$275,000 additional for the improvement of Wilshire Blvd. bet. Figueroa St. and Park View St. Originally the board appropriated \$200,000 toward the cost of the improvement between Figueroa and Alvarado Sts. This is a total of \$475,000 or \$25,000 less than required under the proposed bridge plan. The additional appropriation as tentatively offered by the supervisors was \$300,000.

SAN DIEGO AND IMPERIAL CO., Cal.—Until April 26, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat with fuel oil 15.6 mi., between Tecate Divide and Boulder Park, involving 5250 bbls. heavy fuel oil applied to earth shoulders.

BEAUMONT, Riverside Co., Calif.—H. W. McKinley, 1525 Baxter St., Los Angeles, awarded the sub-contract by Wenzel & Henoch Const. Co., general contractor for the San Jacinto tunnel at \$5850 for grading approx. 4 miles of 20-ft. service or access road to the

Potrero shaft of the San Jacinto tunnel, involving about 19,500 cu. yds. of excavation. The 4-in. disintegrated granite surfacing will be placed at an additional price of 32c. cu. yd.

TUCUMNE and Mariposa Counties, Cal.—Until April 21, 2 P. M., bids will be received by R. E. Pierce, District Engineer, State Highway Commission, Room 502 State Office Bldg., Sacramento, to treat with fuel oil and asphaltic road oil as a dust palliative 26 miles existing roadbed between Priest Hotel and Yosemite National Park. Specifications obtainable from above. Certified check 10% required with bid.

SAN FRANCISCO.—Lowrie Paving Co., 1540 16th St., San Francisco, at \$457.75 submitted low bid April 5 to Department of Public Works to improve north half of Army St., Castro to 75 ft. east, involving:

- (1) 75 ft. armored concrete curb;
- (2) 450 sq. ft. 1-course conc. sidewalk;
- (3) 20 ft. 6-in. V.C.P. side sewer;
- (4) 1,500 sq. ft. asph. conc. pavement.

Complete bids follow:

(A) Lowrie Paving Co.	\$457.75
(B) M. J. Lynch	531.25

Unit bids follow:

	(1)	(2)	(3)	(4)
(A)	\$.65	\$.12	\$1.25	\$.22
(B)	1.25	.15	1.25	.22

Bids held under advisement.

SAN FRANCISCO.—Lowrie Paving Co., 1540 16th St., San Francisco, at \$1915.96 submitted lone bid April 5 to Department of Public Works to improve crossing of Fitzgerald and Jennings; also Jennings, Fitzgerald to Gilman, involving:

- 195 ft. armored concrete curb, \$.60;
 - 660 sq. ft. 1-course conc. sidewalk, \$.12
 - 4 brick catchbasins, \$60;
 - 90 ft. 10-in. V.C.P. culverts, \$.75;
 - 32 ft. 12-in. V.C.P. sewer, \$.80;
 - 68 ft. 6-in. V.C.P. side sewer, \$.60;
 - 6,113 sq. ft. asph. conc. pave., \$.22.
- Eid held under advisement.

LOS ANGELES, Cal.—Western Pipe & Steel Co. awarded contract by Saul Joseph, Purchasing Agent, Metropolitan Water District, March 31, at \$2720 f.o.b. cars or trucks, Los Angeles, for all items under Bid No. 9009, for furnishing tanks. The other bids were: Consolidated Steel Corp., \$7315.15; American Pipe & Steel Co., \$8375.
California Columbian Steel Tank Co., Ltd., \$8261.84.

SAN FRANCISCO.—Until April 26, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, secretary, to construct sidewalks on Sixth Ave., Judah to Kirkham Sts., et al., estimated cost, \$2500. Quantities will be published in an early issue.

MONTEREY, Monterey Co., Calif.—Granite Const. Co., Bin No. 9, Watsonville, at \$4394.14 submitted low bid (alternate bid) to Quartermaster, Presidio of Monterey, to construct asphaltic concrete roadways and concrete curbs at the Presidio, involving:

- (1) 63,000 sq. ft. topping;
- (2) curb;
- (3) headers.

Complete bids follow:

(A) Granite Const. Co. (alt.)	\$4394.14.
(B) Sidney Ruthven, Seaside (hot mix)	\$5266.80.
(C) P. L. Burr, San Francisco (alt.)	\$6082.02.

Unit bids follow:

	(A)	(B)	(C)
(1)	\$.055	\$.07	\$.0735
(2)	.29	.30	.42
(3)	.34	.30	.42

Bids held under advisement.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

BARTLETT CREEK BRIDGE — LAKE COUNTY

LAKE COUNTY, Calif.—Thomas J. Doyle, 1527 17th Ave., San Francisco, at \$2537 submitted low bid and recommended for award by U. S. Bureau of Public Roads, San Francisco, to construct Bartlett Creek Bridge on Section B of Route 8, Upper Lake-Bartlett National Forest Highway, involving:

- (1) 65 cu. yds. unclass. excav., struc.;
- (2) 9 M. ft. b.m. untreated timber;
- (3) 29 cu. yds. concrete;
- (4) 950 lbs. reinf. steel;

- (5) 24,000 lbs. struc. steel;
 - (6) 80 sq. yds. bit. wearing surf.;
 - (7) remove and dispose of existing bridge.
- Complete bids follow:
- (A) Thos. J. Doyle, San Francisco, \$2537.00.
 - (B) H. Snead, Berkeley, \$2609.50.
 - (C) T. B. Goodwin, San Francisco, \$2-816.50.
 - (D) E. T. Lesure, Oakland, \$2889.40.
 - (E) Chas. Kuppinger, Lakeport, \$2-946.32.

- (F) Harry Thorson, St. Helena, \$2-970.25.
- (G) J. B. Peterson, Oakland, \$2987.10.
- (H) A. F. Anderson, Sacramento, \$3-124.75.
- (I) Whited & Whited, Santa Rosa, \$3133.
- (J) J. L. Webster, Lodi, \$3361.50.
- (K) Smith Bros. Co., Eureka, \$3,898.85.
- (L) Associated Constructors, Inc., L. A., \$7254.00.
- (M) Engineer's Estimate, \$3077.50.

VALVERDE AND BERNASCONI TUNNELS Metropolitan Water District

The lowest combination of bids follows:

Full Size Tunnel

Hamilton & Gleason Co., \$412,055; Schedule No. 1.

Dravo Contracting Co., \$1,584,614; Schedule No. 3.

Dravo Contracting Co., \$1,701,989; Schedule No. 5.

Half Size Tunnel

Hamilton & Gleason Co., \$354,037; Schedule No. 2.

Dravo Contracting Co., \$1,369,974; Schedule No. 4.

Dravo Contracting Co., \$1,491,206; Schedule No. 6.

Dravo Contracting Co. offered a deduction of \$150,000 in the event Sched-

ules 3 and 5 were awarded together. Figuring in this deduction, the total cost of the tunnels will be as follows: Full size tunnel.....\$3,548,638 Half size tunnel..... 3,215,077

Stipulations as to awards on combinations were as follows:

Dravo Contracting Co.—Deduct \$250,000 for combined award on Schedules 1, 3, and 5; deduct \$150,000 for award of only Schedules 3 and 5.

Walsh Construction Co.—Bld based on doing all work on Schedules 1, 3 and 5 or 2, 4 and 6.

Silas Mason Co.—Bid conditional upon award of entire work.

Hanrahan, Connolly & Pollock—Valverde will be accepted alone by Ber-

nasconi only if Valverde and Bernasconi are awarded together. Bernasconi will not be accepted alone. Bid based upon performing these two contracts one after the other within the time limit.

The addresses of the bidders are:

(A) Hamilton & Gleason Co., 1124 Pacific St., Redlands, Calif.

(B) Dravo Contracting Co., Dravo Bldg., Pittsburgh, Pa.

(C) W. F. Hanrahan, T. E. Connolly, San Francisco, and Geo. Pollock, Sacramento.

(D) Walsh Const. Co., Davenport, Iowa; Los Angeles address 904 Chester Williams Bldg.

(E) J. F. Shea Co., Inc., Boulder City, Nevada.

(F) Silas Mason Co., New York City Los Angeles address 561 Spring Arcade Bldg.

(G) Hunkin Conkey Const. Co., East 12th and Walnut Sts., Cleveland, O.

(H) R. S. Morrow and Shirley Construction Co., 701 Omaha National Bank Bldg., Omaha, Neb.

Project involves:

SCHEDULE NO. 1

Construction of the Bernasconi Tunnel with a diameter of 15 ft. 3 in., together with appurtenant works,

- (1) tunnel access, lump sum;
- (2) 61,600 cu. yds. excav. in tunnel;
- (3) 50 cu. yds. excav. for tunnel enlargement;
- (4) 16,600 cu. yds. concrete in tunnel;
- (5) 250 M. ft. B. M. furnish and place permanent timber in tunnel;
- (6) 15 tons erect steel support in tunnel;
- (7) 10 cu. yds. Gunite coating of rock in tunnel;
- (8) 25 connections for grouting;
- (9) 65 cu. yds. mix and place grout;
- (10) 25,000 lbs. place reinforcing steel;
- (11) 100 tons miles hauling steel;
- (12) 14,000 ton miles hauling cement;
- (13) does not apply here.

SCHEDULE NO. 2

Construction of the Bernasconi Tunnel with a diameter of 11 ft. 9 in., together with appurtenant works,

- (1) tunnel access, lump sum;
- (2) 40,000 cu. yds. excav. in tunnel;
- (3) 25 cu. yds. excav. for tunnel enlargement;
- (4) 12,800 cu. yds. concrete in tunnel;
- (5) 148 M. ft. E.M. furnish and place permanent timber in tunnel;

SCHEDULE NO. 4

Construction of the east portion of Valverde Tunnel, Station 11,695 plus 00 to Station 11,870 plus 00, with a diameter of 11 ft. 9 in., together with appurtenant works.

- (1) tunnel access, lump sum;
- (2) 117,000 cu. yds. excav. in tunnel;
- (3) 75 cu. yds. excav. for tunnel enlargement;
- (4) 37,400 cu. yds. concrete in tunnel;
- (5) 330 M. ft. B.M. furnish and place permanent timber in tunnel;
- (6) 210 tons erect steel support in tunnel;
- (7) 75 cu. yds. Gunite coating of rock in tunnel;
- (8) 50 connections for grouting;
- (9) 110 cu. yds. mix and place grout;
- (10) 60,000 lbs. place reinf. steel;
- (11) 295 ton miles hauling steel;
- (12) 12,000 ton miles hauling cement;
- (13) 175,000 million foot gallons pumping water (at 12½c per million foot gallons, \$21,875).

SCHEDULE NO. 5

Construction of the west portion of Valverde Tunnel, Station 11,870 plus 00 Station 12,066 plus 50, with a diameter of 15 ft. 3 in. with appurtenant works.

- (1) tunnel access, lump sum;
- (2) 197,000 cu. yds. excav. in tunnel;
- (3) 100 cu. yds. excav. for tunnel enlargement;
- (4) 52,900 cu. yds. concrete in tunnel;
- (5) 170 M. ft. B.M. furnish and place permanent timber in tunnel;

- (6) 85 tons erect steel support in tunnel;
- (7) 40 cu. yds. Gunite coating of rock in tunnel;
- (8) 80 connections for grouting;
- (9) 220 cu. yds. mix and place grout;
- (10) 75,000 lbs. placing reinf. steel;
- (11) 660 ton miles hauling steel;
- (12) 74,000 ton miles haul cement;
- (13) 175,000 million foot gallons pumping water (at 12½c per million foot gallons, \$21,875).

SCHEDULE NO. 3

Construction of the west portion of Valverde Tunnel, Station 11,870 plus 00 Station 12,066 plus 50, with a diameter of 11 ft. 9 in. with appurtenant works.

- (1) tunnel access, lump sum;
- (2) 128,000 cu. yds. excav. in tunnel;
- (3) 75 cu. yds. excav. for tunnel enlargement;
- (4) 41,750 cu. yds. concrete in tunnel;
- (5) 110 M. ft. B.M. furnish and place permanent timber in tunnel;
- (6) 70 tons erect steel support in tunnel;
- (7) 25 cu. yds. Gunite coating of rock in tunnel;
- (8) 60 connections for grouting;
- (9) 140 cu. yds. mix and place grout;
- (10) 60,000 lbs. place reinf. steel;
- (11) 540 ton miles hauling steel;
- (12) 59,000 ton miles haul cement;
- (13) 175,000 million foot gallons pumping water (at 12½c per million foot gallons, \$21,875).

\$8,000,000 R. F. C. LOAN APPROVED TO REBUILD SLUM

Heavy Engineering Awards Gaining Momentum After Bank Holiday Decline

The eight million dollar slum clearance development for New York's lower East side, which entered the contract stage by definite approval of a loan by the Reconstruction Finance Corp., boosted the total of heavy engineering construction awards for the week ended April 3 to \$17,256,000, as compared with \$11,994,000 for the previous week and an average of \$11,743,000 for the past four weeks, according to figures compiled by Engineering News-Record.

Bids and contracts postponed by the bank holiday are just beginning to materialize, though the effect of those postponements on contract totals will be felt for some weeks. Public works awards are being held up until the administration decides on a definite program tied in with unemployment relief. Highway lettings are also being deferred until the exact status of federal highway aid can be determined.

Contracts let to date this year total \$231,095,000, as compared with \$295,079,000 for the same period last year.

Construction and alterations of breweries is the brightest spot in the private building field. Last week seventeen brewery jobs aggregating \$9,000,000 were announced as awarded or definitely planned. Seven other brewery prospects were announced. The largest of the brewery projects is one for New York, estimated at \$3,500,000, bids for which are called for in June.

Cities in which breweries are being built or planned include New York, Hills Grove, R. I., Baltimore, Sacramento, Cleveland (two), San Diego, Calgary, Walla Walla, Salinas, Calif., Logansport, New Bedford, Bridgeport, Los Angeles, St. Louis, Milan, Ohio, Zanesville, Boston, Tucson, Louisville, Rochester, Lowell, Providence, Brooklyn and Lowell.

THE WEEK'S NEWS Highlights

S. F. JAIL BIDS: Anderson & Ringrose, San Francisco, submitted the low bid at \$568,400 on construction of the San Francisco county jail at Sneath ranch. Bids exceeded estimates, but Director of Public Works Worden expects to proceed with award by eliminating equipment alternates on which specifications may be changed. (Complete bid tabulation, Page 23).

R. F. C. MONEY: Approval of an \$8,000,000 loan to a limited dividend corporation for the purpose of rebuilding New York slum area marks the first grant of public money in this field. Other states are adopting enabling acts to permit the charter of similar corporations, including California, where A. B. 374 has gone to the Senate after being adopted by the Assembly.

SCHOOL SUPERVISION: All public school buildings in the state of California will be under jurisdiction of the State Division of Architecture by terms of a bill passed by the Legislature and signed by Governor Rolph. Plans for new building or alterations involving more than \$1000 expenditure must be submitted to the state architect, who will approve and supervise construction by field inspection. The act was inspired by structural defects revealed in many Southern California schools during the earthquake last month.

BOND SALE LEGAL: Sale of Golden Gate Bridge District bonds at a price to yield more than 5% interest has been validated by the California State Supreme Court in a test suit brought by bridge district officials. Directors expect the decision will clear the way for marketing the securities, as funds are needed to meet construction payments.

\$5,243,070 COAST BUILDING TOTAL FOR LAST MONTH

Increased Private Building Indicated In March Permit Figures

Building permit totals for the Pacific coast were announced yesterday for the month of March as \$5,243,070, according to the compilation by S. W. Straus & Co., from reports of municipal building inspectors.

The first five cities for the month in order are:

Long Beach	\$1,101,435
Los Angeles	958,441
Torrance	565,365
San Francisco	548,231
San Jose	283,270

A substantial gain in activity over the month of February is indicated in the totals, with increases in almost every section reporting. Reconstruction in the area affected by the Southern California earthquake accounts for a portion of the California increase, with full reports not available from some of the smaller cities where damage was heavy, including Compton. Complete reports from the Southern California cities have been delayed due to disorganization of municipal offices resulting from the quake.

March totals are notable for their comparatively high ratio of private building, compared with previous months. Federal building awards were virtually suspended during the month whereas in recent months this has been an important item in the total permits. The totals for the months of November, December and January also were weighted heavily by contracts awarded for the Golden Gate bridge.

Excepting these three months the March total is higher than for any month since May, 1932.

BERKELEY PERMITS GAIN

Building permits issued in Berkeley for the past week total \$17,264, according to Building Inspector Stanley Koch, representing a considerable increase over the weekly average for March.

HOME OWNERS GET FIRST \$16,000,000 FROM U. S. BANKS

Thirty-four percent Used in Remodeling, Loan Associations Report

Approximately \$16,000,000 of Federal Home Bank funds have been disbursed to home owners in 23 states during the last 3 months, building and loan associations reported to the United States Building and Loan League.

This is the first summary available of the reloaning operations carried on by these member institutions of the Federal Home Loan Banks—the operations by which the money reaches the home-owners. Figures given out by the federal board from time to time, cover in the nature of the case, the advances made to member institutions by the system. The league announcement today shows where the money goes from there.

Ward B. Whitlock, president of the league, points out that this figure does not cover the entire total of such reloaning operations, since all of the associations which have obtained Home Loan Bank funds have not yet reported on their distribution of the money, but he emphasizes that the figures reported do give a valuable picture of the progress being made in extending home-owner credit.

The new mortgage credit was extended to the home-owners for the following purposes, according to information from reporting associations:

For remodeling and repairs, \$5,416,000; 34 percent.

For loans to pay taxes on homes, \$3,635,000; 22.8 per cent.

For refinancing of mortgages where the home-owner was being pressed for payment and for the making of new mortgages where the home-owner could find no other source of mortgage money, \$6,875,000; 43.1 per cent.

Total, \$15,926,000.

BROWN ELECTED HEAD OF FRESNO EXCHANGE

John M. Brown, brick contractor, was elected president of the Fresno Builders' Exchange at the annual meeting of directors.

Brown succeeds the late A. M. Goedel, plumbing contractor, who died recently. Robert E. Jolly, general contractor, was named vice-president, succeeding E. O. Thompson. M. W. Hancock was elected treasurer and Harry Cayford was re-elected secretary.

S. F. FIRM LOW ON PLACER ROAD JOB

SACRAMENTO, April 12.— Peninsula Paving Company, San Francisco, submitted the low bid to the State Highway Commission for surfacing 11.5 miles of road between Gold Run and Airport, Placer county. The bid was \$132,831.

Fredrickson and Watson and Jones and King, Oakland, were second low at \$135,337; A. Teichert & Son, Sacramento, third at \$139,393.

Nine bids were received.

BILL TO ABOLISH COUNTY SURVEYOR

Proposal Would Centralize Road Control Under Engineer

The Bliss-Powers bill to centralize county road work under a county engineer, known as Assembly Bill 1133, has passed the Assembly by a vote of 60 to 10. It now goes to the Senate.

The bill as adopted, abolishes the elective office of county surveyor and joins his duties with those of the county engineer who under the terms of the measure will be appointed by the county board of supervisors and must be registered in this state as a civil engineer.

The effect of the change will be to centralize all county road work and relieve the supervisors of their present duties as ex officio road commissioners. The supervisors acting as a board will retain general direction of road work thru the county engineer acting as the chief executive of the department.

Flexible provisions are included in the bill to permit the small counties to appoint the same person as county engineer or to have the work of his office done on a per diem basis instead of on salary. Another provision permits the supervisors to employ the technical aid of a county engineer in inspecting upon completion other engineering work done for the county.

The County Engineer Act will become effective upon adoption by the people of Senate Constitutional Amendment 16, which vests in boards of supervisors the power to regulate compensation of county officers. This latter bill has been recommended for passage by the Senate committee.

\$9,000,000 R. F. C. LOAN TO REBUILD L. A. INSTITUTIONS

State Authorities Wire Senators to Proclaim Funds For South

A loan of between \$9,000,000 and \$14,000,000, to be used to rebuild schools destroyed by the recent Southern California earthquake, has been requested of the Reconstruction Finance Corporation by Vierling Kersey, state superintendent of public instruction.

Kersey made the request in a telegram sent to Senator Hiram W. Johnson, Senator William G. McAdoo and Southern California members of the house of representatives.

The money, if advanced to the state by the federal corporation, would be used to reconstruct the ruined schools. The new buildings would be rented to the various school districts by the state and the income thus received would be used to pay off the R. F. C. loan. Kersey did not ask for any specific amount, but it was unofficially indicated between \$9,000,000 and \$14,000,000 would be needed.

"Earthquake in Southern California deprived the people in large portions of Los Angeles and Orange counties of public school housing facilities," Kersey wired Senator Johnson. "Areas affected are without funds or credit which can be used to replace or restore facilities."

Kersey arrived at the decision to appeal to California's congressional delegation for aid in obtaining a loan, after he was requested to take such action by the Los Angeles Chamber of Commerce, Lieutenant Governor Frank F. Merriam, State Senators J. W. McKinley and Nelson T. Edwards and Assemblymen Edward Craig, Sam H. Greene, Ira S. Hatch, Cecil R. King, Harry B. Riley, Walter H. Sullivan and Jas. B. Utt.

RENOVIZE SALT LAKE CAMPAIGN IS STARTED

A "Renovize Salt Lake City" campaign is in full swing, reports the weekly bulletin of the Inter-mountain Branch Associated General Contractors.

A downtown display has been prepared where every modern convenience for the home is shown. The chamber of commerce is to provide a hundred solicitors who will start a city-wide canvass shortly. Meanwhile speakers are appearing on programs at every gathering to describe the benefits of the campaign.

2 1-2 BILLION FOR PUBLIC WORKS IS ESTIMATED NEED

Construction League President Says Federal Government Must Aid Municipalities

Nothing but an inspired attack on all fronts on a large scale public works construction program, allocated with regard to the major unemployment centers, will touch the core of the nation's troubles and break the depression, Robert D. Kohn, of New York, chairman of the Construction League of the United States and of the National Committee for Trade Recovery, declared in a statement following his presentation of the league's national construction program at the labor conference held in Washington, D. C., under the auspices of Secretary of Labor Frances Perkins.

"As in war-time we stir up our people to back up an attack on the enemy," Kohn said, "so we must now make an attack on unemployment in which every state and community is called upon to do its share by starting those needed local improvements best able to furnish the maximum employment to the workers. It must be an inspired move, led by the President, and where the locality cannot borrow the necessary money to pay the workers the Federal Government must lend on the local securities, at two per cent or no interest at all, so long as the work is of the right kind and is done promptly."

Kohn expressed the opinion that the President's forestry camp project is all right for a limited number and kind of workers, but that some program must be adopted to put at least two million men back to work within the next six months, and that the job must be started within the next few weeks, if it is to have any effect on next winter's "looming horror."

Kohn, who is a past president of the American Institute of Architects, has presented to the conference a detailed list, prepared by the National Committee for Trade Recovery, of more than two and

one-half billion dollars worth of planned public improvements which have been delayed or abandoned because of the depression, and which he claims constitute only a small part of the deferred public works throughout the country. The list comprises more than 2700 projects of water works, low cost housing and slum clearance, roads, bridges, sanitation, grade crossing separations, schools and hospitals, which the Trade Recovery Committee believes should go forward immediately.

What would have worked last year as a program of self-liquidating public works, if the plan of the Wagner Bill had been courageously administered instead of sabotaged, will not work now, Kohn stated, as it is too late. The committees are frightened and against any added bonded indebtedness and will have to be marshalled to save themselves from larger doles by following Federal leadership as they did in war-time for a construction program—not for "pork barrel extravagances," but for the kind of improvements which will make for better living in the communities, he declared.

"We are maintaining that this process should be started now even if it uses up some of the accumulated wealth which should have long since been put to work to that end," Kohn said. "If we are to avoid a real smash with a misery next to which that of recent years will only seem like a holiday, we must stop waiting for our luck to turn."

SUE TO RECOVER FOR EQUIPMENT RENTAL

Suit to recover \$3,332 which it is claimed is due for equipment rental has been filed in the Sacramento county superior court against C. & M. Trucking Company, Force Construction Company and American Bonding Company.

Plaintiffs are B. J. Hughes, \$1,268; Otis D. Babcock, \$851; Lyle F. Cowan, \$865. They declare they have not been paid for the use of construction equipment used on the Sacramento-McConnell highway contract completed last year.

WEEK'S LUMBER OUTPUT DROPS AT WEST MILLS

Volume of New Business Continues to Reduce Cost Inventories

A total of 252 down and operating mills which reported to the West Coast Lumbermen's Association for the week ending April 1 produced 62,441,593 board feet of lumber. This was a decrease of 2,972,272 feet or 4.5 percent under their cut in the preceding week. The average week's production of this group of sawmills in 1933 has been 56,264,165 feet; during the same period of 1932, their weekly average was 65,409,175.

New business reported last week by 178 mills was 73,139,958 board feet against a production of 55,783,712 feet and shipments of 71,988,387 feet. Their shipments were over their production by 29.0 percent and their current sales were over production by 31.1 percent. The orders booked last week by this group of identical mills were less than their orders of the preceding week by 13,902,282 board feet, or 16 percent.

Details of orders and shipments as reported by these 178 mills are:

	Orders	Shipments
Rail	26,333,511	22,987,481
Domestic	26,540,597	27,862,065
Export	14,320,472	15,193,463
Local	5,945,378	5,945,378

73,139,958 71,988,387

The unfilled order file at these mills stood at 258,593,127 board ft., an increase of 434,550 feet from the week before.

The aggregate inventories of 130 mills are 16.6 percent less than at this time last year.

BUILDING MATERIALS PRICE INDEX GAINS

Further gain in the price of building materials is shown in the report of the Bureau of Labor Statistics for the week ending April 1. The building materials index stood at 70.4, the highest point in recent months and a gain from 70.2 the previous week. The index is based on prices of 1926 as 100.0.

COMMISSION WILL AID IN PLANNING CAPITAL BUILDING

Architects Committee Formed To Correlate Federal Projects

Formation of a central committee by eleven national civic and professional organizations to shape the development of Washington as the most beautiful of the world's capitals is announced by the committee on the national capital of the American Institute of Architects, of which Horace W. Peaslee is chairman.

"Among the general problems with which the committee has to deal," said the announcement, "one of the most important relates to the reorganization of the Federal departments; another concerns the production of Federal buildings by bureaucratic agencies instead of by outstanding designers of the country—a problem deeply affecting architects, landscape architects, sculptors and painters."

The allied organizations have agreed upon a definite program for the completion of major projects. They urge upon Congress the adoption of legislative measures to authorize the employment of capable and experienced specialists, particularly in departmental reorganization.

They propose that in the public buildings of the Capital the collaboration of the ablest architects, sculptors and mural painters be definitely provided for under proper authorization and with adequate appropriation.

The employment of landscape architects of outstanding reputation is urged in connection with the proper setting of public buildings, the design of parks, and the development of street plantings. Another aim is the collaboration of leading engineering authorities in problems involving engineering, public utilities and construction.

These measures, it is held, are necessary in order that, in design, execution and maintenance, such work in the National Capital may not only equal the highest type of similar work in other cities and in private practice but may set standards for the country at large. The committee also asks that the supervisory and co-ordinating authority of the National Capital Park and Planning Commission be clearly defined and established.

The basic principles governing the movement are stated as follows:

"The national capital should express in its physical planning and development the highest ideals and accomplishments of American art; such ideals can be realized only with the collaboration of the ablest professional advisers in the various arts; the amenities and utilities should be given proper emphasis in full harmony with esthetics; the pride of the American people in their federal city warrants ample appropriations for its adequate development and maintenance."

L. A. WATER DISTRICT ASKS TUNNEL BIDS

LOS ANGELES, April 11.—Bids will be received by the Metropolitan Water District on May 22 for construction of approximately 8 miles of tunnels of the Colorado River Aqueduct. The bids called are for alternate proposals on full capacity and half capacity bores under seven different contracts.

The tunnels are designated as East Eagle Mountain 1.79 miles; West Eagle Mountain, east portion, 2.97 miles, west portion, 2.01 miles; Hayfield No. 1, east portion, .91 mile, west portion, .91 mile; Hayfield No. 2, 1.02 miles; Mecca Pass Nos. 1, 2 and 3.

ASSEMBLY OKEHS HOUSING BILL

Measure Would Enable California Corporations To Borrow for Building

Organization of limited dividend housing corporations for the purpose of rebuilding slums and congested city areas is permitted in Assembly Bill 374 which has been passed by the lower house and sent to the senate.

Administration of the act is placed under the immigration and housing commission. Securities may be issued by such corporations bearing interest not to exceed six per cent per annum. The measure was introduced by Assemblymen Lucius Powers and M. S. Meeker of Fresno county and George Bliss of Santa Barbara county.

Powers declared the bill would pave the way for many reconstruction projects in the state. Under the proposal such corporations would be enabled to borrow funds from the R. F. C.

STATE ARCHITECT TO SUPERVISE SCHOOLS

School construction in the state of California hereafter is to be supervised by the Division of Architecture, according to the terms of a statute which became effective yesterday immediately after it was signed by Governor Rolph.

The bill gives the state architect jurisdiction over plans and construction of all school buildings and alterations involving more than \$1000 expenditure. Cost of the supervision is paid by the school district.

Investigation of any school structure by the state architect also may be demanded by petition of 10 percent of the parents in a district or may be initiated by the school trustees.

Assemblyman C. Don Field, Glendale, introduced the measure, following the Southern California earthquake.

WASTE MATERIAL USED TO MAKE BUILDING STONE

University Chemists Claim Synthetic Product Superior to Natural

Chemical engineers of Purdue University have invented a new synthetic building stone, according to the American Chemical Society. It is a composition of dust and chips that form the waste material of limestone, granite, marble and slate quarries.

Press dispatches from Washington where the discovery was announced, describe the new stone. It is several times stronger than standard building brick. It goes nature one better on color, since any shade desired by the manufacturer's fancy can be impregnated permanently.

It can be molded into many of the sculptured forms now requiring the chisel.

In making the stone, machines duplicate in a few hours the work of millions of years in nature's stonebuilding processes.

Pressing machines replace the vast weight of earth required in natural stone. Stone cookers supply the heat which real rocks sometimes get from volcanic and earth crustal movements.

The synthetic secret is the "binder" which brings together the chips and dust of real rock. This binder is lime, plus a little water, plus alumino-silicic salts which already exist in the natural rocks.

In the steam heating the lime as such disappears completely, converted into a new product which welds the stone particles together again.

X-ray pictures showing this welding change were exhibited to the meeting by Prof. R. Norris Shreve.

Slabs are molded four feet long, two feet wide and two inches thick. Bolds can be molded into the slabs. Like natural stone, the synthetic material takes a high polish.

FORM COMPANY FOR MODERNIZING WORK

Building Modernizing Association has been formed in San Francisco with offices at 111 Sutter St. for the purpose of contracting for the rehabilitation of all classes of buildings.

E. M. Connolly is president of the company. Wm. H. Knowles and Wayne S. Hertzka are associated with him. Connolly was for many years a partner in the Macondray company, exporters. Knowles and Hertzka are graduates of Massachusetts Institute of Technology in architecture.

The company will undertake to coordinate all phases of remodeling and modernizing properties of all types, including financing and leasing. Reconstruction work will be figured by a restricted list of sub-contractors.

Real Estate Surveys Reveal National Housing Shortage Due to Long Decline in Construction

With a spurt in inquiries for real estate reported since the bank holiday, a re-examination is going on in many quarters as to the elements which affect real estate supply and demand, reports the National Association of Real Estate Boards.

The degree to which existing residence properties have been absorbed is indicated by recent house to house surveys made in a number of cities under the auspices of real estate boards. The association summarizes the finding of such detailed surveys recently made by the real estate boards of St. Louis and Kansas City, Mo.; San Diego, Calif.; Camden County, N. J.; Muncie, Ind.; Ann Arbor, Mich.; Des Moines, Ia., and Westchester County, N. Y.

The count of vacancies in the St. Louis and Kansas City surveys was made by the post office force of the respective cities. The Camden County survey was made by the Camden police department.

Of existing structures, single family residences, without exception, showed the greatest degree of occupancy. Some surveys measure the extent of emergency "doubling" of families in units intended for single family residence. Undoubling would mean increase in housing demand. Postponement of marriages because of depression condition is a social factor not measured in the present surveys but nevertheless affecting the accumulated demand for housing, the National Association comments.

New Houses Fewest in History

The surveys throw some interesting sidelights on the dearth of any construction for the past three years, an important element of the present situation in respect to dammed up demand. (The United States Bureau of Labor Statistics announces that during February, 1933, a total of 1,742 family dwelling units were provided in new building.)

Structures so far out of repair as to be untenable were put under count in a number of surveys.

St. Louis in its survey candidly admits: "We have eliminated 'units under construction' this year as there were too few to be of any importance." The Kansas City survey, which did not tabulate new construction, found 620 of the city's existing housing units untenable. More than half these were single family houses. Des Moines found 166 homes untenable. The city reports 20 new houses, complete and as yet never occupied, as against 39 the previous year. It had 29 new homes under construction as against 71 the previous year. Ann Arbor listed one dwelling under the head of new houses, complete but never occupied, and six under construction.

The same city listed 51 structures once large houses now "worked over" into multiple apartment buildings. Apartment buildings found under construction to-

taled two, would provide for 12 families.

San Diego reports 235 single family houses erected in 1932, less than half the number erected in 1931. The Bronxville chapter of the Westchester County, N. Y., board reports of its survey: "The most startling fact revealed is that we have only 35 new houses which are unoccupied and which are offered for sale for the spring market. Never in the history of this territory has there been such a limited number available in this classification." Mamaroneck, Westchester County, has 11 houses new and not yet occupied.

Vacancy Small in Residences

Single family residences in Greater St. Louis are 95.4 percent occupied. A total of 8,762 families were reported doubled up with other families, and in addition 18,899 families were reported as living in 4,548 boarding or lodging houses. This last is to a considerable extent really a "doubling" due to the depression, as is indicated by the fact that the 1930 census found only 459 rooming or lodging houses in St. Louis, these housing 8,409 individuals (not families).

Kansas City, Mo., reports single family residences are 92.63 percent occupied. A total of 5,385 families were found "doubled" with other families. This is an increase of 6 percent over the number found in a like count a year ago. Even

more striking is the fact that 7.2 percent of all the occupied single-family houses in the city are now housing an extra family.

San Diego found 95.85 percent of its single family residences occupied. Families living as "excess" families number 1,157.

Within Westchester County, New York, survey made by local chapters of the Westchester County Real Estate Board show occupancy of single family dwellings as follows: Bronxville, 95½ percent (in the village proper, 97½ percent), Mamaroneck, 94½ percent; Scarsdale, 95.6 percent.

Camden County, New Jersey, had an occupancy of 93.27 percent in houses, including both those habitable and those uninhabitable, an increase of 1.55 per cent from that found six months earlier. Of the vacant houses more than 28 percent were found uninhabitable. Counting out the houses unfit for living purposes, the occupancy was found to be 95½ percent.

Muncie, Indiana, reports for residential units a total occupancy of 91 percent.

Ann Arbor, Michigan, found 98 percent of its existing single family dwellings occupied. For all types of housing units in the city the occupancy was 96 percent.

Des Moines, Iowa, has a 96.45 percent occupancy for single family residences, this divided as follows: two-story houses, occupancy 96.3 percent; bungalows occupancy 96.62 percent. Occupancy for housing units of all kinds, including apartments, single family houses and temporary houses, was found to be 94.63 per cent.

 - (4) 700 lbs. ⅝-in. dia.
- Delivery July 1 f.o.b. above, or f.o. b. carrier at or near contractor's work.)

LOS ANGELES, Calif.—Soule Steel Co. awarded contract by A. J. Holm, City Purchasing Agent, at \$1368, for furnishing and delivering f.o.b. Water and Power Department's Bouquet Canyon reservoir site, 20 miles north-east of Saugus, 1700 bars ¾-in. round by 45 ft. long deformed reinforcing steel under Bid No. 4666.

PORTLAND, Ore.—Steel Tank & Pipe Co., 518 Columbia Blvd., Portland, at \$25,724 submitted low bid to U. S. Engineer Office, Portland, to drydock, clean and paint and repair U. S. Dredge, Col. P. S. Michle. Complete bids follow: Steel Tank & Pipe Co., Portland, \$25,724.
Commercial Iron Works, Portland, \$28,614.
Albina Engine & Machine Works, Portland, \$35,744.

Government Estimate, \$35,575.
Steel Tank & Pipe Co. submitted alternate to deduct \$500 for planking to withstand 10 lbs. sq. in., etc. Bids held under advisement.

BOULDER CANYON, Nevada—Engineers Supply Corp., Chicago, at \$3400 awarded contract by U. S. Bureau of Reclamation under Bid No. A-3176-A for pier plate ties and hinge and seat anchors; Pittsburgh-Des Moines Steel Co., at \$3952 for hinge anchor bases.

HELENA, Mont.—Home Oil & Refining Co., Great Falls, Mont., at \$55,000 awarded contract by State Highway Department to furnish 1,183,000 gals. of 50, 63 and 72 asphalt base, all three grades at the same price.

SAN FRANCISCO—R. A. Hansen, 272 E. First St., Livermore, at \$10,380 awarded contract (one bid submitted) under Bid No. 979 by City Purchasing Agent to furnish stove oil, fuel oil and burning equipment for Hetch Hetchy project.

LOS ANGELES, Calif.—Until 11 A. M., April 19, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish Water and Power Dept. with lead covered, paper insulated, soft drain copper cable under Spec. No. 3047, delivery to be made in one of the following manners:

- F.o.b. trucks, 257 E 3rd St., Los Angeles.
- F.o.b. cars, Davies Extension Spur, 257 E 3rd St., Los Angeles.
- F.o.b. bidder's shipping point with full freight allowed to 257 E 3rd St., Los Angeles.
- The items are:
- (1) 12600 ft., 500,000 C.M., 5000-volt, 3-conductor cable;
- (2) 12,600 ft., do;
- (3) 12,600 ft., do;
- (4) 12,600 ft., do;
- (5) 5,000 ft. No. 2/0 AWG, 5000-volt, 3-conductor cable;
- (6) 6,000 ft. No. 6 AWG, 5000-volt, 3-conductor cable;
- (7) 3,000 ft. 1,000,000 C.M., 600-volt, 1-conductor cable;
- (8) 3,750 ft. 500,000 C.M., 600-volt, 1-conductor cable;
- (9) 15,000 ft. No. 4/0 AWG, 600-volt, 1-conductor cable;
- (10) 10,000 ft. No. 1/0 AWG, 600-volt, 1-conductor cable.

For number of reels per item, reel numbers, length per reel, etc., see specifications on file at office of Purchasing Agent.

DENVER, Colo.—U. S. Bureau of Reclamation will ask bids shortly to furnish 700,000 barrels of cement for the Hoover Dam.

23,200 cu. yds. overhaul x 100;
1,440 cu. yds. special borrow in place;
5,700 cu. yds. surfacing;
32.7 cu. yds. Class A concrete;
46.5 cu. yds. Class B concrete;
7,730 lbs. reinf. steel bars;
72 lin. ft. 12-in. concrete pipe;
15 lin. ft. 12-in. corr. iron pipe;
495 lin. ft. 12-in. do, Class 2;
57 lin. ft. 18-in. do, Class 3;
36 lin. ft. 24-in. do, Class 3;
9 lin. ft. 18-in. concrete pipe.

Queen City Const. Co. second low at \$19,500; Redmon & Turner, Yakima, third low.

SAN FRANCISCO—Public Utilities Commission, Felton Taylor, Secretary, awards emergency contract to Guerlin Bros., 2940 San Jose Ave., at \$38 per cu. yd. for 6200 cu. yds. rock material to repair connection, Crystal Springs Road to Polhemus, San Andres Road.

LASSEN COUNTY, Cal.—Until May 3, 2 P. M., bids will be received by State Highway Commission, Sacramento, to surface with bituminous treated crushed gravel or stone (road mix method) two miles between Susanville and Johnstonville, involving:

- (1) 2490 cu. yds. crusher run base;
- (2) 2925 cu. yds. crushed gravel or stone (bit. treated surface);
- (3) 200 M. gals. water;
- (4) 115 bbls. heavy fuel oil;
- (5) 187 tons cut-back asph. (bit. tr. surf.);
- (6) 105 sta. mix cut-back asphalt and crushed gravel or stone;
- (7) 104 sta. finish roadway.

This project was originally adver-

30—RESERVOIRS & DAMS

GRAND COULEE, Wash.—The U. S. Bureau of Reclamation has prepared preliminary plans for a dam to be constructed in the Columbia River Basin to be known as the Grand Coulee Dam for the development of power and irrigation of 1,200,000 acres. The Washington legislature has appointed a commission to secure the necessary federal appropriations. The cost of the project is estimated at \$394,155,000, segregated as follows:

Grand Coulee Dam—\$125,750,000. The proposed dam will be 450 ft. high, 4,140 ft. long, involving 11,266,000 cu. yds. concrete.

Reservoir—150 miles in length, extending to the Canadian border.

Power Plant—\$60,000,000 to develop 2,000,000-h.p.

Irrigation—\$200,000,000 has been estimated as the cost of irrigating 1,200,000 acres.

GLENDALE, Los Angeles Co., Cal.—All bids for materials for the Chevy Chase Reservoir, opened by city council March 30, rejected April 6. The materials will be purchased in the open market. P. Diederich, Supt. of Plant and Production.

SANTA CRUZ, Cal.—City Council authorizes City Commissioner Alvin Weymouth to have plans prepared by City Engineer Roy Fowler to erect a roof over the Bay Street storage reservoir.

LOS ANGELES, Cal.—All bids for constructing three 300,000-gal. reservoirs for Sections 1 and 2, water sup-

ply line of the Colorado River Aqueduct, opened April 4, were rejected by the board of directors April 7.

The board ordered the Schedule re-advertised, bids to be received at a date to be announced later.

31—PIPE LINES & WELLS

LOS ANGELES, Cal.—Lang Transportation Co., 5501 Santa Fe Avenue, awarded contract by the Metropolitan Water District April 7 at \$24,217.59 for constructing a water supply pipe line along the line of the Colorado River Aqueduct, Sections 1 and 2, Colorado River to Iron Mountain. The total of the contract, \$24,217.59 was divided as follows:

Schedule 1, excavating and backfilling, \$6420.

Schedule 2, hauling and stringing pipe, lowering pipe and testing, \$17,797.59.

SEATTLE, Wash.—Until April 27, 10 A. M., bids will be received by the Board of Public Works, G. W. Roberge, Secretary, to furnish materials for and construct a pipe line .78-in. internal diameter, to replace the existing Cedar River Pipe Lines Nos. 1 and 2, from a point on the Cedar River Pipe Line right-of-way at approximately Sta. 221 to Sta. 428 plus 55, and from a connection with the pipes at the concrete spillway discharging into Lake Youngs, 6400 ft., to the intake of the Lake Youngs tunnel. Certified check 5% payable to City Comptroller, required with bid. Specifications obtainable from above office, or from City Engineer, 4th floor, County-City Bldg., on deposit of \$20, returnable. Estimated cost, \$750,000. City Engineer, M. O. Syllaasen.

WHITTIER, Los Angeles Co., Cal.—Saunders Bros., 112½ S. Pickering Ave., Whittier, awarded contract by city council April 10, at \$2062, for drilling, casing, developing and testing one 24-in. water well, approximately 250 ft. deep. Bids were also submitted on a per ft. basis for additional depth.

32—SEWERS & SEWAGE DISPOSAL PLANTS

EL CERRITO, Contra Costa Co., Calif.—City council decides to construct storm sewer on Fairmont Ave. by day labor. Project was originally planned as work in conjunction with the East Bay Municipal Utility District, who will share in the cost, estimated at \$6000. H. D. Chapman, city engineer.

LOS ANGELES, Cal.—E. C. Eaton, County Flood Control Engineer, 202 N. Broadway, is completing plans for a storm drain to be constructed in 8th St., north of San Fernando, known as the 8th St. conduit, as a flood control project. The first unit, which will extend from Pacoima Wash to Harding St., will be 2377 ft. in length, 8x12 ft., with cover. The construction will be of reinforced concrete. Estimated cost, \$32,351.60. Work will start about May 1.

MONTEREY PARK, Los Angeles Co., Cal.—C. H. Ellison, city engineer, 426 S. Spring St., Los Angeles, authorized by council to construct a trunk line sewer in Garvey Avenue east from New Ave. to Walnut Grove Ave., south along Walnut Grove Ave. to Rush Ave., east on Rush Ave. to Muscatel Ave., thence south to Lot 37, Tr. 701, the site of the proposed treating plant. The work will involve 15,000 ft. of pipe as follows:

11,500 ft. of 15-in.-in. pipe;
3,500 ft. of 12-in. pipe.
Bids will be taken on both vitrified clay pipe and concrete pipe.

LOS ANGELES, Cal.—Plans for the sewers to be built in the Nagle Ave. and Valley Vista Blvd. Imp. District, under the 1911 Act have been completed and work on preparing the 1931 Act report started by the office of the city engineer. The proposed work will involve:

14,689.77 ft. 8-in. pipe, inc. 433 8x6-in. wyes;

8,208 ft. 6-in. house connections, inc. 262 6-in. ½-in. bends;

(Alternate bids will be taken on concrete and vitrified pipe).

38 manholes "B";

12 junction chambers "F";

2 junction chambers "G";

1 junction chamber "H";

1 drop manhole "S";

4 flushing structures No. 2;

6 do No. 1;

6 lampholes "X";

7 junction chambers to be remodeled to drop manholes;

21 ft. type Z concrete reinf. for 8-in. pipe.

Average depth of structures, 8 ft.

LOS ANGELES, Cal.—Ordinance of intention for the construction of sewers in Acama St. bet. Lankershim Blvd. and 900 ft. west, under 1911 Act, has been forwarded by the city engineer to the city council for early action. The quantities are:

(1) sanitary sewer, involving:

\$62.64 ft. 8-in. cem. pipe, inc. 35 8x

6-in. wyes;

2 manholes "B";

1 flushing structure No. 1;

3 manhole frame and cover sets;

(2) 652 ft. house connections, including 25 ½-in. bends;

(3) 2825 sq. ft. Class A resurfacing;

(4) 12 sq. ft. Class D resurfacing.

Engineer's estimate, \$1910.59.

GLENDALE, Los Angeles Co., Cal.—All bids for sewer pipe and other materials for the South Street Storm Drain and the Sparr Blvd. Storm Drain, opened March 30, rejected by city council April 6. J. C. Albers, city engineer, authorized to purchase the materials in the open market.

LOS ANGELES, Cal.—Plans for the construction of sewers in Colfax Ave. bet. Magnolia Blvd. and the north outfall sewer, to provide an outlet for the North Hollywood High School sewer, have been completed by J. J. Jessup, Los Angeles City Engineer. The board of education has agreed to pay one-third of the cost provided its share does not exceed \$5000. The city has appropriated \$10,000 toward the work and an agreement is being worked out in the office of the city attorney. The work will involve:

207 ft. 6-in. house connection sewer, inc. 39 6-in. ½ bends;

23 ft. 8-in. extra strength pipe;

324.94 ft. 12-in. stand. strength pipe, inc. 11 12x6-in. wyes;

1838.75 ft. 12-in. extra strength pipe, inc. 74 12x6-in. wyes;

4163.98 ft. 15-in. extra strength pipe, inc. 130 15x6-in. wyes;

220.27 ft. 15-in. stand. strength pipe, inc. 14 15x6-in. wyes;

8 manholes "B";

7 junction chambers "F";

2 drop manholes "S";

1 junction chamber "G";

1 trap manhole;

3 struc. to be remodeled;

38 ft. tunnel for 15-in. pipe.

Average depth of structures, 12.3 ft.

Alternative bids will be taken on concrete and vitrified pipe.

GLENDALE, Los Angeles Co., Cal.—All bids for materials for the Sparr Blvd. and South St. Storm Drain and for the Chevy Chase Reservoir, opened by city council March 30, rejected April 6. The materials will be purchased in the open market. J. C. Albers, city engineer, and P. Diedrich, Supt. of Water Department.

32—SEWERS & SEWAGE DISPOSAL PLANTS

CAPITOLA, Santa Cruz Co., Cal.—Specifications are being prepared by county engineer's office and bids will be called about May 21 to construct outfall sewer system. Estimated cost \$21,500; about \$13,000 worth of bonds have already been sold.

LOS ANGELES, Calif.—Until 10 A. M., April 19, bids will be received by board of public works to furnish reinforced concrete pipe, centrifugal concrete pipe, pipe-laying equipment and skilled foreman, in connection with the improvement of the first alley west of Main St., bet. 108th St. and 111th Place, and portions of other streets, under cash contract, involving:

- (1) 420 ft. 72-in. double med. reinf. conc. pipe;
- (2) 2316 ft. 66-in. do;

LOS ANGELES, Calif.—Until 10 A. M., May 3, bids will be received by board of public works to construct Fish Harbor Intercepting Sewer in the right-of-way westerly from Ways St. bet. the alley south from Terminal Way, and in a portion of Terminal Way. Cash contract, involving:

1742.73 ft. 21-in. stand. strength vit. clay pipe sewer (excl. of curves).
21.47 ft. 21-in. do, including curves.

Resurfacing and concrete reinforcement as shown on plans.

- (3) 69 ft. 42-in. centrif. concrete pipe (angle pipe 60 ft. radius) 1150-D
- (4) 45 ft. 36-in. centrif. conc. pipe, 1200-D;
- (5) 42 ft. 33-in. do;
- (6) 11 ft. reinf. conc. manhole shaft, inc. two reducers;

Alternative:

- (7) 420 ft. 72-in. centrif. conc. pipe, 1050-D;
- (8) 2316 ft. 66-in. do.

33—WATER WORKS

UPLAND, San Bernardino Co., Cal.—Byron - Jackson Co., Los Angeles, has been awarded a contract by the Canyon Ridge Water Corp. for furnishing a specially built pump for the company's new well at 21st St. and Mountain Ave. Installation will start at once.

BELMONT, San Mateo Co., Cal.—Belmont County Water District seeks loan of \$45,000 from Reconstruction Finance Corp. to finance improvements to water system involving two reservoirs and an 8-in. pipe line.

LIVERMORE, Alameda Co., Calif.—West Coast Const. Co., 100 Potrero Ave., San Francisco, at \$7,376 awarded contract by Superintendent of Construction, Veterans' Administration Hospital, Palo Alto, to construct a pipe line, etc., on the water system at the Veterans' Administration Hospital, Livermore. Work includes the construction of one 8-in. Class 150 cast iron pipe line, provision of automatic control for existing pump, corrugated iron housing around pump, etc.

SAN QUENTIN, Marin Co., Cal.—California Steel Products Co., 452 Bay St., San Francisco, at \$10,477 awarded contract by State Department of Public Works for one water tube boiler at the penitentiary at San Quentin.

LOS ANGELES, Cal.—R. W. Stewart, Chief Bridge Engineer, Room 657 City Hall, is preparing plans for the new Figueroa St. tunnel No. 4. The proposed tunnel will be approx. 755 ft. in length, 46 ft. 6-in. wide, with a 40-ft. roadway and a 5-ft. walk and 1½-in. wheel guard, and will be driven through the ridge of hills bet. Bishops Road and Solano St., the latter street being the present south portal of the recently completed series of three tunnels connecting Dayton Ave. with Solano St. and thence to North Broadway. The distance between the completed tunnel measured from the Solano St. entrance and the north entrance to the proposed tunnel will be approx. 800 ft. Extension and widening of Figueroa St. bet. College Ave. and the south entrance to the proposed tunnel is under way. The tunnel work is estimated to cost \$500,000, all of which will be paid in cash.

UPLAND, San Bernardino Co., Cal.—Until 7:30 P. M., May 4, bids will be received by R. G. Manley, City Service Manager, for furnishing water pipe for pipe line replacement and construction. Bids are wanted as follows:

- 1200 ft. 8-in. steel pipe, ⅝-in. wall thickness;
- Or as an alternative:
- 1200 ft. 10-in. steel pipe, ⅝-in. wall thickness.

Certified check or bond, 10%.

LOS ANGELES, Calif.—Until 11 A. M., April 25, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish and deliver to Water and Power Dept. copper service connection tubing in 60-ft. coils, f.o.b. 410 Ducommun St., under Spec. No. 3052, as follows:

- (1) 1800 ft. (619.20 lbs.) ½-in. tubing;
- (2) 48,000 ft. (30,768 lbs.) ¾-in. tubing
- (3) 24,000 ft. (20,136 lbs.) 1-in. tubing.

Deliveries shall be made in the following manner one-sixth of the footage specified under each item shall be delivered on or about July 2, 1933, and deliveries for like amounts shall be made on first working day of each successive month thereafter for a period of five months after first delivery has been made.

WHITTIER, Los Angeles Co., Cal.—Until 7:30 P. M., May 8, bids will be received by City Council for furnishing 10,000 ft. copper pipe in assorted lengths. The pipe will be principally ¾-in. diameter but will also include sizes up to 2 inches. M. R. Bowen, City Engineer and Water Superintendent. Mrs. Debble E. Allen, City Clerk.

LOS ANGELES, Cal.—Great Western Electro Chemical Co. awarded contract by A. J. Holm, City Purchasing Agent, April 11, at \$18,000 (total estimate), for furnishing Water and Power Department with ferric chloride for 12-month period beginning April 15, 1933, under Specifications No. 3029. The bids were opened March 29.

35—TUNNELS

PASADENA, Cal.—Until 11 A. M., April 25, bids will be received by the city clerk for constructing conduit lines in the San Gabriel Canyon, 4 miles from Azusa, for the Pine Canyon Dam. The work will consist of driving an adit and two short tunnels, trimming exterior of tunnels and appurtenant work. The total length of adit and tunnels is 1955 ft. Section of tunnel is about 6 ft. 6 in. by 7 ft. 5 in. A small amount of timbering and concrete lining may also be included. The quantities follow:

- (1) 500 cu. yds. open cut excav. of loose material at tunnel No. 4;

- (2) 100 cu. yds. open cut excav. of rock at tunnel No. 4;
- (3) 1970 cu. yds. excav. tunnel No. 4, Sta. 26 plus 00;
- (4) 50 cu. yds. open cut excav. of loose material for adit portal;
- (5) 50 cu. yds. open cut rock excav. for adit portal;
- (6) 170 cu. yds. excav. for adit at Sta. 00:00;
- (7) 100 cu. yds. trimming and enlargement of spillway adit and adit portal;
- (8) 20 cu. yds. enlarging existing tunnel at Sta. 7 plus 07 and 12 plus 97;
- (9) 1200 cu. yds. open cut excav. of loose material at upstream portal tunnel No. 5;
- (10) 250 cu. yds. open cut excav. of loose material at downstream portal tunnel No. 5;
- (11) 125 cu. yds. open cut excavation rock at downstream portal tunnel No. 5;
- (12) 970 cu. yds. excav. tunnel No. 5;
- (13) 25 MEM timber in tunnels and adit;
- (14) 150 cu. yds. concrete lining in tunnel or adit;
- (15) 150 cu. yds. enlarge tunnels outside of neat lines;
- (16) extra payment for workmen's compensation, faithful performance bond and labor and material bond are required by city to be obtained of Pasadena agents.

OAKLAND, Cal.—Plans and specifications for proposed Broadway Tunnel between Contra Costa and Alameda Counties, approved by Earl Lee Kelly, Director of State Dept. of Public Works. Wallace B. Boggs, Joint Highway District Engineer. Estimated cost, \$3,752,035. 55

LOS ANGELES, Calif.—Dravo Contracting Co., Pittsburgh, Pa., represented by E. T. Gatt, vice-president, Biltmore Hotel, awarded contract by the Metropolitan Water District April 7 at \$3,136,603 for constructing the east and west portions of the Valverde Tunnel, located near the towns of Lakeview and Perris, Riverside County, under Schedules 3 and 5 for full capacity tunnels, 15.3 ft. in dia. The east portion is 3.8 miles long and the west portion 3.9 miles.

LOS ANGELES, Calif.—Hamilton & Gleason Co., Tramway Bldg., Denver, Colo., represented by Chas. Berry, 1124 Pacific St., Redlands (temporarily at the Lankershim Hotel) awarded contract by the Metropolitan Water District April 7 at \$412,055 for constructing the Bernasconi Tunnel, 1.1 miles in length, 15.3 ft. dia, full capacity, Schedule No. 1. The bids were opened April 3.

CONTRA COSTA COUNTY, Cal.—Pacific Truck Service, Inc., 646 Park Ave., San Jose, at \$3475 submitted low bid to District Engineer, State Highway Commission, San Francisco, to apply 2500 bbls. fuel to 19 mi. existing roadbed in Mount Diablo Park between Danville and the Summit and between the Forks and Walnut Creek, as a dust palliative. Complete bids follow:

- Pacific Truck Service, Inc., San Jose, \$1.39 bbl. \$3475.
 - Basalt Rock Co., Napa, \$1.40; \$3500.
 - C. F. Fredericksen, Lower Lake, \$1.40; \$3500.
 - Lee J. Immel, Berkeley, \$1.475; \$3687.
 - Oilfields Truck Co., Bakersfield, \$1.54; \$3850.
 - U. B. Lee, San Leandro, \$1.58; \$3950.
 - Highway Builders, Inc., San Anselmo, \$1.69; \$4225.
 - A. Telchert & Son, Sacramento, \$1.72; \$4300.
 - A. Mitchell, Sacramento, \$1.74; \$4350.
- Bids held under advisement.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

SAN FRANCISCO COUNTY JAIL

SAN FRANCISCO. — Anderson and Ringrose, 320 Market St., at \$568,988 submitted low bid to Department of Public Works for the construction of a seven-story men's jail building and two-story women's jail building of Class B reinforced concrete construction, tar and gravel roof, concrete floors, mastic finish in cell block, steel cells, steel sash, steam heating system, ventilating system, laundry, kitchen, etc. It will be erected at Sneath Ranch, San Mateo County, for the City and County of San Francisco from plans prepared by Architects Albert F. Roller, Crocker First National Bank Building and Dodge Riedy Pacific Building. Following bids received:

- (1) work complete;
- (1-a) changing windows;
- (2-a) omit elevator equipment for elevator No. 2;
- (3-a) if mechanical unlocking and dead locking device be furnished
- (4-a) if greenhouse is omitted;
- (5-a) hospital ward walls tiled to a height of 7 ft. 6-in.;
- (6-a) if interior rooms are metal in place of wood;
- (7-a) recreation yard paved with 3-in. waterbound macadam;
- (8-a) all concrete sidewalks of asphalt concrete;
- (9-a) ¼-inch plate walls of utility chambers changes to 3/16-in.;
- (10-a) washing machine in kitchen;
- (11-a) use Schlage hardware in lieu of that specified.
- Unit A—excavation and backfill from natural grade to 4 ft. below:
 - (a-1) hand;
 - (a-2) shovel;
 - (a-3) deduct for hand;
 - (a-4) deduct for shovel.
- Unit B—excavation and backfill from natural grade to 8 ft. below:
 - (b-1) hand;
 - (b-2) shovel;
 - (b-3) deduct for hand;
 - (b-4) deduct for shovel;
- Unit C—excavation and backfill from natural grade to 12 ft. below:
 - (c-1) add;
 - (c-2) deduct.
- Unit D—excavation and backfill from natural grade to 16 ft. below:
 - (d-1) add;
 - (d-2) deduct;
 - (e) Class A concrete, add;
 - (e-1) Class A concrete, deduct;
 - (f) Class B concrete, add;
 - (f-1) Class B concrete, deduct;
 - (g) Class C concrete, add;
 - (g-1) Class C concrete, deduct;
 - (h) reinforcing steel, per lb., add;
 - (h-1) do, deduct;
 - (i) 12 ft. wire fence, per lln ft., add;
 - (i-1) do, deduct;
 - (j) Mastic flooring, per sq. ft., add;
 - (j-1) do, deduct;
 - (k) do, equal to Duraflex "A", add;
 - (k-1) do, deduct;
 - (l) Mastic base, per lln. ft., add;
 - (l-1) do deduct;
 - (m) 4-in. glazed terra cotta walls, per sq. ft., add;
 - (m-1) do, deduct;
 - (n) 2-in. do, add;
 - (n-1) do, deduct;
 - (o) setting 4-in. terra cotta walls, per sq. ft., add;
 - (o-1) do, deduct;
 - (p) setting 2-in. do, add;
 - (p-1) do, deduct.

BIT. TREATED SURFACE, 11.5 MILES—PLACER CO.

PLACER COUNTY, Cal.—Peninsula Paving Co., Standard Oil Bldg., San Francisco, at \$132,831 submitted low bid April 12 to State Highway Commission to surface with bituminous treated crushed gravel or stone 11.5 miles between Gold Run and Airport, involving:

- (1) 100 cu. yds. struc. excavation;
- (2) 9,000 cu. yds. selected material;
- (3) 38,000 tons crusher run base;
- (4) 23,000 tons crushed gravel or stone (bit. treated surf.);
- (5) 11,000 tons untreated crushed gravel or stone surf. (shoulders);
- (6) 2,500 gals. water;
- (7) 900 barrels light fuel oil (prime coat);
- (8) 1,200 tons cut-back asphalt;
- (9) 40 cu. yds. rubble masonry, walls;
- (10) 78 lin. ft. do, parapet;
- (11) 10,000 lin. ft. laminated timber guard rail;
- (12) 1034 timber guide posts;

- (13) 294 culvert markers;
- (14) 607 sta. finish roadway;

Complete bids follow:

(A) Peninsula Paving Co., San Francisco, \$132,831.

(B) Fredrickson & Watson and Jones & King, Oakland, \$135,337.

(C) A. Teichert & Son, Sacramento, \$139,393.

IMPROVE LAIDLLEY ST.—SAN FRANCISCO

SAN FRANCISCO—E. J. Treacy, 309 Call Bldg., San Francisco, at \$6,994.50 submitted low bid April 12 to Department of Public Works to improve Laidley, Fairmount to Miguel Sts., including crossing Fairmount and Laidley, involving:

- (1) 1400 cu. yds. excavation;
- (2) 220 cu. yds. Class B concrete;
- (3) 16,200 lbs. bar reinf. steel;
- (4) 565 ft. reinf. concrete fence;
- (5) 407 ft. 12-in. V.C.P. sewer;
- (6) 310 ft. 8-in. do;
- (7) 122 ft. 6-in. V.C.P. side sewer;
- (8) 10 12x6-in. Y branches;

- (9) 10 8x6-in. do;
- (10) 8 brick manholes;
- (11) 2 brick catchbasins;
- (12) 1 do, reset;
- (13) 26 ft. 10-in. V.C.P. culverts;
- (14) 2 red reflectors.

LOS ANGELES, Cal.—Bids for furnishing engineering department with concrete pipe under Spec. No. 3056, f.o.b. along trench in Santa Barbara Ave. bet. Sutro Ave. and Crenshaw Blvd. for improvements in connection with Santa Barbara Ave. and Crenshaw Blvd. Imp. Dist., were opened by A. J. Holm, City Purchasing Agent, April 6. The items are as follows:

- (1) 3500 ft. 24-in. conc. pipe, 1250-D;
- (2) 210 ft. 30-in. do;
- (3) 75 ft. 48-in. do, 1150-D;
- (4) 120 ft. 21-in. concrete pipe, standard strength;
- (5) 138 ft. 18-in. do;
- (6) 300 ft. 12-in. do;
- (7) 20 24-in. reinf. concrete manhole rings;
- (8) 90 ft. 15-in. concrete pipe, standard strength.

The bidders were:

(A) American Concrete & Steel Pipe Co., \$3436, 5%, 30 days.

(B) United Concrete Pipe Corp.—not including manhole pipe—\$8019.22, 2%, 30 days.

Finish Tough Jobs On Time

Any sort of equipment *may* serve when the going's easy, but it's on the tough jobs that Le Tourneau equipment is making its hundreds of new friends every month — the jobs that couldn't be done by other methods, the jobs that contractors couldn't finish on time by other means.

Le Tourneau Equipment has saved many a penalty, turned many a losing job into a profit-maker. Read the letter; see what it did for Fredrickson & Watson. It can do as much or more for you.

SUPREME COURT VALIDATES BAY BRIDGE BONDS

**\$62,000,000 Financing Held
Not a General State
Obligation**

The California State Supreme Court yesterday validated the revenue bond issue under which the San Francisco-Oakland bay bridge will be constructed.

In a peremptory writ of mandate issued by the court, Earl Lee Kelly, state director of public works, was ordered to sign and deliver bonds of the California Toll Bridge Authority for the bay bridge.

The decision validated the enabling act passed by the Legislature to meet the terms of the \$62,000,000 loan from the Reconstruction Finance Corporation.

The sweeping ruling upholding the constitutionality of the bridge project was handed down by the Supreme Court as the result of a friendly test suit brought by the California Toll Bridge Authority against Mr. Kelly to give the R. F. C. final court assurance on the legality of the bonds.

The court threw out the contention of Mr. Kelly's counsel that the bridge bonds would be a general obligation on the state to an unconstitutional amount.

"We cannot except this view," the decision said. "The bridge bonds are not a general obligation on the state in any sense.

"The legislation prevents the holders of the bonds from recourse against the state in the event of default. The principal and interest are to be met by tolls and other revenues."

Declaring the Legislature's action in voting \$6,660,000 from gasoline tax funds for bridge approaches is legal, the Supreme Court said:

"What the state may do in assisting an enterprise which will result in the construction of an important link in its primary highway system is a separate transaction."

THE WEEK'S NEWS Highlights

BOHEMIAN AWARD. Dinwiddie Construction Co., San Francisco, received the award for construction of the new Bohemian Club building at \$574,000. Five bids from a selected list of contractors were considered by Architect Lewis P. Hobart.

SAN FRANCISCO JAIL. Award of the general contract for construction of the San Francisco county jail on the Sneath Ranch site to the low bidders, Anderson & Ringrose, according to Director of Public Works William H. Worden. The contract will be let less alternates sufficient to bring the price below the estimated \$490,000. It is probable that the cell locking equipment will be among the alternates omitted, and this item readvertised for bids early in May. Bids on Mechanical and Electrical work have been called for May 3.

STATE LEGISLATURE. Hearing on the proposed repeal of the state prevailing wage law, which had been set for last Wednesday morning, has been continued to April 26 by the Senate committee on governmental efficiency. Other legislation of importance to contractors and materialmen is still in committee with the exception of amendments to the Contractors' License Law, including reduction of the annual fee to \$5 and lowering the limit of exemption to \$100, which has passed the Assembly.

COLORADO AQUEDUCT. Los Angeles Metropolitan Water District is increasing its construction awards rapidly. The district called for bids to be received June 12 on four more tunnels in the San Bernardino mountains. Bids on others are to be received May 22, while the Iron Mountain, Coxcomb and Cottonwood projects were opened on April 17. (See Unit Bid Review.)

WAGE HEARING IS CONTINUED FOR ONE WEEK

**Other Legislation on Calendar
at Sacramento of Interest
to Industry**

SACRAMENTO, April 19.—Hearing on repeal of the state prevailing wage law was continued today by the Senate committee on governmental efficiency to next Wednesday. At that time the senators also will consider an amendment to the bill to exempt from its provisions any construction work now in progress, a change which has been requested by industry spokesmen to avoid confusion in completing public contracts.

Strong demands to abolish the law are expected from contractors when the hearing is held. Evidence will be offered from the report of the Senate fact-finding committee that the law has operated to the disadvantage of the state in its road construction program and elsewhere.

Other bills affecting contractors are in various stages of progress through the legislature with the probability that some of them, at least, will be enacted before the present session either recesses or adjourns early next month.

The Assembly committee on governmental efficiency has reported favorably A. B. 537 which provides that all general contractors bidding on state work in excess of \$5000 shall provide a list of names and addresses of sub-contractors and material men whose figures have entered into their estimate and to whom awards will be made in the event their bid is accepted.

Amendments offered by Senator Bert Snyder, Santa Cruz County, to A. B. No. 1009, by Assemblyman Patrick McMurray, San Francisco, to limit hours of labor on public work, have been adopted by the senate.

One would provide a limitation of thirty hours of labor per week on all public work, striking out the six-hour day limitation passed by the assembly.

The other would exempt manufacturing plants and shops turning out materials for use on public work from the provisions of the thirty-hour week law.

ARMY PRESCRIBES U. S. MATERIALS IN ALL CONTRACTS

New Bid Forms Specify Preference To Be Given Home Industry

Copies of new bid forms used by the Quartermaster Section, U. S. Army, specifying preference for American-made materials in all contracts are being issued by Major Henry B. Barry, purchasing officer at Fort Mason.

The new forms incorporate the following paragraphs:

(1) "Preference for domestic articles. Unless the Secretary of War shall determine it to be inconsistent with the public interest, or the cost to be unreasonable, only such unmanufactured articles, materials and supplies as have been mined, or produced in the United States and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, or supplies mined, produced or manufactured, as the case may be, in the United States, shall be acquired for public use."

(2) "All contracts for the construction, alteration, or repair of any public building or public work in the United States will contain a provision that in the performance of the work the contractor, subcontractor, material men or suppliers, shall use only such unmanufactured articles, materials and supplies as have been mined or produced in the United States, and only such manufactured articles, materials and supplies as have been manufactured in the United States, substantially . . . all from articles, materials or supplies mined, produced or manufactured; as the case may be, in the United States, except articles, materials, and supplies listed in the specifications pertaining to the contract as being exempt from the foregoing restrictions."

The term "United States", when used in a geographical sense includes the United States and any place subject to the jurisdiction thereof.

The terms "Public Use", "Public Buildings", and "Public Work" shall mean use by public building of and public work of, the United States, the District of Columbia, Hawaii, Alaska, Puerto Rico, the Philippine Islands, American Samoa, the Canal Zone and the Virgin Islands.

PROMISE DECISION ON FEDERAL BLDG.

Early decision on the award of a contract for the San Francisco Federal Building is expected, according to a letter received by the San Francisco Builders' Exchange in response to inquiries. The communication, signed by Ferry K. Heath, assistant secretary of treasury, says:

"The award of the San Francisco building is temporarily delayed pending completion of the administration's program on public works, concerning which this department expects to be advised in the near future.

"You may be assured that full consideration will be given to your request for prompt action as soon as this department is advised regarding the general policy on public works."

NINE INSPECTORS FOR GATE BRIDGE NAMED BY REED

Men Will Be Assigned to Duties Within Next Sixty Days

Appointment of nine bay district engineers to the inspection staff of the Golden Gate bridge district has been announced by James Reed, general manager. The appointments will be submitted to the board of directors for ratification at their meeting tomorrow.

Those named were: F. Van Proyen, 3732 Twenty-first street; John R. Breen, 543 Twelfth Ave., Sidney G. Slusher, 1252 Fifteenth Ave. W. H. Arata, 1680 Sloat boulevard; Joseph E. Armstrong, 947 Geary St., and Mark M. Murtaugh, 1900 Vallejo St., San Francisco; G. D. Grant, Crescent City; G. W. Connors, Sonoma, and S. J. Dickson, Santa Rosa.

The nine appointments, Mr. Reed pointed out, will take care of the District's needs, based on the program of actual work now under way, for approximately sixty days and the appointment will go into effect as the construction proceeds, probably within fifteen days.

All nine men are possessed of exceptional engineering and construction experiences, one of them, F. Van Proyen, having behind him 31 years of steel ship construction, commencing with an apprenticeship as a ship fitter in the old Union Iron Works.

NEW BUILDING CODE FINISHED BY ENGINEERS

Cleary and Leonard to Arrange for Submission of Ordinance to Supervisors

Proposed changes in the San Francisco building code making more stringent earthquake and wind stress provisions, which have been in preparation for the past three years, have been drafted into final form by a committee of twelve leading San Francisco engineers meeting with City Administrator Alfred J. Cleary.

Mr. Cleary will confer with Chief Building Inspector John B. Leonard and Prof. Charles Derleth of the University of California, to set the date for bringing the proposed new code before the Board of Supervisors.

Lateral stress provisions relating to masonry work as well as to steel and reinforced concrete were worked out at yesterday's meeting.

"The new code," Prof. Derleth declared, "will be a minimum law, specifying the lowest allowable safety requirements. It aims at making engineers 'lateral-stress conscious'."

"We expect little opposition to the new ordinance on the part of engineers," Cleary said, "in view of that fact that it represents practically the unanimous views of the district's leading engineers."

Engineers at the meeting, in addition to Chief Leonard and Prof. Derleth included: L. H. Nishkian, T. Chace, M. C. Couchot, J. Rosenwald, H. J. Brunnier, C. H. Snyder, W. L. Huber and H. Hammill.

CEMENT MIX PLANT AT DAM STARTED

Excavation has been started on the site for a \$125,000 cement blending plant at Hoover dam. The output of five mills located at different points in the western states is required to supply the 5,000,000 barrels of cement to be used. In order to attain a uniform blend of color and texture cement will be run through a mixing plant at the site.

The new plant will be located adjacent to the high level concrete mixing plant atop the Nevada cliff of Black canyon directly above the dam site.

Orders for malleable castings totaled 23,409 net tons in January and February, manufacturers reported to the Department of Commerce. Shipments during the same period totaled 28,152 net tons.

REVENUE BOND ACT APPROVED BY COMMITTEE

Assembly Irrigation Group Recommends Passage of Financing Measure

The issuance of revenue bonds to finance self-liquidating publicly-owned waterworks projects of cities or other political subdivisions stands approved by the assembly irrigation committee, which recommended for passage AB No. 1043, by Assemblyman Roy J. Nielsen, Sacramento.

The revenue bonds would be paid solely from revenues accruing from the operation of the water systems and would not increase taxes. They would be legal investments for certain trust and public funds. Bondholders would have a statutory lien on the system. Bonds could not exceed six per cent interest and would be limited to forty years.

Albert Givan, engineer for the Sacramento Utility District, said the Reconstruction Finance Corporation would buy such bonds only when adequate assurance was given that the revenues would retire the bonds. The directors of the district have asked the corporation for aid in the construction of the Silver Creek project through the issuance of such bonds.

Many similar projects will be allowed to proceed if the legislation is enacted, sponsors of the bill said.

The bonds in each case would be approved by the people by a majority vote, rather than the two-thirds vote now required for tax-secured bond issues.

CALL BIDS IN MAY FOR CAPITOLA SEWER

Early start of construction on the Capitola outfall sewer is promised with sale of \$13,000 of the \$21,000 bond issue completed.

E. V. Woodhouse, president of the chamber of commerce, which undertook to market the bonds when investment houses refused to bid for them, said the county engineer would call for bids about May 21.

CONTRACT AWARDED ON BOHEMIAN CLUB

Dinwiddie Construction Co. has been awarded the contract for construction of the San Francisco Bohemian Club building to be awarded at the northeast corner of Taylor and Post streets, Architect Lewis P. Hobart announced.

Dinwiddie's bid was \$574,000, the lowest offer from five selected contractors who were invited to submit proposals.

The contract is for building a 4-story Class A brick and terra cotta structure, including gymnasium, dormitory, dining room, etc.

BUREAU NOW ISSUES CHIMNEY LICENSES

A new ordinance transferring the collection of fees for erection and alteration of patent chimneys from the Tax Collector's Office to the Central Permit Bureau is now effective, according to S. J. Rosenblum, chief clerk of the Central Permit Bureau.

The new ruling provides that patent chimney contractors may take out an annual license for a fee of \$300, allowing them an unlimited number of jobs, or may apply for a permit for each job separately, at the usual \$2 fee.

The annual license fee formerly levied by the Tax Collector was \$200.

SCHOOL CLOSES ON ENGINEER'S ADVICE

San Rafael grammar school building was ordered vacated by the board of education Friday after a report had been received from H. J. Brunner, consulting structural engineer, that the structure is unsafe. Brunner predicted the collapse of the building in the event of a moderate earthquake.

The board engaged the engineer to inspect the building as a result of agitation following the destruction of schools in the Southern California earthquake. The San Rafael grammar school was erected eight years ago at a cost of \$50,000. It accommodated 200 pupils.

L. A. DISTRICT ASKS BIDS ON FOUR TUNNELS

Set June 12 Date for Opening Proposals on Aueduct Contracts

LOS ANGELES, April 15.—Directors of the Los Angeles Metropolitan Water District today set June 12 as the date for receiving bids on four tunnels of the Colorado river aqueduct. Three of the tunnel sites are in the Whipple mountains, 17 to 25 miles northwest of Vidal. The fourth is 14 miles east of Banning.

Bids are to be received as follows:

Schedules 1 or 2—Colorado River, 1.07 miles.

Schedules 3 or 4—Copper Basin No. 1, and East section of No. 2, 1.17 miles.

Schedules 5 or 6—Copper Basin No. 1, West section, 1.17 miles.

Schedules 7 or 8—Whipple East section, 1.89 miles.

Schedules 9 or 10—Whipple Central, 3.18 miles.

Schedules 11 or 12—Whipple, West section, 1.02 miles.

Schedules 13 or 14—Whitewater, 1.9 miles.

Proposals will be received under Schedules 1, 3, 5, 7, 9, 11 and 13 and are for a diameter of 16 feet; alternate schedules for a diameter of 12 ft. 4 in.

Plans are available at Metropolitan Water District offices, 306 West Third street; Deposit \$5.

BELMONT EXPECTS R.F.C. TO BUY WATER BONDS

Anticipating an agreement by the Reconstruction Finance Corp. to buy \$45,000 in bonds, the Belmont water district has instructed its chief engineer to prepare a bid call on construction of the storage reservoir and pipe lines which are to be financed by the bond sale. Lawrence Elsener, president of the district, has appointed a construction committee consisting of C. L. Jordan, H. A. Hyne and Chief Engineer W. W. Hendricks.

LUMBER SHIPMENTS FOR APRIL 1 WEEK HIGHEST OF YEAR

First Quarter Production 11
Below That of
1932

Lumber production and new business booked at the sawmills during the week ended April 1, 1933, were somewhat lower than during the previous week, but shipments were the highest of any week since last September, according to telegraphic reports to the National Lumber Manufacturers' Association from regional associations covering the operations of 652 leading hardwood and softwood mills. During the first quarter of 1933, production was 11 percent below the corresponding period of 1932 and new business was 16 percent below. Shipments were 26 percent and orders 33 percent above the production of the quarter.

Production during the week ended April 1 amounted to 96,339,000 feet; shipments to 150,617,000 feet.

New business during the week totalled 155,023,000 feet. This is the third consecutive week in which orders were more than 60 percent above production. In each of these three weeks orders were higher than in any previous week since last September. All regions shared in the increase of current orders over output, this gain totalling 61 percent for softwoods and 63 percent for hardwoods.

Compared with the corresponding week of 1932, all regions except Northern pine showed increase in orders, Southern pine and Northern hemlock making the best records. The total for softwood orders was 13 percent above last year and for hardwoods, 10 percent above.

New business at the Southern pine mills was 49 percent of capacity; at the Western pine mills, 29 percent; at Southern hardwood mills, 29 percent; compared with 51 percent, 29 percent and 28 percent respectively for the previous week.

Forest products carloadings during the week ended March 25 were 15,717 cars, the highest of any week of 1933. This was an increase of 1,380 cars over the previous week and a decline of 4,590 cars as compared with the same week of 1932.

Lumber orders reported for the week ended April 1, 1933, by 403 softwood mills totaled 139,868,000 feet, or 61 percent above the production of the same mills. Shipments as reported for the same week were 136,989,000 feet, or 57 percent above production. Production was 87,029,000 feet.

Reports from 264 hardwood mills give new business as 15,155,000 ft., or 63 percent above production. Shipments as reported for the same week were 13,628,000 feet, or 46 percent above production. Production was 9,310,000 feet.

Automatic Gas Pilot Control Invented Here To Be Marketed By S. F. Company

A revolutionary new automatic safety device for gas pilot control has just been developed on the Pacific Coast by the Watrola Corp., Ltd., which has accounted for a number of new improvements in the gas equipment field recently.

The new device, together with other safety equipment, will be marketed under the name "PowerStat" by a corporation already formed bearing the same name.

Heading the new corporation is Arthur F. Erickson, until recently Pacific Coast Distributor for Minneapolis-Honeywell Regulator Co., and previous to that head of a company bearing his own name, which manufactured and distributed control equipment on a national basis.

"Thorough tests over a period of time have been conducted," said Erickson, "to establish the almost unbelievable operating dependability of PowerStat pilot light control. Fundamentally different from all previously existing devices, it makes necessary an entirely new concept of control mechanism in order to properly appraise its merits.

"It is a mono-metal alloy device, or robot, which, as contrasted with a bi-metal thermostat, has the characteristics of a movement of 30-thousandths; with a complete

cycle in seconds; with practically unvarying speed under widely varying temperatures; with a pulling power of 30 to 150 lbs. and upward; with a fatigue point beyond the temperature of ordinary fire-boxes, and it is not a thermostat. It forms the activating control member in conjunction with a new carbureting pilot light burner of unusual economy and having the inherent ability of purging itself of gas gum."

The company will also distribute Watrola gas and liquid strainers, and sealing gum. The strainers are of new design and it is said they are capable of stopping particles of foreign matter as fine as 4-thousandths. Tests have proved that such fine strainers cause little pressure drop in gas or light liquids. The sealing gum, it is claimed, has the peculiarity of non-dripping, non-drying, and permanently sealing joints in artificial, natural or propane lines.

Associated with Erickson in the development of the PowerStat line is Allen W. Widenham who originally was with the gas utility industry, later a sales executive, and of late has been identified with a comprehensive gas appliance research and development program, of which the foregoing items are a part.

Lumber Industries House At Exposition To Be Notable For Simplicity Of Design

With the frame up and the structure practically closed in, rapid progress is being made in the construction of the All-Lumber Industries house now building at the Century of Progress Exposition in Chicago.

Wood and wood products are the materials of the house in its entirety.

The architecture of this one-story five-room house is modern but not stylized. Its design depends for effect upon its extreme simplicity. The plan makes an excellent living unit although the size is slightly larger than would be required for actual living quarters. By reason of being an exhibit house, the halls, vestibules, etc., have been increased to accommodate a crowd.

The chief innovation in design of the house is that it is plasterless and can be erected directly, cleanly and quickly. In order to carry out this design successfully, the wood walls are being treated as far as possible in simple fashion without elaborate graining and the wood is not being stained. The ceilings are made of plywood and will be calcimined to reflect maximum light. In spite of the use of various kinds of woods for the walls of the different rooms, they are being treated as a background only. The effect sought is that of

an interesting texture to the walls without elaborate architecture, which would serve only to detract from the room as a whole.

The lighting is being done by Holophane lenses located as a rule in the ceilings. No curtains will be used in the house but Venetian blinds will control the daylight in a room, keep out the weather and at the same time admit air.

The aim in the house has been to demonstrate that wood is the most flexible building material and can form a conservative and interesting background for the interior treatment of a house.

All branches of the lumber industry were represented in the cash contributions for the building of the "sunlight" house, and many American species of wood will be built into it. Not only has the lumber been donated for the residence, the insulation, shingles and Venetian blinds, but the non-lumber materials and equipment have been given, including plumbing, heating, electric plant, electric refrigerator and incinerator.

The house is located on a beautiful site on the exposition grounds facing Lake Michigan. The main rooms have been given a lake exposure and open on a shaded terrace. Construction is expected to be completed by June first.

Timber Engineering Company Acquires U. S. Rights to Manufacture Metal Connectors

Declaring that the new connector system is the most significant and promising development in the timber construction field in this century, Wilson Compton, president of American Forest Products Industries, has written the National Committee on Wood Utilization, U. S. Department of Commerce, an expression of the appreciation by the lumber industries of the investigations and publications of the Committee, and the scientific research work of the U. S. Forest Products Laboratory in bringing the new method of construction to the attention of American industry.

Aiming at the practical realization of the potential benefits of the new method of construction, Dr. Compton explains that American Forest Products Industries has established an industrial group corporation known as the Timber Engineering Company, which has acquired the American rights to the basic patents of the types of connectors shown by the Laboratory tests to be best adapted to American woods.

Axel H. Oxholm, Director of the Wood Utilization Committee, replying to Dr. Compton, expressed his satisfaction that the American Forest Products Industries has been "so progressive as to make these connectors available to builders in this country" and adds: "We wish you every success in your undertaking."

The text of Dr. Compton's letter follows:

"American Forest Products Industries has followed with much interest the investigations of the National Committee on Wood Utilization and the research of the U. S. Forest Products Laboratory in cooperation with it in the merits and uses of modern connectors for timber construction.

"These systems of timber construction representing the best experience of other countries, particularly during the period since the War, are, we understand, the systems which have been under extensive laboratory tests during the past two years by the Forest Products Laboratory on which detailed reports are contained in your joint bulletin published March 1, entitled: "Modern Connectors for Timber Construction."

"We regard this new connector system of construction as the most significant and promising development in the timber construction field in this century. Foreign experience, confirmed by extensive tests using American woods, shows that the use of the most efficient of these connector systems increases the useful strength of structure, on the average, to 2.4 times; and in some important types of structures as much as six times.

"This obviously opens a wide field, not only for improved economy in timber construction, but for much greater flexibility in struc-

tural design and for the use of timber construction for a wide range of purposes for which heretofore in this country it has not been widely regarded as serviceable or satisfactory.

"In order to make readily available to builders and fabricators in the United States the benefits of these new construction systems, American Forest Products Industries has established the Timber Engineering Company which has acquired the American rights to the basic patents underlying the systems of construction shown by the Laboratory tests to have outstanding superiorities with American woods. The company's main office is at 1337 Connecticut Ave., Washington, D. C., with branch offices in Chicago, New Orleans, Minneapolis and Portland, Ore.

"These systems controlled by the Timber Engineering Company include constructive systems based on the following types of connectors:

1, Toothed ring; 2, Toothed plate; 3, Split ring; 4, Bi-partite ring; 5, Pronged plates and hinge connectors; 6, Spike grid; 7, Disc and coned dowel.

"The use of these connector systems is available through license or permit from the Timber Engineering Company on reasonable terms which will insure proper specification and inspection of timber and safe design. The Timber Engineering Company will use the

services of engineers, architects, and constructors, throughout the country, many of whom have already interested themselves in this construction. The Company will from time to time make available to cooperating engineers and architects useful construction design and timber specification service and will arrange for the necessary inspection of materials and supervision of their use.

"The fundamental purpose of the Timber Engineering Company is to secure, on its merits and, on a sound engineering basis, the establishment of this new construction system and to cooperate to that end with interested engineers and architects, constructors and suppliers of timber and auxiliary materials. The connectors themselves will be available only upon order from the Timber Engineering Co. which is arranging for a suitable supply. We expect the earliest and for the present at least the largest public demand to be for the toothed ring, the split ring and the pronged plate with hinge connectors. Their test and experience records are convincing.

"We are confident that you and your committees and the public agencies which have cooperated with you will be interested to have these advices that provision has now been made converting into commercial construction practice in this country the results of years of painstaking investigation and research culminating in the publication of your recent report. This report we understand has had so wide a circulation among interested industries and engineers, architects and constructors that a reprint is already required."

OAKLAND, Alameda Co., Cal. No. 1325 Washington Street.

Alterations to store front.
Owner—The Fashion Bootery, 1325 Washington St., Oakland.
Plans by C. Hathaway Lovell.
Contractor—Louis C. Dunn, Monadnock Bldg., San Francisco.

Planned.
STORE Cost, \$—
SONOMA, Sonoma Co., Cal. Napa St.
One-story reinforced concrete store (37x60 feet).
Owner—Fred Bulotti, Napa St., Sonoma.
Architect—Not Selected.

Sub-Contracts Awarded.
ALTERATIONS Cost, \$2000
OAKLAND, Alameda Co., Cal. 24th and Telegraph Aves.
Alterations to ground floor of four-story building for stores.
Owner—Public Food Stores.
Architect—Bertz, Winter & Maury, 210 Post St., San Francisco.
Contractor—C. H. Thrans, 28 Home Place, Oakland.
Roofing—William Finn, 1015 Rose St., Oakland.
Steel Sash—East Bay Glass Co., 621 6th St., Oakland.
Plastering—Sam Solomonson, 3233 Kansas St., Oakland.

Contract Awarded.
STORE Cost, \$1500
SAN JOSE, Santa Clara Co., Cal. Willow St. near Vine.
One-story frame store.
San Josee.
Owner—Sam Gabino, 749 Willow St.
Architect—Not Given.
Contractor—V. R. Camlnetti, 975 Vine St., San Jose.

FRESNO, Fresno Co., Cal.—Until May 10, 2 P. M., bids will be received by C. H. Purcell, State Highway Engineer, Public Works Building, Sacramento, for the erection and completion of an addition to the District Office Building at Fresno. Work comprises excavation, concrete and masonry work, carpentry and mill work, lathing and plastering, sheet metal work, steel sash, roofing, structural steel, painting, plumbing, heating, ventilating and electrical installation. State will furnish Venetian blinds, window shades, laboratory hoists, refrigerated fountains and air washer. Plans obtainable from above office on deposit of \$25, or may be inspected at office of District Engineer at Fresno, Los Angeles and San Francisco.

Contracts Awarded.
ALTERATIONS Cost, \$—
SAN FRANCISCO, 101 Post Street.
Alterations to 4-story stores and lofts.
Owner—Samuel Lowe.
Architect—Hyman and Appleton, 68 Post Street.
Contractor—Jacks & Irvine, 74 New Montgomery Street.
Heating and Plumbing—J. H. Pinkerton, 927 Howard Street.
Electric—Central Electric Co., 179 Minna Street.

Sub-Contracts Awarded.
ADDITION Cost, \$65,000
SAN FRANCISCO, Bush and Larkin Streets.

Two-story structural steel and reinforced concrete addition to telephone building (Class A construction).

Owner—Pacific Telephone & Telegraph Co., 140 New Montgomery St., San Francisco.

Plans by Engineering Dept. of Owner (E. V. Cobby, Engineer).
Contractor—Dinwiddie Construction Co., Crocker Bldg., San Francisco.
Electric—Radelfinger Bros., 544 Natoma St., San Francisco.
Reinforcing Steel—Truscoon Steel Co., Call Bldg., San Francisco.

Hardware—Palace Hardware Co., 581 Market St., San Francisco.

Other awards will be made within a few days.

Sub-Contracts Awarded.
ALTERATIONS Cost, \$—
OAKLAND, Alameda Co., Cal. Broadway near Nineteenth Street.

Alterations to store.
Owner—Twentieth & Broadway Realty Company.
Architect—Albert Evers, 525 Market St., San Francisco.

Contractor—Lindgren and Swinerton, Inc., 225 Bush St., San Francisco.
Lessee—J. J. Newberry Company.
Electric—Scott-Buttner Co., 19 Grand Ave., Oakland.

Mill Work—Lannon Bros. Mfg. Co., 5th and Magnolia Sts., Oakland.

Structural Steel—Schrader Iron Wks, 1247 Harrison St., San Francisco.
Finish Hardware—Maxwell Hardware Co., 1320 Washington St., Oakland.

Terra Cotta—Gladding, McBean and Co., 660 Market St., San Francisco.

Tile—Howden Tile Co., 337 17th St., Oakland.

Sheet Metal—Central Sheet Metal Works, 2847 Hannah St., Oakland.
Plastering—S. Muriale, 3331 La Cresta, Oakland.

Steel Sash—Detroit Steel Products Co., 63rd and Doyle Sts., Oakland.
Dumb Waiters—Vincent Whitney Co., 130 10th St., San Francisco.

Miscellaneous Metal—Frauneder Ornamental Iron Works, 335 8th St., Oakland.

17—THEATRES

Heating and Ventilating Contracts Awarded.

THEATRE Cost, \$20,000
SONOMA, Sonoma Co., Cal. First Street East.

One-story steel and concrete theatre to seat 500; (85x163 feet); large room above and stores below.

Owner—San Sebastina, Sonoma.
Architect—Reid Bros., 105 Montgomery St., San Francisco.

Heating and Ventilating—Atlas Heating & Ventilating Co., 557 4th St., San Francisco.

As previously reported, plumbing awarded to Marcey & Peterson, Sonoma City; electric to H. F. Haverkamp, 1127 Folsom St., S. F.; reinforcing steel to Concrete Engr. Co., 1280 Indiana St., S. F.; structural steel to Iron Works, 18th and Campbell Sts., Oakland.

18—WHARVES & DOCKS

Bids Opened.
REPAIRS Cost, \$—
SAN FRANCISCO, Fort Winfield Scott
Repairs to torpedo dock (new creosoted piles and timber bracing, etc.)

Owner—United States Government.
Plans by Constructing Quartermaster, Fort Mason, San Francisco.

Low Bidder—Duncanson Harrelson Co., deYoung Bldg., San Francisco

Following bids received:
Duncanson-Harrelson Co.....\$ 857
O'Neil & Legge..... 933
M. B. McGowan..... 1125

Bids held under advisement.

SAN FRANCISCO.—M. B. McGowan 74 New Montgomery St., at \$9,279 submitted low bid to U. S. Coast Guard, Custom House, San Francisco, to construct extension to launchway at Pt. Bonita. Complete bids follow:

M. B. McGowan, S. F.....\$ 9,279

WASHINGTON, D. C. — Following are additional contractors who have procured plans for the purpose of submitting bids to the Bureau of Yards and Docks, Navy Department, on May 3 for the construction of pier and two quays of reinforced concrete construction at Parl Harbor, T. H. Specification No. 7224:

Frazier - Davis Constr. Co., 1319 Macklind Ave., St. Louis, Mo.
 Hawaiian Dredging Co., Honolulu, T. H.
 West Virginia Rail Co., Huntington, West Virginia.

19—MISC. CONSTRUCTION

ALBROOK FIELD, C. Z. — Tucker McClure, 1203 Spring - Arcade Bldg., Los Angeles, has been awarded a contract at \$9044 for the construction of a runway at Albrook Field, C. Z.

SAN YSIDRO, San Diego Co., Cal.— Until Monday, April 24, bids will be received by the Bureau of Customs, Division of Engineering and Weighing, Treasury Department, Washington, D. C., for the complete construction of gates at the International boundary across the highway at the port of San Ysidro. Plans call for structural steel gates in four sections, two 21 feet wide and two 27 feet wide. Plans and specifications may be obtained from Wm. H. Ellison, collector of customs, Federal Bldg., San Diego.

WASHINGTON D. C.—As previously reported, W. P. Thurston Company, Richmond, Va., at \$9,900 submitted low bid to Bureau of Yards & Docks, Navy Department, Washington, D. C., for two fire alarm systems, each consisting of call boxes, air horns, gongs, etc., at the Naval Ammunition Depot, Oahu, T. H. Specifications No. 7021. Following is complete list of the bids:

(1) deduct if electric sirens are used in lieu of air horns.
 W. P. Thurston Co., Richmond, Virginia \$9,900
 (1)
 H. S. Tittle Co., S. F..... \$10,250
 (1) 485
 Gamewell Co., Newton Upper Falls, Mass. \$13,231
 (1) 231
 (1) \$14,762
 (1) 1,300

Bids held under advisement.
 To Take Sub-Bids In One Week.

MORTUARY Cost, \$60,000
OAKLAND, Alameda Co., Cal. 38th St. and Telegraph Ave.

Two-story and basement wood frame and brick veneer mortuary (100x160 ft.) steel sash, steam heating system, tile floors, organ, 30-car garage.

Owner—Truman Undertaking Co., 2935 Telegraph Ave., Oakland.
 Architect—Blaine & Olson, 1755 Broadway, Oakland.
 Contractor — E. T. Leiter & Son, 811 37th St., Oakland.

LOS ANGELES, Calif.—Until 2 P. M., May 1, bids will be received by County Supervisors to construct a reinforced concrete vault at Pacoima. The proposed vault which will be 28x32 ft., is to be built at Pacoima for the storage of records of the surveyor's office. The work involves:
 12,234 board feet of lumber;
 3,400 lbs. reinforcing steel;
 150 cu. yds. of Class A concrete;
 15.5 squares tile roofing;
 721 sacks portland cement;
 81 cu. yds. sand;
 116 cu. yds. gravel;
 265 cu. yds. excavation;
 866 cu. yds. backfill;
 8 Toncan metal ventilators;
 8 bronze grilles;
 10 structural steel roof trusses;
 933 cu. yds. in floor.

Plans prepared by J. E. Rockhold, County Surveyor, 7th floor, Hall of Records. Mame B. Beatty, 501 Hall of Records, Clerk of the Board.

SAN FRANCISCO.—Until April 26, 1:45 P. M., informal bids will be received by S. J. Hester, Secretary, Department of Public Works, for cover and painting steel, piping, etc., at the Health Center. Specifications are available from Supt. of Public Buildings, 11th and Bryant Streets.

ALAMEDA, Alameda Co., Calif.— E. T. Lesure, 87 Ross Circle, Oakland, at \$2280 awarded contract by U. S. Bureau of Public Roads, San Francisco, for erection of Units 27, 28 and 29, fire hose houses on the U. S. 15-acre tract, Government Island, Alameda.

Plans Completed .
PLANETARIUM Cost, \$250,000
LOS ANGELES, Los Angeles Co., Cal. Vermont Canyon.

Two-story Class A reinforced concrete planetarium (100 x 200 feet); concrete and composition roof, structural steel, steel ladders and rails, cork tile, marble and concrete floors, metal sash, bronze doors, acoustical plaster, stone grilles, kalamein, leather and metal fire doors, cement waterproofing, concrete retaining walls.
 Owner—City of Los Angeles (Park Commissioners).

Architect—John C. Austin and F. M. Ashley, Chamber of Commerce Bldg., Los Angeles.

Funds for the project were provided in the will of the late Col. Griffith J. Griffin.

20—MISC. SUPPLIES AND MATERIALS

PANAMA CANAL ZONE.—Until April 28, 10:30 A. M., under Schedule No. 2858, bids will be received by the General Purchasing Officer, Panama Canal Zone, Washington, D. C., to furnish miscellaneous supplies and equipment, including steel, iron or steel pipe, pumps, bolts, wrenches, fire extinguishers, gasoline hose, lumber, etc. Specifications obtainable from above office.

PASADENA, Los Angeles Co., Cal.—Blue Diamond Corp., 1650 S Alameda St., Los Angeles, submitted low bid to city directors April 18 at \$15,011.20 (base rate of 1.48c per lb.) for furnishing reinforcing steel for use in the Pine Canyon Dam construction. The material involves:

Intermediate Grade—821,000 Lbs.
 500 lbs. ¼-in. round reinf. steel;
 500 lbs. ⅜-in. do;
 67,000 lbs. ½-in. do;
 2,500 lbs. ½-in. square reinf. steel;
 48,000 lbs. ⅝-in. round reinf. steel;
 12,500 lbs. ¾-in. do;
 7,000 lbs. ⅞-in. do;
 100,000 lbs. 1-in. do;
 3,500 lbs. 1-in. square reinf. steel;
 25,000 lbs. 1¼-in. square reinf. steel;
 500,000 lbs. 1½-in. do;
 54,500 lbs. 1½-in. do.

Hard Grade—178,000 Lbs.
 2,000 lbs. ½-in. round reinf. steel;
 28,000 lbs. ⅝-in. do;
 68,000 lbs. ¾-in. do;
 80,000 lbs. 1-in. do.

The other bids were:
 Concrete Engineering Co., \$15,263.48
 Soule Steel Co., \$15,300.
 Truscon Steel Co., \$15,513.05.
 Pacific Coast Steel Co., \$16,809.40.
 The bids were referred to the city manager.

SAN BERNARDINO, Cal.—Associated Oil Co. awarded contract by the city council April 17 at 12c gallon, to furnish approximately 30,000 gallons of gasoline delivered f.o.b. city yards in tank wagons, for city requirements during one year.

THE DALLES, Ore.—Until Thursday, April 27, bids will be received by the Treasury Department, Office of the Supervising Architect, Washington, D. C., for furnishing an electric water cooler and fountain for The Dalles.

ALAMEDA, Alameda Co., Cal.—Anchor Post Fence Co., 460 Fifth St., San Francisco, at \$9385 submitted low bid to Bureau of Public Roads, to construct a part of Unit 9, Chain Link boundary fence and ornamental entrance gateway on the U. S. 15-acre tract at Government Island, Alameda. Only other bid was submitted by Standard Fence Co., Oakland, at \$11,159. Bids held under advisement.

21—BRIDGES

SANTA BARBARA COUNTY, Calif.
—M. B. McGowan, 74 New Montgomery St., San Francisco, at \$28,158 awarded contract by State Highway Commission, Sacramento, to construct an overhead crossing over the tracks of the Southern Pacific Co. at Elwood, consisting of one 68-ft. 6-in. deck plate girder span, four 30-ft. reinforced concrete girder spans and two 20-ft. reinf. concrete girder spans.

BEVERLY HILLS, Los Angeles Co., Calif.—Approximate quantities for reconstruction of a pedestrian subway across Wilshire Blvd. at Hamel Drive for the City of Beverly Hills, for which bids are to be opened at 8 P. M., May 9 (previously noted), are:

- (1) 80 ft. railing to be reinstalled;
- (2) 80 ft. new railing;
- (3) 168 sq. ft. 8-in. tile wall;
- (4) 22 ft. reinf. conc. stairs, supporting walls, 6-in. thick;
- (5) 17 ft. reinf. concrete stairs;
- (6) 34 ft. reinf. concrete slab and railing curb;
- (7) 96 ft. reinf. conc. side walls, 10-in. thick;
- (8) 42 ft. reinf. conc. sidewalk, 7 ft. 4 in. wide, 6 in. thick;
- (9) 32 ft. reinf. conc. floor slab, 8 ft. 4 in. wide, 10 in. thick;
- (10) 46 lin. ft. Class B curb;
- (11) 2 ceiling type electric fixtures.

Job includes refilling approximately 24 cu. yds. decomposed granite, water-proofing material and the installation of short lengths of cast iron drain pipe.

OAKLAND, Cal.—Until April 28, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to construct Bear Creek Bridge near Orinda, Contra Costa Co., consisting of one 40-ft. span and including 1000 ft. roadway approaches, involving:

- (1) 1 40-ft. span timber bridge complete, together with two 20-foot span timber approach sections, complete (lump sum);
 - (2) 1500 cu. yds. excavation.
- Spec. LS-103 obtainable from above office.

MONTEREY COUNTY, Cal.—Chas. W. Lane, Paso Robles, at \$615.25 awarded contract by State Highway Commission to extend reinforced concrete box culvert about 3 mi. south of San Lucas.

PUEBLO, Colo.—D. P. Gaymon, City Engineer, is preparing plans for a viaduct to be built over the Denver and Rio Grande Western R. R. yards.

The cost is estimated between \$150,000 and \$200,000.

VANCOUVER, B. C.—High level bridge, estimated cost, \$6,000,000 to be constructed over First Narrows, planned by British interests, represented by John Anderson, British Pacific Properties, Ltd., 675 W. Hastings St., Vancouver. To be stiffened suspension type bridge, central span 1500 ft. Central span to have maximum clearance of 200-ft. above mean high tide.

SAN JOSE, Santa Clara Co., Cal.—John D. Carlson, 1331 Sierra Ave., San Jose, at \$21,637 awarded contract by city council to construct Julian St. Bridge over Coyote Creek. Complete bids follow:

John D. Carlson, San Jose.....	\$21,637
T. J. Doyle and Theo Johanns, San Francisco	21,937
E. T. Lesure, Oakland.....	24,660
Ball & Bohnett.....	25,300
M. B. McGowan, San Francisco	25,313
Bodenhamer Con. Co., Oakland.....	25,698
Sam Sciarrino, San Jose.....	25,914
W. E. Lyons, Oakland.....	26,435
Neves & Harp, Santa Clara.....	26,490
R. O. Summers, San Jose.....	26,948
A. W. Kitchen, San Francisco.....	29,970
Fredrickson & Watson, Oakland.....	34,618

22—DREDGING, HARBOR WORKS, EXCAVATION

SAN FRANCISCO.—Bethlehem Shipbuilding Corp., Ltd., 20th and Illinois Streets, at \$21,076.60 awarded contract by U. S. Engineer Office to repair U. S. Seagoing Hopper Dredge "San Pablo."

SAN FRANCISCO.—Moore Drydock Co., Balfour Bldg., San Francisco, at \$26,974.40 awarded contract by U. S. Engineer Office, San Francisco, to repair U. S. Seagoing Hopper Dredge "A. Mackenzie."

24—ST. LIGHT. SYSTEMS

ORDWAY, Colo.—Until 10 A. M., April 29, bids will be received by the Twin Lakes Reservoir and Canal Co. (J. H. Cowden, Pres.) for constructing irrigation tunnels between Roaring Fork River on the western slope and Twin Lakes Reservoir on the eastern slope. The project includes two tunnels; one 3.82 miles long, 8x2½ ft. horseshoe shape; the other 1.75 miles, 7x2½ ft., both concrete lined.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street

Sacramento :: California

25—MACHINERY AND EQUIPMENT

LOS ANGELES, Cal.—Until 2 P. M., May 2, bids will be received by the Metropolitan Water District, 306 West Third St., Los Angeles, for furnishing ventilation equipment for the Coachella Tunnel under Specifications No. 27, copies of which may be purchased at room 1004, 306 West Third St., for \$2 per set; which sum will not be returned. Certified or cashier's check, 10%. F. E. Weymouth, General Manager and Chief Engineer. The items are:

- (1) 8 rotary displacement blower units, with motors, control valves, pipe connections, etc.;
- (2) 8 centrifugal compressor units with motors, control valves, pipe connections, etc.;
- (3) services of an erecting engineer (per diem).

SAN FRANCISCO.—Kratz & McClelland, 522 Bryant St., at \$5087.50 f.o.b. Brooklyn, N. Y., awarded contract by Quartermaster Supply Officer, Fort Mason, to furnish one tractor complete with power driven crane.

30—RESERVOIRS & DAMS

MODESTO, Stanislaus Co., Calif.—City council will ask bids at once to construct Lake Modesto Dam, 207-ft. long, weir type, in the Tuolumne river near the new Golden State Highway bridge. Estimated cost, \$12,000. F. J. Rossi, city engineer.

LOS ANGELES, Calif.—Until 10 A. M., April 26, bids will be received by the Metropolitan Water District, 306 W. Third St., Los Angeles, for constructing three 300,000-gal. water reservoirs on the construction supply line of the Colorado River Aqueduct, located in San Bernardino and Riverside Counties. Bids were previously received for this work, bids having been opened April 4 and rejected April 7. Under the present call for bids alternate proposals are being considered for steel tanks, riveted or bolted, in accordance with the specifications for steel tanks prepared by the American Petroleum Institute. The bid schedule follows:

SCHEDULE NO. 1

Construction of three 30,000-gallon Gunited reservoirs.

- (1) 3000 cu. yds. reservoir excava.;
- (2) 2900 cu. ft. Gunite lining in reservoir;
- (3) 3 reservoir roofs.

SCHEDULE NO. 2

Furnishing and erecting three steel tank reservoirs each of not less than 300,000 gallon capacity. (Alternative to Schedule No. 1).

- (4) 3 steel tank reservoirs, complete;
- Plans may be purchased at room 1004, 306 W. Third St., upon payment of \$2. F. E. Weymouth, general manager and chief engineer.

LOS ANGELES, Cal.—Until 2 P. M., May 1, bids will be received by County Supervisors to furnish reinforcing steel for the Outlet tunnel, San Gabriel Dam No. 1. The quantity of steel amounts to 520,000 lbs. to be furnished f.o.b. district yard, Azusa. The items are:

- (1) 105,000 lbs. 1-in. square deformed;
- (2) 225,000 lbs. 1-in. round deformed;
- (3) 180,000 lbs. ½-in. round deformed;

(4) 10,000 lbs. ¾-in. round deformed. E. C. Eaton, County Flood Control Engineer, 202 N. Broadway.

MODESTO, Stanislaus Co., Calif.—Until April 26, 7:30 P. M., bids will be received by H. E. Gragg, city clerk to construct collapsible weir dam across the Tuolumne River at Modesto, involving:

- (1) dam complete;
- (2) furnish and drive all anchor piles, sheet piling and abutment piling, and furnish all stringers and bolts completely fastened to anchor & sheet piling;
- (3) furnish all materials for dam complete;
- (4) labor to construct dam complete;
- (5) furnish pile driver, mechanical shovel and one operator for each piece of equipment. Price per hr. Specifications obtainable from City Engineer Frank J. Rossi. Certified check 10% payable to City of Modesto, required with bid.

31—PIPE LINES & WELLS

WALLA WALLA, Wash.—Until May 5, 2:30 P. M., bids will be received by Supervising Superintendent of Construction, Veterans' Administration Hospital, Palo Alto, Calif., to drill, develop and test deep well at Veterans' Administration Hospital, Pumping Site No. 2, Walla Walla. Specifications obtainable from above. Proposal guarantee 25%.

SAN FRANCISCO—Until May 1, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, to construct 16-in. cast iron pipe line 19th Ave. and Ulloa St., involving:

- (1) 5700 lin. ft. excav. and backfill, 30x48-in. trench;
- (2) 50 cu. yds. additional excav. and backfill;
- (3) 356 tons install pipe, including fittings and gates;
- (4) 3425 lin. ft. Mineralead joints and fittings.

Specifications obtainable from above office. Estimated cost \$6430.

PASADENA, Los Angeles Co., Calif.—Samuel B. Morris, Water Superintendent, preparing plans for a pipe line to be constructed from the Pine Canyon Dam in San Gabriel Canyon to the Sunset Reservoir in Pasadena. Bids for furnishing and laying the pipe will be called in about 30 days. The line will involve approximately:

95,040 ft. 40-in. welded steel pipe. Alternate proposals will probably be taken on concrete pipe for that portion of the pipe line laid within the Pasadena city limits. The proposed pipe will be constructed of ¼- to ¾-in. plates with longitudinal joints electrically welded with slip type field joints. The pipe is being designed a maximum pressure of 450 ft. head or 180 lbs. pressure. About 5000 ft. of the line will be laid in tunnel. Bids for the drilling of the conduit tunnel are being opened by the city April 25 as previously noted. The pipe line contractor, however, will be required to lay the pipe in the tunnels prepared for him. The remainder of the line will be laid in covered trench. In streets the minimum cover will be 4 ft., in six river crossings 10 ft., and in other rights of way 3 ft.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LOS ANGELES, Cal.—United Concrete Pipe Corp. awarded contract, April 12, at \$22,854.75, for furnishing reinforced concrete pipe for use in the construction of storm drains in

23rd St. bet. Union Ave. and Vermont Ave. The line will be built by force account. Specifications prepared by L. W. Armstrong, engineer of storm drain design.

BERKELEY, Cal.—Until April 25, 10 A. M., bids will be received by Florence E. Turner, City Clerk, to construct sewer from Ashby Ave. to Heinz Ave. in the S. P. Co.'s right-of-way known as Third St., involving:

- (1) 750 lin. ft. 27-in. vit pipe;
- (2) 10 lin. ft. 10-in. do;
- (3) 1 manhole;
- (4) 1 catchbasin;
- (5) 11 cu. yds. class B concrete.

Specifications obtainable from above; certified check 10%.

SAN BERNARDINO, Cal.—Until 7:30 P. M., May 1, bids will be received by city council to furnish miscellaneous equipment for the municipal sewage treatment plant, including improved type of air skimmers. The equipment is to be installed at the new disposal plant on South E St. J. H. Osborn, city clerk. A. H. Lowe, city engineer.

PALO ALTO, Santa Clara Co., Cal.—City council will call election May 9 on \$90,000 bonds to construct sewage disposal system for Palo Alto and Stanford University; the University to pay rent throughout the 30-year bond period.

33—WATER WORKS

ALHAMBRA, Los Angeles Co., Cal.—An election will be held June 6 to vote on a bond issue of \$500,000 for the development of water resources in the Rio Hondo property. The Reconstruction Finance Corp. will be asked to buy the bonds. The funds will be used to finance the drilling of wells and the construction of 4.5 mi. of conduit to the Alhambra city limits.

SAN FRANCISCO—Bryce Plumbing & Heating Co. awarded boiler contract to Babcock & Wilcox Co., 450 Mission St., in connection with Fort Miley Hospital, San Francisco.

MODESTO, Stanislaus Co., Calif.—Until April 26, 7:30 P. M., bids will be received by H. E. Gragg, city clerk to furnish one pump and motor complete. Either vertical turbine or horizontal centrifugal type, 1500-GPM at 177 ft. head, driven by 100-hp. 2300-volt, 3-phase, 60-cycle motor; f.o.b. Modesto. The specifications are obtainable from office of City Engineer Frank J. Rossi. Bidder to show allowance on one 1400-GPM Byron-Jackson pump and one 125-hp. 2300-volt, 3-phase, 60-cycle General Electric motor. Certified check 10% payable to City of Modesto required with bid.

BOULDER CANYON, Nev.—Johnson City Foundry & Machinery Co., Johnson City, Tennessee, at \$17,000 awarded contract by U. S. Bureau of Reclamation, Denver, Colo., under Spec. No. 589-D, for Schedules (1) and (3), to furnish eight 57-in. butterfly valves with operating mechanisms, complete, and eight 24-inch internal differential control valves, complete.

Goslin-Birmingham Mfg. Co., Birmingham, Ala., at \$7,745 under Schedule (2) awarded contract to furnish cast iron pipe, fittings, manholes and trash bar spacer complete.

ALHAMBRA, Los Angeles Co., Cal.—Plans for the proposed development of the water resources of the Rio Hondo property have been announced by the engineers. An election will be

held, as previously noted, on June 6 to vote on a \$500,000 bond issue to provide funds, after which an application will be made to the Reconstruction Finance Corp. to buy the bonds. The property, which embraces 95 acres of water-bearing land, is located at the southeast corner of Rush Ave. and Rosemead Ave., Los Angeles County. The proposed improvements include:

Drilling 2 wells, approx. 400 ft. deep; 25,000 lin. ft. transmission force main involving 18-in. to 24-in. lined cast iron pipe; 10,000,000-gal. reservoir, earth type with poured concrete lining;

Pumping equipment: 2 deep well turbine pumps, 150 H.P. each, to operate against a head of 150 feet; 2 booster pumps, 300 H.P. each, to operate against a total head of 400 ft.

T. B. Downer, City Water Superintendent.

Burns-McDonnell-Smith Corporation, Western Pacific Bldg., 1031 S. Broadway, Los Angeles, consulting engineer.

SONOMA, Sonoma Co., Calif.—City council resolves to authorize Hussey & Belcher, Syndicate Bldg., Oakland, to prepare plans for \$33,000 municipal water system to be discussed at the meeting on April 25.

SAN FRANCISCO—Until May 2, 11 A. M., bids will be received by the Constructing Quartermaster, Ft. Mason, for furnishing and installing two water meters in valve chambers at the Letterman General Hospital, San Francisco. Information on application at above office.

PALO ALTO, Santa Clara Co., Cal. H. C. Miller, Santa Clara, at \$195 (item 1) and \$1,887 (item 2) submitted low bid to Supervising Superintendent of Construction, Veterans' Administration, for (1) razing 100,000 gallon redwood stave water tank, and 100-ft. high supporting tower, and (2) to re-erect 100,000-gal. redwood stave water tank including concrete foundations, new roof for tank and connectig pipes, valves and fittings. Only other bid was submitted by the Clinton Stephenson Const. Co., San Francisco at (1) \$774 (2) \$1,954. A deduction of \$200 was included in the Clinton Stephenson Const. Company's bid if both items awarded.

35—TUNNELS

LOS ANGELES, Cal.—Until 10 A. M., June 12, bids will be received by the Metropolitan Water District, 306 West Third St., Los Angeles, for constructing the Colorado River, Copper Basin, Whipple Mountain and Whitewater Tunnels and appurtenant works of the Colorado River Aqueduct, in accordance with plans and specifications which may be obtained at room 1004, 306 W. Third St., or at the district's office, Banning, upon payment of \$5 per set, not returnable. The first three tunnels are located in the Whipple Mountains, San Bernardino County, 17 to 25 miles northeast of the station of Vidal, on the A. T. & S. F. Ry., and 8 to 14 miles northeast of Parker, Ariz.; the Whitewater tunnels are located about 14 miles east of Banning, Riverside County. The locations along the aqueduct center line are as follows: Colorado River Tunnel Sta. 10+40 to Sta. 66+80; Copper Basin No. 1, Sta. 180+50 to Sta. 188+00; Copper Basin No. 2, Sta. 192+00 to Sta. 308+00; Whipple Mountain, Sta. 352+70 to Sta. 674+60; Whitewater No. 1, Sta. 9661+80 to Sta. 9681+50; Whitewater No. 2, Sta. 9707+00 to Sta. 9787+70. The work to be bid upon consists of the con-

struction of six concrete lined water supply tunnels, divided into schedules as follows

Schedule	Tunnel	Length miles
1 or 2	Colorado River	1.07
3 or 4	Copper Basin No. 1 and east portion Copper Basin No. 2	1.17
5 or 6	Copper Basin No. 2, west portion	1.17
7 or 8	Whipple Mountain, east portion	1.89
9 or 10	Whipple Mountain, central portion	3.18
11 or 12	Whipple Mountain, west portion	1.02
13 or 14	Whitewater Nos. 1 and 2	1.90

Under Schedules 1, 3, 5, 7, 9, 11 and 13 proposals will be received for constructing tunnels with finished interior diameter of 16 ft., and under Schedules 2, 4, 6, 8, 10, 12 and 14, alternative proposals will be received for construction with a diameter of 12 ft. 4 in. F. E. Weymouth, General Manager and Chief Engineer, prepared the plans.

29—STREETS AND HIGHWAYS

BUTTE, NEVADA, YUBA, SIERRA and El Dorado Co., Cal.—Until May 3, 2:30 P. M., bids will be received by C. H. Whitmore, District Engineer, State Highway Commission, 502 State Office Bldg., Sacramento, to treat with asphaltic road Oil as a dust palliative 61.3 mi. existing roadbed. Specifications obtainable from above office. Certified check 10% required with bid.

COCONINO COUNTY, Arizona.—As previously reported, O. F. Fisher, 516 S 7th St., Phoenix, submitted low bid to U. S. Bureau of Public Roads, Phoenix, April 13, at \$6445, for placing subgrade reinforcement on 3.556 miles of Grand Canyon Route No. 10, Grand Canyon National Park, involving:

(1) 5650 cu. yds. subgrade reinf.;
 (2) 8750 cu. yd. mile haul subgrade reinforcement.

The bids and bidders were:

(A) O. F. Fisher.
 (B) H. L. Royden.
 (C) Engineer's estimate.

	(1)	(2)	Total
(A)	\$.80	\$.22	\$6445.00
(B)	.95	.15	6680.00
(C)	.85	.20	6552.50

The engineer recommended that the award be made to the low bidder.

MENDOCINO COUNTY, Cal.—Chas. Kupplinger, Lakeport, at \$3850 submitted low bid to District Engineer, State Highway Commission, San Francisco to treat with asphaltic road oil as a dust palliative 19.7 ml. bet. McDonald and Boonville, involving 1750 bbls. Complete bids follow:

- Chas. Kupplinger, Lakeport, \$2.20; \$3850.
 Pacific Truck Service, San Jose, \$2.33; \$4077.50.
 C. F. Frederickson & Sons, Lower Lake, \$2.34; \$4095.
 Peninsula Paving Co., San Francisco, \$2.47; \$4322.50.
 Highway Builders, Ltd., San Anselmo, \$2.50; \$4375.
 Hein Bros. Basalt Rock Co., and A. Helwig, Petaluma, \$2.54; \$4445.
 Oilfields Trucking Co., Bakersfield, \$2.60; \$4550.
 Bids held under advisement.

PLACER COUNTY, Cal.—Peninsula Paving Co., Standard Oil Bldg., San Francisco, at \$132,831 awarded contract by State Highway Commission to surface with bituminous treated crushed gravel or stone 11.5 ml. between Gold Run and Airport.

VENTURA COUNTY, Cal.—Southwest Paving Company, 711 Lankershim

Bldv., Los Angeles, at \$2584 awarded contract by State Highway Commission for highway oiling between Oxnard and the Santa Clara river bridge, about 2.3 mi. in length, earth shoulders to be treated with fuel oil.

VENTURA COUNTY, Calif.—Southwest Paving Co. 711 Lankershim Blvd. Los Angeles, submitted low bid to the District Engineer, State Highway Commission, Los Angeles, April 12, at \$2584, for highway oiling bet. Oxnard and the Santa Clara river bridge, about 2.3 miles in length, earth shoulders to be treated with fuel oil, involving (1) 1700 barrels 60-70 heavy fuel oil.

The bids were:
 Southwest Paving Co., \$1.52; total \$2584.

Jacob P. Immel, \$1.57; total \$2669.
 Santa Maria Const. Co., \$1.58; total, \$2686.

Square Oil Co., \$1.70; total, \$2890.
 L. A. Briscoe, \$1.79; total \$3043.

Western Motor Transfer Co., Inc., \$1.90; total \$3230.

Oilfields Trucking Co., \$2.21; total,

SAN FRANCISCO—Until April 26, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, Secretary, to improve 19th, Yukon to Caselli Sts., involving:

- (1) 1350 cu. yds. embankment;
- (2) 800 ft. conc. curb. unarmored;
- (3) 250 ft. redwood curb;
- (4) 10,200 sq. ft. 6-in. conc. pavement
- (5) 3200 sq. ft. 2-in. asph. conc. pave
- (6) 2840 sq. ft. conc. sidewalk;
- (7) 3130 sq. ft. 1-in. asph. conc. on sidewalk;

- (8) 60 cu. yds. class B conc. in walls;
- (9) 4200 lbs. bar reinf. steel;
- (10) 160 ft. fence, 3-pipe railing;
- (11) 2 concrete fence posts;
- (12) 430 ft. 8-in. V.C.P. sewer;
- (13) 60 ft. 10-in. V.C.P. culvert;
- (14) 2 brick manholes;
- (15) 4 brick catchbasins;
- (16) 21 Y or T branches;
- (17) 275 ft 6-in. V.C.P. side sewer.

Specifications obtainable from office of John J. Casey, City Engineer, 3rd Floor, City Hall. Estimated cost, \$8600.

LOS ANGELES, Calif.—Until 10 A. M., April 26, bids will be received by board of public works for improving Santa Barbara Ave. and other streets in the Santa Barbara Ave. and Crenshaw Blvd. Imp. District, under cash contract, involving:

- (1) grading complete, including removal of existing improvements;
- (2) 126,450 sq. ft. 8-inch Warrenite bitulithic pave. (2-in. Warrenite wear. surf. on 6-in. conc. base);
- (3) 1856 sq. ft. 6-in. asphalt concrete pave. (4-in. asph. conc. base with 2-in. asph. conc. wearing surface);
- (4) 9011 sq. ft. asphalt conc. pave. (variable thickness, average 4½ inch);
- (5) 10,939 sq. ft. Warrenite bitulithic wearing surf. of variable thickness;
- (6) 22,823 sq. ft. 4-in. rock and oil roadway;
- (7) 1322 sq. ft. 8-in. concrete pave., inc. local depressions;
- (8) 919 ft. unplas. heavy curb;
- (9) 1472 sq. ft. 3-in. concrete walk;
- (10) 508 sq. ft. 8-in. concrete gutter;
- (11) 427 sq. ft. 8-in. comb. gutter;
- (12) ornamental lighting system;
- (13) 4 manholes to be reset.

ROCKWELL FIELD, Cal.—Until 11 A. M., May 11, bids will be received by Constructing Quartermaster, Rockwell Field, Coronado, to construct roads and walks at Rockwell Field. Plans obtainable from above office on deposit of \$10

CONTRA COSTA COUNTY, Calif.—Pacific Truck Service, Inc., 646 Park Ave., San Jose, at \$3475 awarded contract by State Highway Commission to apply 2500 barrels of fuel oil to 19 miles of existing roadbed in Mount Diablo Park between Danville and the Summit and between the Forks and Walnut Creek, as a dust palliative.

SANTA ROSA, Sonoma Co., Cal.—Until May 9, 12 M., to be opened at 1:30 P. M., bids will be received by Geo. P. Sanborn, county clerk, to construct seven miles asphaltic oil surfacing from Salmon Creek to Russian River bridge, 5th Supervisorial District, involving:

- (1) 420 barrels light oil;
- (2) 140 tons heavy oil;
- (3) 1100 tons rock;
- (4) 700 tons screenings.

Specifications obtainable from the above and from County Engineer E. A. Feugh.

MERCED COUNTY, Cal.—Until May 10, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 0.8 mile Merced River bridge approaches, involving:

- (1) 47 sta. clear and grub right-of-way;
 - (2) 19,500 cu. yds. rdwy. excav., unclass.;
 - (3) 360,000 sta. yds. overhaul;
 - (4) 100 cu. yds. struc. excav.;
 - (5) 9460 sq. yds. subgrade for pave.;
 - (6) 2035 cu. yds. Class A Portland cement concrete (pave.);
 - (7) 5 cu. yds. Class A do (struc.);
 - (8) 41,850 lbs. bar reinf. steel (pave. and struc.);
 - (9) 104 lin. ft. 8-in. corru. metal pipe
 - (10) 92 lin. ft. 12-in. do;
 - (11) 50 lin. ft. 18-in. do;
 - (12) 190 bbls. light fuel oil;
 - (13) 670 bbls. heavy fuel oil;
 - (14) 1200 tons untreated crush. stone or gravel surf. (detours);
 - (15) 1250 tons bit. treated crushed gravel or stone (borders);
 - (16) 1800 M. gals. water;
 - (17) 360 cu. yds. conc. remove from existing pave and dispose of;
 - (18) 0.1 mile existing fences remove and dispose of;
 - (19) 24 guide posts complete in place
 - (20) 1406 lin. ft. laminated timber guard rail;
 - (21) 47 sta. finish roadway;
 - (22) 14 monuments complete in place.
- State will furnish corrugated metal pipe and spillways.

SAN FRANCISCO—Until April 26, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, Secretary, to improve Clement St., 40th to 45th Aves., except south half of Clement, 40th to west line 42nd Ave. produced, and except crossing 43rd Ave. and Clement St., involving:

- (1) 18,600 cu. yds. excav.;
 - (2) 60 ft. 8-in. V.C.P. sewer;
 - (3) 860 ft. 12-in. V.C.P. sewer;
 - (4) 40 ft 15-in. do;
 - (5) 11 12x6 Y branches;
 - (6) 3 brick manholes;
 - (7) 175 ft. 6-in. V.C.P. side sewer;
 - (8) 7 brick catchbasins;
 - (9) 2 do., reset;
 - (10) 220 ft. 10-in. V.C.P. culvert;
 - (11) 2056 ft. unarmored concrete curb;
 - (12) 60 ft. concrete curb reset;
 - (13) 1100 sq. ft. 1-course conc. sidewalk;
 - (14) 50 ft. redwood header;
 - (15) 1280 sq. ft. asph. conc. pave., remove and replace;
 - (16) 44,600 sq. ft. asph. conc. pave. 2-in. wearing surf.;
 - (17) 144 ft. armored concrete curb.
- Specifications obtainable from office of John J. Casey, City Engineer, 3rd Floor, City Hall. Estimated cost, \$23,750.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

IRON MOUNTAIN, COXCOMB & COTTONWOOD TUNNELS—MET. WATER DIST.

LOS ANGELES, Calif.—Low bids submitted to the Metropolitan Water District April 17 for constructing the Iron Mountain, Coxcomb and Cottonwood tunnels, were as follows:

Winston Bros. Co., 418 S Pecan St., Los Angeles (represented by J. C. Agnew, vice-president) on the east portion of the Iron Mountain Tunnel, at \$2,143,799, for full capacity, Sched. No. 1, and at \$1,801,442.50 for half capacity, Schedule No. 2. Winston Bros. were also low on both portions of the Coxcomb Tunnel at figures as follows: East Portion, full capacity, Schedule No. 5, \$799,236.05*, and half capacity, Schedule No. 6, at \$661,224.-28*; West Portion, full capacity, Schedule No. 7, at \$825,279.30*, and half capacity, Schedule No. 8, \$684.-\$69.07*.

*Deductions applied as per stipulations.

Utah Const. Co., 1 Montgomery St., San Francisco, on the West Portion of the Iron Mountain Tunnel, at \$1,699,705, for full capacity, Schedule No. 3, and at \$1,388,695 for half capacity, Schedule No. 4.

J. F. Shea Co., Inc., Boulder City, Nev. (represented by Martin Bros., 227 S Bedford Drive, Beverly Hills) submitted low bid on the Cottonwood Tunnel as follows: East Portion, full capacity, Schedule No. 9, at \$915.-978.50; half capacity, Schedule No. 10, at \$761,295; West Portion, full capacity, Schedule No. 11, at \$912,103.50 and half capacity, Schedule No. 12 at \$760.584.

Stipulations made by bidders as to combinations of schedules and awards which they would accept, shown by the proposals, were as follows:

(A) Winston Bros. Co.—For award of Schedules 5 and 7 together or 6 and 8 together, deduct 7% from prices

bid on Individual schedules. For the award of 9 and 11, or 10 and 12, deduct 1½%. Will accept award for any schedules or combination of schedules, the total of which does not exceed \$3,800,000.

(B) Utah Const. Co.—Will accept either as maximum or as minimum: (a) 1 or 2, East Portion Iron Mountain Tunnel; (b) 3 or 4, West Portion Iron Mountain Tunnel; (c) 5 or 6 and 7 or 8, all of Coxcomb Tunnel; (d) 9 or 10 and 11 or 12, all of Cottonwood Tunnel.

(C) J. F. Shea Co., Inc.—Bid based on taking only one of the following 4 contracts: (1) East Portion of Iron Mountain Tunnel; (2) West Portion of Iron Mountain Tunnel; (3) East and West Portions of Cottonwood Tunnels; and (4) East and West Portions of Coxcomb Tunnel. If awards are to be made to this bidder under any stipulated combination, this bidder will take either the East or West Portion of the Cottonwood with either the east or West Portion of the Coxcomb for the additional sum of \$50,000 to be added on the excavation price on bid on either the East or West Portion of Cottonwood. In no case would bidder take one portion of Cottonwood without one portion of the Coxcomb.

(D) Walsh Const. Co., Davenport, Iowa; 904 Chester Williams Bldg., Los Angeles — Based on following: All work under 1 and 3, or 1, 3, 5 and 7; or 1, 3, 9 and 11.

(E) S. S. Magoffin & Co., Adrian, Ore.—Coxcomb Tunnel: Will not accept any schedule of Cottonwood if either or both portions of Coxcomb are not awarded; if entire Coxcomb is awarded, deduct \$2 from item 6, concrete in tunnel in bore. Cottonwood: If entire Cottonwood Tunnel

is awarded, deduct from item (6) \$1 per cu. yd. for either bore. (This in the event no portion of the Coxcomb is awarded to this bidder.)

(F) Lindgren & Swinerton Associates, Pacific Mutual Bldg., Los Angeles (composed of Alta Electric and Mechanical Co., 4670 O'Farrell Street, San Francisco; Lindgren & Swinerton, Inc., and American Bldg. Maintenance Co., San Francisco, and Los Angeles. Will accept one of following: (a) both or none of Cottonwood, 9 and 11 or 10 and 12; (b) both or none of Coxcomb, 5 and 7 or 6 and 8; (c) East Portion Iron Mountain, 1 or 2; (d) West Portion Iron Mountain, 3 or 4; (e) East and West Portion Iron Mountain, 1 and 3 or 2 and 4. If awarded these combined units, under (e), will deduct \$380,000 from combined total of Schedules 1 and 3, and \$200,000 from combined total of Schedules 2 and 4. Bidder reserves right if low on more than one combination to select his choice.

(G) Silas Mason Co., 701 Spring-Arcade Bldg.—(1) Will accept entire Iron Mountain as an award; (2) will accept Iron Mountain and entire Coxcomb as an award; (3) will accept entire Iron Mountain and entire Cottonwood as an award; (4) will accept entire Iron Mountain, entire Coxcomb and entire Cottonwood as an award; (5) will not accept any other awards than the four outlined above.

(H) Hunkin-Conkey Const. Co., Hunkin-Conkey Bldg., East 12th and Walnut Sts., Cleveland, O.—No stipulations.

(I) Hanrahan Co. and T. E. Connolly, San Francisco, and George G. Pollock, Sacramento—No stipulations.

Quantities follow:

SCHEDULE NO. 1

Construction of the East Portion, Iron Mountain Tunnel. Length 23,633 feet. Diameter 16 feet, 0 inches, together with appurtenant works.

NOTE: Schedules 1 and 2 are alternative and both will not be awarded. A proposal under Schedule 1 will not be considered unless the bidder submits a proposal under Schedule 2 also. No bid will be considered for less than all the items of a schedule.

- (1) tunnel access work (lump sum);
- (2) does not apply here;
- (3) 256,000 cu. yds. excav. in tunnel;
- (4) 100 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 66,400 cu. yds. conc. in tunnel;
- (7) 110 M. ft. b.m. furnish and place permanent timbers in tunnel;

- (8) 48 tons erecting steel support in tunnel;

- (9) 100 cu. yds. gunite coating of rock in tunnel;

- (10) 50 connections for grouting;
- (11) 90 cu. yds. mix and place grout;
- (12) 75,000 lbs. place reinf. steel;
- (13) 14,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 1500 ton miles hauling steel;
- (15) 285,000 ton miles hauling cement.

SCHEDULE NO. 2

Construction of the East Portion, Iron Mountain Tunnel. Length 23,633 feet. Diameter 14 feet, 4 inches, together with appurtenant works.

NOTE: Schedules 1 and 2 are alternative and both will not be awarded. A proposal under Schedule 2 will not be considered unless the bidder submits a proposal under Schedule 1 also. No bid will be considered for

less than all the items of a schedule.

- (1) tunnel access work (lump sum);
- (2) does not apply here;
- (3) 163,000 cu. yds. excav. in tunnel;
- (4) 75 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 51,850 cu. yds. conc. in tunnel;
- (7) 60 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 39 tons erect steel support in tunnel;
- (9) 75 cu. yds. gunite coating of rock in tunnel;
- (10) 30 connections for grouting;
- (11) 60 cu. yds. mix and place grout;
- (12) 60,000 lbs. place reinf. steel;
- (13) 11,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 1200 ton miles hauling steel;
- (15) 223,000 ton miles hauling cement.

SCHEDULE NO. 3

Construction of the **West Portion, Iron Mountain Tunnel**, Length, 16,172 feet. Diameter 16 feet, 0 inches, together with appurtenant works.

NOTE: Schedules 3 and 4 are alternative and both will not be awarded. A proposal under Schedule 3 will not be considered unless the bidder submits a proposal under Schedule 4 also. No bid will be considered for less than all the items of a schedule.

- (1) tunnel access work (lump sum);
- (2) does not apply here;
- (3) 180,000 cu. yds. excav. in tunnel;
- (4) 100 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 46,600 cu. yds. concrete in tunnel;
- (7) 550 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 143 tons erect steel support in tunnel;
- (9) 300 cu. yds. gunite coating of rock in tunnel;
- (10) 30 connections for grouting;
- (11) 60 cu. yds. mix and place grout;
- (12) 75,000 lbs. place reinf. steel;
- (13) 10,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 4600 ton miles hauling steel;
- (15) 297,000 ton miles hauling cement.

SCHEDULE NO. 4

Construction of the **West Portion, Iron Mountain Tunnel**, Length, 16,172 feet. Diameter 12 feet, 4 inches, together with appurtenant works.

NOTE: Schedules 3 and 4 are alternative and both will not be awarded. A proposal under Schedule 4 will not be considered unless the bidder submits a proposal under Schedule 3 also. No bid will be considered for less than all the items of a schedule.

- (1) tunnel access work (lump sum);
- (2) does not apply here;
- (3) 116,000 cu. yds. excav. in tunnel;
- (4) 75 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 35,950 cu. yds. conc. in tunnel;
- (7) 290 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 117 tons erecting steel support in tunnel;
- (9) 175 cu. yds. gunite coating of rock in tunnel;
- (10) 0 connections for grouting;
- (11) 40 cu. yds. mix and place grout;
- (12) 60,000 lbs. place reinf. steel;
- (13) 7800 cu. yd. miles overhaul of concrete aggregates;
- (14) 3700 ton miles hauling steel;
- (15) 229,000 ton miles hauling cement.

SCHEDULE NO. 5

Construction of **East Portion, Coxcomb Tunnel**, length 8765 feet. Diameter, 16 feet, 0 inches, together with appurtenant works.

NOTE: Schedules 5 and 6 are alternative and both will not be awarded. A proposal under Schedule 5 will not be considered unless the bidder submits a proposal under Schedule 6 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 13,000 cu. yds. excavation in approach cut;
- (3) 95,000 cu. yds. excav. in tunnel;
- (4) 75 cu. yds. excavation for tunnel enlargement;
- (5) 950 cu. yds. concrete in approach section;
- (6) 24,600 cu. yds. concrete in tunnel;
- (7) 33 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 19 tons erecting steel support in tunnel;
- (9) 75 cu. yds. gunite coating of rock in tunnel;
- (10) 20 connections for grouting;
- (11) 40 cu. yds. mix and place grout;
- (12) 30,000 lbs. place reinf. steel;
- (13) 22,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 1100 ton miles hauling steel;
- (15) 200,000 ton miles hauling cement.

SCHEDULE NO. 6

Construction of **East Portion, Coxcomb Tunnel**, length 8765 feet. Diameter, 12 feet, 4 inches, together with appurtenant works.

NOTE: Schedules 5 and 6 are alternative and both will not be awarded. A proposal under Schedule 6 will not be considered unless the bidder submits a proposal under Schedule 5 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 12,000 cu. yds. excavation in approach cut;
- (3) 61,000 cu. yds. excav. tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) 600 cu. yds. concrete in approach section;
- (6) 19,200 cu. yds. concrete in tunnel;
- (7) 17 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 15 tons erect steel support in tunnel;
- (9) 50 cu. yds. gunite coating of rock in tunnel;
- (10) 15 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 20,000 lbs. place reinf. steel;
- (13) 17,200 cu. yd. mile overhaul of concrete aggregates;
- (14) 810 ton miles hauling steel;
- (15) 156,000 ton miles hauling cement.

SCHEDULE NO. 7

Construction of the **West Portion, Coxcomb Tunnel**, length 8765 feet. Diameter 16 feet, 0 inches, together with appurtenant works.

NOTE: Schedules 7 and 8 are alternative and both will not be awarded. A proposal under Schedule 7 will not be considered unless the bidder submits a proposal under Schedule 8 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 39,000 cu. yds. excav. approach cut;
- (3) 95,000 cu. yds. excav. in tunnel;
- (4) 75 cu. yds. excav. tunnel enlargement;
- (5) 1650 cu. yds. concrete approach section;
- (6) 24,600 cu. yds. concrete in tunnel;
- (7) 33 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 19 tons erect steel support in tunnel;
- (9) 75 cu. yds. gunite coat of rock in tunnel;
- (10) 20 connections for grouting;
- (11) 40 cu. yds. mix and place grout;
- (12) 30,000 lbs. place reinf. steel;
- (13) 6000 cu. yd. miles overhaul concrete aggregate;
- (14) 1400 ton miles hauling steel;
- (15) 261,000 ton mile hauling cement.

SCHEDULE NO. 8

Construction of the **West Portion, Coxcomb Tunnel**, length 8765 feet. Diameter 12 feet, 4 inches, together with appurtenant works.

NOTE: Schedules 7 and 8 are alternative and both will not be awarded. A proposal under Schedule 8 will not be considered unless the bidder submits a proposal under Schedule 7 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 35,000 cu. yds. excav. approach cut;
- (3) 61,000 cu. yds. excavation in tunnel;
- (4) 50 cu. yds. excavation for tunnel enlargement;
- (5) 1200 cu. yds. concrete in approach section;
- (6) 19,200 cu. yds. concrete in tunnel;
- (7) 17 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 15 tons erect steel support in tunnel;
- (9) 50 cu. yds. gunite coat rock in tunnel;
- (10) 15 connections for grouting;

- (11) 25 cu. yds. mix and place grout;
- (12) 20,000 lbs. place reinf. steel;
- (13) 4700 cu. yds. mile overhaul of concrete aggregates;
- (14) 1100 ton mile hauling steel;
- (15) 204,000 ton mile hauling cement.

SCHEDULE NO. 9

Construction of the **East Portion, Cottonwood Tunnel**, length 10,044 ft. Diameter 16 feet 0 inch, together with appurtenant works.

NOTE: Schedules 9 and 10 are alternative and both will not be awarded. A proposal under Schedule 9 will not be considered unless the bidder submits a proposal under Schedule 10 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 16,000 cu. yds. excav. approach cut;
- (3) 108,000 cu. yds. excavation tunnel;
- (4) 75 cu. yds. excavation for tunnel enlargement;
- (5) 1200 cu. yds. concrete for approach section;
- (6) 28,200 cu. yds. concrete in tunnel;
- (7) 50 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erecting steel support in tunnel;
- (9) 50 cu. yds. gunite coat of rock in tunnel;
- (10) 25 connections for grouting;
- (11) 50 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinf. steel;
- (13) 7000 cu. yds. mile overhaul concrete aggregate;
- (14) 760 ton mile haul steel;
- (15) 160,000 ton mile hauling cement.

SCHEDULE NO. 10

Construction of the **East Portion, Cottonwood Tunnel**, length 10,044 ft. Diameter 12 feet, 4 inches, together with appurtenant works.

NOTE: Schedules 9 and 10 are alternative and both will not be awarded. A proposal under Schedule 10 will not be considered unless the bidder submits a proposal under Schedule 9 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 14,000 cu. yds. excav. approach cut;
- (3) 70,000 cu. yds. excavation in tunnel;
- (4) 50 cu. yds. excavation for tunnel enlargement;
- (5) 750 cu. yds. concrete approach section;
- (6) 22,000 cu. yds. concrete in tunnel;
- (7) 27 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 8 tons erecting steel support in tunnel;
- (9) 35 cu. yds. gunite coat of rock in tunnel;
- (10) 15 connections for grouting;
- (11) 35 cu. yds. mix and place grout;
- (12) 35,000 lbs. place reinf. steel;
- (13) 5500 cu. yds. mile overhaul concrete aggregates;
- (14) 550 ton mile haul steel;
- (15) 125,000 ton mile hauling cement.

SCHEDULE NO. 11

Construction of the **West Portion, Cottonwood Tunnel**, length 10,044 ft. diameter 16 feet, 0 inch, together with appurtenant works.

NOTE: Schedules 11 and 12 are alternative and both will not be awarded. A proposal under Schedule 11 will not be considered unless the bidder submits a proposal under Schedule 12 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 16,000 cu. yds. excava. for approach cut;
- (3) 108,000 cu. yds. excav. in tunnel;
- (4) 75 cu. yds. excav. for tunnel enlargement
- (5) 1400 cu. yds. concrete for approach section;
- (6) 28,200 cu. yds. concrete in tunnel;

- (7) 50 M. ft. h.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erecting steel support in tunnel;
- (9) 50 cu. yds. gunite coat rock in tunnel;
- (10) 25 connections for grouting;
- (11) 50 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinf. steel;
- (13) 7000 cu. yds. mile overhaul concrete aggregate;
- (14) 610 ton mile haul steel;
- (15) 128,000 ton mile haul cement.

SCHEDULE NO. 12

Construction of the West Portion, Cottonwood Tunnel, length 10,044 ft., diameter 12 feet, 4 inches, together with appurtenant works.

NOTE: Schedules 11 and 12 are alternative and both will not be awarded. A proposal under Schedule 12 will not be considered unless the bidder submits a proposal under Schedule 11 also. No bid will be considered for less than all the items of a schedule.

- (1) does not apply here;
- (2) 14,000 cu. yds. excav. approach cut
- (3) 70,000 cu. yds. excavation in tunnel;
- (4) 50 cu. yds. excavation for tunnel enlargement;
- (5) 900 cu. yds. concrete approach section;
- (6) 22,000 cu. yds. concrete in tunnel;
- (7) 27 M. ft. h.m. furnish and place permanent timbers in tunnel;
- (8) 8 tons erecting steel support in tunnel;
- (9) 25 cu. yds. gunite coat rock in tunnel;
- (10) 15 connections for grouting;
- (11) 35 cu. yds. mix and place grout;
- (12) 25,000 lbs. place reinf. steel;
- (13) 5500 cu. yds. mile overhaul concrete aggregate;
- (14) 440 ton mile haul steel;
- (15) 100,000 ton mile haul cement.

MARTINEZ, Contra Costa Co., Cal.—Ferd Stann, Antioch, at \$3579.05 awarded contract by county supervisors to construct reinforced concrete culvert under spill on Poad D-17, Supervisor's District No. 4, about 2.5 mi.

southwest of Antioch, involving:

- (1) 241 cu. yds. concrete;
 - (2) 37,498 lbs. reinf. steel.
- Complete bids follow:
- (A) Ferd Stann, Antioch\$3579.05

Finish Tough Jobs On Time

Any sort of equipment *may* serve when the going's easy, but it's on the tough jobs that Le Tourneau equipment is making its hundreds of new friends every month — the jobs that couldn't be done by other methods, the jobs that contractors couldn't finish on time by other means.

Le Tourneau Equipment has saved many a penalty, turned many a losing job into a profit-maker. Read the letter; see what it did for Fredrickson & Watson. It can do as much or more for you.

No. 15

NEW JAIL BIDS ARE CALLED BY S. F. WORKS BD.

Reject Original Proposals As
Excessive; Set May 5
For Opening

Acting on the last day on which an award could be made the San Francisco board of public works yesterday voted to reject all bids received April 12 for the new San Francisco county jail. New proposals will be received May 5.

Anderson & Ringrose, San Francisco, had submitted the low bid at \$403,988, exceeding by approximately \$38,000 the estimated cost.

The bids have been held under advisement for two weeks while the board studied the possibility of awarding the contract less certain alternates and readvertising a portion of the work. This plan was abandoned after conferences with the city attorney.

BRIDGE BOND SALE APPROVED BY COURT

Legality of the sale of bonds of the Golden Gate Bridge District at a price to yield more than 5 per cent has been upheld in a decision of the state supreme court.

The ruling clears the way for sale of all the bonds authorized and assures continued financing for the project, directors said. The test case was created by refusal of William P. Filmer and W. W. Felt, Jr., president and secretary of the board, to sign a block of \$200,000 worth of bonds on which a bid had been received that would increase the interest rate to 5¼ per cent.

The bonds bear a coupon interest rate of 4¾ per cent but the sale, below face value, would make the actual yield 5¼ per cent. The authorization of voters of the district was that the interest rate on the \$35,000,000 bond issue should not exceed 5 per cent.

In its decision the court held that the provision of the authorization limiting the interest rate to 5 per cent must be held to apply to the coupon rate—not to the possible yield in the event the bonds should be sold below par. Chief Justice Wm. H. Waste wrote the opinion.

THE WEEK'S NEWS Highlights

BRIDGE AWARDS. Award of six major contracts on the San Francisco-Oakland bay crossing was approved by the California Toll Bridge Authority following sale of \$62,050,000 worth of revenue bonds, which will finance the project. Awards total \$36,841,315.48. Construction is to be started within 60 days.

JAIL BIDS. San Francisco Board of Public Works voted to reject all bids received on the new county jail as excessive. New bids will be received at 11:30 a. m., May 5, on the general contract and separate bids on equipment; bids on mechanical and electrical work will be opened at 2:30 p. m., May 3, as previously advertised.

PLAN POWER LINE. Los Angeles Power and Light Department is completing plans for the 271-mile transmission line that will carry electric power from the Boulder Dam to the metropolitan area. Reconstruction Finance Corporation has authorized loan of \$22,000,000 to finance it. Bids probably will be taken on alternate copper and aluminum specifications for 13,500 tons of wire to be used.

REVENUE BONDS. Financing for many municipal and district waterworks and sewage projects would be expedited by adoption of the revenue bond enabling act, which has been approved by the Assembly. The act faces a fight in the Senate, however, by private financial interests, which contend it would extend the bonding authority of political subdivisions to a point that might increase burdens of the taxpayer.

R. F. C. CONFIRMS BAY BRIDGE BOND SALE AGREEMENT

Telegram Advises Governor
Securities to \$61,400,000
Will Be Purchased

SACRAMENTO, April 27.—The largest transaction to take place in the United States today was consummated here when the Reconstruction Finance Corporation this afternoon fulfilled its contract to purchase San Francisco-Oakland Pay Bridge bonds of the California Toll Bridge Authority in an amount not to exceed "\$61,400,000."

The bid was in the form of a telegram to Governor James Rolph, Jr., Chairman of the California Toll Bridge Authority, from Harry A. Mulligan, Treasurer of the Reconstruction Finance Corporation. Bids on this block of bonds, and the \$650,000 worth of bridge bonds, were received by State Director of Public Works, Earl Lee Kelly.

A syndicate of San Francisco banks, consisting of the Bank of California, American Trust Company, Crocker First National Bank, the Wells Fargo and Union Trust Co., the Anglo-California Bank, and the Bank of America, was sold the \$650,000 worth of Series A bridge bonds, each bank taking \$108,000 worth except the Bank of America, which took \$110,000 worth of the bonds.

At two o'clock State Director of Public Works Kelly announced that bids would be received for the \$650,000 worth of bridge bonds, this money to be used to repay the State of California for the preliminary engineering costs of the bridge. Harry Erskine, representing the syndicate of San Francisco banks, presented a contract offering to purchase the bonds.

At two-thirty o'clock Director Kelly received a telegram, addressed to Governor Rolph from the Reconstruction Finance Corporation, offering to purchase the \$61,400,000 block of bonds at face value and to forward the money for the same as it was needed for structural purposes.

A meeting of the California Toll Bridge Authority was immediately called by Governor Rolph and it was unanimously voted to accept those bids for these bonds, and the largest single sale in the United States today was consummated.

NEW ORDINANCE FOR INSPECTION NOW EFFECTIVE

Penalties Fixed for Failure to Obtain Appliance Permit

Heavy penalties are provided for evasion of the new boiler and steam pressure inspection ordinance, recently enacted by the San Francisco board of supervisors, according to S. J. Rosenblum, chief clerk of the Central Permit Bureau.

The fees specified in the ordinance are increased 500 percent in each instance if appliances are installed without complying with the new act. Applications for boiler inspection prior to the installation and operation of any pressure vessel must be filed at the Central Permit Bureau, Room 267, City Hall.

The fee scale is as follows:

- (1) For high-pressure fire-tube boilers:
 - Dia. of 12-in. or less.....\$ 2.00
 - Dia. of more than 12-in., but less than 20-in. 5.00
 - Dia. of 20-in. or more, but less than 42-in. 7.00
 - Dia. of 42-in. or more..... 10.00
- (2) For high-pressure water-tube boilers:
 - Less than 300 sq. ft. of heating surface 8.00
 - Single drum, 300 sq. ft. or more but less than 5000 sq. ft. of heating surface 14.00
 - More than one drum, 300 sq. ft. or more, but less than 5000 sq. ft. of heating surf..... 20.00
 - 5000 sq. ft. or more of heating surface 100.00
- (3) For low-pressure steam boilers 4.00
- (4) For direct-fired hot-water heaters 4.00
- (5) For indirect-heated hot-water tanks:
 - Capacity of 100 gals. or less..... 3.00
 - Capacity of more than 100 gals. but less than 250 gals..... 4.00
 - Capacity of 250 gals. or more.... 5.00
- (6) For pressure tanks:
 - Dia. of 36-in. or less..... 3.00
 - Dia. of more than 36-in..... 5.00

CONTRACTOR IS NEW BAKERSFIELD MANAGER

Fred W. Nighbert, Bakersfield road contractor, has been appointed city manager of Bakersfield to succeed W. D. Clarke who was removed by a vote of the new city council. Clarke was city engineer for eight years prior to becoming city manager.

Nighbert served as street inspector for the city in 1915, later leaving the city service to engage in private business as a contractor.

CONTRACTORS SUED FOR CROP DAMAGE

Two suits seeking a total of \$6,700 as damages to fruit crops resulting from dust that covered the crops during construction of the new highway link between Fairfield and Cordelia have been filed in Solano county superior court.

The actions are brought by Wm. L. Russell and Mr. and Mrs. J. N. Valine. Defendants in the suit are the contractors, D. McDonald and N. M. Ball.

Russell seeks a total of \$3,000 in damages while Mr. and Mrs. J. N. Valine ask \$3,700.

Both suits contend that between May 4, 1932, and November 22, 1932, defendants constructed a paved highway over lands adjacent to the property of plaintiffs. It is charged that during construction of the highway great volumes of dust were caused to rise in the air and that the contractors failed to wet the ground to prevent this dust or to take any precautions. Clouds of dust were daily carried by the winds to the adjoining property, it is charged, where it settled upon the trees and fruit, causing the fruit to be of inferior quality and rendering it unmarketable except at greatly reduced prices.

The suits also charge that the dust damaged the growth of the trees and set back the growth and development of the leaves and buds.

LeTOURNEAU REPORTS SALE OF 22 UNITS

Shipment of 14 grading tools and 8 power control units in one week is reported by R. G. LeTourneau, Stockton, manufacturer of heavy grading equipment.

The following orders were included in the week's business:

S. H. Palmer & J. P. Holland, Inc., Los Angeles—1 bulldozer and 1 power unit.

McKinley & Page, Los Angeles—1 Carry-all Scraper on rubber tires, 1 bulldozer, 1 rooter, 1 power control unit.

Bake & Taylor, Sacramento—2 Carryall Scrapers on rubber tires, 1 rooter.

George French, Jr., Los Angeles—1 bulldozer, 1 power control unit.

G. W. Wood, Los Angeles—2 Carry-all Scrapers on rubber tires, 2 power control units.

Ralph Davis, Lewiston, Idaho.—1 bulldozer, 1 rooter, 1 power control unit.

James Tobin & Sons, Lewiston, Idaho.—1 Carry-all Scraper on rubber tires, 1 power control unit.

Fredrickson & Watson, Los Angeles.—7-yard Scraper on rubber tires with sheepfoot roller attached, 1 power control unit.

ORDERS DECLINE DURING WEEK AT WESTERN MILLS

New Business and Shipments Still Lead Current Production

A total of 252 down and operating mills which reported to the West Coast Lumbermen's Association for the week ending April 15 produced 62,505,446 board feet of lumber. This was a decrease of 857,791 feet or 1.4 per cent under their cut in the preceding week. The average week's production of this group of sawmills in 1933 has been 57,172,322 feet; during the same period of 1932, their weekly average was 65,930,604.

The new business reported last week by 179 mills was 58,831,260 board feet against a production of 57,666,255 feet and shipments of 63,410,085 feet. Their shipments were over their production by 9.9 per cent and their current sales were over production by 2.0 per cent. The orders booked last week by this group of identical mills were less than their orders of the preceding week by 7,914,065 feet, or 12 per cent.

Details of orders and shipments as reported by these 179 mills are:

Rail	19,474,803	20,036,613
Domestic	22,441,076	23,173,607
Export	11,353,419	14,637,903
Local	5,561,962	5,561,962
	58,831,260	63,410,085

The unfilled order file at these mills stood at 261,791,007 board feet a decrease of 9,664,199 feet from the week before.

The aggregate inventories of 130 mills are 16.2 per cent less than at this time last year.

NAPA EXCHANGE ELECTS OFFICERS

Thomas Jessiman has been elected president of the Napa County Builders' Exchange for the new year. Other new officers are Chas. Hansen, vice-president and William Nonel, treasurer.

Frank Pond, a charter member of the Exchange was honored with election to a life membership announced at the semi-annual banquet held in Napa last Tuesday.

Mano Zann was the speaker of the evening, describing the activities of the State Builders Exchange in behalf of the construction industry at the present legislature.

MATERIAL PRICE INDEX STEADY BUREAU REPORTS

Lumber and Paint Gain; Slight Change in Other Groups

Lumber and paint were among the building material groups to show an increase in wholesale prices from February to March, according to the monthly index of commodity prices compiled by the Bureau of Labor Statistics.

Brick and tile and other building materials moved downward slightly, while structural steel and cement showed no change between the two months. The group as a whole recorded an increase of seven-tenths of one percent.

Metals and metal products showed a further downward tendency for March due to declining prices for iron and steel. Non-ferrous metals increased and plumbing and heating fixtures showed no change.

The index number of wholesale commodity prices including all groups registered the first advance since September, 1932.

Following are the comparative indices for various classes of articles under the metal and building commodity groups:

	Mar. '32	Feb. '33	Mar. '33
Metals & metal prod.....	80.8	77.4	77.2
Agri. implements	85.0	83.1	83.1
Iron and steel	79.7	77.3	76.4
Motor vehicles	95.3	90.9	90.9
Nonferrous metals	50.5	46.2	47.9
Plumbing & heating.....	64.4	59.4	59.4
Building materials	73.2	69.8	70.3
Brick and tile.....	79.3	75.1	74.9
Cement	75.0	81.8	81.8
Lumber	61.5	56.4	57.8
Paint and paint mtl.....	75.4	68.0	68.4
Plumbing & heating.....	64.4	59.4	59.4
Structural steel	79.7	81.7	81.7
Other bldg. m'terials.....	80.6	78.5	78.4

PALO ALTO BOND ISSUE PROPOSED

A proposed bond issue of \$90,000 will be submitted to the voters of Palo Alto at the municipal election on May 9. The funds, if voted, are to be used in financing a sewage disposal system, including construction of a treating plant.

10,000 DISHPANS AID DAM CONSTRUCTION

The canyon of the Colorado about the Hoover Dam is brilliantly illuminated at night by thousands of electric lights which are ably backed up by a great brigade of dishpans, reports the "Reclamation Era." It appears that these lamps are subjected to a variety of hard experiences and to keep them supplied with reflectors which are ordinarily made use of for this purpose would be a very expensive proposition by reason of the frequent breakage. A bright new dishpan was experimented with for this service and the results were found to be so satisfactory that they were adopted all over the site. Ten thousand dishpans were ordered for this purpose.

STEEL PROTEST IS WITHDRAWN

Gate Bridge Directors Will Make Progress Payment To McClintic-Marshall

Golden Gate bridge district directors yesterday decided to withdraw demands that the McClintic-Marshall Corp. fabricate steel for the bridge in San Francisco.

The directors at a meeting last week voted to withhold a progress payment of \$96,000 due on the steel contract until a promise was obtained from the company that the work would be done at the San Francisco plant in preference to Alameda.

James Reed, general manager for the district, is now in the east to confer with the company officials.

The bridge directors were notified yesterday that the first shipment of 300 tons of cement in bulk will be sent to the Marin pier site today by Pacific Portland Cement Company and Pacific Coast Aggregates.

An arbitration committee is to be appointed for settlement of labor disputes on the bridge construction, directors decided.

STATE REALTY MORATORIUM IS HELD INVALID

Los Angeles Jurist Declares Act to Prevent Foreclosure Unconstitutional

In an opinion delivered on the action of an investment company to gain possession of an apartment house from a property owner, Superior Judge Emmet H. Wilson of Los Angeles county has held that the state moratorium act, postponing sales under mortgage and trust deed foreclosures, was unconstitutional.

In the case, Continental Bond & Investment Company against Harry Epstein and others, the defendants were asserted to have failed to pay a trust deed on certain property and a notice of sale was given before the adoption of the emergency act last March 10.

The act prohibited sales for a period of 60 days but the plaintiff bought the property at a trustee's sale on March 17, filed an action to recover possession of it, and made a motion for the appointment of a receiver.

Although the trust deed on the property provided that it might be sold at such time as fixed in the notice of sale and possession of it must be surrendered immediately after the sale, the defendants resisted the appointment of a receiver, basing their stand on the provisions of the moratorium act.

Judge Wilson, holding the act in violation of the constitution of the United States and the California constitution, ruled that the maker of the trust deed was bound by all of the provisions in it and that the act impaired the obligation of the contract, which was executed before passage of the moratorium.

L. A. EXCHANGE REORGANIZES TO MEET NEW TREND

Adopts Constitution Abandoning Traditional Plan of Membership

Breaking away from traditions to which it has held tenaciously ever since its organization the Builders' Exchange of Los Angeles has adopted a plan of reorganization which it is believed will be more nearly in line with present trends in the building industry and better adapted to the demands of a metropolitan area.

Heretofore the basic plan of the Exchange has been individual memberships divided into groups classified according to the branches of the industry with which they were identified. Under this new set-up there will be an individual membership as heretofore, consisting of individuals, firms or corporations. The fundamental change lies in the provision for group memberships open to bona fide associations which desire to retain their individuality and at the same time enjoy the benefits of affiliation with a central organization representative of all branches of the building industry.

The amended constitution provides that the membership shall consist of two classes as follows:

(1) Group memberships, open to bona fide organizations of any branch or craft of the construction industry, architects and engineers, or any allied industry or interest.

(2) Individual memberships, open to any individual, firm or corporation engaged in construction or any of its branches or allied industries.

Group members shall have complete autonomy in all matters directly affecting the interests of their particular group and shall have full control of their individual organizations, electing their own officers and selecting their own headquarters and place of meeting.

Individual members shall comprise a general unclassified group and shall be recognized as such in the Exchange organization.

Members of organized groups and individual members shall have equal privileges in the Exchange and free access to all facilities which it may provide for the use or benefit of its members.

The administrative body of the Exchange under the reorganization will be a Board of Governors consisting of representatives selected by the group members and by the general unclassified group (individual members). Each group member shall be entitled to two representatives on the board and the general unclassified group shall be entitled to five representatives. Each group shall propose and elect its own representatives to serve each for a term of two years, but with terms staggered so that only half the members of the board

AWARD CONTRACTS ON S. JOSE ARMORY

SACRAMENTO, April 24.—Contracts were awarded today for construction of the San Jose Armory. All awards were made to low bidders, the general contract to William Spivock, San Francisco, at \$33,565; plumbing and heating to William Serpa, San Jose, at \$2,923; electrical to Coast Electric Service, San Jose, at \$1,238.

The structure is to be of reinforced concrete, one and two stories. It will include a drill hall with a seating capacity of 1,500.

Plans were drawn by State Architect George B. McDougall.

shall retire in any one year. No method is prescribed for the selection of representatives, that being left entirely to the group members, or the unclassified group to determine for themselves. This will forestall any complaint that the Exchange is controlled or dominated by any particular group or clique.

The Board of Governors shall elect the officers of the Exchange, each to serve for one year, from among its own members. These will consist, as heretofore, of a president and two vice-presidents, and an executive secretary, to be appointed by the board. The retiring president will automatically become a member of the board ex-officio and treasurer of the Exchange. The Board of Governors will transact all business appertaining to the maintenance and management of the organization. It shall have power to consider any subject or matter affecting the general welfare of the construction industry and to arrange for and maintain such activities as may be deemed necessary for best interests of and for the benefit of all members of the Exchange. Any action taken by the board shall, on request of any group, be referred to all groups for approval before becoming effective and binding, and such approval shall be unanimous.

All applications for membership shall be passed upon by the Board of Governors.

Another innovation in the reorganization of the Exchange will be the budgeting of expenses. This budget will be made up at least ten days before the second Tuesday of September of each year on which date the Board of Governors to serve for the fiscal year will meet and organize. The budget will be based upon a conservative estimate of revenues for the succeeding year. Under no circumstances will the Board of Governors incur any liability in excess of possible revenues.

After adopting the new constitution and by-laws the Exchange voted to continue the present board of directors in control of its affairs until such time as it may be feasible to set up the new organization in conformity thereto.

MATERIAL FIRMS HOLD FINANCIAL POSITION IN 1932

National Manufacturers Report Satisfactory Condition at End of Year

Leading distributors of building materials and equipment are maintaining a satisfactory financial position despite the general decline in business, it is indicated in the annual reports of three national companies.

At the close of the past year American Radiator had working capital of \$44,314,000 against \$56,297,000 at the end of 1931; Johns-Manville, \$9,039,000 against \$10,659,000, and United States Gypsum, \$17,467,000 against \$16,981,000. Analysts point out that the positions of these companies were maintained in the face of a 90 percent drop in residential building since 1928.

Both American Radiator and Johns-Manville reported that their sales fell in 1932 to only one-third of totals in 1929. By attacking operating expenses vigorously, both these companies were able to keep their losses down to moderate proportions. The Gypsum company, by an even greater assault on operating costs, was able to show a profit of 99 cents a common share for 1932 compared with a profit of \$2.48 a share in the preceding year.

24—ST. LIGHT. SYSTEMS

WASHINGTON, D. C.—Until May 9, 11 A. M., bids will be received by Public Works Officer, Eleventh Naval District, Foot of Broadway, San Diego, for improvement for night flying seaplane operations at the Naval Operating Base (Air Station) San Diego, Calif. Specification No. 7118.

The work consists of a lighting system for the station pier, a lighting system for landing area adjacent to Buildings Nos. 29 and 68 and two flood light stations with timber shelters and auxiliary equipment. The work will include in general the following: (a) For Pier—the furnishing and installing of 10 new light standards, the modifying of five existing light standards and relocating three of the standards, also the furnishing and installing of control panel board and cabinet, fuse boxes, conduit, wire, cables, etc. (b) For area adjacent to buildings 29 and 68—the furnishing and installing of 12 floodlights, two control panel boards and cabinets, conduits, wire, etc. (c) The furnishing and installing of two flood lights, with timber shelters, manholes, conduits, cables and auxiliary equipment.

Bidding data available from above and from Bureau of Yards and Docks, Navy Department, Washington, D. C., upon deposit of \$10.

25—MACHINERY AND EQUIPMENT

PHOENIX, Ariz.—Until May 10, 4 P. M., bids will be received by Dr. A. J. Wheeler, Supt., Phoenix Indian

Sanatorium, 1550 E Indian School Rd., Phoenix, to furnish one power pipe machine for cutting and threading ½ to 2-in. pipe, equipped with ½-h.p. ball bearing Universal motor; oil pump.

26—RAILROADS

LOS ANGELES, Cal.—Construction of the uncompleted portion of the harbor cutoff of the Santa Fe Railway will proceed shortly following an agreement between the harbor department and the railway company. The cost will be borne jointly by the two parties. The rail line, which is about 13,000 ft. in length, will cost \$625,000. It will extend from Weston St. in the Watson refinery district, south under Anaheim viaduct, thence west to connect with the harbor belt line at McFarland Ave., Wilmington. The new work is to be completed in the fall.

DENVER, Colo.—U. S. Bureau of Reclamation, Custom House, Denver, studying freight car transfer cradle for taking loaded freight cars from the U. S. construction railroad on the rim of Boulder canyon down into the canyon by means of the 150-ton capacity cableway to the Hoover dam site. From the cableway landing a railroad will extend into the power plant.

LUALUALEI, T. H.—H. K. Porter Co., Pittsburgh, Pa., submitted low bid to Bureau of Supplies & Accounts Navy Department, on April 18 at \$38,088, \$41,014, \$38,274 and \$39,670 to furnish two switching locomotives and spares for Lualualei and West Loch, T. H.; Schedule 9790, Y. & D., Lot 69.

LUALUALEI, T. H.—Koppel Industrial Car & Equipment Co., Koppel, Pa., submitted low bid to Bureau of Supplies and Accounts, Navy Department, on April 18, at \$14,688, to furnish eight railway cars for Lualualei and West Loch, T. H.; Schedule 9861, Y. & D., Lot 228.

30—RESERVOIRS & DAMS

PITTSBURG, Contra Costa Co., Cal.—Shell Chemical Co., Pittsburg, is taking estimates from a selected list of contractors to dredge 4500 ft. of canal and construct 2500 ft. pipe line to carry river water to a pumping station near the plant. Ewald Pyzel, Superintendent.

SAN FRANCISCO — Constructing Quartermaster, Fort Mason, will ask bids in about two weeks for a 16- or 18-inch double case well at Lobos Creek. Work involves electric motor pump, etc.

PASADENA, Cal.—Samuel F. Morris, Chief Engineer Water Department, preparing plans for enlargement of Sunset Reservoir on Mountain Street in preparation for the proposed conduit line to be built between Pine Canyon Dam and city. Present plans call for increasing the capacity of the reservoir from 5,000,000 gallons to 10,000,000 gallons. Water aeration and purification equipment will be included. The pipe line will be approximately 95,000 lin. ft. of probably 40-in. welded steel pipe with 1800 ft. of concrete pipe, the latter to be laid within city.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

PASADENA, Los Angeles Co., Cal.—Samuel B. Morris, Chief Engineer, Water Department, is preparing specifications for three drum gates for the Pine Canyon Dam. Bids will be called in about two months. The proposed gates will be of the downstream hinge type, each 70 feet in length by 18 ft. high, with automatic control. The equipment will weigh approximately 1,000,000 lbs. The contract will be for fabrication only, as installation will be part of the general contractor's contract.

LOS ANGELES, Calif.—Chicago Bridge & Iron Works, at \$3195 each, total \$9585, low on riveted tank type reservoir, April 26, bids submitted to Metropolitan Water District, Los Angeles, to construct three 300,000-gal. water reservoirs on the construction supply line of the Colorado River Aqueduct. Western Pipe & Steel Co., Los Angeles, second low at \$3360 ea.; \$10,080 total.

Western Pipe & Steel Co. low at \$3175 each for bolted tank type; Consolidated Steel Corp., Los Angeles, second at \$3274 each.

Alex D. Chalmers and Max Winters, Jr., 2925 Knox Ave., Los Angeles, submitted only bid on Gunited type reservoirs: \$1.42 cu. yd. for excavation; \$1.10 cu. ft. for Gunitite lining; roofs \$880 each; total \$10,090.

32—SEWERS & SEWAGE DISPOSAL PLANTS

PALO ALTO, Santa Clara Co., Cal.—Proposed sewage system, for which \$90,000 bond election will be held May 9, will involve pumping and preliminary treatment plant pipe line connecting with the Mayfield outfall and the new South Oregon Ave. tract sewers; intercepting sewer along Arroyo Road; and pipe carrying treated sewage to the Bay. The Stanford sewer line would enter the intercepting sewer on Arroyo Road. J. F. Byxbee, Jr., city engineer.

LOS ANGELES, Cal.—Merritt Chapman & Scott Corp., 720 Wilmington Road, San Pedro, awarded contract by board of public works April 19 at \$62,972 (based on the use of vitrified and cast iron pipe, Total 1), to construct sewer crossing the main ship channel bet. Harbor Blvd. and a point north of Terminal Way, in the San Pedro District, under cash contract.

33—WATER WORKS

PITTSBURG, Contra Costa Co., Cal.—City contemplates augmenting water supply by diversion from Marsh Creek, involving construction as follows:

Diversion dam;
2200-ft. tunnel;
Open ditch or conduit, 4500-ft.;
2,000,000-gal. capacity reservoir;
2,000,000-gal. capacity reservoir;

Also an auxiliary supply from the main ditches of the East Contra Costa County Irrigation District, to be pumped into same reservoir, involving:

40,000-ft. pipe line, 20-in. dia.;
Filtration plant, 3,000,000-gal. daily capacity;

Also a 1,000,000-gal. storage at filtration plant, including a pipe line (about 3 miles long) from plant to Pittsburg mains.

Estimated cost, \$750,000. E. L. O'Hara, Antioch City Engineer and C. C. Kennedy, Call Bldg., San Francisco, are preparing the plans. Project will be financed by a bond issue of a water district which will be formed; bonds will probably be purchased by the Reconstruction Finance Corporation.

LOS ANGELES, Cal.—General Elec. Supply Corp., awarded contract by A. J. Holm, City Purchasing Agent, April 21, at \$3722 (estimated total), for furnishing Water and Power Department with galvanized steel conduit under Specifications No. 3049. The bids were opened April 12.

SONOMA, Sonoma Co., Calif.—City council instructs engineers to prepare plans for construction of municipal water system, and bids will be called about May 12, to be opened about June 2. Project involves:

2 wells, 200-ft. or more deep, 250-gpm. capacity;
2 electric pumps;
400,000-gals. reinf. conc. reservoir at W First St., involving 800 lbs. reinforcing steel and 150 cu. yds. concrete;

Pump house;

Work shop.

Project will include 265 services with meter connections; hydrants will remain as they are and will be reconnected.

Estimated cost, \$33,000. Hussey & Belcher, Syndicate Bldg. Oakland, engineers on the project.

CALIFORNIA STATE.—The proposed \$160,000,000 program for state water conservation is before the state senate for action. Assembly constitutional amendment No. 18 has been adopted by the assembly and will put in motion the general plan for constructing the proposed works involved. The amendment will have to be adopted at the next general election and a \$160,000,000 bond issue voted. The project involves:

Kennett Dam, Shasta County, capacity 2,000,000 acre feet, to impound the flood waters of the Sacramento river; cost, \$84,000,000.

Friant Dam, to impound the waters of the San Joaquin river, \$15,000.

Diversion of water from the Sacramento river to the San Joaquin river, involving pumps and canals, at an estimated cost of \$15,000,000.

ALHAMBRA, Los Angeles Co., Cal.—The amount of the proposed water bond issue, to be voted on June 6, has been changed by city commission from \$500,000, as originally planned, to \$340,000. It is believed this amount will be sufficient to cover the proposed development of the Rion Hondo property.

LOS ANGELES, Calif.—Associated Piping & Engr. Co. awarded contract by Saul A. Joseph, Purchasing Agent, Metropolitan Water District, April 20 at \$2087.74, to furnish valves and nipples under Bid No. 9194. All bids were identical at \$2174.65 except Santa Fe Pipe & Supply Co., at \$3192.31.

Crane Co., Oil Well Supply Co., National Supply Co., Republic Supply Co., M. O. Haldeman, L. A. Valve & Fitting Co., Hacker Pipe & Supply Co., Frick Reid Supply Co., Warren & Bailey, Rensselaer Valve Co., Griffith Pipe & Supply Co., Petroleum Equip. Co., Familian Pipe & Supply Co., Calif. Pipe & Supply Co., Ducommun Hardware Co., Grinnel Co., Kennedy Valve Mfg. Co., Kelly Pipe Co., Midwest Piping & Supply Co., Goddard-Jackson Co.

LOS ANGELES, Cal.—Merritt Chapman & Scott Corp. awarded contract by A. J. Holm, City Purchasing Agent, April 20, at \$5000 (estimated total), for repairing 12-in. Metropolitan type joint cast iron water pipe line in Los Angeles Harbor under Spec. No. 3053. The bids were opened April 14.

CALEXICO, Imperial Co., Calif.—New specifications to furnish pump-

ing equipment for water department will be prepared by city engineer. The new specifications were deemed necessary by the council as the manufacturers reported that they could not meet the specifications as previously drawn.

BRENTWOOD, Contra Costa Co., Calif.—As previously reported, until May 9, 2 P. M., bids will be received by East Contra Costa Irrigation District, Brentwood, Margaret Wallace, secretary, to replace present electric motors on pumps and appurtenant equipment with natural gas engines, under two plans of financing: (a) district to finance project; (b) manufacturer to finance project and to be repaid in five equal annual installments. Project involves:

Four 7.5-hp. units for driving priming compressors, hydraulic valve control equipment;

Three 5-hp. units, do;

Small engine to operate the present pump priming compressor;

Gas meter for each unit.

Further specifications, etc., obtainable from above office.

SAN FRANCISCO.—G. W. Williams Co., Ltd., 315 Primrose Road, Burlingame, at \$22,590.50 awarded contract by Public Utilities Commission to construct the Crystal Springs Pumping Station extension, San Francisco Water Department Contract No. 32.

35—TUNNELS

LOS ANGELES, Cal.—The board of directors of the Metropolitan Water District, upon the recommendation of F. E. Weymouth, Chief Engineer and General Manager, at the board meeting April 21, decided that in the future bids for tunnel construction would be taken only on specifications for full capacity tunnels. The department will probably issue a formal statement later.

LOS ANGELES, Cal.—Until 10 A. M., June 12, bids will be received by the Metropolitan Water District, 306 W 3rd St., Los Angeles, for constructing the Colorado River, Copper Basin, Whipple Mountain and White-water Tunnels and appurtenant works of the Colorado River Aqueduct, in accordance with plans and specifications which may be obtained about May 1 at Room 1004, 306 W 3rd St., or at the district's office. Bidding, upon payment of \$5 per set, which sum will not be returned.

The call for bids issued April 17, calling for alternative proposals on full-capacity and half-capacity tunnels has been withdrawn and the present advertisement on full-capacity only substituted.

The first three tunnels are located in the Whipple Mountains, San Bernardino County, 17 to 25 miles northeast of the station of Vidal, on the A. T. & S. F. Ry., and 8 to 14 miles northeast of Parker, Ariz.; the White-water tunnels are located about 14 miles east of Banning, Riverside Co. The locations along the aqueduct center line are as follows: Colorado River Tunnel Sta. 10 plus 40 to Sta. 66 plus 80; Copper Basin No. 1, Sta. 180 plus 50 to Sta. 188 plus 00; Copper Basin No. 2, Sta. 192 plus 00 to Sta. 308 plus 00; Whipple Mountain Sta. 352 plus 70 to Sta. 674 plus 60; White-water No. 1, Sta. 9661 plus 80 to Sta. 9681 plus 50; White-water No. 2, Sta. 9707 plus 00 to Sta. 9787 plus 70. The work to be bid upon consists of the construction of six concrete lined water supply tunnels with an interior dia. of 16 ft. and has been divided into schedules as follows:

Sch.	Tunnel	Length Miles
1	Colorado River	1.07
2	Copper Basin No. 1 and east ptn Copper Basin No. 2	1.17
3	Copper Basin No. 2, west ptn	1.17
4	Whipple Mountain, east ptn	1.89
5	Whipple Mountain, central ptn	3.18
6	Whipple Mountain, west ptn	1.02
7	Whitewater Nos. 1 and 2	1.90

F. E. Weymouth is General Manager and Chief Engineer.

LOS ANGELES, Cal.—Contracts for constructing the Iron Mountain, Coxcomb and Cottonwood Tunnels of the Colorado Aqueduct, using full capacity tunnels of 16-ft. dia. awarded by the Metropolitan Water District April 21, as follows:

IRON MOUNTAIN TUNNEL
East Portion, Schedule No. 1, 23,-633 ft. of 16-ft. dia. tunnel to Winston Bros. Co., 418 S Pecan St., Los Angeles, at \$2,143,799.

West Portion, Schedule No. 3, 16,-172 ft. of 16-ft. dia. tunnel, to Utah Const. Co., 1 Montgomery Street, San Francisco, at \$1,699,705.

The total cost of the Iron Mountain Tunnel is \$3,843,504.

COXCOMB TUNNEL
East Portion, Schedule No. 5, 8,-765 ft. of 16-ft. dia. tunnel to Winston Bros. Co. at \$799,236.05.

West Portion, Schedule No. 7, 8,-765 ft. of 16-ft. dia. tunnel to Winston Bros. Co. at \$825,279.30.

The total cost of the Coxcomb Tunnel is \$1,624,515.35.

COTTONWOOD TUNNEL
East Portion, Schedule No. 9, 10,-044 ft. 16-ft. dia. tunnel, to J. F. Shea Co., Inc., Boulder City (rep. by Martin Bross, 227 S Bedford Drive, Beverly Hills, at \$928,938.50.

West Portion, Schedule No. 11, 10,-044 ft. 16-ft. dia. tunnel, to J. F. Shea Co., Inc., at \$928,123.50.

The total cost of the Cottonwood Tunnel is \$1,857,062.

The total cost of the three tunnels based on the above contracts will be \$7,325,081.35.

These contracts arranged according to bidders follows:

Winston Bros.—East portion of the Iron Mountain Tunnel, at \$2,143,799. East portion of the Coxcomb Tunnel at \$799,236.05; and the West portion of the Coxcomb Tunnel at \$825,279.30.

Utah Const. Co.—West portion of the Iron Mountain Tunnel at \$1,699,705.

J. F. Shea Co., Inc.—East portion of the Cottonwood Tunnel at \$928,-938.50; West portion of the Cottonwood at \$928,123.50.

LOS ANGELES, Cal.—Subcontracts on the Bernasconi Tunnel project awarded by Hamilton & Gleason Co., general contractors, are:

Holmes Supply Co., 4th and Santa Fe Ave., Los Angeles, camp facilities, housing and feeding of men.

H. W. McKinley, care F. H. Timpson, 1525 Baxter St., Los Angeles, tunnel access, East Port.

The Hamilton & Gleason Co. will maintain an office on the site. The company's general superintendent is H. J. King, whose office is on the site.

LOS ANGELES, Calif.—Until 10 A. M., May 22, bids will be received by the Metropolitan Water District, 306 W Third St., Los Angeles, for constructing the Eagle Mountain, Hayfield and Mecca Pass Tunnels of the Colorado River Aqueduct, with a finished diameter of 16 ft. The district has withdrawn the previous call for bids calling for alternative proposals for a tunnel of 12 ft. 4 in. The Eagle Mountain and Hayfield tunnels are located in the Eagle Mountains about 40 and 35 miles, respectively, easter-

ly from Indio; the Mecca Pass tunnels are located in the Cottonwood Mountains about 13 miles east of Indio; all in Riverside County, Calif. The work to be bid upon consists of the excavating and lining of seven tunnels and has been divided into schedules as follows:

Sch. 1, East Eagle Mountain, 1.79 miles.

Sch. 3, West Eagle Mountain, east portion, 2.97 miles.

Sch. 5, West Eagle Mountain, west portion, 2.01 miles.

Sch. 7, Hayfield No. 1, east portion, 0.91 mile.

Sch. 9, Hayfield No. 1, west portion, 0.91 mile.

Sch. 11, Hayfield No. 2, 1.02 miles.

Sch. 13, Mecca Pass Nos. 1, 2 and 3, 1.11 miles.

Each proposal must be accompanied by a certified or cashier's check in the amounts shown below:

The tables of bidding checks follow:

Schedules	Check
1	\$50,000
3	80,000
5	55,000
7	25,000
9	25,000
11	30,000
13	30,000

The faithful performance bond shall be as shown in the table below, viz.:

Schedules	Bond
1	\$250,000
3	400,000
5	275,000
7	125,000
9	125,000
11	150,000
13	150,000

The bond for materialmen and laborers shall be in the sum required by California statutes.

Plans may be purchased from the Chief Engineer, room 1004, 306 West Third St., for \$5.00 per set, which sum shall not be returned. F. E. Weymouth, General Manager and Chief Engineer. The approximate quantities and schedules follow:

SCHEDULE 1

Construction of East Eagle Mountain tunnel and appurtenant works, between Station 5879 plus 31 and Station 5973 plus 91. Tunnel diameter 16 feet 0 inches, length 9460 feet.

- (1) tunnel access works (lump sum);
- (2) does not apply here;
- (3) 103,900 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 27,000 cu. yds. conc. in tunnel;
- (7) 200 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 100 cu. yds. Gunite coating of rock in tunnel;
- (10) 40 connections for grouting;
- (11) 50 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinf. steel;
- (13) 10,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 1600 ton-miles hauling steel;
- (15) 305,000 ton-miles hauling cement.

SCHEDULE 3

Construction of the East portion, West Eagle Mountain tunnel and appurtenant works, between Station 6017 plus 31 and Station 6171 plus 00. Tunnel diameter 16 feet 0 inches, length 15,669 feet.

- (1) tunnel access works (lump sum);
- (2) does not apply here;
- (3) 170,500 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 44,300 cu. yds. concrete in tunnel
- (7) 180 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 20 tons erecting steel support in tunnel;
- (9) 90 cu. yds. Gunite coating of rock in tunnel;

- (10) 40 connections for grouting;
- (11) 60 cu. yds. mix and place grout;
- (12) 60,000 lbs. place reinforcing steel;
- (13) 15,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 2100 ton-miles hauling steel;
- (15) 480,000 ton-miles hauling cement.

SCHEDULE 5

Construction of the West portion, West Eagle Mountain tunnel and appurtenant works, between Station 6174 plus 00 and Station 6281 plus 69. Tunnel diameter 16 feet 0 inches, length, 10,649 feet.

- (1) does not apply here;
- (2) 6000 cu. yds. excav. in approach cut;
- (3) 115,800 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 560 cu. yds. concrete in approach section;
- (6) 30,100 cu. yds. concrete in tunnel
- (7) 115 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 5 tons erecting steel support in tunnel;
- (9) 60 cu. yds. Gunite coating of rock in tunnel;
- (10) 30 connections for grouting;
- (11) 40 cu. yds. mix and place grout;
- (12) 25,000 lbs. place reinf. steel;
- (13) 10,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 1400 ton-miles hauling steel;
- (15) 262,000 ton-miles haul cement.

SCHEDULE 7

Construction of the East portion, Hayfield No. 1 tunnel and appurtenant works, between Station 5959 plus 53 and Station 6008 plus 52. Tunnel dia. 16 feet 0 inches, length 4839 feet.

- (1) does not apply here;
- (2) 3300 cu. yds. excav. in approach cut;
- (3) 52,300 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) does not apply here;
- (6) 13,600 cu. yds. conc. in tunnel;
- (7) 22 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 5 tons erecting steel support in tunnel;
- (9) 35 cu. yds. Gunite coating of rock in tunnel;
- (10) 20 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 25,000 lbs. place reinforcing steel
- (13) 5000 cu. yd. miles overhaul of concrete aggregates;
- (14) 520 ton-miles hauling steel;
- (15) 102,000 ton-miles haul cement.

SCHEDULE 9

Construction of the West portion, Hayfield No. 1 tunnel and appurtenant works, between Sta. 6008 plus 52 and Station 6058 plus 65. Tunnel dia. 16 feet 0 inches, length 4838 feet.

- (1) does not apply here;
- (2) 8200 cu. yds. excav. in approach cut;
- (3) 52,300 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 800 cu. yds. concrete in approach section;
- (6) 13,600 cu. yds. concrete in tunnel
- (7) 22 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 5 tons erect steel support in tunnel;
- (9) 35 cu. yds. Gunite coating of rock in tunnel;
- (10) 20 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 25,000 lbs. place reinforcing steel
- (13) 5000 cu. yd. miles overhaul of concrete aggregates;
- (14) 520 ton-miles hauling steel;
- (15) 102,000 ton-miles haul cement.

SCHEDULE 11

Construction of Hayfield No. 2 tunnel and appurtenant works, between Sta. 6065 plus 40 and Sta. 6121 plus 00. Tunnel dia. 16 feet 0 inches, length 5360 feet.

- (1) does not apply here;

- (2) 11,300 cu. yds. excav. in approach cut;
- (3) 58,000 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 940 cu. yds. concrete in approach section;
- (6) 15,100 cu. yds. conc. in tunnel;
- (7) 33 M. ft. b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 35 cu. yds. Guniting coating of rock in tunnel;
- (10) 20 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 25,000 lbs. place reinforcing steel
- (13) 5000 cu. yd. miles overhaul of concrete aggregates;
- (14) 670 ton-miles hauling steel;
- (15) 112,000 ton-miles haul cement.

SCHEDULE 13

Construction of Mecca Pass Nos. 1, 2 and 3 tunnels and appurtenant works between Sta. 7084 plus 85 and Sta. 7187 plus 35. Tunnel dia. 16 feet 0 inches, length 5875 feet.

- (1) does not apply here;
- (2) 31,300 cu. yds. excav. in approach cut;
- (3) 65,300 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 2550 cu. yds. conc. in approach section;
- (6) 17,000 cu. yds. conc. in tunnel;
- (7) 200 M. ft. b.m. furnish and place permanent timber in tunnel;
- (8) 20 tons erecting steel support in tunnel;
- (9) 100 cu. yds. Guniting coating of rock in tunnel;
- (10) 20 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 100,000 lbs. place reinf. steel;
- (13) 5000 cu. yd. miles overhaul of concrete aggregates;
- (14) 1000 ton-miles hauling steel;
- (15) 64,000 ton-miles haul cement.

29—STREETS AND HIGHWAYS

SAN RAFAEL, Marin Co., Cal.—Until May 24, 2 P. M., bids will be received by the Constructing Quartermaster, Hamilton Field, for paved aprons around the hangar and shop at Hamilton Field (Marin Meadows) Bombing Base, San Rafael. Work involves:

- (1) 2800 cu. yds. excavation;
- (2) 1100 cu. yds. fill;
- (3) 26,700 sq. yds. 6-in. concrete;
- (4) 26,700 sq. yds. compacted rock;
- (5) 150 cu. yds. 1½-in. to 2½-in. graded rock;
- (6) 630 lin. ft. curbing;
- (7) 134 sq. yds. 3¾-in. x 4-ft. sidewalk;
- (8) 365 ft. 6-in. vit. salt glazed terra cotta pipe;
- (9) 1115 ft. 8-in. do;
- (10) 300 ft. 12-in. do;
- (11) 2 catchbasins, complete with cast iron cover;
- (12) 320 ft. 3-in. clay duct, four window;
- (13) 220 ft. 3-in. clay duct, two window;
- (14) 760 ft. ¾-in. genuine wrought iron pipe, galvanized;
- (15) air and water service boxes with metal covers.

LOS ANGELES, Cal.—Until 10 A. M., May 17, bids will be received by Board of Public Works to Improve Avenue 46, between Clermont St. and Fontenac Ave., and other streets in the Avenue 46 and Fontenac Ave. Improvement District; 1911 Act. The estimated quantities are:

- (1) grading (1600 sq. ft. special flooding and 2017 cu. yds. cut);
- (2) 15,497 sq. ft. 6-in. conc. paving;
- (3) 1568 ft. integ. curb;
- (4) 100 ft. deep reinf. integ. curb (special);
- (5) conc. retain. wall, complete;

- (6) conc. gutted and sidewalk, compl.
- (7) reset 3 manholes, complete;
- (8) water system;
- (9) 13 water services.

REMOVE: 20 sq. ft. gutter, 192 sq. ft. pave., 34 ft. curb, 12 sq. ft. walk, 3 conc. steps, 3 ft. wide.

LOS ANGELES, Cal.—Until 2 P. M. May 15, bids will be received by the county supervisors to improve Covina Blvd. from its intersection with Holt Ave. and El Monte St. in Baldwin Park, west to a point beyond Merced Ave., 3350 lin. ft. or 0.63 mile; Cash Contract No. 456, involving:

- (1) 2500 tons of asphalt concrete pave. (Construction of base or subgrade, grading, setting and removal of headers will be done by the county under work order No. 6054).

George W. Jones, county road commissioner, Maime B. Beatty, clerk of the board.

SAN FRANCISCO.—Daniel C. McCabe, Call Bldg., at \$1500 (\$.30 per sq. ft.) submitted only regular bid to Department of Public Works to construct sidewalks on 6th Ave., Judah to Kirkham Sts., et al, involving 5,000 sq. ft. Irregular bid submitted by M. J. Lynch.

AMADOR, Alpine and El Dorado Counties, Cal.—Until May 17, 2 P. M., bids will be received by State Highway Commission, Sacramento, to treat with oil and cutback asphalt as a dust palliative 73.8 miles of existing roadbed between Dcw Drop Inn and Picketts Junction, between Picketts Junction and Alpine Junction and between Picketts Junction and Hangman's Bridge, near Markleeville involving:

- (1) 250 bbls. light fuel oil, Loc. A;
- (2) 1850 bbls. heavy fuel oil, do;
- (3) 500 bbls. asph. road oil, do;
- (4) 500 bbls. light fuel oil, Loc. B;
- (5) 900 bbls. heavy fuel oil, do;
- (6) 800 bbls. light fuel oil, Loc. C;
- (7) 200 bbls. heavy fuel oil, do;
- (8) 1100 bbls. asph. road oil, do;
- (9) 400 bbls. light fuel oil, Loc. D;
- (10) 250 bbls. heavy fuel oil, do;
- (11) 250 bbls. asph. road oil, do;
- (12) 175 tons cut-back asph., do.

TULARE CO., Cal.—Hemstreet and Bell, 501 11th St., Marysville, at \$237,010 for unfinished portion of work, submitted low informal bid to Division of Highways, Sacramento, to complete grading and surfacing with crushed gravel or stone 8.4 miles bet. Lemon Cove and Three Rivers, which was awarded to Thompson Bros., 2150 G St., Fresno, at \$299,882.45 on Sept. 14, 1932, and was abandoned by them.

MENDOCINO COUNTY, Cal.—Chas. Kuppinger, Lakeport, at \$3850 awarded contract by State Highway Commission to treat with asphaltic road oil as a dust palliative 19.7 miles bet. McDonald and Boonville.

LOS ANGELES, Cal.—J. J. Jessup, city engineer, completed plans to improve alley south of 18th St. and west of Meyler St., under the 1911 Act. The engineer has been authorized to prepare his 1913 act report. The quantities are:

- Grading (5690 cu. yds. cut);
- 17,921 sq. ft. 5-in. conc. paving;
- 20 sq. ft. asph. conc. paving;
- 8 ft. curb;
- 275 sq. ft. sidewalk.

Engineer's estimate, \$3069.67.

FRESNO COUNTY, Cal.—Union Paving Co., Call Bldg., San Francisco at \$31,543.55 awarded contract by the State Highway Commission to grade and pave with asphalt concrete 0.7 mile between Church Ave. and California Ave. in Fresno.

KERN COUNTY, Cal.—Griffith Co., Los Angeles, at \$355,327.15 awarded contract by State Highway Commission to grade and pave with Portland cement concrete 3.7 miles bet. Oak Glen and 1 mile north of Grapevine Station.

WASHINGTON, D. C.—Bureau of Yards and Docks, Navy Department, Washington, D. C., will ask bids shortly for roads and service systems at the Naval Air Station, Sunnyvale, Calif. Specification No. 7302.

SAN LUIS OBISPO, Cal.—County Surveyor starting work on Murray Ave., Victoria and Francis Sts., San Luis Obispo, unemployment relief project under the \$11,879 Reconstruction Finance Corporation loan.

ALAMEDA, Cal.—Specifications forwarded to Washington, D. C., by Capt. A. B. Brown, for roads, curbs and gutters, and electroliers; the last unit on Government Island Project, Alameda.

OREGON STATE.—Following contracts awarded by the State Highway Commission for highway construction as follows:

Clackamas County: Logan Const. Co., Arlington, at \$14,241, to produce and stockpile 15,500 cu. yds. crushed rock Sandy-Twin Bridges Section, Mt. Hood Highway.

Douglas County: A. S. Wallace, at \$5700 to produce and stockpile 5500 cu. yds. crushed gravel Mystic Creek-Winston Section, Coos Bay-Roseburg Highway.

Jackson County: E. R. Metzger, at \$4695 to produce and stockpile 4600 cu. yds. crushed gravel, Trail-Prospect Section, Crater Lake Highway.

Klamath County: Dunn and Baker, Klamath Falls, at \$14,625 to produce and stockpile 7750 cu. yds. crushed rock, Klamath Falls Rock Production Project.

Umatilla County: Quinn Robbins, Boise, at \$9735, to produce and stockpile 7000 cu. yds. crushed rock, Emigrant Hill-Meachem Section, Old Oregon Trail.

LOS ANGELES, Cal.—J. J. Jessup, city engineer, completed plans to improve Beverly Blvd. between Hilgard Ave. and Paseo Miramar. The proposed work involves:

- 18,000-cu. yds. grading;
- 18,230 sq. ft. conc. pavement, 6-in.;
- 3,900 sq. ft. concrete pave., 8-in.;
- 183,325 sq. ft. asphalt conc. pave., 6-in.
- 145,880 sq. ft. asphalt conc. pave., 7-in.
- 8,075 sq. ft. asphalt conc. pavement, varying thickness;
- 44,350 lin. ft. curb;
- 44,080 sq. ft. gutter;
- storm drain;
- walls;
- water system;
- 69 water services.

Engineer's estimate, \$104,397.77.

SAN GABRIEL, Los Angeles Co., Calif.—C. N. Wright, city engineer, Pacific Electric Bldg., Los Angeles, has announced that if Reconstruction Finance funds are not obtained within the next two weeks the city will probably take bids on the improvement of Santa Anita St. bet. Las Tunas Dr. and Mission Dr. If the funds are obtained the grading will be done by local labor. The work involves:

- (1) grading (lump sum);
 - (2) 38,000 sq. ft. 6-in. asph. concrete pavement;
 - (3) 19,000 sq. ft. 2-in. oil macadam.
- The pavement will be 20 ft. wide with a 10-ft. strip of oil macadam.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

3.7 ? MILES GRADE AND PAVE.—KERN COUNTY

KERN COUNTY, Cal.—Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$355,327.15 submitted low bid April 19 to State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 3.7 miles between Oak Glen and one mile north of Grapevine Station, involving:

- (1) clear and grub right-of-way;
- (2) 782,000 cu. yds. rdwy. excav., unclass.;
- (3) 14,172,000 sta. yds. overhaul;
- (4) 10,000 cu. yds. imp. borrow;
- (5) 10,920 cu. yds. struc. excac.;
- (6) 40,370 sq. yds. subgrade for pave;
- (7) 6000 tons cru. gravel or stone (bit. treated borders);
- (8) 235 tons cut-back asphalt;
- (9) 8600 cu. yds. class A Portland cement concrete (pavement);
- (10) 750 cu. yds. class A Portland cement concrete (struc.);
- (11) 238,200 lbs. bar reinf. steel (pavement and struc.);
- (12) 708 lin. ft. 8-in. corru. metal pipe;

- (13) 482 lin. ft. 18-in. do;
- (14) 2552 lin. ft. 24-in. do;
- (15) 318 lin. ft. 30-in. do;
- (16) 486 lin. ft. 36-in. do;
- (17) 310 lin. ft. 42-in. do;
- (18) 124 lin. ft. 48-in. do;
- (19) 600 lin. ft. 8-in. pref. metal pipe
- (20) 2550 cu. yds. concrete remove from existing pave. and struc. and dispose of;
- (21) 8.4 ml. new property fence;
- (22) 6 fence gates;
- (23) 0.5 ml. property fence remove and dispose of;
- (24) 9300 lin. ft. lam. timber guard rail;
- (25) 200 timber guide posts;
- (26) 65 culvert markers;
- (27) 3380 cu. yds. special riprap;
- (28) 60 cu. yds. light riprap;
- (29) 685 cu. yds. rubble masonry (retaining walls);
- (30) 960 bbls. fuel oil;
- (31) 47,400 M. gals. water (embankment);
- (32) 179 sta. finish roadway;
- (33) 72 monuments complete in place.

State will furnish corrugated metal pipe, perforated metal pipe and spillway assemblies.

Complete bids follow:

- (A) Griffith Co., Los Angeles, \$355,327.15.
- (B) von der Hellen & Pierson, Castiac, \$356,111.60.
- (C) Hanrahan Co. and J. P. Holland, San Francisco, \$360,818.80.
- (D) Jahn & Bressi, Los Angeles, \$361,139.60.
- (E) Granfield, Farrar & Carlin, San Francisco, \$372,790.10.
- (F) Basich Bros., Torrance, \$380,762.30.
- (G) Fredrickson & Watson, Oakland, \$382,820.60.
- (H) Wemyouth Crowell Co. and E. P. Watson, Jr., Pasadena, \$387,244.
- (I) Geo. Pollock, Sacramento, \$415,768.60.
- (J) W. E. Kler Const. Co., San Diego, \$513,442.30.
- (K) Sander Pierson & Dimmltt and Taylor, Los Angeles, \$549,872.10.

BIDS OPENED

PASADENA, Calif.—Blue Diamond Corp., 1650 S Alameda St., Los Angeles, submitted low bid to city directors April 18 at \$15,011.20 to furnish reinforcing steel for use in the Pine Canyon Dam construction. The material involves:

PROPOSAL NO. 1

Intermediate Grade—821,000 Lbs.

- (1) 500 lbs. ¼-in. round reinf. steel;
- (2) 500 lbs. ⅜-in. do;
- (3) 67,000 lbs. ½-in. do;
- (4) 2500 lbs. ½-in. square reinf. steel
- (5) 48,000 lbs. ⅝-in. round reinf. steel
- (6) 12,500 lbs. ¾-in. do;
- (7) 7000 lbs. ⅞-in. do;
- (8) 100,000 lbs. 1-in. do;
- (9) 3500 lbs. 1-in. square reinf. steel;
- (10) 25,000 lbs. 1½-in. do;
- (11) 500,000 lbs. 1½-in. do;
- (12) 54,500 lbs. 1½-in. do

PROPOSAL NO. 2

Hard Grade—178,000 Lbs.

- (1) 2000 lbs. ½-in. round reinf. steel;
- (2) 28,000 lbs. ⅝-in. do;
- (3) 68,000 lbs. ¾-in. do;
- (4) 80,000 lbs. 1-in. do.

The total bids were:

- (A) Blue Diamond Corp., \$15,011.20.
- (B) Soule Steel Co., \$15,300.
- (C) Concrete Engr. Co., \$15,263.48.

- (D) Truscon Steel Co., 515,513.05.
 - (E) Pacific Coast Steel Co., \$16,809.40.
- The unit bids were:

MADRONE UNDERGRADE CROSSING—SANTA CLARA COUNTY

SANTA CLARA COUNTY, Calif.—N. M. Ball, 1889 Yosemite Road, Berkeley, at \$68,933.58 submitted lowest regular bid April 26 to State Highway Commission, Sacramento, to construct undergrade crossing under the tracks of the Southern Pacific Railroad near Madrone, consisting of two concrete abutments with wing walls, installing drainage system, and pumping equipment, and grading and paving approximately .74 mile roadway with Portland cement concrete, involving:

- (1) 430 class #1 trees remove and dispose of;
- (2) 8 class #2 do;
- (3) 31,700 cu. yds. rdwy. excav.;
- (4) 2,693,987 sa. yds. overhaul;
- (5) 1600 cu. yds. struc. excav.;
- (6) 1000 cu. yds. dlch excav.;
- (7) 880 cu. yds. class B Port. cem. concrete;
- (8) 63 cu. yds. class A do (struc.);
- (9) 3210 cu. yds. do (pave.)
- (10) 260 cu. yds. class A Portland cem. conc. (curbs and gutters);
- (11) 126,000 lbs. bar reinf. steel;

- (12) 2080 lbs. cast steel (catchbasin frames and covers);
- (13) 6000 tons cru. run base;
- (14) 600 tons asph. conc. pavement;
- (15) 565 lin. ft. 8-in. perf. metal pipe;
- (16) 2650 lin. ft. 10-in. do;
- (17) 400 lin. ft. 8-in. corr. metal pipe
- (18) 320 lin. ft. 10-in. do;
- (19) 65 lin. ft. 12-in. do;
- (20) 200 lin. ft. 18-in. do;
- (21) 96 lin. ft. 24-in. do;
- (22) 323 lin. ft. 12-in. extra strength reinf. conc. pipe;
- (23) 2 12-in. extra str. reinf. conc. 90° ells;
- (24) 2 30-in. x 6-ft. reinf. conc. basins with lids;
- (25) 240 lin. ft. 8-in. cast iron pipe;
- (26) 2770 lin. ft. 1 1/4-in. c. i. irrigr. pipe
- (27) 110 lin. ft. 2-in. do;
- (28) 24 irrigation outlets;
- (29) 720 cu. yds. rock filling material;
- (30) 32 lin. ft. hand rail;
- (31) 1 lot pumping equipment complete (2 units);
- (32) 830 cu. yds. old pavement to be removed, crushed and stockpiled;
- (33) 45 sta. finish roadway;
- (34) .161 ml. new property fence;

- (35) 1 16-ft. x 58-in. tubular steel gate
- (36) 2 12-ft. x 58-in. do;
- (37) 20 monuments complete in place;
- (38) 175 sq. yds. waterproofing;
- (39) 1 lot misc. items of work.

Complete bids follow:

- (A) N. M. Ball, Berkeley, \$68,933.58.
 - (B) A. J. Raisch Co., San Jose, \$69,580.42.
 - (C) Fredrickson & Watson, Oakland, \$72,820.41.

SAFETY MONTH PROGRAM SET BY STATE ASSN.

Accident Prevention Committee Asks Cooperation of Local Exchanges

May has been designated Accident Prevention Month in the construction industry by the California State Builders' Exchange, Ltd., and local exchanges are being urged to give attention to accident prevention campaigns during the month.

W. F. Sorensen, Santa Ana, is chairman of the State Exchange accident prevention committee. Weekly bulletins will be issued by the committee telling of the progress of the campaign and suggesting methods for reducing the loss from accidents.

"When we compare the frequency of accidents in construction work with the experience in other industries, we find a slight increase in frequency rates in the construction industry while others have enjoyed a decrease from 25 to 50 per cent," says a statement by Mr. Sorensen. "That reduction has been made possible only by extensive educational safety campaigns on the part of those who have been able to see the importance the possibilities of such programs.

"It is true that the membership in our local builders' exchange is made up of contractors who are employers of only a few men and cannot afford to hire safety engineers or work out elaborate programs as large employers or factories do, but with the help of an active accident prevention committee in the local exchange each one can work out a program to suit his particular needs."

FIRST GRAVEL SENT TO GATE BRIDGE SITE

The first consignment of gravel from the Easalt Rock Company plant at Healdsburg for the Golden Gate bridge was shipped yesterday, according to officials of the company.

The shipment includes 18 carloads which were transferred to a barge at Haystack station.

THE WEEK'S NEWS Highlights

BUILDING PERMITS. Preliminary totals from leading cities of the Pacific Coast indicate a gain of about 8 per cent in building operations for April as compared with March. A gain in number of permits issued also is noted, showing a significant spread of activity. San Francisco permits were greater in number and approximately the same in value.

LUMBER PRODUCTION. Consistent gains are shown in the West Coast and national lumber production figures. Authorities regard the new business as derived principally from retail yards, anxious to restock at present prices and not traceable to any considerable consumer demand.

TO REVIVE BUSINESS. More aggressive and direct action on the part of associations and major manufacturers to stimulate construction is reported from various sources. Associated General Contractors, meeting in Washington, declare their objective to be 2,000,000 jobs on Federal work by mid-summer. Next week a national conference on renewal of home building will be held in Chicago, where architects, engineers and manufacturers will join in presenting new ideas in design, construction, materials and equipment. The United States Chamber of Commerce heard a proposal at its annual meeting to create a \$50,000,000 Rehabilitation Corporation expressly to finance remodeling and modernization of business property.

NEW JAIL BIDS. MacDonald & Kahn, at \$359,953, submitted the low bid on the general contract for erecting the San Francisco county jail when new proposals were received yesterday by the Board of Public Works. C. J. Hillard and Dinuba Steel Products submitted low bid on equipment at \$131,874.

EXPORT LUMBER TOTAL IN MARCH AT HIGH LEVEL

Shipments for Month Exceed Any Similar Period in Previous Year

Preliminary reports of United States exports of softwood lumber and sawn timber during March 1933 show for that month the heaviest volume of any month in 1933 or 1932. These exports, according to U. S. Department of Commerce reports, totalled nearly 92,000,000 ft., of which somewhat over 49,000,000 were shipped to the Orient and Near East, nearly 21,000,000 to Europe and 10,700,000 to Central America, Mexico and the West Indies.

March was the highest month in the last 15 for exports to the Orient and Near East, and to the Central American group, and the highest to Australasia except May, 1932. The greatest declines, as compared with recent months, were in exports to Canada and to South America, which were reported as 446,000 and 4,754,000 feet respectively in March.

Because of the low record of February, the first quarter of 1933 does not compare so favorably with last year as does March, although the softwood total of the quarter of more than 225,000,000 feet was only two percent below the first quarter of 1932.

Hardwood lumber exports during the first three months of 1933 totalled more than 51,000,000 feet, according to these preliminary reports. This was 16 percent under the volume of the first quarter of 1932 and below the second and fourth quarters.

Lumber imports during March, 1933, while heavier in volume than in February or January were under most months of 1932. In March they totalled somewhat over 10,500,000 feet—and all from Canada, predominately pine and spruce. Lumber imports totalled approximately 27,000,000 feet during the first quarter of 1933 as compared with 107,945,000 during the first quarter of 1932 and 59,868,000 feet during the last quarter.

COMPLETE PLANS FOR \$22,000,000 L. A. POWER LINE

**R.F.C. Loan for Project Ready
In July; 271-Mile
Construction**

Plans are being completed for the 271-mile transmission line which the Los Angeles bureau of power and light will construct between the city and the Boulder Dam power plant. A \$22,000,000 loan for the project has been approved by the Reconstruction Finance Corporation.

The funds will be available about July 1, it is said by officials.

Construction will include sixty miles of single tower and 111 miles of double tower line. Materials will include 13,500 tons of copper conductor wire and 1090 tons of copper-weld ground wire; 1540 tons of insulators; 2310 tons of oil circuit breakers; 2150 tons of transformers; 1090 tons of synchronous condensers; 28,000 tons of structural steel for 2256 steel towers.

It is probable that alternate bids for aluminum instead of copper will be taken.

Bids will be called for through the city purchasing agent and the construction will be supervised by the department of light and power, E. F. Scattergood, chief electrical engineer, and H. C. Gardett, chief engineer of design.

FIFTEEN APPLY FOR MANAGER'S POSITION

Fifteen applicants have filed for the position of county manager of San Mateo County, a post to be filled on July 1, it was reported yesterday at Redwood City. The appointment is to be made by the board of supervisors under the new county charter.

Sacramento county also is seeking a manager, following approval of the county-manager charter by voters at a special election last week. This appointment likewise is to be made on July 1, for a period of two years.

KANSAS CITY PLEDGING \$5,000,000 FOR REPAIRS

A renovizing campaign now underway in Kansas City has produced pledges totaling \$1,000,000 for remodeling and renovating work to be done in the near future. The goal of the renovize committee is \$5,000,000 in pledges.

EXAMINERS ISSUE FOUR CERTIFICATES

Four provisional certificates to practice architecture in California were issued at the April meeting of the Northern Section, State Board of Architectural Examiners, C. J. Ryland, secretary, announced yesterday.

The following were granted certificates: Michael Goodman, 1780 Highland place, Berkeley; Clarence Mayhew, 6026 Acacia, Oakland; Jens C. Petersen, 812 26th street, Sacramento; Henry Temple Howard, 251 Kearny street, San Francisco.

SCHOOL BUILDING PROGRAM URGED IN SAN FRANCISCO

**Fremont Fire Stirs Authori-
ties to Action on
Replacement**

A new San Francisco school building program was advocated yesterday by authorities following destruction of the Fremont school by fire Thursday afternoon.

Philip Lee Bush, president of the board of education, said the fire brought again to public attention the necessity of replacing antiquated structures with buildings of fireproof design.

He said he would advocate a bond issue of between \$2,000,000 and \$4,000,000 to be voted on at the June election providing funds for replacing elementary school buildings that are obsolete. He also plans to present to the board of education a recommendation for resuming the building program from general funds of the school district. It is estimated that savings can be effected to finance a new building every other year.

The Fremont school at McAllister and Broderick streets was damaged beyond repair by fire that originated from a painter's blow torch. The building was erected in 1892.

PORTLAND BUILDING TOTALS INCREASING

The number and value of building permits issued in Portland both showed an increase in April over the month of March, according to figures issued by the city building department.

The total for April was \$144,475 for 312 permits, compared with \$134,960 and 284 permits in March.

2 MILLION JOBS IS OBJECTIVE OF A.G.C. DIRECTORS

**Board Will Campaign For
Federal Construction Por-
gram This Summer**

Employment of at least 2,000,000 idle men by mid-summer upon a nationally - launched construction program covering all types of needed projects is the primary objective of the governing board of the Associated General Contractors of America, according to an announcement by Edward J. Harding, Managing Director.

The full strength of organized general contractors in every part of the country will be mobilized to urge upon the President and Congress steps to immediately get the program, backed by Federal credit, under way.

Taken in connection with the anticipated inflationary rise in commodity prices, construction men generally are agreed that prompt action now by the Government in inaugurating the program will save it and the nation's taxpayers millions of dollars in the inevitable launching of needed and deferred Federal, State, county and municipal public projects to provide employment and restore purchasing power, Harding declared.

"Despite reactionary opposition to a national construction program, that has persisted throughout the depression, the fact remains that the proposal is the only one of the many offered that provides the admitted essential to recovery, namely, assured employment for the idle," he said. "At any time during the past three years the program could have been effectively carried through on a much smaller scale than would now suffice and the necessary volume is growing daily in proportion to the delay."

Dilatormess not only will steadily increase the volume of relief work that eventually must be launched, Harding stated, but without question will increase the unit cost of such work in direct ratio to the success of the Government in its efforts to raise commodity prices. Passage of pending legislation to provide for a thirty-hour working week also would have a marked upward influence on construction material prices, he pointed out.

INSTITUTE ENGINEER DIES

Lee H. Miller, chief engineer and one of the founders of the American Institute of Steel Construction died Sunday in Cleveland. Mr. Miller failed to rally from a major operation.

ALIENS BARRED FROM PUBLIC RELIEF WORKS

Attorney General Holds Em- ployment Restricted to Citizens

Employment of aliens on unemploy- ment relief public works projects is declared illegal in an opinion rendered by Attorney General U. S. Webb, in response to an inquiry from Governor Rolph.

Webb's ruling concerned the case of Mexican aliens in Imperial Co. W. W. McEuen of Imperial County had asked Governor Rolph whether or not these men could be employed on public works as part of the county's relief program for the needy.

The attorney general's ruling read in part:

"I have before me your communication of April 15 containing the correspondence of W. W. McEuen concerning the proposal to employ Mexican aliens in unemployment relief work. You ask whether or not they may be placed on relief work in view of the provision of law that aliens are not eligible for work on public projects.

"It appears that funds have been made available by the Reconstruction Finance Corp., the method of expending them to be the employment of needy persons for a certain number of days each month on various public works. It is not stated under whose direction the particular work in question is to be performed.

"Two statutes in this state prohibit the employment of aliens on public works: Statutes of 1915; pg. 90 as amended, Act 258, Deering's General Laws, 1931, and Statutes of 1931, pg. 913, Act 6430, Deering's General Laws, 1931.

"The former act provides that no persons excepting native-born or naturalized citizens may be employed in any department of state, county, or city, and that it shall be unlawful for any person elected, appointed, or commissioner to fill any office or any department thereof, to employ or appoint any per-

HONOLULU BIDDER LOW ON PIER JOB

WASHINGTON, May 3—Ralph E. Woolley, Honolulu, today submitted low bid of \$1,279,000 to Bureau of Yards and Docks, Navy Department, for constructing pier and two quays of reinforced concrete at Pearl Harbor, T. H.

The contract includes concrete cylinders on wood and concrete piles, steel sheet pile bulkhead, timber fender, track work, piping and electrical conduits. Second low bid was that of W. P. Thurston Co., Richmond, Va., at \$1,284,000.

Bids were opened today also for erecting facilities building at the Pearl Harbor Navy Yard. Tucker McClure, Ancon, C. Z., was low at \$124,480; E. E. Black Honolulu, second, at \$133,220, and low on alternate at \$119,320.

son for any duty whatever unless such person be a native-born or naturalized citizen.

"The latter of these two acts provides that no person, firm, partnership, association, or corporation or agent thereof, acting as contractor or sub-contractor on any public works of the state or of any city, county, township or other political subdivision, shall employ or cause to be employed any alien.

"Section 3 defines public works: "Work done for irrigation, utility, reclamation, improvement and other districts or other public agency, officer or body, as well as street, sewer, and other improvement work, directed and supervised by any public officer of the state or of any political subdivision, whether or not such subdivision holds a freeholders' charter, other than work done directly by public utility companies, pursuant to order of the Railroad Commission or other public authority, whether or not under public supervision or direction, or paid for wholly or in part out of public funds, shall be held public work.

"In view of these provisions, in my opinion Mexican aliens may not be employed on public works in unemployment relief work."

ALTA ELECTRIC LOW BIDDER ON S. F. JAIL WORK

New Proposals To Be Opened Tomorrow On General Contract

Alta Electric and Mechanical Co. at \$137,940 submitted the low bid among eight proposals received on the mechanical and plumbing contract for the new San Francisco county jail. Bids were opened yesterday afternoon by the board of public works.

The same firm was low on the electrical contract at \$57,690, opened at the same time. Globe Electric Company was second low bidder at \$60,443.

Second and third low bidders on the mechanical work were Anderson and Rowe at \$139,650 and Jas. A. Nelson, Inc., at \$140,770.

Bids will be opened tomorrow at 11:30 A. M. on the general contract for the jail buildings and separate proposals on furnishing equipment.

The original bids on the general contract were rejected when they were found to exceed estimates and would have brought the cost of the jail above the \$800,000 voted in a special bond issue.

COMMISSION ASSESSES \$2230 WAGE PENALTIES

Penalties aggregating \$2230 were assessed yesterday by State Labor Commissioner Frank C. MacDonald against A. H. Winchcole of Richmond for alleged violations of the state prevailing wage law on his contract for plastering the Contra Costa county hall of records building at Martinez.

The contract was awarded early in 1932 and Winchcole's bid was \$30,585.

MacDonald's report to the Contra Costa county board of supervisors showed 161 instances in which the contractor is alleged to have paid six plasterers from \$3 to \$6 less than the scale set by the supervisors for the contract. Sixty-two instances in which two hod carriers were alleged to have been underpaid by \$1.50 a day are cited.

APRIL BUILDING PERMITS IN S. F. TOTAL \$538,112

Number Issued Gains Over March; Dollar Value Even

San Francisco building permits gained in number and remained at about the same total value for April compared with March, according to the report of Building Inspector John B. Leonard issued at noon Saturday.

There were 422 permits issued with an estimated value of \$538,112. This compares with 343 permits and a value of \$548,231 in the previous month.

A gain over the previous month in Class C building, and dwellings is reported.

The number of permits for alterations was 345 compared with 277 in March, but the aggregate value was lower.

Following is the classified report with comparative figures for the corresponding month a year ago and yearly totals to date:

	April, 1933		April, 1932	
	No. P'mts	Est. Cost	No. P'mts	Est. Cost
(A)	4	\$ 101,250	2	\$ 325,000
(B)	63	224,356	15	37,425
Frames ..	345	115,504	120	461,125
Alter.	2	17,624	427	185,551
Public	4	71,145	2	6,972
State	4	8,233	1	21,483
U. S.	4	8,233	2	4,350
Total	422	\$ 538,112	569	\$ 1,041,906
		1933		1932
4 Mths. 1356	\$ 15,966,555	2009	\$ 3,992,222	

The Bureau of Labor Statistics of the United States Department of Labor received reports of building operations from 750 identical cities having a population of 10,000 or over. According to these reports there was a decrease of nine-tenths of one percent in indicated expenditures for total building operations. This is against the seasonal trend, as normally there is an increase in building operations comparing March with February.

Comparing March, 1933 with February, 1933, there was an increase of 42.4 percent in the number of residential buildings but a decrease of 8.6 percent in the indicated expenditures for this type of building. New nonresidential buildings increased 45.2 percent in number but decreased 22.5 percent in estimated cost. The number of additions, alterations, and repairs showed an increase of 71.3 percent while indicated expenditures for this type of building operations increased 47.4 percent.

The number of building operations increased 64.0 percent, although there was a decrease of nine-tenths of one percent in indicated expenditures. During March, 1933, 2,277 family dwelling units were provided in new buildings. This is an increase of 29.4 percent as compared with February.

West Coast Mill Orders Gain Over Previous Week; Hardwood Business at New High Level

A total of 352 down and operating mills which reported to the West Coast Lumbermen's Association for the week ending April 22 produced 65,728,586 board feet of lumber. This was an increase of 3,223,140 feet or 5.2 percent over their cut in the preceding week. The average week's production of this group of sawmills in 1933 has been 57,825,783 feet; during the same period in 1932, their weekly average was 66,176,724 feet.

The new business reported last week by 179 mills was 63,800,162 board feet against a production of 60,346,376 feet and shipments of 78,718,393 feet. Their shipments were over their production by 29.17 percent and their current sales were over production by 5.3 percent. The orders booked last week by this group of identical mills were more than their orders of the preceding week by 4,968,902 feet, or 8.5 percent.

The unfilled order file at these mills stood at 244,332,484 board feet a decrease of 17,458,523 feet from the week before.

The aggregate inventories of 130 mills are 17.1 percent less than at this time last year.

New business at the hardwood mills during the week ended April 15, 1933, was the heaviest since last October and totalled 31 percent above that booked during the corresponding week of 1932, according to telegraphic reports to the National Lumber Manufacturers' Association from regional associations covering the operations of 663 leading softwood and hardwood mills. New business at softwood mills fell below that of the previous four weeks but was higher than for any of the first ten weeks of 1933. Softwood production established a new high for 1933, at 96,972,000 feet. All production totalled 107,295,000 feet, also 1933 highest figure. Total orders amounted to 124,328,000 feet.

All regions showed orders above production, those of the softwood mills being 10 percent above and of the hardwood mills 67 percent above. Orders at northern hemlock mills were only slightly below the high record of the previous week, and at northern pine mills they overtopped the previous high of the week before by 13 percent. Orders at southern hardwood mills were the heaviest since October.

Compared with last year, northern pine, northern hemlock and the hardwood regions showed orders appreciably above the corresponding week. Other softwood regions were below their last year's record. Total softwood orders were 9 percent below last year; all lumber orders 5 percent below.

New business at the Southern pine mills was 37 percent of capacity; at the Western pine mills, 18 percent; at Southern hardwood

mills, 34 percent; compared with 35, 23 and 28 percent respectively, for the previous week.

Forest products carloadings during the week ended April 8, were 16,655 cars, a decrease of 404 cars from the 1933 high record of the previous week, and a decrease of 2,940 cars from the corresponding week of 1932.

OAKLAND FIRM WINS \$14,849 S. MATEO SUIT

Judgement for \$14,849 for improvements made in the Capuchino Golf Club enterprise in Millbrae several years ago has been awarded the Central Construction Company of Oakland by Superior Judge Maxwell McNutt in San Mateo county.

Decision was entered against the Stansbury Contracting Company and Mrs. Laura Finnell. The case was decided on a retrial of the suit first decided by former Superior Judge George H. Buck. Judge Buck found against the plaintiffs and ordered them to pay court costs of the defendants.

Under the new decision the Stansbury company must pay \$6,938 and Mrs. Finnell \$7,911.

Chicago Home Building Conference Will Plan to Revive Construction

A picture of vast industries working behind the scenes during the past two years to add to the efficiency of American homes and financial experts slaving day and night to perfect new and better financing plans to lower their cost, will be presented at the coming National Conference on the Renewal of Home Building to be held at the Congress Hotel in Chicago, May 9 and 10. The meeting was planned by thirty leaders in the construction and allied trades after the assembling of data from various parts of the country showing a receding housing vacancy, complete reports on which will be a feature of the conference.

One hundred trade associations have sent calls to their members throughout the country to attend the conference to hear of progress that is being made in many quarters to bring about better financing plans and to hear inventors of new materials, units, processes and designs tell about what new home-builders can have. The program is not complete but includes, "The Accumulating Housing Shortage," by James S. Taylor, Department of Commerce, Washington, D. C.; "The Value of Planning the Neighborhood," by Louis Brownlow, director of the public administration clearing house, University of Chicago; "What the Home Building Dollar Will Buy Today," by Roy Wenzlick, St. Louis, Mo., who is making, especially for the meeting, an up-to-the-minute survey on new materials and their uses.

A symposium participated in, among others, by R. V. Parsons, Johns-Manville Corp., New York City, will cover new materials and their uses. In a second symposium on prefabricated structures will be heard A. Trieschmann, President, Fordyce-Crosset Co., Chicago; R. E. Copeland, Housing Engineer of the Portland Cement Assn.; George N. Simpson, President, General Houses Inc., both of Chicago; and Bennett Chapple, vice-president, American Rolling Mill Co., Middletown, Ohio.

One big feature of the meeting will be the release, said to be for the first time, of information on new prefabricated kitchens and bathrooms that can be set up in new or old homes and attached, so it is said, with a single plumbing connection.

E. V. Porter, president of the Dahlstrom Metallic Door Company of Jamestown, N. Y., will describe these new units.

Dr. L. C. Gray, U. S. Department of Agriculture, Washington, D. C., and Percy Wilson, chairman of the home builders and subdividers division of the Chicago Real Estate Board, will tell of a new movement that is developing in various cities, including Chicago, to use as miniature farms, marginal land previously laid out as subdivisions.

J. Soule Watterfield, vice-president of the Starrett Building Company, Chicago, chairman of the conference, has asked that people

entering the contest sponsored by the conference for the best letters on "What Kind of a Home I Want" place sufficient postage on their entries. The conference has paid extra postage on several hundred letters in which contestants have included rough drawings of the homes they describe which added to the weight of the letters. There is no budget for this purpose.

Two prizes of \$100 each are offered to the most practical letters submitted by men and women before May 5. Letters should be addressed to the Conference headquarters, Room 1041, 310 S. Michigan Blvd., Chicago.

SOFTWOOD SALES IN NORMAL RATIO

Softwood lumber, in relation to other building materials, more than held its own during the year 1932 in comparison with 1931, according to studies prepared and published by Engineering News-Record in the February 2, 1933, edition.

One of the materials studies gives the production, shipments or sales of various construction materials, 1932 being compared with 1931. In this the following decreases in percentages were given for the important materials:

	1932 to 1931	%
(Mostly 11 months period)		
Face brick, shipments.....	47	
Cement, shipments.....	64	
Lumber, softwoods, shipments.....	67	
" orders.....	69	
" production.....	59	
Gypsum products, shipments.....	61	
Cement, plasters, etc., shipments....	55	
Steel ingots production.....	52	
Fabricated struc. steel, ship.....	52	
" bookings (orders).....	45	
Fabricated steel plate, new orders	53	
Prepared roofings, shipments.....	104	
Terra cotta, orders.....	27	

"It may be seen that softwood lumber with shipments 67 per cent in 1932 of the 1931 totals showed a large volume lead during the year over all the principal building materials excepting only cement and gypsum products," comments a West Coast Lumbermen Association Bulletin. "It may also be seen that softwood orders and shipments were greatly in excess of production, which represents heavy reductions in stocks during the year."

NAPA MAY ORGANIZE BUILDERS' EXCHANGE

Formation of a Builders' Exchange as a division of the Napa Chamber of Commerce is to be considered at a meeting of building contractors and material dealers Friday night. It is proposed to model the exchange after the chamber merchants' committee.

Fifty permits totaling \$65,230 were issued during April by Building Inspector R. V. Lotz of San Jose, according to a report submitted to the city council.

STATE AWARDS \$36,841,315 BAY SPAN CONTRACTS

Six Low Bidders Authorized to Proceed with Work

SACRAMENTO, April 28.—State Director of Public Works Earl Lee Kelly today awarded contracts to five San Francisco firms authorizing them to construct six major units of the San Francisco-Oakland Bay Bridge at a cost of \$36,841,315.48. The contracts all were awarded to low bidders.

Accompanied by Harrison S. Robinson, President of the Financial Advisory Committee, Director Kelly addressed the assembled contractors and awarded them their respective contracts. He then admonished them to build well and faithfully, and to consider unemployment relief and labor welfare as of prime importance. "This bridge is to be built of all American materials and by American citizens; each employee thereon must be a voting American citizen," Director Kelly declared.

Robinson said: "This bridge, which will bind Oakland and San Francisco, has progressed cleanly and every detail thus far has followed the highest principles of public spirited citizens and officials. Let us keep it so. The State Department of Public Works is to be commended upon its strict adherence to all business and governmental ethics in the handling of the business of this project."

Contracts will be executed within the next eight days and construction, Director Kelly asserted, will start not later than the first week in June.

Chief Engineer Purcell is closing financial arrangements and will return from Washington inside of a week.

Among those present at the award of bids yesterday were: E. J. Schneider of the Columbia Steel Corp., C. C. Horton of Healy-Tibbits Const. Co., Henry J. Kaiser of Bridge Builders, Inc., Albert Huber of the Clinton Const. Co., and Alan MacDonald of the Transbay Const. Co.

The contracts awarded yesterday were:

Contract 2—Substructure, West Bay Crossing, Transbay Construction Company, \$6,957,100.68.

Contract 4—Substructure, East Bay Crossing, Bridge Builders, Inc. \$4,495,854.00.

Contract 6—Superstructure, West Bay Crossing, Columbia Steel Co., \$13,732,471.80.

Contract 7—Superstructure, East Bay Crossing, Columbia Steel Co., \$8,798,096.50.

Contract 5—Yerba Buena Tunnel and Construction, Clinton Const. Co., \$1,821,292.50.

Contract 3—San Francisco Anchorage, Healy-Tibbits Const. Co., \$1,036,500.00.

 Owner—Fred Gianelli, 1608 W St., Sacramento.
 Plans by Charles Vanina.
 Contractor—Chas. Vanina, 2022 M St., Sacramento.

18—WHARVES & DOCKS

Contracts Awarded.
EXTENSION, ETC. Cost, \$45,000
ALAMEDA, Alameda Co., Cal. Encinal Terminal.
 Repairs to present dock and 115 foot extension (timber construction, some creosoted piling, repair floors etc.)
 Owner—Encinal Terminals, Alameda. (H. E. Van Horn, President).
 Plans by Engineering Department of Owner.
Extension—Duncanson Harrelson Co., deYoung Bldg., San Francisco.
Repairs—A. W. Kitchen, 110 Market St., San Francisco.

Sub-bids Being Taken.
EXTENSION Cont. Price, \$16,190
SAN FRANCISCO.
 Extension of wharf shed for Dock No. 2 (150x92 ft.) steel frame, 5 rolling doors, copper beaming, monitor sash, copper gutters, outside walls of reinforced concrete.
 Owner—United States Government.
 Plans by Constructing Quartermaster, Fort Mason, San Francisco.
 Contractor—Leo Epp, 4745 Geary St., San Francisco.

WASHINGTON, D. C.—R. E. Woolley, Honolulu, T. H., at \$1,279,000 submitted low bid to Bureau of Yards & Docks, Navy Department, Washington, D. C., for constructing pier and two quays of reinforced concrete construction, supported on concrete cylinders on wood piles and on concrete piles and includes a steel sheet pile bulkhead, timber fender systems, track work, piping and electrical conduits at Pearl Harbor, T. H. Spec. No. 7224. Following are two low bidders with alternate figures:
 Ralph E. Woolley, Honolulu
 T. H.(1) \$1,279,000
(2) 171,000
(3) 65,500
(4) 972,000
 W. P. Thurston Co., Richmond, Va.(1) \$1,284,000
(2) 145,000
(3) 63,000
(4) 1,034,000
 Complete list of bids will be published shortly.

19—MISC. CONSTRUCTION

ALBROOK FIELD, Canal Zone.—Plans and specifications in connection with the construction of a gasoline fueling system for the Air Corps at Albrook Field, Canal Zone, are available for distribution to prospective bidders from the Office of the Constructing Quartermaster, Ft. Mason, San Francisco. Bids will be opened June 16, 11 A. M., by the Department Quartermaster, Panama Canal Department, Quarry Heights, Canal Zone. Deposit of \$10.00 required for plans.

PASADENA, Cal.—B. F. DeLanty, superintendent, Municipal Light and Power Department, preparing specifications for a refuse incinerator to be built on a site adjoining the generating plant on East Glenarm St.
 The plant will have a capacity of 100 tons combustible material daily. Plans for the project propose to utilize the plant to develop steam for the generating equipment. Estimates place the steam as sufficient to develop 35,000 kw. per day. The equipment will include two conveyors of the overlap steel apron type convey-

or, with electric motor, gear drive.
 The superintendent was authorized by the board of directors to prepare specifications for alternative methods of taking bids, viz., on the work as a whole and on segregated contracts.

Sub-Bids Being Taken.
MORTUARY Cost, \$60,000
OAKLAND, Alameda Co., Cal. 38th St. and Telegraph Ave.
 Two-story and basement wood frame and brick veneer mortuary (100x 160 ft.) steel sash, steam heating system, tile floors, organ, 30-car garage.
 Owner—Truman Undertaking Co., 2935 Telegraph Ave., Oakland.
 Architect—Elaine and Olson, 1755 Broadway, Oakland.
 Contractor—E. T. Leiter and Son, 811 37th St., Oakland.

FORT LYON, Col.—Henry T. Bechtold, La Junta, Col., at \$2900, with no guaranty, submitted low bid April 21 to Veterans' Bureau, Veterans' Administration Bldg., Washington, D. C. for deep pool for the Veterans' Administration Bldg., at Ft. Lyon, Col. Only other bid submitted by Sewell Well Co., St. Louis, at \$3000, with additional bid of \$5 for (1a).

Construction Under Way.
DOG TRACK Cost, \$150,000
BAYSHORE, San Mateo Co., Calif.
 Dog racing track.
 Owner—Bayshore Kennel Club (Thos. Keene, J. Foppiano, et al), Belmont.
 Plans by Thomas Keene, Belmont.
 Mgr. of Const.—Thomas Keene.
 Work will be done on day's work basis, sub-bids being taken by Mr. Keene.

SAN FRANCISCO.—Standard Asbestos Magnesia Co., 744 Folsom St., at \$66 awarded contract by Department of Public Works for cover and painting steam pipe, etc., at the Health Center, San Francisco.

SAN FRANCISCO.—Otis Elevator Co., 1 Beach St., at \$151 awarded the contract by Department of Public Works for repairs to elevator cables in the City Hall, involving six 1/2-in. 6-strand steel cables.

Contract Awarded.
SLAB Cost, \$5000
AVON, Contra Costa Co., Calif.
 Reinforced concrete slab for the new cracking plant.
 Owner—Associated Oil Co., 79 New Montgomery St., San Francisco.
 Plans by Engr. Dept. of Owner.
 Contractor—Villadsen Bros., 417 Market St., San Francisco.

Sub-Contracts Awarded.
CREMATORIUM, ETC. Cost, \$15,000
SAN JOSE, Santa Clara Co., Calif. Oak Hill Cemetery.
 One-story frame and stucco crematorium and chapel.
 Owner—Oak Hill Cemetery, Monterey Road, San Jose.
 Architect—F. H. Slocombe, 131 Monte Cresta Ave., Oakland.
 Contractor—Henry Bridges, 1398 Lincoln St., San Jose.
Mill Work—Hubbard and Carmichael, 384 W Santa Clara St., San Jose.
Lumber—Southern Lumber Co., 1402 S 1st St., San Jose.
Iron—Hellig Iron Works, 577 W Santa Clara St., San Jose.
Steel Sash—Michel and Pfeffer Iron Works, Harrison and 10th Sts., San Francisco.

PEARL HARBOR, T. H. — R. G. Whinery, 398 Loma Drive, Los Angeles, awarded contract by the Bureau of Yards and Docks, Washington, D. C., at \$10,217, for construction of a telephone cable line at Pearl Harbor, T. H.

Contract Awarded.
TOWER & PENT HOUSE Cost, \$11,000
BERKELEY, Alameda Co., Cal. Sixth and Carlton Streets.

Steel frame and galvanized iron pent house and steel soap blowing tower.

Owner — Colgate Palmolive Peet Co., Sixth and Carlton Sts., Berkeley. Plans by Engineering Dept. of Owner. Contractor—Berkeley Steel Construction Co., Second and Camelia Sts., Berkeley.

Bids Opened.
CAMP Cost, \$1500
TUOLUMNE, Tuolumne Co., Calif. (near Groveland).

One-story frame dining room, kitchen and store room; single roof.

Owner—City of Berkeley. Plans by S. P. Koch, Chief Building Inspector, Berkeley.

Low Bidder—Frank A. Stead, 2326 Edwards St., Berkeley.

Following bids received:
Frank A. Stead, Berkeley.....\$1749
J. R. Armstrong..... 1964
T. D. Courtright, Oakland..... 2000
S. O. MacDonald, Oakland..... 2040
C. M. Norgrove, Berkeley..... 2050
W. V. Bernard, Oakland..... 2181
L. Ubels, Ripon..... 2285
E. M. Sorensen, Berkeley..... 2330
Clinton-Stephenson Constr. Co. San Francisco 2962
Bids held under advisement.

PEARL HARBOR, T. H.—As previously reported, I. Nekomoto, 1769 S. King St., Honolulu, T. H., at \$7450 awarded contract by Bureau of Yards and Docks, Navy Department, for cleaning and painting the coaling plant trestle, two coal hoisting towers and two coal chutes at the 14th Naval District (Naval Fuel Depot), Pearl Harbor, T. H. Specification No. 7236. Following is complete list of bids:

A. Nekomoto, Honolulu.....\$ 7,450.00
K. Hamada, Honolulu..... 10,479.00
Crozier Bros., Honolulu..... 11,918.00
Pacific Bridge Painting Co., San Francisco 14,572.80
T. R. Hanff, Philadelphia, Pa. 16,682.00
Arenz-Warren Co., L. A. 17,840.00
Hawaiian Contracting Co., Honolulu 20,989.00
E. K. Sugihara, Honolulu..... 22,832.00
Ozaki & Sakai, Honolulu..... 24,948.20
L. J. Feary, Oahu..... 26,000.00
D. Zelinsky & Sons, S. F. 33,730.00

MARE ISLAND, Cal.—Eureka Elec. Radio Co., 3469 Mission St., San Francisco, at \$10,900 submitted low bid to Public Works Officer, Mare Island Navy Yard, for furnishing and installing a six projector antennae, four double antennae and connecting transmission lines, including poles, arms, supports, anchors, wires, insulators and special fittings at the Naval Radio Station, Mare Island; Spec. No. 7304. Following bids received:
Eureka Elec. Radio Co., S. F.....\$10,900
Alta Elec. & Mech. Co., S. F. 11,680
West Coast Elec. Works, S. F. 12,775
Severin Elec. Co., S. F. 12,800
H. S. Tittle, S. F. 15,400
City Imp. Co., Berkeley..... 17,770
Bids held under advisement.

ALAMEDA, Alameda Co., Calif.—Until May 18, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 416 Market St., San Francisco, to construct portions of Units 2, 3, 4 and 8, Government Island construc-

tion, Government Island, Alameda, involving:

- (1) 1000 cu. yds. excavation for sewer outlet ditch;
 - (2) street lighting system complete (lump sum);
 - (3) bridge lighting system complete (lump sum);
 - (4) 1300 lin. ft. resurface railroad track;
 - (5) 5600 lin. ft. comb. curb and gutter;
 - (6) 263 lin. ft. curb only;
 - (7) 13,700 sq. ft. valley gutters;
 - (8) 11,300 sq. ft. sidewalks;
 - (9) 1500 sq. ft. reinf. conc. driveways
 - (10) 5 each catchbasins;
 - (11) 150 lin. ft. lay Govt. furnished 6-in. pipe;
 - (12) 350 cu. yds. sand-clay material;
 - (13) 300 cu. yds. loam;
 - (14) 1000 cu. yds. unclass. excav.;
 - (15) 300 cu. yds. addn. base rock;
 - (16) 139 tons liquid asph. road material;
 - (17) 1800 sq. yds. prepare base for surface;
 - (18) 100 cu. yds. crushed rock, level course;
 - (19) 1860 tons asph. treated crushed rock surface;
 - (20) 130 tons screenings, seal coat.
- Specifications obtainable from the above, \$10 deposit.

20—MISC. SUPPLIES AND MATERIALS

SAN RAFAEL, Marin Co., Calif.—Standard Fence Co., 1940 San Bruno Ave., San Francisco, at \$399.72 awarded contract by State Purchasing Department, Sacramento, for fencing for the Highway Department at San Rafael.

LOS ANGELES, Cal.—Concrete Engineering Co., 1450 Mirasol St., submitted low bid to county supervisors May 1 at \$7735 to furnish reinforcing steel for the Outlet tunnel, San Gabriel Dam No. 1. The quantity of steel amounts to 520,000 lbs., to be furnished f.o.b. district yard, Azusa. The items are:

- (1) 105,000 lbs. 1-in. square deformed;
- (2) 225,000 lbs. 1-in. round deformed;
- (3) 180,000 lbs. ½-in. do;
- (4) 10,000 lbs. ¾-in. do.

The bids follow:
Concrete Engineering Co.—All items at .0148¾¢ per lb., total \$7735.

Soule Steel Co.—All items at .015¢ per lb., total \$7800.

Blue Diamond Corp.—All items at .0153¢ per lb., total \$7956.

Pacific Coast Steel Corp.—All items at .01545¢ per lb., total \$8033.94.

Truscon Steel Co.—All items \$1.55 per 100 lbs., total \$8060.

LOS ANGELES, Cal.—Rio Grande Oil Co. awarded contract by A. J. Holm, City Purchasing Agent, April 27, to \$161,950 (estimated total), for furnishing gasoline under items (1), (2) and (3), Specifications No. 3041. The quantities include: (1) 50,000 gals. Ethyl gasoline within the city, (2) 800,000 gallons highly volatile high octane gasoline for delivery within the city, (3) 800,000 gals third structure gasoline, same delivery. All bids were rejected on item (4), which called for furnishing 100,000 gallons gasoline, service station delivery on credit cards.

NORTH HOLLYWOOD, Los Angeles Co., Cal.—Kratz & McClelland, 522 Bryant St., San Francisco, at \$227.67 each submitted low bid to the State Purchasing Agent to furnish f.o.b. North Hollywood seven 100-gallon asphalt kettles with pressure type kerosene burners and 15-ft. spray hoses, mounted on 2-wheeled pneumatic tired trailers. Complete bids follow:

Kratz & McClelland.....	\$227.67
Standard Metal Prod. Co.....	230.00
Air Oil Burner Co.....	238.00
Smith, Booth, Usher (add \$7.75 for insulated hose).....	238.00
Harron, Rickard, McCone (deduct \$7.70 for non-insulated hose).....	240.22
A. L. Young Mach. Co.....	242.50
Brown-Bevis.....	270.00
Concrete Mach. & Supply Co., Los Angeles.....	278.50
Dutwiler Mach. Co., L. A.....	310.00
Associated Equip. Co.....	312.50
Spears-Wells Mach. Co.....	334.00
Essex Machine Co.....	339.00

DENVER, Colo.—As previously reported, California Portland Cement Co., Riverside Cement Co., Monolith Portland Cement Co. and the Southwestern Portland Cement Co., bidding jointly, submitted low bid to U. S. Bureau of Reclamation, Denver, Apr. 24 at \$1.55 per barrel, delivery Crestmore, Victorville, Colton and Monolith, Calif., to furnish 400,000 barrels of Portland cement for use in the construction of the Hoover Dam. Other bids follow:

Union Portland Cement Co., Denver (bid on 50,000 bbls, only) f.o.b. Devils Slide and Salt Lake City, Utah, at \$1.39.

Pacific Portland Cement Co., San Francisco, f.o.b. Redwood Harbor, Cal. at \$1.65 per barrel.

Calaveras Cement Co., San Francisco, f.o.b. Kentucky House, Calif., at \$1.65.

SAN FRANCISCO—Following bids submitted under Bid No. 998 to City Purchasing Agent, to furnish garden hose for the Park as follows:

- (1) 12000 ft. 1-in.;
- (2) 1000 ft. ¾-in.;
- (3) 60 ft. 1¼-in.

21—BRIDGES

OAKLAND, Cal.—W. Vernon Bernard, 3045 Humboldt St., Oakland, at \$1935 submitted low bid to East Bay Municipal Utility District, Oakland, to construct Bear Creek Bridge near Orinda, Contra Costa County, consisting of one 40-ft. span and including 1000 ft. roadway approaches, involving:

(1) one 40-ft. span timber bridge complete, together with two 20-foot span timber approach sections, complete (lump sum);

(2) 1500 cu. yds. excavation. Complete bids follow:

W. Vernon Bernard, Oakland (1) \$1-560; (2) \$375.00.

Lee J. Immel, Berkeley, (1) \$1,665; (2) \$390.

Frank Legg, San Francisco, (1) \$1-370.10; (2) \$727.50.

W. H. Larson, Berkeley, (1) \$1,709; (2) \$525.00.

Herbert K. Henderson, Oakland, (1) \$1720; (2) \$600.00.

C. A. Bruce & Sons, Pleasanton, (1) \$1800; (2) \$525.00.

W. E. Lyons, Oakland, (1) \$1830; (2) \$570.00.

R. W. Littlefield, Oakland, (1) \$1-669; (2) \$750.00.

Hutchinson Co., Oakland, (1) \$1-953; (2) \$480.00.

A. Holyoake, Hayward (1) \$1833; (2) \$600.00.

Frank A. Stead, Berkeley, (1) \$1-865; (2) \$600.00.

J. B. Petersen & Sons, Oakland (1) \$1897; (2) \$600.00.

Robt. B. McNair, Oakland, (1) \$2100 (2) \$450.00.

Delta Dredging Co., Pittsburgh (1) \$2154; (2) \$450.00.

F. C. Stolte & Co., Oakland, (1) \$2-150; (2) \$525.00.

Martin Murphy, Berkeley, (1) \$1-822; (2) \$900.00.

E. T. Lesure, Oakland (1) \$1960; (2) \$840.00.

A. Cederborg, Oakland, (1) \$2320; (2) \$540.00.

Alfred J. Hopper, Oakland, (1) \$2-195; (2) \$675.

George Swanstrom, (1) \$2256; (2) \$825.00.

Garcia Const. Co., Irvington, (1) \$2-475; (2) \$900.00.

Schuler & McDonald, Oakland (1) \$2947; (2) \$645.00.

Bids held under advisement until May 3, 5:30 P. M.

ORANGE COUNTY, Cal.—C. H. Purcell, State Highway Engineer, is preparing plans for the reconstruction of the Anaheim Bay bridge. The state highway commission April 28 appropriated \$12,000 for this work. The bridge was damaged in the recent earthquake.

SAN FRANCISCO.—California Toll Bridge Authority, Earl Lee Kelly, State Director of Public Works, awarded contracts on all six divisions of the San Francisco-Oakland Bay Bridge to low bidders, as follows:

CONTRACT 2—Substructure, West Bay Crossing, Transbay Const. Co., \$6,957,100.68.

CONTRACT 3—San Francisco Anchorage, Healy-Tibbitts Const. Co., \$1,036,500.

CONTRACTS 4 and 4a—Substructure, East Bay Crossing, Bridge Builders, Inc., \$4,495,854.

CONTRACT 5—Yerba Buena Tunnel and Construction, Clinton Const. Co., \$1,821,292.50.

CONTRACTS 6 and 6a—Superstructure, West Bay Crossing, Columbia Steel Co., \$13,732,471.80.

CONTRACT 7—Superstructure, East Bay Crossing, Columbia Steel Co., \$8-798,096.50.

FAIRFIELD, Solano Co., Calif.—County supervisors grant permit to James L. Irvine to construct span across Dutchman's Slough, north of Mare Island. Bridge will be draw span 10-ft. above mean high tide, with 20-ft. opening to permit passage of vessels.

PORTERVILLE, Tulare Co., Calif.—Plans being completed to rebuild suspension bridge across the Big Kern River.

SANTA CLARA COUNTY, Cal.—N. M. Ball, 1889 Yosemite Road, Berkeley, at \$68,933.58 awarded contract May 4 by State Highway Commission to construct undergrade crossing under the tracks of the Southern Pacific Railroad near Madrone, consisting of two concrete abutments with wing walls, installing drainage system, and pumping equipment, and grading and paving approximately 0.74 mile roadway with Portland cement concrete.

SAN FRANCISCO—Moore Drydock Co., Balfour Bldg., awarded sub-contract by Transbay Construction Co., Financial Center Bldg., for caisson work in connection with the Substructure, West Bay Crossing, Transbay Bridge.

LOS ANGELES, Calif.—Until 2 P. M., May 22, bids will be received by the county supervisors to paint steel work of the 400-ft. bridge on Ocean Ave. across Alamitos Bay. The county will furnish the paint. W. D. Armstrong, County Bridge Engineer. M. E. Beatty, 501 Hall of Records, clerk of the board. 1

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

22—DREDGING, HARBOR WORKS, EXCAVATION

PORT ALLEN, Kauai, T. H.—U. S. Engineer Office may call bids for a 1200-ft. breakwater on the east side of the bay; also dredging a harbor basin; estimated cost, \$880,000.

REDWOOD CITY, San Mateo Co., Cal.—County will determine at June 27 election whether harbor district is to be formed; involves election of 3 commissioners for district. District, if formed, may petition Reconstruction Finance Corporation for \$200,000 loan to build harbor. 2

SEATTLE, Wash.—Johnson Shlpbuilding Co., Seattle, at \$3447 submitted low bid to U. S. Engineer Office to construct 3 flat-bottomed wooden scows 22x50 ft. Maritime Boat & Engine Works second low at \$3591; Berg Shlpbuilding Co., third low at \$3882.

STOCKTON, San Joaquin Co., Cal.—Until May 9, 3 P. M., under Circular Proposal No. 33-301, Spec. No. 5428, bids will be received by U. S. Engineer Office, California Fruit Building, Sacramento, to remove a sunken barge from the easterly bank of the San Joaquin river just upstream from the Borden Highway Bridge, and about one mile west of Stockton. Specifications obtainable from above office.

SEATTLE, Wash.—Winslow Marine Railway Co., Seattle, at \$22,230.68 was awarded contract by U. S. Engineer's Office to dry dock and repair dredge "Culebra."

SAN FRANCISCO.—Bill introduced before House Committee, Washington, D. C., to clear the bar just outside the Golden Gate; appropriation \$500,000.

Other projects included in the same bill are:

Monterey harbor \$240,000; lower San Francisco Bay and Guadalupe River, \$300,000; Middle River, Turner Cut and Whiskey Slough, \$6,500; Napa River, \$62,500; Umpqua River, Ore., \$700,000; Columbia River at St. Helens, \$50,000; Columbia River, mouth of Willamette River to Vancouver, \$57,000; Young Bay and River, \$5,000, and Multnomah Channel, Ore., \$20,000.

24—ST. LIGHT. SYSTEMS

FRANCE FIELD, C. Z.—Until June 8, bids will be received by Quartermaster Office, Quarry Heights, C. Z., for night lighting system.

25—MACHINERY AND EQUIPMENT

LOS ANGELES, Cal.—Standard Steel Works, 5001 Boyle Ave., awarded contract by Board of Public Works, April 28, at \$5989, to furnish and install a rock and sand dryer and other miscellaneous work at the McPherson St. asphalt plant.

PORTLAND, Ore.—Northern Radio Co., Inc., 1422 Joseph Vance Bldg., Seattle, Wash., at \$1975 submitted lone bid to U. S. Engineer Office, Portland, to construct one radio transmitting

and receiving set and install it on U. S. Seagoing Dredge Col. P. S. Michie. Alternate of 110-v. storage battery at \$650; 2-k.w. Kohler Plant 110-v. D. C. at \$600.

KETCHIKAN, Alaska.—Until June 6 bids will be received by W. C. Dibrell, superintendent, 16th Lighthouse District, Ketchikan, to furnish two units of Diesel engine driven compressor units with accessories. Sixty-day delivery is wanted.

27—FIRE ALARMSYSTEMS

LOS ANGELES, Calif.—County supervisors authorized appropriation of \$3400 May 1 to purchase a fire truck for Rancho Los Amigos. H. E. Russell, county purchasing agent, 524 N Spring St., will advertise for bids soon.

30—RESERVOIRS & DAMS

PHOENIX, Ariz.—Maricopa County Municipal Water Conservation Dist. No. 1 granted loan by Reconstruction Finance Corp. to provide funds for the repair of the district's concrete dam across the Aqua Fria River, 18 mile west of Phoenix. The cost of the project will be about \$1,350,000.

ALTADENA, Los Angeles Co., Cal.—Plans for a reinforced concrete circular reservoir, to be built at 560 Poppy St., Altadena, for the Las Flores Water Co., will be issued about May 2 to a selected list of contractors. Plans prepared by Allin Bros., consulting engineers, 303 Kendall Bldg., 65 N. Raymond Avenue, Pasadena. The proposed reservoir will be 80 ft. in diameter, 13½ ft. in depth, with vertical reinforced walls. The reservoir will have a wooden roof supported by concrete columns, with composition covering.

The outlet pipe, involving 20 ft. cast iron pipe, one 10-in. and one 6-in. valve, will be purchased direct by the water company.

LOS ANGELES, Calif.—Until 2 P. M. May 8, bids will be received by County Supervisors to furnish 406,800 lbs. reinforcing steel and 60 ft. steel pipe for San Gabriel Dam No. 2, f. o. b. district freight yard at Azusa. The items are:

REINFORCING STEEL

- (1) 12,340 lbs. 1¼-in. square deformed
- (2) 50,000 lbs. 1-in. round deformed;
- (3) 100 lbs. ¾-in. do;
- (4) 30,000 lbs. ¾-in. do;
- (5) 20,000 lbs. ½-in. do;
- (6) 100 lbs. ½-in. square deformed;
- (7) 294,000 lbs. ½-in. round deformed;
- (8) 100 lbs. ¾-in. do;
- (9) 160 lbs. ¼-in. do.

STEEL PIPE

- (1) 600 lin. ft. 10-in. dia. standard steel pipe, unthreaded, in 10-ft. lengths.

E. C. Eaton, County Flood Control Engineer, 202 N Broadway. Mame B. Beatty, 501 Hall of Records, Clerk of the Board.

LOS ANGELES, Cal.—Case Const. Co., Inc., 1927 Thayer Ave., Westwood awarded subcontract by Maceo-Lewis Const. Co. for work at San Gabriel Dam No. 2, as follows:

- (1) Gunite facing slab and sub-slab on up stream face of dam;
- (2) Gunite work in main incline for feeder tunnel and transition into main tunnels.

MODESTO, Stanislaus Co., Cal.—J. F. Knapp, 916 Financial Center Bldg., Oakland, at \$7425 submitted low bid to city council to construct collapsible weir dam across the Tuol-

umne River at Modesto, involving:

- (1) dam complete;
- (2) furnish and drive all anchor piles, sheet piling and abutment piling, and furnish all stringers and bolts completely fastened to anchor & sheet piling;
- (3) furnish all materials for dam complete;
- (4) labor to construct dam complete;
- (5) furnish pile driver, mechanical shovel and one operator for each piece of equipment. Price per hr. Knapp also bid on item (5) \$6 per hour each for shovel and operator and for pile driver and operator.

Delta Dredging Co., Pittsburg, submitted only other bid on dam complete, at \$10,349.

Ground Lumber Co., Modesto, bid on lumber only at \$50 per MFBM for 10,000 bd. ft. redwood; \$23.50 MFBM for 1000 bd. ft. pine, and \$37.50 MFBM for 1000 bd. ft. creosoted pine.

Bids turned over to Frank J. Rossi, city engineer, and held under advisement until May 10, at which time award will probably be made to low bidder, as his equipment is located on the Tuolumne River at present.

BELLFLOWER, Los Angeles Co., Cal.—The Somerset Mutual Water Co. 458 Somerset Ave., Bellflower, has under consideration the construction of a reinforced concrete reservoir to replace a 50,000-gal. steel tank which was destroyed by the earthquake. E. R. Jones is the superintendent.

PHOENIX, Ariz.—The proposed improvements and repairs to the Lake Pleasant Dam across the Agua Fria River, 18 miles west of Phoenix, for the Maricopa County Municipal Water Conservation District No. 1, for which the Reconstruction Finance Corp. has granted a \$1,350,000 loan (as previously noted) will include correction of structural defects to make the dam capable of holding its full capacity as designed. The program as outlined by the Chief Engineer and General Manager, W. W. Lane, is as follows:

Raising of the dam spillways.

Construction of new distributing system structures.

Lining of a portion of the canal system.

The project now has 39,026 acres under cultivation and the proposed improvements will enable the district to provide for an additional 19,000 acres.

R. O. Beardsley is president; W. W. Lane, General Manager and Chief Engineer, and Nina McNulty, Secretary.

31—PIPE LINES & WELLS

PEARL HARBOR, T. H.—Until May 31, bids will be received by 14th Naval District, Pearl Harbor, T. H., under Spec. 7209 to construct 6-in. cast iron pipe water line approximately 3-736 ft. long with 3180 ft. to be submerged.

WALLA WALLA, Washington.—Until May 12, 2:30 P. M. (date postponed from May 5) bids will be received by the Supervising Superintendent of Construction, Veterans' Administration, Palo Alto, to drill, develop and test deep well at the Veterans' Administration Hospital Pumping Site No 2, at Walla Walla, Washington.

SAN DIEGO, Cal.—City council has authorized an extra work order on El Capitan Dam to provide for the drilling of seven wells for tests as to underground drainage. Cost is estimated at \$2500. H. N. Savage is the hydraulic engineer in charge.

BEVERLY HILLS, Los Angeles Co., Cal.—Until May 23, 8 P. M., bids will be received by city council to drill one 16-in. gravel encased envelope type well to a depth of from 350 to 450 ft. Specifications obtainable from the consulting engineers, Salisbury, Bradshaw & Taylor, 714 W 10th St., Los Angeles. E. J. Firminger, city clerk.

SEATTLE, Wash.—Puget Sound Machinery Depot, 322 1st St., Seattle, at \$337,323 awarded contract by city council to construct the Cedar River Pipe Line on the basis of steel pipe construction.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LONG BEACH, Calif.—United Concrete Pipe Corp., 1347 W 208th Street, awarded contract by the city manager at \$4194.85 for furnishing 1315 ft. of 36-in. reinforced concrete pipe under Spec. No. R-742.

American Concrete & Steel Pipe Co. submitted a bid of \$4273.75.

LOS ANGELES, Cal.—L. W. Armstrong, City Storm Drain Engineer, has completed specifications for furnishing of 138 ft. of 33-in. centrifugal concrete pipe for use in the 6th Ave. and 52nd St. Improvement District. A call for bids will be issued through the office of A. J. Hohn, City Purchasing Agent.

MONTEREY PARK, Los Angeles Co., Cal.—All bids for furnishing vitrified sewer pipe, manhole brick, etc., for the Midwick View Estates sewers, opened April 24, rejected by the city council May 1. The engineer, C. H. Ellison, was authorized to purchase the material in the open market. The materials required are:

- 8,000 ft. 8-in. sewer pipe;
- 1,350 ft. 10-in. sewer pipe;
- 160 8x6 wyes;
- 13 10x6 wyes;
- 50,000 manhole brick;
- 36 manhole covers and rings.

SAN FRANCISCO.—Until May 17, 2:30 P. M., bids will be received by Department of Public Works, S. J. Hester, secretary, to construct a sewer in Blanken St. consisting of a wood box sewer, involving:

- (1) 964 lin. ft. 24x24-in., redwood box sewer, on earth;
- (2) 206 lin. ft. do on piles;
- (3) 1360 lin. ft. creosoted piles.

Specifications obtainable from office of John J. Casey, city engineer, third floor, City Hall. Estimated cost, \$4,600.

33—WATER WORKS

MODESTO, Stanislaus Co., Calif.—Kimball-Krogh Pump Co., 515 Harrison St., San Francisco, at \$1423 with a turn-in allowance of \$100 submitted low bid to city council to furnish one pump and motor complete. Either vertical turbine or horizontal centrifugal type, 1500-GPM at 177 ft. head, driven by 100-hp. 2300-volt, 3-phase, 60-cycle motor; f.o.b. Modesto. Bidder to show allowance on one 1400-GPM Bryon-Jackson pump and one 125-hp. 2300-volt, 3-phase, 60-cycle General Electric motor.

Complete bids follow:

- Kimball-Krogh, turbine, \$100; \$1423.
- Wintroath Pumps, Ltd., Alhambra, turbine, \$150; \$1600.
- John Bean, San Jose, turbine, \$254; \$1647.
- Sterling Pumps, Stockton, turbine, \$350 \$1800.
- Pomona Pump Co., turbine, \$75; \$1873
- Fairbanks-Morse, San Francisco, turbine, \$463.45; \$1885.

Hild Elec. & Mfg. Co., Stockton, cen. \$150; \$1996; turbine, \$150; \$1993.
 Byron-Jackson, Berkeley, cen. \$100; \$2134; turbine, \$100; \$1727.
 DeLaval, San Francisco, centrif. \$100 \$2195.
 Bids held under advisement until

WAPATO, Wash.—Mathews Lumber Co., Seattle, at \$665 awarded contract by U. S. Bureau of Reclamation to furnish 50,000 ft. cedar for construction on Unit No. 2, Wapato Project.

General Electric Supply Corporation awarded contract at \$199 for equipment for the power house.

PEARL HARBOR, T. H.—Until 11 A. M., May 31, bids will be received by Bureau of Yards and Docks, Navy Department, Washington, D. C., for 6-in. cast iron water pipe line approximately 3736 ft. long, with approximately 3180 ft. to be submerged, at the 14th Naval District, Pearl Harbor, T. H.; Spec. No. 7209. Plans may be obtained on application to the Bureau, to the Commandant, 14th Naval District, Navy Yard, Pearl Harbor, T. H., or to the Commandant, 12th Naval District, 100 Harrison St., San Francisco, upon deposit of check or postal money order for \$10, payable to the Chief of the Bureau of Yards and Docks.

SOUTH GATE, Los Angeles Co., Cal.—City Council has adopted a resolution ordering that the city apply to the Unified Rehabilitation Corp. for a loan of \$19,000 to provide funds for the reconstruction of an elevated steel tank which was destroyed by the earthquake. The proposed tank will have a capacity of 150,000 gallons and will be constructed on a 142-ft. tower. This application was recommended by W. S. Althouse, consulting engineer, in order that the city might be one of the first on the list. The engineer recently presented a report embodying this recommendation and other work totaling \$83,000, but to date the council has not considered the report as a whole.

Supply Co., 729 Brannan St., at \$5.30 for 3/4-in. and \$7.36 for 1-in., submitted low bid to City Purchasing Agent under Bid No. 996, to furnish (1) 35,000 ft. 3/4-in. standard wrought steel galv. water pipe.
 (2) 1000 ft. 1-in. do.

Twenty-three identical bids at \$5.48 for (1) and \$7.59 for (2) were submitted by:

- Woodin & Little.
- Turner Company.
- Sloss & Brittain.
- Olson & Heffernan.
- Petroleum Equipment Co.
- Tay-Holbrook Co.
- Richmond Sanitary Co.
- Dunham, Carrigan & Hayden.
- E. E. Newhall Co.
- Stephen H. McKay.
- C. J. Hengera Co.
- Steam & Plumbing Service Corp.
- Marshall-Newell Supply Co.
- P. E. O'Hair & Co.
- Gilmore Steel & Supply Co.
- Baker-Hamilton-Pacific Co.
- Pacific Pump & Supply Co.
- General Machinery & Supply Co.
- Walsworth-California Co.
- Crane Co.
- Grinnell Co. of California.
- A. J. Glesner Co.
- Federal Pipe & Supply Co.
- Viking Automatic Sprinkler Co., submitted a bid at \$5.52 for (1) and \$7.65 for (2). Bids held under advisement.

SANTA BARBARA, Cal.—Until 2 P. M., May 11, bids will be received by City Council to furnish pipe and valves for the Sheffield Reservoir project, involving:
 400 ft. 24-in. class B sand spun cast

iron pipe;
 1 12-in. valve;
 1 12-in. valve;
 Specifications obtainable from Victor H. Trace, City Water Superintendent. Carl Hesse, city purchasing agent.

SAN FRANCISCO—United Pipe & SAN FRANCISCO—Pacific States Cast Iron Pipe Co., Rialto Bldg., at \$.165 per ft. submitted low bid under Bid No. 994 to City Purchasing Agent to furnish 5000 ft. 2-in. cast iron B & S water pipe. Only other bid submitted by American Cast Iron Pipe Co. at \$.178 per ft.

TORRANCE, Los Angeles Co., Cal.—City council preparing preliminaries to issue \$400,000 bonds for municipal water system and making a study of the feasibility of constructing an entirely new plant rather than purchase the existing system. F. B. Leonard, city engineer, has prepared plans for the new system.

SAN FRANCISCO.—Western Pipe & Steel Co., 444 Market St., at \$1084 less 1/2% discount, awarded contract by U. S. Forest Service to furnish:

- (1) 1500 lin. ft. 12-in. corr. metal culvert;
 - (2) 750 lin. ft. 18-in. do;
- Complete bids follow:
- (A) Western Pipe & Steel Co., \$1,084.00.
 - (B) Golden State Culvert (no discount) \$1080.00.
 - (C) California Corrugated Culvert Co. \$1099.80.
- Unit bids follow:
- | | (A) | (B) | (C) |
|----------|-------|------|------|
| (1)..... | \$395 | \$39 | \$40 |
| (2)..... | .57 | .67 | .58 |

SAN FRANCISCO—P. L. Burr, 320 Market St., at \$1284 submitted low bid to Constructing Quartermaster, Fort Mason, for furnishing and installing two water meters in valve chambers at the Letterman General Hospital, San Francisco. Following bids received:

- P. L. Burr.....\$1284
 - Thos. R. Smith.....1300
 - A. Ramanzotti.....1390
 - Skelly & Kohler.....1417
 - James Currie.....1444
 - O'Mara & Stewart.....1475
 - Sett Company.....1547
 - Atlas Heating & Ventilating Co. 1618
 - Fred W. Snook.....1770
 - Baldwin & Butler.....1798
- Bids held under advisement.

BELLFLOWER, Los Angeles Co., Cal.—Western Pipe & Steel Co., 5717 Santa Fe Ave., Los Angeles, awarded contract by Bellflower Water Co., 458 Somerset Ave., Bellflower, at about \$2000 to construct a steel standpipe, 24 ft. in diameter and 41 ft. high, on concrete foundation, to replace the elevated steel tank destroyed in the recent earthquake. Jack Hammond is the superintendent.

29—STREETS AND HIGHWAYS

LASSEN & Sierra Counties, Cal.—C. F. Frederickson and Sons, Lower Lake, and Basalt Rock Co., Napa, at \$8772.33 submitted identical low bids to District Engineer State Highway Commission, Redding, to treat with asphaltic road oil as a dust palliative 40.4 mi. existing roadbed between 2-mi. west of Millford and Doyle and between Long Valley Creek and the Nevada State Line, involving 3387 bbls. asphaltic road oil. Complete bids follow:
 C. F. Frederickson & Sons, \$2.59; \$8772.33.
 Basalt Rock Co., Napa, \$2.59; \$8772.33
 Tiffany-McReynolds-Tiffany, San Jose, \$2.73; \$9246.51.

Oilfields Trucking Co., Bakersfield, \$2.95; \$9991.65.
 A. Teichert & Son, Sacramento, \$3.05; \$10,330.35.
 Dunn & Baker, Klamath Falls, Ore., \$3.90; \$13,209.30.

SAN FRANCISCO—E. J. Treacy, 309 Call Bldg., at \$5258.15 submitted low bid to construct 16-in. cast iron pipe line 19th Ave. to Ulloa St., involving:

- (1) 5700 lin. ft. excav. and backfill 30x48-in.;
- (2) 50 cu. yds. add. excav. and backfill;
- (3) 356 tons install pipe, fitting, gates
- (4) 3425 lin. ft. Mineralead joints, fitting.

- Complete bids follow:
- (A) E. J. Treacy, \$5258.15.
 - (B) Fay Improvement Co., \$5458.15.
 - (C) S. F. Water Dept., \$5569.25.
 - (D) H. E. Conner, Redwood City, \$6233.50.
 - (E) P. L. Burr, \$7957.20.
 - (G) Jos. Shea, \$7687.
- Unit bids follow:

WASHINGTON STATE—Until May 31, 10 A. M., bids will be received by L. V. Murrow, State Director of Highways, Olympia, to construct bituminous mat by plant mix method on the Touchet-Vansycle Canyon and the Wallula-Oregon State Line sections, State Road No. 3, Walla Walla Co., 15.6 mi. Specifications obtainable from above office on deposit of \$2.00. Certified check 5% payable to State Treasurer required with bid.

SAN JOSE, Santa Clara Co., Cal.—Until May 15, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, to improve Cunningham St., involving 182,700 sq. ft. oil macadam. Specifications obtainable from Robert Chandler, County Surveyor, on payment of \$1, not returnable.

SAN JOSE, Santa Clara Co., Cal.—A. J. Raisch, 305 Burrell Bldg., San Jose, at \$4715 awarded contract by county supervisors to improve Fowler Road, Supervisor District No. 2, near Evergreen, involving 74,540 sq. ft. oil macadam. Complete bids follow:
 A. J. Raisch, San Jose.....\$4715.00
 Tyhon & Karstedt, San Jose.. 5608.00
 E. W. Heple, San Jose..... 5348.00
 Surveyor's Estimate 4800.00
 A. J. Raisch also awarded contract to improve Dixon Road, Supervisor District No. 3, from the Oakland Highway to the county line, involving 77,270 sq. ft. oil macadam. Complete bids follow

A. J. Ralsch, San Jose.....\$5084.00
 O. G. Ritchie, San Jose..... 5335.00
 E. W. Heple, San Jose..... 5675.83
 Tyson & Karstedt, San Jose..... 7129.30
 Surveyor's Estimate 4500.00

RIVERSIDE, Cal.—J. R. Elliott, Street Superintendent, has completed an estimate of the cost of resurfacing Central Ave., between the Santa Fe tracks and Victoria Ave., 3270 lin. ft., 16 ft. wide. The work will involve: 52,320 sq. ft. 2-in. rock and oil surfacing.

Engineer's estimate, \$2142.80.

SAN FRANCISCO—Eaton & Smith, 715 Ocean Ave., at \$2450 submitted low bid to Constructing Quartermaster, Fort Mason, for clearing and grubbing approximately 3.12 acres of land at the San Francisco National Cemetery. Following bids received:

Eaton & Smith.....\$2450
 P. L. Burr..... 2730
 James Currie..... 3200
 Severin Electric Co..... 3500
 Fay Investment Co..... 4985
 A. G. Ralsch..... 5400
 A. J. O'Neil..... 5800

MODOC COUNTY, Cal.—Until May 4, 2 P. M., bids will be received by F. W. Haselwood, District Engineer, State Highway Commission, Redding, to treat with fuel oil and asphaltic road oil as a dust palliative 46.5 mi. of existing roadbed between Hot Creek and Alturas and between the Junction of State Highway Routes 73 and 28 and the Oregon state line. Specifications obtainable from above office. Certified check 10% required with bid.

PLUMAS and Lassen Counties, Cal.—Until May 4, 2 P. M., bids will be received by F. W. Haselwood, District Engineer, State Highway Commission, Redding, to treat with fuel oil as a dust palliative 21 miles of existing roadbed between Beckwith and a junction with State Highway Route 29, near Chat. Specifications obtainable from above office. Certified check 10% required with bid.

INGLEWOOD, Los Angeles Co., Cal.—Arthur W. Cory, city engineer, prepared estimate of the materials to be used to improve Freeman Avenue between Redondo Blvd. and a point 300 ft. south of Arbor Vitae St. The engineer has not determined whether the paving will be rock and oil or Bitumuls. The preliminary estimate shows:

375 bbls. No. 80 oil;
 225 bbls. No. 90 oil;
 900 tons equal parts No. 2 and No. 3 rock;

375 tons equal parts No. 4 rock;
 100 tons sand.

The total area to be paved is about one mile in length, 40 ft. wide, including 22,273 sq. yds. surface.

The city also plans to pave the roadway of Prairie Ave. between Redondo Ave. and Regent St., about 420 lin. ft., involving 2240 sq. yds. surface. The estimate of required materials follows:

100 tons Nos. 2 and 3 rock;
 55 tons No. 4 rock;
 10 tons sand;

60 bbls., 80 and 90 road oil;

The sum of \$3450 for these projects has been appropriated by the county supervisors. 29

MODESTO, Stanislaus Co., Calif.—Modesto-Yosemite Highway Cut-off Association requests loan from Reconstruction Finance Corporation to finance construction of short-cut toll road to Yosemite Valley. Cost was estimated at \$1,724,550 in 1930, but Association now estimates that present cost would be 25 to 50% less.

SAN MATEO, San Mateo Co., Cal.

—San Mateo County Surveyor James S. James stated that proposed Ocean Shore route would be impractical because of slides near the old Pedro mountain railroad tunnel. Joint Highway District No. 9, San Mateo, San Francisco and Santa Cruz counties, may survey route in order to determine whether present plans should be followed.

BELL, Los Angeles Co., Cal.—Atlantic Lumber Co., 6337 Atlantic Blvd., Bell, awarded contract by City Council to furnish rock and sand for the resurfacing of Wilcox St., Salt Lake Ave., and other streets, involving: 660 tons No. 3 rock at \$1.50 ton.
 360 tons No. 4 rock at \$1.50 ton.
 180 tons sand at \$1.35 cu. yd.

BEVERLY HILLS, Los Angeles Co., Cal.—Booth & Tomei, 5922½ Estrella Ave., Los Angeles, submitted low bid to city council, April 25, at \$2.15 ton, for resurfacing and grading on N. Canon Dr., from Santa Monica Blvd. to Sunset Blvd., involving 216,300 sq. ft. 2-in. asphalt concrete resurfacing. The other bids were:
 Southwest Paving Co., \$2.33 per ton.
 Griffith Co., \$2.43 per ton.

The bids were taken under advise-

TULARE CO., Cal.—Hemstreet and Bell, Marysville, at \$237,010.40 awarded contract by State Highway Commission to complete grading and surfacing with crushed gravel or stone 8.4 miles between Lemon Cove and Three Rivers. Only other bid submitted by Valley Paving & Construction Co., Fresno, at \$241,315.40.

TUOLUMNE and Mariposa Counties, Cal.—C. F. Frederickson & Sons, Lower Lake, at \$7891 awarded contract by State Highway Commission to treat with fuel oil and asphaltic road oil as a dust palliative 26 miles of existing roadbed between Priest Hotel and Yosemite National Park.

SAN RAFAEL, Marin Co., Calif.—Following have procured plans for the purpose of submitting bids to the Constructing Quartermaster, at Hamilton Field, for paved aprons around the hangar and shop at Hamilton Field (Marin Meadows) Bombing Base, San Rafael, on May 24, 2 P. M.:

Leroy Building Service, 165 Jessie St., San Francisco.

Robert E. McKee, 108 W 6th St., Basalt Rock Co., Napa.

Chas. L. Harney, 74 New Montgomery St., San Francisco.

Eaton & Smith, 715 Ocean Ave., San Francisco.

W. E. Lyns, 354 Hobart St., Oakland.

Pacific States Const. Co., Call Bldg., San Francisco.

A. Nelson, Inc., 242 Ocean Ave., San Francisco.

Barrett & Hilp, 918 Harrison St., San Francisco.

Quantities of materials listed in issue of April 27.

PEARL HARBOR, T. H.—Until May 17, 11 A. M., under Spec. No. 7134, bids will be received by Public Works Officer, 14th Naval District, Pearl Harbor, for additional paving in vicinity of Seaplane hangar at the Fleet Air Base, Pearl Harbor. Specifications obtainable from above on deposit of \$5, check payable to Chief of the Bureau of Yards and Docks.

SAN FRANCISCO.—E. J. Treacy, Call Bldg., at \$5490.30 awarded contract by Department of Public Works to improve 19th, Yukon to Casell Sts.

OAKLAND, Cal.—Hutchinson Co., 1450 Harrison St., Oakland, at \$4817-

40 awarded contract by City Port Commission to pave Middle Harbor Road from the foot of Adeline St. to the new garbage wharf.

LOS ANGELES, Cal.—V. R. Dennis Construction Co., Box F, Station A, San Diego, at \$15,319 submitted low bid May 2, to Metropolitan Water District to construct 3.2 mi. roads for the Colorado River Aqueduct, in Berdoo Canyon, 7 mi. northeast of Indio.

Yglesias Bros., Inc., San Diego, second low at \$20,963; A. Teichert & Son, Sacramento, third low at \$23,511.50.

SHASTA COUNTY, Cal.—Forward Bros., Mantion, awarded sub-contract by E. C. Coats, Sacramento, to clear four miles Manzanita Lake National Forest Highway for which Coats was awarded contract Dec. 15, 1932.

MONTEREY, Monterey Co., Cal.—Granite Const. Co., Bin No. 9, Watsonville, at \$4394.14 awarded contract by Quartermaster, Presidio of Monterey, to construct asphaltic concrete roadways and concrete curbs at the Presidio.

LOS ANGELES, Cal.—J. J. Jessup, City Engineer, completed plans to improve Gracia St. and Hollydale Improvement District, involving:

grading (1624 cu. yds. cut, 551 cu. yds. fill);

489 sq. ft. concrete local depressions, 8-in.;

48,106 sq. ft. asphalt concrete wearing surface, 4-in.;

2,994 ft. unplastered light curb;

204 sq. ft. once-course sidewalk, 4-in. (driveway);

43,121 sq. ft. one-course sidewalk;

3,082 sq. ft. concrete gutter;

lump sum for remodeling manhole including service connections for water service complete 1 service connection;

Removals:

97 sq. ft. sidewalk;

110 sq. ft. driveway;

33 sq. ft. gutter;

13 sq. ft. brick pavement.

Action on this improvement has been deferred until a later date.

TRINITY COUNTY, Cal.—Tiffany-McReynolds-Tiffany Co., 535 N 7th St., San Jose, at \$7326.26 submitted low bid April 27 to District Engineer, State Highway Commission, Redding, to treat with fuel oil and asphaltic road oil as a dust palliative 26.5 miles between Weaverville and White's Bar Creek, involving:

(1) 1126 bbls. heavy fuel oil;

(2) 1277 bbls. asph. road oil.

Complete bids follow:

(A) Tiffany-McReynolds-Tiffany Co., \$7326.26.

(B) C. F. Frederickson & Sons, Lakeport, \$8195.18.

(C) Dunn & Baker, Klamath Falls, Ore., \$9769.90.

Unit bids follow:

	(A)	(B)
(1)	\$2.90	\$3.18
(2)	3.15	3.64
(3)	3.80	4.39

OAKLAND, Alameda Co., Cal.—Informal bids are being received by Secretary, City of Oakland Port Commission, for surface paving materials at the Air Port involving approximately 5000 square feet. Estimated cost \$700.

SAN FRANCISCO.—Fay Imp. Co., Phelan Bldg., at \$16,206.27 awarded contract by the Department of Public Works to improve Clement St., 40th to 45th Avenues, except south half of Clement, 40th to west line 42nd Ave. produced, and except crossing 43rd Ave. and Clement Sts.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

IMP. SANTA BARBARA AVE. — LOS ANGELES

LOS ANGELES, Cal.—Southern California Roads Co., 2235 E. 25th St., submitted low bid to Board of Public Works, April 26 at \$51,472.88 to improve Santa Barbara Ave. and other streets in the Santa Barbara Ave. and Crenshaw Blvd. Improvement District under cash contract, involving:

- (1) grading complete, including removal of existing improvements;
- (2) 126,450 sq. ft. 8-in. Warrenite bitulithic pavement (2-in. Warrenite wearing surface on 6-in. concrete base);
- (3) 1856 sq. ft. 6-in. asphalt concrete pavement, 4-in. asphalt concrete base with 2-in. asphalt concrete wearing surface);
- (4) 011 sq. ft. asphalt concrete pavement (variable thickness, average 4 1/2 in.);

- (5) 10,939 sq. ft. Warrenite bitulithic wearing surface of variable thickness;
- (6) 22,823 sq. ft. 4-in. rock and oil roadway;
- (7) 1322 sq. ft. 8-in. concrete pavement, including local depressions;
- (8) 919 ft. unplastered heavy curb;
- (9) 1472 sq. ft. 3-in. concrete walk;
- (10) 508 sq. ft. 8-in. concrete gutter;
- (11) 427 sq. ft. 8-in. comb. gutter;
- (12) ornamental lighting system;
- (13) 4 manholes to be reset.

The total bids follow:

MUNI. POWER PLANT TRANSFORMERS — PASADENA

PASADENA, Cal.—Bids for furnishing transformers for the municipal power and light department opened by city directors April 21. The bids were taken as follows:

(1) Three 2000-KVA single - phase, 50-cycles, oil insulated, self - cooled, outdoor type, surgeproof transformers high voltage 16,500 to 2400 delta or 4150 "Y" low voltage, equipped for automatic tap changing under load, with conservator equipment. Said transformers shall be suitable for operation on 60 cycles frequency. Delivery shall be as follows:

(a) f.o.b. cars Pasadena, at the siding designated by the city;

(b) f.o.b. cars at bidder's factory with freight prepaid by the bidder to Pasadena;

(c) f.o.b. cars at bidder's factory. The freight on same will be paid by

the city;

(2) one 6000-KVA three-phase, 50-cycle oil insulated self-cooled outdoor type surge-proof transformer, high voltage 16,500 to 2400 delta or 4150 "Y" low voltage equipped with automatic tap changing under load, with conservator equipment. Said transformers shall be suitable for operation on 60 cycles frequency.

The bids were referred to Benj. F. Delanty, Superintendent of the Light & Power Department. The figures follow:

The bidders were:

- (A) Pennsylvania Transformer Co.
- (B) Westinghouse Elec. & Mfg. Co.
- (C) Wagner Electric Corporation.
- (D) Allis-Chalmers Mfg. Co.
- (E) General Electric Company.

The unit bids were:

	(1a)	(1b)	(1c)	(2a)	(2b)	(2c)	Shipment in Days
(A)	\$20,000	\$20,000	\$18,999	\$15,720	\$15,720	\$14,570	100

(C)	22,769	21,719	21,719	18,940	18,940	18,080	90
(E)	23,363	23,363	22,293	18,936	18,936	18,076	90
(D)	22,772	22,772	21,722	19,085	19,085	18,230	50

PASADENA, Cal.—Bent Bros., Winston Bros. Co. and W. C. Crowell, 418 Pecan St., Los Angeles, submitted low bid to city directors April 25, at \$32,605.25 to construct tunnel for conduit lines in the San Gabriel Canyon, four miles from Azusa, for the Pine Canyon Dam. The work will consist of driving an adit and two short tunnels, trimming exterior of tunnels and appurtenant work. The total length of adit and tunnels is 1955 feet. Section of tunnel is about 6 ft. 6 in. by 7 ft. 5 in. The quantities follow:

(1) 500 cu. yds. open cut excavation loose material, tunnel No. 4;

- (2) 100 cu. yds. open cut excavation rock, tunnel No. 4;
- (3) 1970 cu. yds. excav., tunnel No. 4, Sta. 26;
- (4) 50 cu. yds. open cut excavation loose material adit portal;
- (5) 50 cu. yds. open cut rock excav. adit portal;
- (6) 170 cu. yds. excav. adit at Sta. 00:00;
- (7) 100 cu. yds. trim and enlarge spillway adit and adit portal;
- (8) 20 cu. yds. enlarge exist. tunnel at Sta. 7 plus 07 and 12 plus 97;
- (9) 1200 cu. yds. open cut excavation loose material upstream portal tunnel No. 5;

LASSEN COUNTY, Cal.—Hein Bros. Basalt Rock Co. and E. A. Forde, P. O. Box 162, Petaluma, at \$17,134.75 submitted low bid May 4 to State Highway Commission, Sacramento, to surface with bituminous treated crushed gravel or stone (road mix method) 2 miles between Susanville and Johnstonville, involving:

- (1) 2490 cu. yds. crusher run base;
- (2) 2925 cu. yds. crushed gravel or stone (bit. treated surface);
- (3) 200 M. gals. water;
- (4) 115 bbls. heavy fuel oil;
- (5) 187 tons cut-back asph. (bit. tr. surf.);
- (6) 105 sta. mix cut-back asphalt and crushed gravel or stone;
- (7) 104 sta. finish roadway.

Complete bids follow:

- (A) Hein Bros. Basalt Rock Co., and E. A. Forde, Petaluma, \$17,134.75.
- (B) Harold Smith, St. Helena, \$17,479.25.
- (C) Tiffany, McReynolds, Tiffany, San Jose and E. B. Bishop, Sacramento, \$18,999.25.
- (D) Hemstreet and Bell, Marysville, \$19,347.50.

Unit bids follow:

	(A)	(B)	(C)	(D)
(1).....	\$2.15	\$2.15	\$2.45	\$2.50
(2).....	2.15	2.15	2.45	2.50

BRIDGE BOARD DELAYS \$404,000 STEEL PAYMENT

Name Committee of Engineers To Report on Availability of Local Plants

Following a stormy session at which labor and improvement club heads urged that McClintic-Marshall Corporation, holder of Golden Gate Bridge cable contracts, be compelled to fabricate a major portion of its steel in San Francisco shops, directors of the bridge and highway district yesterday voted to hold up a \$404,000 progress payment to the firm while a committee composed of bridge engineers, three directors, and City Engineer John J. Casey investigated facilities at the company's San Francisco and Alameda plants.

Report of the committee will be submitted at the next meeting of the directors.

Motion to delay the payment and appoint the committee was introduced by Director A. R. O'Brien, member of the district's auditing committee, and passed unanimously by the directors.

At the request of Stephen Malatesta, representative of the Central Council of Civic Clubs, the directors passed a resolution to cooperate with the clubs in attempting to secure as much of the work as possible for San Francisco.

Manager James Reed made public a telegram received yesterday from President G. H. Blakeley of the McClintic-Marshall Corporation, declaring that the Bryant street shop of the company is totally inadequate to fabricate the necessary steel, and that the Union Iron Works, owned by the Bethlehem Steel Company, parent company of the McClintic-Marshall organization, is being used for ship building.

In any event, Blakely said, steel for the towers must be fabricated in the East, and more than two years will elapse before any large volume of work can be done even at the Alameda plant. The latter plant is to be used mainly for storage, he said.

THE WEEK'S NEWS Highlights

UNDERPASS BIDS.—Construction of two grade separation structures in Northern California is ordered by the State Highway Commission. Bids will be received June 3 on the underpass at Goshen junction and underpass about 4 miles north of Bakersfield.

TRUCKS NEEDED.—United States Forest Service has issued a call for bids on rental of light trucks to be used at various points in Northern California in connection with the forest conservation camps.

BUILDING PERMITS.—On the Pacific Coast building permit totals for April were approximately the same as in March, the month's work being valued at \$5,039,510, according to the survey of principal cities by S. W. Straus & Co. Los Angeles and Long Beach were at the head of the list in that order.

JAIL AWARDED.—Low bidders on the general contract, MacDonald and Kahn, and on the mechanical and electrical, Alta Electric Company, were awarded contracts for construction of the San Francisco county jail at Sneath Ranch. Equipment award delayed pending further study of the bids.

STEEL PAYMENTS DELAYED.—While Golden Gate Bridge directors endeavor to persuade McClintic-Marshall company to do a larger share of the work on the structure in San Francisco, progress payments on the steel contract amounting to \$404,000 will be withheld, the directors voted.

START SURVEY TO ALLOCATE SCHOOL BONDS

Board of Education Will Recommend Institutions To Be Replaced

A Board of Education committee yesterday began a survey of San Francisco's wooden "firetrap" schools to determine which buildings are to be razed, following approval by the Board of Supervisors of a proposed \$3,500,000 bond issue to finance reconstruction.

The bond issue, action on which was precipitated by the recent \$100,000 fire which destroyed the antiquated Fremont school an hour after 500 pupils had left the building, will be submitted to voters at the state special election June 27.

Board of Education officials estimated that the sum necessary for the building program will be close to the \$3,500,000 maximum authorized by the supervisors. Funds allotted several years ago for replacing of frame school structures have been used for other expenses of the department.

The committee which is making the survey in conjunction with building inspectors and engineers comprises Philip Lee Bush, Ira W. Coburn and D. P. Hardy.

A detailed report on the work necessary will not be possible for several months, according to Hardy.

"There are 47 wood frame schools in the city," he said. "We have to determine which are the greatest fire hazards, narrowing our list down to about ten."

STEEL INDUSTRY GAINING RAPIDLY

The upward sweep of production, prices and purchases in the iron and steel industry has not yet been checked, with operations for the country at large averaging 31 per cent of capacity as against 29 per cent a week ago, the Iron Age summary points out.

Growing price strength is manifest in additional advances in scrap and pig iron and in the prospect of a general upward revision of quotations on finished steel products.

LIEN RIGHTS MAY VOID CLAIM ON SALES CONTRACT

Court Decisions Deny Right To Remove Building Fixtures

By HARRY C. WESTOVER

During the past year we have discussed from time to time the law of fixtures in their relations with the Mechanics' Lien Law. As a general proposition to entitle one to a lien, the thing for which the lien is asked must be affixed to the building or real estate in order to validate the lien. If the thing or material is not affixed so that it becomes a part of the real estate, then of course, no lien can be established as to the land.

The Appellate and Supreme Courts have been called upon several times during recent months to pass upon the question of fixtures relative to the Mechanics' Lien Law. The law of fixtures usually arises in a lien case when some materialman attempts to protect himself by selling merchandise upon a conditional sales contract, by which the title remains in the seller until the purchase price has been paid. However, when an owner allows his property to be incorporated into and become a part of a building or structure, he may find that later he will be stopped from reclaiming his property.

In the case of Hammel Radiator Corp. vs. Mortgage Guarantee Company, 72 C.A.D. 682, the radiator company sold to the contractor certain radiators upon a conditional sales contract, by which title was reserved in the seller until paid for, but the radiators were installed and attached to the building by means of the slip-joint threaded unions and flanges. The court held the radiator company had no right to remove the radiators upon failure of the buyer to pay the purchase price, and that the Mortgage Guarantee Company obtained a clear title to the radiators although the purchase price has not been paid.

Again in the recent case of Bancroft & Sons Company vs. Cullern et al, 85 C.D. 419, the Supreme Court decided that two steel buildings consisting of a service station which had been bolted down to a cement foundation by means of bolts and certain pipes and conduits embedded in the cement, became attached to the realty to such an extent that the conditional seller has no right to remove the buildings and exempt them from a lien filed upon the real estate, by one who had furnished labor and materials in the erection of the

MATERIALS PRICE INDEX IS RISING

Price averages for building materials and metals reached their highest level since the first of the year during the week ending April 29, according to statistics of the Department of Labor.

The building materials index stood at 70.5, compared with 70.2 the previous week and the metal products index at 77.6 compared with 76.8. The index is compiled from wholesale prices and compared with prices for the same commodities in 1926 taken as a base of 100.0.

GASOLINE TAX NETS \$514,000,000

California Income Ranks Second in National Totals

State gasoline and motor fuel taxes and licenses for the sale of gasoline yielded a total revenue of more than \$514,000,000 in 1932, according to reports collected from State authorities by the Bureau of Public Roads, U. S. Department of Agriculture. More than 14 billion gallons furnished power for motor vehicles. The tax was at an average rate of 3.6 cents per gallon. Consumption of gasoline declined 7.5 percent from the previous year. Delaware and Maryland were the only States reporting increased consumption.

The total revenue was allocated as follows: To State highways, \$301,788,231; to local roads, \$94,073,954; to State and county road bond payments, \$50,726,362; to city streets, \$16,776,050; to costs of collection and administration, \$2,832,820; and to other than highway purposes, \$47,941,483.

California reported \$36,128,854 income from a three-cent tax on 1,204,295,149 gallons. This is second only to New York's total of \$42,580,593 income from the same rate of taxation. The decline in California from 1931 consumption was 9.4 percent and in New York 2.8 percent.

SAN ANSELMO PERMITS

Building Inspector Chas. H. Cartwright reports two permits issued in San Anselmo during the month of April for work valued at \$3500.

M'DONALD - KAHN GIVEN \$359,000 JAIL CONTRACT

Electrical and Mechanical Also Awarded; Equipment Bids Held

MacDonald and Kahn yesterday were awarded the contract for construction of the San Francisco county jail at Sneath Ranch, San Mateo county.

Their bid was \$359,953, the low figure when proposals were opened for the second time last Friday after the original bids had been rejected.

Awards were made yesterday by the Board of Public Works also on the mechanical and plumbing contract at \$135,404 and electrical work at \$57,690. Both contracts were given to the Alta Electric and Mechanical Company, low bidder.

Bids on the equipment contract were held under advisement pending a final decision as to alternates to be selected.

SUPPLY PURCHASES FOR FOREST CAMPS MADE AT ISLE BASE

Location of the National Forest Service Supply Depot at Government Island will center \$2,000,000 in annual supply purchases in the bay district, it is estimated.

The purchasing headquarters of the forestry service formerly were located at Ogden, Utah. They are installed now in the new office building erected on Government Island. Warehouses also have been completed at the island.

Frank Haynie, supply office, who formerly was at Ogden is in charge of the purchasing department.

A substantial portion of the supplies for the forest service throughout the United States are purchased through Haynie's office. Bids are called here on all items that can be grouped for different forest areas. The orders are then placed for shipment to various points direct from the factory.

At present the headquarters is swamped with work in providing supplies for the forest conservation camps, including barbed wire, telephone wire and tools. Purchases through the Oakland office will be considerably expanded over the volume formerly handled at Ogden, Haynie said.

COAST PERMIT TOTAL IN APRIL IS \$5,039,510

Building Activity at Level of Last Month, Straus Survey Shows

Building permit totals for the Pacific Coast in April were approximately the same as for March, according to the S. W. Straus & Co. compilation issued yesterday. This survey covers principal municipalities in the coast states, Arizona, Utah, Nevada and Idaho.

The total for April is \$5,039,510, compared with \$5,243,070 in March. The California total is \$4,511,314, compared with \$4,754,798.

The first five cities in order are:

Los Angeles	\$1,189,926
Long Beach	1,072,605
San Francisco	538,112
Beverly Hills	286,310
San Diego	194,622

Re-construction of earthquake damage at Long Beach accounted for this city's total. More individual permits were issued by Long Beach than any other city reporting, the total being 1695, compared with 1635 for Los Angeles. The city of Compton, where damage from the earthquake was very heavy, reported only \$67,357 in permits.

Totals in San Francisco and Oakland were about the same as in March.

GUNITE TRADE NAME UPHELD BY COURT

Cement Gun Company, Inc., of Allentown, Pa., has obtained a court order in Los Angeles county restraining Ed Westberg, plaster-in contractor, from designating a machine of his manufacture as a cement gun and its product as Gunite. Judge Leon R. Yankwich, who granted the injunction refused to give judgment against Stanton-Reed Company for damages because Westberg fulfilled a sub contract calling for Gunite.

FOREST SERVICE ASKS TRUCK BIDS

A call for bids on rental of trucks to be used at points throughout California in connection with the Federal Forest Conservation camps was issued yesterday by the United States Forest Service, San Francisco.

The forest service requirements will demand virtually all small trucks available for hire in the state, it was estimated. Bids are asked on 1/2-ton stake side trucks; 1/2-ton dump trucks and half-ton pick-up trucks. The proposals will be received up to May 19 at 2 P. M.

Awards to the Ford Motor Co. of contracts for purchase of 210 trucks of the same classes were announced yesterday. The awards aggregate approximately \$117,000.

SEEK LOAN FOR YOSEMITE ROAD

Modesto Association Would Build Toll Highway to Valley

Modesto-Yosemite Valley Cut-off Association has filed a new application with the Reconstruction Finance Corporation for a loan to finance the proposed cut-off toll road into the valley.

The association is a semi-public body, composed of business and professional men and civic leaders of Modesto, and supported by the Chamber of Commerce.

According to the engineering survey of the road made in 1930, the road would start in eastern Stanislaus county near La Grange and connect with the All-Year Highway in Mariposa county near Briceburg. At that time the estimated cost of the road was \$1,724,550.

A new factory building, 260 feet by 62 feet has been erected in Essex, England, by a large Czechoslovak shoe manufacturing company. Electric arc welding has been used throughout.

COAST SURVEY REPORTS NEW DATA ON QUAKE

Direction of Motion Studied by Engineers to Aid Designers

Studies of ground motions made by the United States Coast and Geodetic Survey during the Southern California earthquake of March 10 are to be published for the information of architects and engineers, it is reported in Washington.

Some previously unknown facts about the movement of the earth during a quake were learned from the records made on March 10, according to Frank Neumann of the coast survey.

The records show, Neumann said that there was a very strong up-and-down or vertical motion of the ground at Long Beach during the March 10 earthquake as well as a sidewise or horizontal motion. There were really two distinct vertical motions, one a slow rise and fall of the ground, and the other a very rapid up-and-down tremor. It is quite likely, he explained, that the fast tremors may have crumbled the mortar between the bricks of buildings so that the walls were more easily shaken down by later shocks, a possibility that is important to engineers.

The records also showed that engineers must strengthen buildings against the vertical motion of earthquakes as well as the horizontal motion, which up to now had been considered more important. It was found the vertical motion was comparable in intensity to the horizontal.

The ground moved in almost every direction before the earthquake was over, it was found, with the movement becoming increasingly complex, the longer the shock lasted.

MAY BUY PLANT

Galt chamber of commerce has appointed a committee to investigate the possibilities of a municipally-owned and operated light and power plant. The chamber also is considering plans for a municipal water system.

AWARD TO SECOND BIDDER URGED BY L. B. EXCHANGE Elimination of Bid-Peddling Is Claimed by Advocates of Change

Award of contracts to the second lowest bidder is advocated in a resolution prepared and adopted by the Long Beach Builders' Exchange.

Following is the text of the resolution:

WHEREAS, Believing that the time has arrived for changes in building regulations in the State of California in order to provide a better class of construction adequate to meet and resist earthquake shocks and provide safety and protection to life and property, the Builders' Exchange of Long Beach advocates the adoption of every possible measure that will provide this protection, and

WHEREAS, Recent events demonstrate that forms of construction can be adopted that will provide a minimum of loss and damage with little additional costs in the use of proper forms and material in construction, and

WHEREAS, We not only favor and urge immediate action by changes in building codes and regulations to meet this ever present menace to life and property, but we urge changes in the present methods of awarding contracts that tend to demoralize the construction industry and foster cheap construction, and

WHEREAS, We believe that many of the evils existing in this industry and a higher standard of construction could be had by awarding contracts to the next to low bidder, thereby giving an incentive to contractors to bid jobs at their actual value and worth, and

WHEREAS, We believe the adoption of such a change in awarding contracts would not only result in better construction, but would give the property owner value received for his money and to a large degree prevent bid-peddling and many other unethical practices now existing, and

WHEREAS, We believe it is within the province of State, County and Municipal bodies to declare, in seeking competitive bids, that the next to low bid will be considered as the low responsible bid without the necessity of changing existing laws or ordinances to meet this requirement.

THEREFORE BE IT RESOLVED That we sponsor the adoption of such a change in the award of all contracts, both public and private and that copies of these resolutions be furnished the Press; The California State Builders' Exchange The State Architects Association; The Associated General Contractors; The Building Congress of the State Chamber of Commerce; The State Division of Architecture; The County Board of Supervisors; The State Board of Education; The American Society of Engineers and our local City Council and Board of Education.

Architects Institute Endorses Nashville Plan For Protection of Sub-Contractors

A plan to eliminate price cutting in the building industries, prepared by a joint committee of the American Institute of Architects and the Associated General Contractors, is announced by Frank C. Baldwin, secretary of the Institute.

Determined and co-operative action is the main requisite for success of the proposal, which is to be known as the Nashville plan, according to W. F. Creighton, chairman of the Building Contact Committee of the Associated General Contractors. Mr. Baldwin urges members of the American Institute of Architects to register approval or objections with William Stanley Parker of Boston, chairman of the Institute's committee on joint building practices.

The Nashville plan, Mr. Creighton discloses, has been successfully operated in the Nashville, Tenn., section for more than a year and "is satisfactory to buyer and seller." He declares it will be even more effective when business improves, pointing out that it would be "extremely simple" to effect organizations in cities, both large and small, to enforce the plan.

"We may not expect an increase in building construction until members of the industry and the public are convinced that building costs are stable," says Mr. Creighton. "It may seem that there is no demand for construction, but the past has shown that when capital is convinced that prices have reached bottom, it seeks investment."

The chief feature of the Nashville plan is that every general contractor must submit a sealed list of the names of the subcontractors he has used to some agency acceptable to both buyer and seller. No general contractor is excluded, all having equal opportunity.

"If the contractor submits the list," Mr. Creighton explains, "and agrees to other simple terms of their bidding practice, he is given every consideration. But if he will not agree, he does not receive a bid from any member of the subcontractors' organization. If he should secure the contract, none of them will accept any work from him.

"If the subcontractor cuts his price, or accepts work from a general contractor who does not subscribe to the plan, he is expelled from the organization and the general contractors do not request future bids from him."

The result of a year's operation of the plan in Nashville, according to Mr. Creighton, has shown the contractor that he must add a profit to his estimate, since he cannot earn a profit under the new regulations by trading and peddling sub-bids. The subcontractor must quote his best price because he will have no opportunity to reduce it.

"It does not interfere with the existing relationship between individual subcontractors and gen-

eral contractors," Mr. Creighton continues. "Since prices are not made public, a subcontractor is not bound to give every general contractor the same price.

"If he has learned from past experience that a general contractor co-operates with him in the execution of his work, pays him promptly, and is solvent, he may quote him a lower price than others. To prevent collusion between members of the trade, a joint committee is empowered to check prices which are excessive and has authority to require the trade involved to reduce the price to a proper figure, or permit the general contractor to take any steps he desires to do so."

Virtually all responsible subcontractors in the tested Nashville territory are members of the organization, and sales managers of many nationally used materials and specialties encourage their local representative to co-operate. Under these circumstances, Mr. Creighton finds, it is extremely difficult—if not impossible—to finish a commercial building of any magnitude without the help of the subcontractors.

"To reach any proper solution of the so-called bid peddling evil," Mr. Creighton concludes, "it should be realized that the seller, as well as the buyer, is responsible. To conclude that the general contractor, subcontractor, jobber, or manufacturer, is solely to blame; or that any single element of the building industry—including the architect—may correct this evil, is a mistake."

Accidents Cost Painting and Decorating Industry \$1,090,640 In Five-year Period

The following article is published in cooperation with the California State Builders' Exchange committee on accident prevention which is sponsoring Safety Month for the construction industry.

By Edgar N. Goldstine
State Safety Engineer

No one wants to get hurt. Nor does a contractor care to have his men injured. Yet bosses and employees frequently do not realize what needs to be done in the interest of safety. It is true that an accident is an unforeseen occurrence insofar as those who get hurt are concerned. But experienced safety engineers and informed workmen could in many instances predict what was going to happen if they would closely inspect the working conditions.

The actual figures for losses paid for a single trade in the state of California for the years 1926 to 1930 inclusive bring out some interesting facts. In the workmen's compensation insurance classification of Painting—Shop, with payrolls of \$4,753,000 there was not a single serious injury (defined as one in which the compensation award exceeds \$12.50) and only 40 accidents with total incurred losses for compensation award and medical expenses of \$18,248. Under Painting and Decorating, with a payroll of \$42,305,300 there were 76 serious cases costing \$317,424; and 1539 additional for which compensation amounted to \$426,672 and medical expense \$346,544, a grand total of \$1,090,640. For each dollar of wages paid, the corresponding losses were nearly seven times as much for outside painting work as for that inside the shop.

It should be apparent that insofar as using the paint brush is concerned, there should be little difference between work in the shop and elsewhere. The real danger outside consists of falling from scaffolds and ladders, stumbling, stepping on nails, falling objects, and similar hazards which are seldom present in the shop. Men need to recognize how these perils may be minimized so that their tasks may be safely completed.

The source of greatest jeopardy on the average construction job is to be found in the scaffolding. The experienced safety engineer immediately observes that planks are usually placed on excessive spans for the loads to be imposed upon them, and are frequently of a very poor grade of lumber. Only too often a single plank is used when two should be the minimum. Back guard rails may not be needed frequently, but when a man loses his balance and finds one there to protect himself from a fatal drop, the cost of putting it in place is repaid ten thousand times over. Posts are frequently out of plumb and poorly scabbed. Insufficient bracing, inadequate post supports, and

ties to the building are almost the rule rather than the exception. There is no secret to understanding these things. A few simple rules explain most of them. The General Construction Safety Orders of the Industrial Accident Commission prescribe the requirements that should be followed.

Every worker on the building ought to know that the safe span in feet for a sound two inch plank in order to carry one man is equal to its width in inches. In other words, the maximum safe span with a load of one man for a 2x12 plank is 12 feet; for a 2x8 plank 8 feet. Yet all of us have seen 2x12 plank on a 20 foot span. That explains a large percentage of those 76 serious cases mentioned above, for which there were compensation awards that averaged more than \$4000 each. Every building mechanic and laborer ought to know that the safe load for a single nail is eight times its pennyweight size so that an 8-penny nail will carry 64 pounds safely, and a 16 penny nail exactly twice as much. With this information it is easy to check up on the scaffolds to see if they are well nailed.

Of course all ladders need to be amply strong, in good condition, well placed and carefully used. Every man using a hanging scaffold ought to know how to test it; how to recognize rotten rope; how to place the scaffold hooks safely; and have sufficient judgment to provide the necessary back railing.

A full appreciation of work hazards will automatically bring the correct solution of the safety problem. As a constant reminder, safety posters should be freely used. Foremen should give the required instructions and then follow thru with the supervision that will get their orders completed. There will be a reduction in the number and severity of accidents just as soon as everyone knows how their work may be planned for safety.

PHILIPPE NAMED VISALIA MANAGER

J. J. Philippe has been appointed city manager of Visalia, one of three new city officials named by the recently-elected council. Philippe was distribution manager for the Pittsburgh Plate Glass Company prior to engaging in ranching near Visalia, and later in business in the city.

N. A. Huth, civil engineer of Visalia and former deputy county surveyor, has been appointed city engineer.

\$22,000,000 BONDS POSTED BY BAY BRIDGE BUILDERS

Many Surety Companies Write Guarantees For Six Firms

Contractors on the six major sections of the construction of the San Francisco-Oakland Bay Bridge have successfully posted more than \$22,000,000 of surety bonds, it was announced Saturday by State Director of Public Works Earl Lee Kelly. This requirement was made in accordance with the rule that sureties must be posted within eight days of the award of contracts.

Almost every surety company permitted to do business in the State of California was represented on the six contracts. In some cases individual contracts had as many as ten sureties listed. Among the surety companies represented were:

Fidelity and Deposit Company of Maryland.

Hartford Accident and Indemnity Company.

United States Fidelity and Guaranty Company.

The Aetna Casualty and Surety Company.

Massachusetts Bonding and Insurance Company.

New Amsterdam Casualty Company.

Maryland Casualty Company.

Firemen's Fund Indemnity Company.

Indemnity Insurance Company of North America.

Standard Accident Insurance Company.

Standard Surety and Casualty Company of New York.

Glens Falls Indemnity Company.

Royal Indemnity Company.

Globe Indemnity Company.

American Surety Company.

Pacific Indemnity Company.

Fidelity and Casualty Company of New York.

Governor James Rolph, Jr. has called a meeting of the California Toll Bridge Authority for Monday afternoon.

Chief Engineer C. H. Purcell was delayed in Washington by further details relating to the requisition of first construction funds from the R. F. C. and is now scheduled to return to San Francisco in the middle of this week.

STOCKTON PAINTERS REDUCE PAY SCALE

Reduction in the union wage scale for a sixty-day period from May 1 has been effected in Stockton through an agreement between painting contractors and the union according to Joe Palmer, chairman of the painters' scale committee.

The new scale is \$6 per day. The former scale was \$8. An increase in employment is reported since the reduction was effected.

21—BRIDGES

STANISLAUS and San Joaquin Cos. Cal.—Until May 24, 2 P. M., bids will be received by State Highway Commission, Sacramento, to reconstruct a bridge across Stanislaus River 7.6 miles south of Manteca consisting of redecking the two 103-ft. earth filled arch spans and replacing timber trestle approach span with 23 44-ft. steel stringer spans with concrete decks on concrete pile bents, and grading and paving approaches with Portland cement concrete and bituminous treated crushed gravel or stone surfacing, involving:

- (1) 5 trees remove and dispose of;
- (2) 1 timber detour bridge;
- (3) 514 cu. yds. remove and dispose of Port. cem. conc. waste pile;
- (4) 4800 cu. yds. rdwy. excav., unclassified;
- (5) 160 cu. yds. struc. excav.;
- (6) 1100 cu. yds. excav. (arch filling);
- (7) 700 sta. yds. overhaul;
- (8) 4000 cu. yds. imp. borrow;
- (9) 1486 sq. yds. subgrade for pave.;
- (10) 1535 tons untreated crushed stone or gravel (detour & base course)
- (11) 154 tons crushed gravel or stone (bit. treated surf.);
- (12) 8 tons cut-back asphalt;
- (13) 16 bbls. light fuel oil (base course and borders);
- (14) 182 bbls. heavy fuel oil (detours)
- (15) 3810 lin. ft. reinf. conc. piles (including test piles);
- (16) 1240 cu. yds. Class A Portland cem. conc. (struc.);
- (17) 320 cu. yds. do (pave.);
- (18) 180,000 lbs. bar reinf. steel (pave. and struc.);
- (19) 827,000 lbs. struc. steel;
- (20) 4324 lbs. cast steel;
- (21) 84 lin. ft. 24-in. corr. metal pipe
- (22) 1 existing bridge to be removed;
- (23) .24 mile new property fence;
- (24) 1 14-ft. x 58-in. tubular steel gate
- (25) 2475 lin. ft. solid timber railing;
- (26) 170 cu. yds. salvage surfacing;
- (27) 90 M. gals. water apply to base, surfacing and borders;
- (28) 104 cu. yds. Port. cem. conc. in existing pave. to be removed;
- (29) 34 sta. finish roadway;
- (30) 7 monuments complete in place;
- (31) 1 lot misc. items of work.

State will furnish corrugated metal pipe.

See call for bids under official proposal section in this issue.

TULARE COUNTY, Cal.—Until June 3, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with asphaltic concrete about 4.2 miles bet. Plaza Garage and Goshen; and to construct an undergrade crossing under the tracks of the S. P. Co. near Plaza Garage, involving:

- (1) 25 sta. clear and grub right of way;
- (2) 38,000 cu. yds. rdwy. excav., unclassified;
- (3) 800,000 sta. yds. overhaul;
- (4) 5,900 cu. yds. struc. excav.;
- (5) 55,000 cu. yds. imported borrow;
- (6) 53,650 sq. yds. subgrade for pave.;
- (7) 24,000 tons asph. concrete;
- (8) 425 cu. yds. Class A Port. cem. conc. (slope paving);
- (9) 540 cu. yds. do (struc.);
- (10) 295 cu. yds. do (curbs & gutters)
- (11) 760 cu. yds. Class B do (abutments);
- (12) 95,000 lbs. bar reinf. steel (slope paving, struc., curbs & gutters)
- (13) 4200 lbs. cast steel;
- (14) 5500 tons crushed gravel or stone (bit. treated surf.);
- (15) 270 tons cut-back asphalt;
- (16) 800 tons crushed run base;
- (17) 750 bbls. light fuel oil;
- (18) 900 cu. yds. existing conc., remove and dispose of;
- (19) 1600 sq. yds. asph. paint binder;
- (20) 7400 M. gals. water;
- (21) 750 lin. ft. 8-in. corr. metal pipe
- (22) 925 lin. ft. 10-in. do;
- (23) 400 lin. ft. 12-in. do;
- (24) 42 lin. ft. 15-in. do;
- (25) 2716 lin. ft. 18-in. do;
- (26) 606 lin. ft. 24-in. do;
- (27) 152 lin. ft. 30-in. do;
- (28) 2300 lin. ft. 8-in. perf. underdrain
- (29) 650 lin. ft. 10-in. do;
- (30) 21 lin. ft. 10-in. cast iron pipe;
- (31) 784 lin. ft. 12-in. stand. reinf. concrete pipe;
- (32) 2912 lin. ft. 12-in. plain concrete pipe;
- (33) 35 conc. joints, pipe culverts;
- (34) 530 cu. yds. rock backfill under-drains and sidewalks;
- (35) 25 cu. yds. sand fill;
- (36) 220 sq. yds. waterproofing;
- (37) 14 lin. ft. pipe handrail;
- (38) 1 lot pumping equip. (2 units);
- (39) 75 cu. yds. drainage sumps;
- (40) 7.5 miles new property fence;
- (41) 50 fence gates;
- (42) 1.25 miles remove and dispose of existing fences;
- (43) .25 mile move and reset property fence;
- (44) 1350 lin. ft. laminated timber guard rail;
- (45) 222 sta. finish roadway;
- (46) 50 monuments complete in place. State will furnish corrugated metal pipe and perforated metal pipe.

HANFORD, Kings Co., Cal. — County Supervisors plan to construct new Alcorn (Brooks) bridge over the river 5 mi. north of Hanford. Bridge will be built by day labor under the direction of County Engineer Roy May; lumber to be bought by county purchasing agent Arthur Meldrin. Estimated cost \$7500; bridge will be 240 feet long.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

KERN COUNTY, Cal.—Until June 3, 2 P. M., bids will be received by State Highway Commission, Sacramento, to construct an undergrade crossing under the tracks of the Minkler branch of the A. T. & S. F. Railway about 4 mi. north of Bakersfield, consisting of a 49-ft. 5-in. steel girder beam span with creosoted timber deck supported by concrete abutments with wing walls, involving:

- (1) 425 cu. yds. struc. excav.;
- (2) 1260 cu. yds. struc. backfill;
- (3) 485 cu. yds. class B Portland cement concrete;
- (4) 190 cu. yds. class A do;
- (5) 16,500 lbs. bar reinf. steel;
- (6) 163,000 lbs. struc. steel;
- (7) 12,000 ft. b.m. creosoted Douglas fir timber select struc. grade;
- (8) 185 sq. yds. waterproofing;
- (9) 170 lin. ft. pipe handrail;
- (10) 1 lot misc. items of work.

22—DREDGING, HARBOR WORKS, EXCAVATION

SAN DIEGO, Cal.—Lipscomb & Arnett, San Diego, submitted low bid to the Public Works Officer, 11th Naval District, San Diego, May 5, at \$1286.56 for constructing moorings, dolphins and piles at the Naval Operating Base (Air Station), San Diego, Specifications No. 7305. The work includes the provision of new creosoted piles and the driving of six 3-pile dolphins and two single pile anchorages and the pulling of five old existing concrete piles and 24 old existing wood piles and includes disposal of the removed piles. DeWitt C. Webb, Captain (CEC), U.S.N., Public Works Officer, recommended that the contract be awarded the low bidder. The other bids were:

Charles and F. W. Steffgen, \$1747.
Oberg Bros., \$1889.

PORTLAND, Ore.—Guthrie McDougall Co., Portland, who submitted identical bid at \$24,150 with Kern & Kibbe, Portland, recommended for the award of contract by U. S. Engineer Office to restore The Dalles-Celilo Canal to project dimensions. Award was decided by toss of a coin.

23—IRRIGATION PROJ.

SAN DIEGO, Cal.—Until May 16, 11 A. M., bids will be received by Public Works Officer, 11th Naval District, San Diego, for improvements to electrical system, West Beach Hangars, at the Naval Operating Base (Air Station) San Diego.

The work consists of the following:

- (a) the relocation of existing flood-light, transformers, controller, etc.;
- (b) the removal of certain lighting panels and cabinets and cables;
- (c) the furnishing and installing of eight double and three single manholes, of conduits between new and existing manholes and to new flood light location, of 2300-volt and 600-volt light and power cables, telephone cables and firealarm and contactor cables, of distributing transformers and oil fuse cutouts and fuse boxes and miscellaneous equipment;
- (d) the furnishing and installing in five existing hangars, power and lighting panels and cabinets, main switches, power outlets and conduit and wiring.

Plans and specifications available from above office upon deposit of \$10.

HOLLISTER, San Benito Co., Cal.—Fairview and Ausaymas districts plan to incorporate with the Pacheco Pass Irrigation Co. to provide water for storage in underground reservoirs, involving construction to bring water from Pacheco Creek. To be financed by loan from the Reconstruction Finance Corp.

25—MACHINERY AND EQUIPMENT

SAN RAFAEL, Marin Co., Calif.—Until May 18, 2 P. M., bids will be received by Constructing Quartermaster, Hamilton Field (Marin Meadows) Bombing Base, for furnishing gas meters and regulators at Hamilton Field. Specifications obtainable from above office.

LOS ANGELES, Cal.—Westinghouse Electric & Mfg. Co. awarded contract by A. J. Holm, City Purchasing Agent May 2 at \$144,262.16 total, to furnish Water and Power Department with one only 60,000-kva. transformer bank equipped with inert gas apparatus, under Spec. No. 2996. The bids were opened March 13.

BOULDER CITY, Nevada.—Allis-Chalmers Mfg. Co., Milwaukee, Wis., at \$1,087,200 awarded contract by U. S. Bureau of Reclamation to furnish turbines for power plant, Boulder Canyon; bids opened March 10. Woodworth Governor Co., Rockford, Ill., at \$47,029 awarded contract to furnish governors for the same project.

SAN FRANCISCO—Ford Motor Co. awarded contract by U. S. Forest Service to furnish trucks at the following totals:

- 60 ½-ton pick-up trucks at \$25,551.47;
- 10 1½-ton dump trucks, \$6914.77;
- 140 1½-ton stake side trucks, \$84,733.49.

OAKLAND, Cal.—Until May 15, 11 A. M. (postponed from May 4) bids will be received by C. A. Luck, purchasing agent, City of Oakland Port Commission, to move garbage loaders and miscellaneous equipment from the foot of 14th St., Outer Harbor Terminal to the new wharf, foot of Adeline St., Oakland.

SAN FRANCISCO—U. S. Forest Service, Ferry Bldg., asking bids to close May 19, 2 P. M., for the rental of all available equipment for use all over the State of California in connection with the Forest Conservation Program. Bids are desired on trucks as follows:

- 1½-ton stake side trucks;
- 1½-ton dump trucks;
- ½-ton pick-up trucks.

BRENTWOOD, Contra Costa Co., Calif.—Enterprise Engine Co., 2949 18th St., San Francisco, at \$43,950 submitted low bid May 9 to East Contra Costa Irrigation District, Brentwood, Margaret Wallace Secretary, to replace present electric motors on pumps and appurtenant equipment with natural gas engines, under two plans of financing: (a) district to finance project; (b) manufacturer to finance project and to be repaid in five equal annual installments. Project involves:

Four 7.5-hp. units for driving priming compressors, hydraulic valve control equipment;

Three 5-hp. units for driving priming compressors, hydraulic valve control equipment;

Small engine to operate the present pump priming compressor;

Gas meter for each unit.

Duncanson-Harrelson Co., San Fran-

cisco, second low bidder at \$69,895. John Bean Co., bidding on Waukesha engines, third low at \$84,570.

Le Roi Engine Co., Milwaukee, Wis., Western Enterprise Engine Co., Los Angeles, and Hall-Scott Motor Co., San Francisco, also submitted bids. Bids were held under advisement.

30—RESERVOIRS & DAMS

LAKEPORT, Lake Co., Cal.—Until May 22, 8 P. M., bids will be received by R. E. Leeper, city clerk, to construct a roof for the new reservoir. Specifications obtainable from above office. Certified check 10% required with bid.

GLENDALE, Los Angeles Co., Cal.—P. Diederich, Plant Superintendent, has completed his estimates for the proposed roofing of the Chevy Chase Reservoir.

The cost of a creosoted timber roof would be \$27,000, involving the following material:

- 117,000 B. ft. structural grade, O. P.;
- 162,000 B. ft. common grade, O. P.;
- 44,000 B. ft. struc. grade redwood.

The cost of constructing a reinforced concrete roof, covering same with soil and landscaping, would be between \$85,000 and \$95,000, involving about 5,000 cu. yds. reinf. conc.

31—PIPE LINES & WELLS

ALAMEDA, Cal.—Until May 31, 11 A. M., under Bid No. W-6757-33-4, bids will be received by Constructing Quartermaster, Benton Field Air Depot, 33 Pacific Ave., Alameda, to drill and test 12-in. well and furnish and install on 180 GPM capacity deep well turbine pump with electric motor, control panel, etc., under Specification No. 9—OCQM. Specifications obtainable from above office on deposit of \$5, check payable to Treasurer of the U. S. Certified check 10% required with bid.

SAN FRANCISCO—E. J. Treacy, 309 Call Bldg., at \$5258.15 awarded contract by Public Utilities Commission to construct 16-in. cast iron pipe line 19th Ave. to Ulloa St.

LOS ANGELES, Cal.—Until 2 P. M., May 29, bids will be received by County Supervisors to drill and develop a well 200 feet deep and line it with No. 10 new red steel 18-in. double casing at Rancho Los Amigos (County Farm). Bids will be received as follows:

- (1) all work complete, including drilling and developing and installing casing therein to a depth of 200 feet;
- (2) price per foot for additional depth. Plans prepared by William Davidson, chief mechanical engineer, 1006 Hall of Records. Mame B. Beatty, clerk, 501 Hall of Records.

SONOMA, Cal.—City council will ask bids May 10 to drill two 10-inch wells in connection with municipal water system, depth between 200 and 300 ft., with an alternate of two 8-in. wells, same depth. Hussey & Belcher, Syndicate Bldg., Oakland, engineers.

MADERA, Madera Co., Calif.—Until June 5, 8 P. M., bids will be received by James Wakefield, city clerk, to drill an 18-in. gravel envelope well, 1500-gpm. capacity, depth less than 400 ft. An alternate bid will also be taken per lineal foot, 36-in. casing length. Hussey & Belcher, Syndicate Bldg., Oakland, engineers.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LAKEPORT, Lake Co., Calif.—City council appoints Shoemaker-Hackett-McIntire, 420 Market St., San Francisco, as sanitary engineers for municipal sewage project. Engineers are to analyze samples of effluent from the town's septic tanks and make recommendations for a proposed purification plant.

LOS ANGELES, Cal.—M. Miller, 877 N Bunker Hill Ave., submitted low bid to board of public works May 3 at \$13,800 to construct Fish Harbor intercepting sewer in the right of way westerly from Ways St. bet. the alley south from Terminal Way and in a portion of Terminal Way, cash contract.

The other bids were:

- M. N. Guho, \$16,300.
- Martin Const. Co., \$13,880.
- Mlagenovich & Gillespie, \$24,621.75.
- Artukovich Bros., \$26,592.
- Culjak & Zelko, \$29,200.
- Chutuk, Kordich & Vukojevich, \$30,602.32.

Engineer's estimate, \$14,398.

ROCKWELL FIELD, Cal.—Garrett Plumbing Co., San Pedro, submitted low bid to the Constructing Quartermaster, Rockwell Field, Coronado, on May 8, at \$3168 to construct sewer lines connecting the sewer system to the new officers' quarters.

PALO ALTO, Santa Clara Co., Cal.—Bond election for \$90,000 for proposed sewage system, carried at municipal election May 9, and bids will be asked probably within a month. Project involves pumping and preliminary treatment plant, pipe line connecting with the Mayfield outfall and the new South Oregon Ave. tract sewers; intercepting sewer along Arroyo Road, and pipe carrying treated sewage to the Bay. The Stanford sewer line would enter the intercepting sewer on Arroyo Road, and Stanford University would bear a proportionate amount of the cost. J. F. Byxbee Jr., City Engineer.

CAPITOLA, Santa Cruz Co., Cal.—Until May 29, 7 P. M., bids will be received by H. E. Miller, county clerk, to construct outfall sewer system, involving:

- (1a) screening and pumping plant and septic tank struc. comp. in place;
- (1b) screening and pumping plant and separate sludge digestion tank structure complete in place;
- (2a) screening and pumping plant and septic tank equip. comp. in place;
- (2b) screening and pumping plant and separate sludge digestion tank equip. complete in place;
- (3) 27.68 cu. yds. Class A concrete in place reinforcement for present existing rock wall;
- (4) 153.5 cu. yds. Class B concrete in sea wall;
- (5) 12 cu. yds. struc. excav. for (3) and (4);
- (6a) 1000 lin. ft. 8-in. dia. extra heavy wrought iron pipe with concrete anchor block and 90 deg. cast iron ell at outlet end complete in place as specified for outfall sewer;
- (6h) 800 lin. ft. do;
- (6c) 700 lin. ft. do;
- (6d) 600 lin. ft. do;
- (6e) 1000 lin. ft. 8-in. stand. do;
- (6f) 800 lin. ft. do;
- (6g) 700 lin. ft. do;
- (6h) 600 lin. ft. do.

Estimated cost \$21,500; more than half of the bonds have been sold. Lloyd Bowman, county surveyor; Wm. Oliver, associate engineer. Specifications obtainable from above office.

33—WATER WORKS

LOS ANGELES, Cal.—Hearing on the proposed formation of County Water Works District No. 20 (vicinity of Florence) has been continued by the Los Angeles county supervisors until May 10. Wm. Davidson, county mechanical engineer, 10th floor Hall of Records. The cost is estimated at \$384,714 and covers several contracts as follows:

Drilling of three wells;
Installation of four pumps;
Erection of two 250-000-gallon steel tanks and towers on conc. foundations
Ditching, laying of pipe, backfill and resurfacing.

Piping involving:
12,300 ft. 4-in. C. I. pipe;
93,200 ft. 6-in. do;
41,881 ft. 8-in. do;
10,300 ft. 10-in. do;
2,450 ft. 12-in. do;
300 ft. 14-in. do;
165,000 ft. excav. and backfill;
resurfacing of trenches;
341 valve boxes;
175 fire hydrants;
2,200 water services.

KINGSBURG, Fresno Co., Calif.—City council awards contract to Pacific States Cast Iron Pipe Co. to furnish pipe to replace city water mains; contract for pipe fittings awarded to Tay-Holbrook Co. and the Vernon Foundry Co. Totals not available. Bids were opened April 17.

FRESNO, Cal.—County supervisors are considering the purchase and installation of a gasoline storage tank of 15,000 gallons capacity. J. S. McCain, county purchasing agent.

LYNWOOD, Los Angeles Co., Cal.—Until 8 P. M., May 23, bids will be received by city council to construct elevated steel tank with hemispherical bottom, 115 ft. in height, 100,000 gals. capacity, in accordance with specifications obtainable about May 8 from A. J. Bateman, city engineer.

KINGSBURG, Fresno Co., Cal.—Local citizens purchased \$8000 water-works bonds for replacements and improvements to municipal water system.

SAN FRANCISCO—P. L. Burr, 320 Market St., at \$1284 awarded contract by Constructing Quartermaster, Fort Mason, for furnishing and installing two water meters in valve chambers at the Letterman General Hospital, San Francisco.

YREKA, Siskiyou Co., Cal.—City council awards contract to Byron Jackson Pump Mfg. Co. at \$2500 (approximate total) to install new pumping equipment for the City Water Department.

MOUNTAIN VIEW, Santa Clara Co. Cal.—Until May 17, 8 P. M., bids will be received by B. L. Hays, city clerk, to furnish and install one deep well turbine pumping plant. Specifications obtainable from above office. Certified check 10% required with bid.

SAN FRANCISCO.—Until May 22, 3 P. M., under Bid No. 1000, bids will be received by T. A. Brooks, City Purchasing Agent, to furnish two 60-in. butterfly valves for Hetch Hetchy Project. Specifications are obtainable from above office.

MADERA, Calif.—City council will ask bids May 15 to furnish one Diesel engine and pump for proposed well, in connection with municipal water system. Hussey & Belcher, Syndicate Bldg., Oakland, engineers.

FRESNO, Fresno Co., Calif.—City council discusses with Jean L. Vincenz, Commissioner of Public Works, proposed budget for water system improvements; two alternate expenditures being proposed, allowing \$58,824 or \$35,789 for alterations and improvements ' present system.

OLIVE VIEW, Los Angeles Co., Cal.—William Davidson (chief mechanical engineer, Los Angeles County, 1006 Hall of Records, will request the Board of Supervisors to include in the 1933-34 budget, funds for pumping and piping equipment, also a pump house in connection with a well to be sunk at Olive View, bids for which will be received by the county supervisors on May 29.

FRESNO, Cal.—Jean L. Vincenz, Commissioner of Public Works, has introduced before city commission a proposal to construct a 500,000 gallon balancing tank in the northeastern part of the city for the water department. He proposes to divert \$25,000 from the water department surplus. The public works commissioner stated that the tank will mean an annual saving of \$1500 in power costs.

WILLIAMS, Ariz.—Weiland Engineering Co., Pueblo, Colo., has completed a survey of the town of Williams preliminary to proposed improvements to the water supply system. George S. Cowdery Jr., who made the survey, estimates the cost of the proposed improvements at \$137,000. This includes:
Construction of a dam costing \$86,800.

Head gates, valves, etc., \$2500.
Pipe line to town, involving cast iron pipe, \$12,420.
Pumping plant with electric motors, \$2500.

Concrete reservoir, \$10,000.
City distributing system, valves connections, etc., \$5000.
Water rights, land, etc., \$5000.
Engineering and legal expense, \$12,422.

SAN FRANCISCO.—Until May 19, 3 P. M., under Bid No. 1002, bids will be received by T. A. Brooks, City Purchasing Agent, 270 City Hall, to furnish approximately 304 tons of 30-in. cast iron pipe, involving 152 pieces 12-ft. lengths. Specifications obtainable from above office.

35—TUNNELS

LOS ANGELES, Cal.—Contracts for tunnel construction for the Metropolitan Water District have been signed by the contractors as follows:

Winston Bros. Co., 418 S Pecan St., for constructing the east portion of the Iron Mountain Tunnel, and the east and west portions of the Coxcomb Tunnel.

Utah Const. Co., San Francisco, for the construction of the west portion of the Iron Mountain Tunnel.

The contracts and bonds will be presented to the board of directors of the district today (May 5) for approval.

PASADENA, Los Angeles Co., Cal. Bent Bros., Winston Bros. Co. and W. C. Crowell, 418 Pecan St., Los Angeles, at \$52,605.25 awarded contract by city directors May 2 to construct tunnel for conduit lines in the San Gabriel Canyon 4 miles from Azusa, for the Pine Canyon Dam. The work will consist of driving an adit and two short tunnels, trimming exterior of tunnels and appurtenant work. Total length of adit and tunnels is 1955-ft. Section of tunnel is about 6 ft. 6 in. by 7 ft. 5 in. The bids were opened April 25.

LOS ANGELES, Cal.—J. B. Bond, Construction Engineer for the Metropolitan Water District, has announced that the Dravo Contracting Co. will start work on the Valverde Tunnel, May 15.

The engineer also announced that Hamilton & Gleason Co. has started work on the Bernasconi Tunnel.

The transmission line between Colton and Cabazon has been completed and is in use and the water line from Morongo east to Shaver's Summit has been completed and is also in use.

The testing laboratory at Banning will be completed within the next few days.

LOS ANGELES, Cal.—Specifications and drawings for the Colorado River, Copper Basin, Whipple Mountain, and Whitewater Tunnels, for which bids are to be received by the Metropolitan Water District at 10 A. M., June 12 (previously noted), released by F. E. Weymouth, General Manager and Chief Engineer. Copies obtainable from Room 1004, 306 West Third St., Los Angeles, in payment of \$5 per set. The list of schedules and quotations follows:

SCHEDULE 1

Construct Colorado River tunnel and appurtenant works, between Station 10+40 and Station 67+40. Tunnel length 5640 ft.

Note: No bid will be considered for less than all the items of a schedule.

- (1) Does not apply here;
- (2) 2100 cu. yds. excav. in approach cut;
- (3) 61,000 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. tunnel enlargement;
- (5) Does not apply here;
- (6) 15,900 cu. yds. conc. in tunnel;
- (7) 35 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 150 cu. yds. Gunite coat rock tunnel;
- (10) 80 connections for grouting;
- (11) 100 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinf. steel;
- (13) 5000 cu. yds. mi. overhaul conc. agg.;
- (14) 700 ton-mil. haul. steel;
- (15) 73,000 ton-mile overhaul cement;

SCHEDULE 2

Construct entire No. 1, and East portion No. 2, Copper Basin tunnels and appurtenant works, between Station 179+70 and Station 246+60. Tunnel length 6140 ft.

Note: No bid will be considered for less than all the items of a schedule.

- (1) Does not apply here;
- (2) 12,000 cu. yds. excavation in approach cut;
- (3) 66,800 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 560 cu. yds. concrete in approach section;
- (6) 17,400 cu. yd. concrete in tunnel;
- (7) 45 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 150 cu. yds. Gunite coat rock tunnel;
- (10) 80 connections for grouting;
- (11) 100 cu. yds. mixing and placing grout;
- (12) 175,000 lbs. placing reinforcing steel;
- (13) 6000 cu. yds. mi. overhaul conc. aggregates;
- (14) 1800 ton-miles hauling steel;
- (15) 80,000 ton-miles hauling cement

SCHEDULE 3

Construct West portion, Copper Basin No. 2 tunnel and appurtenant works, between Station 246+60 and Station 309+10. Tunnel length, 6140 feet.

Note: No bid will be considered for

less than all items of a schedule.

- (1) Does not apply here;
- (2) 4000 cu. yds. excavation in approach cut;
- (3) 66,800 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. tunnel enlarge;
- (5) Does not apply here;
- (6) 17,400 cu. yds. concrete in tunnel;
- (7) 25 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erecting steel support in tunnel;
- (9) 150 cu. yds. Gunite coat. rock in tunnel;
- (10) 80 connections for grouting;
- (11) 100 cu. yds. mix and place grout;
- (12) 40,000 lbs. placing reinforcing steel;
- (13) 6000 cu. yds. miles overhaul of concrete aggregates;
- (14) 400 ton-miles hauling steel;
- (15) 57,000 ton-miles hauling cement;

SCHEDULE 4
Construct East portion, Whipple Mountain tunnel and appurtenant works, between Station 350+90 and Station 452+70. Tunnel length 10,000 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here;
- (2) 7300 cu. yds. excav. in approach cut;
- (3) 109,800 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) Does not apply here;
- (6) 28,600 cu. yds. concrete in tunnel;
- (7) 210 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 20 tons erect steel support in tunnel;
- (9) 150 cu. yds. Gunite coat rock, tunnel;
- (10) 75 connections for grouting;
- (11) 100 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinforcing steel
- (13) 10,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 600 ton-miles hauling steel;
- (15) 92,000 ton-miles hauling cement;

SCHEDULE 5
Construct Central portion, Whipple Mountain tunnel and appurtenant works, between Station 452+70 and Station 620+60. Tunnel length 16,790 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) tunnel access work (lump sum);
- (2) Does not apply here;
- (3) 185,400 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) Does not apply here;
- (6) 48,200 cu. yds. concrete in tunnel
- (7) 350 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 30 tons erecting steel support in tunnel;
- (9) 260 cu. yds. Gunite coat rock in tunnel;
- (10) 125 connections for grouting;
- (11) 150 cu. yds. mix and place grout;
- (12) 75,000 lbs. place reinf. steel;
- (13) 16,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 900 ton-miles hauling steel;
- (15) 147,000 ton-miles hauling cement;

SCHEDULE 6
Construct West portion, Whipple Mountain tunnel and appurtenant works, between Station 620+60 and Station 676+10. Tunnel length 5400 ft.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here;
- (2) 7300 cu. yds. excav. in approach cut;
- (3) 59,300 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 280 cu. yds. concrete in approach section;
- (6) 15,400 cu. yds. concrete in tunnel;
- (7) 110 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (10) 40 connections for grouting;

- (11) 50 cu. yds. mix and place grout;
- (12) 25,000 lbs. place reinf. steel;
- (13) 5000 cu. yd. miles overhaul of concrete aggregates;
- (14) 120 ton-miles hauling steel;
- (15) 21,000 ton-miles hauling cement;

SCHEDULE 7
Construct Whitewater Nos. 1 and 2 tunnels and appurtenant works, bet. Station 9361+80 and Station 9787+70. Tunnel length 10,040 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here
- (2) 37,300 cu. yds. excav. in approach cut;
- (3) 123,900 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) 1400 cu. yds. concrete in approach section;
- (6) 28,600 cu. yds. concrete in tunnel;
- (7) 870 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 1150 tons erect steel support in tunnel;
- (9) 300 cu. yds. Gunite coat rock in tunnel;
- (10) 20 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 100,000 lbs. place reinf. steel;
- (13) Does not apply here;
- (14) 1850 ton-miles hauling steel;
- (15) 14,300 ton-miles hauling cement.

LOS ANGELES, Cal.—Plans for the Mono Basin Tunnel are being completed by the Engineering Department of the Bureau of Water Works and Supply, 222 N. Hill St., H. A. Van Norman, Chief Engineer. The plans will probably be ready within sixty days and will then await action by the board of water and power commissioners.

The proposed tunnel, which is one of the first projects to be undertaken under the \$8,000,000 bond issue, will consist of a 9-ft. wide horseshoe section, with concrete lining, 65,260 ft. in length, located about 122 miles north of Owenyo on the Southern Pacific Railway and approximately the same distance north from Lone Pine on the state highway. The lower portal is located about 345 miles north of Los Angeles. Narrow gauge railroads provide access from Benton and Laws. Construction roads have been built by the department to provide approach to the tunnel portal. Power will be supplied by a transmission line to be constructed from the Southern Sierras Power Co. plant No. 3 on Levinger Creek.

Construction will be worked from six headings and camps will be established at four points along the line of the tunnel. These camps are: a 90-man camp at the east portal, a 125-man camp at the west portal, and camps of 250 men each located at Nos. 1 and 2. Shaft No. 1 is 914 ft. in depth and Shaft No. 2 465 ft. The headings are listed as follows:

- No. 1, 15,322 ft. in length (West Portal).
- No. 2, 9558 ft. in length (Shaft No. 1).
- No. 3, 10,674 ft. in length (Shaft No. 1).
- No. 4, 10,674 ft. in length (Shaft No. 2).
- No. 5, 6624 ft. in length (Shaft No. 2).
- No. 6, 10,026 ft. in length (East Portal).

The basis upon which the estimate has been prepared fixes the excavation per lin ft. of tunnel at 3.677 cu. yds. and the concrete at 1.19 cu. yds. Estimated with 5% overbreak and 50% timbered, the total construction quantities amount to the following:

- 238,961 cu. yds. excavation;
- 77,660 cu. yds. concrete;
- 2,822,495 ft. B.M. timber.

The engineering department's test holes show about two-thirds of the material through which the tunnel is

to be driven as granite. Drilling operations will require a total of 1,632,000 lbs. of explosives.

The project will involve a water supply line of about 84,950 ft. of pipe, including air valves, vacuum valves, blow-off valves, gate valves and expansion joints and local distributing systems. The line consists of:

- 2,000 ft. 10 3/4-in. O. D. pipe;
- 29,350 ft. 7-in. O. D. pipe;
- 33,250 ft. 6-in. O. D. pipe;
- 20,350 ft. 5-in. O. D. pipe.

The transmission line to be built from the Southern Sierras Power Co. plant No. 3 on Levinger Creek will involve construction of 20.5 miles of 33,000-volt, 1/0 copper conductor, strung on 40-ft. creosoted poles, spaced 175 ft. apart.

The department engineers hope to get the supply line and transmission line completed and the tunnel work started before winter if authorization is obtained in the near future.

29—STREETS AND HIGHWAYS

LOS ANGELES COUNTY, Calif.—Until May 24, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 1.3 mi. between Fullerton and Pemona at Berea Canyon Summit, involving:

- (1) 64 sta. clear and grub right-of-way;
 - (2) 64,000 cu. yds. rdwy. excav., unclassified;
 - (3) 310,000 sta. yds. overhaul;
 - (4) 1800 cu. yds. struc. excav.;
 - (5) 14,600 sq. yds. subgrade for pave.
 - (6) 3125 cu. yds. Class A Port. cem. conc. (pave.);
 - (7) 220 cu. yds. do. (struc.);
 - (8) 91,800 lbs. bar reinf. steel (pave. and struc.);
 - (9) 200 lin. ft. 8-in. corr. metal pipe
 - (10) 370 lin. ft. 24-in. do;
 - (11) 130 lin. ft. 30-in. do;
 - (12) 8 lin. ft. 36-in. do;
 - (13) 1700 M. gals. water;
 - (14) 80 tons broken stone (bit. macadam),
 - (15) 3.5 tons grade E asph. (bit. macadam);
 - (16) 2200 cu. yds. conc. remove from existing pavement;
 - (17) 14 culvert markers;
 - (18) 2 mi. type A property fence;
 - (19) 0.6 mile type B do;
 - (20) 6 fence gates;
 - (21) 69 sta. finish roadway;
 - (22) 14 monuments complete in place.
- State will furnish corrugated metal pipe and spillway assemblies.

LOS ANGELES, Cal.—Griffith Co., 502 Los Angeles Railway Building, awarded contract by board of public works May 2 at \$282,679.89 to extend Wilshire Blvd. from Figueroa St. to Park View St., using earth fill around the north end of the lake in Westlake Park. The award was based upon the lowest combination, using type 1 (vitrified) sewer and pre-cast ples.

LOS ANGELES, Cal.—V. R. Dennis Const. Co., Box F, Station A, San Diego, at \$15,318 awarded contract May 5, by Metropolitan Water District to construct 3.2 miles of roads for the Colorado River Aqueduct in Berdoo Canyon 7 miles northeast of Indio.

DALY CITY, San Mateo Co., Cal.—Plans completed by Geo. Kneese, engineer, for a section of the Mission Street Widening project; estimated cost on this portion, \$75,000. Bids will be called by the Daly City Council in the near future. Funds are available at the present time, partly provided by the State and partly by the City and County of San Francisco. The total estimated cost of the project is between \$700,000 and \$800,000.

SAN JOSE. Santa Clara Co., Cal.—A. G. Ralsch, 46 Kearny St., San Francisco, and San Jose, at \$9767 awarded contract by county supervisors to improve Cottle Ave. and Malone Road, in supervisor district No. 4, involving: Cottle Ave., 62,960 sq. ft. asphalt concrete surface; Malone Road, 54,450 sq. ft. asphalt concrete surface; a total of 117,410 sq. ft. asphalt concrete surface, 4½-in. Only other bid submitted by Union Paving Co., San Francisco, at \$15,800.

LASSEN COUNTY, Cal.—Hein Bros. Basalt Rock Co. and E. A. Forde, P. O. Box 162, Petaluma, at \$17,134.75 awarded contract by State Highway Commission, Sacramento, to surface with bituminous treated crushed gravel or stone (road mix method) 2 miles between Susanville and Johnstonville.

TRINITY COUNTY, Cal.—Tiffany-McReynolds-Tiffany Co., 525 N. 7th St., San Jose, at \$7326.26 awarded contract by State Highway Commission, to treat with fuel oil and asphaltic road oil as a dust palliative 26.5 miles between Weaverville and White's Bar Creek.

LASSEN & SIERRA COUNTIES, Cal.—Basalt Rock Co., Napa, at \$8,772.33 awarded contract by State Highway Commission, to treat with asphaltic road oil as a dust palliative 40.4 miles existing roadbed between 2 ml. west of Milford and Doyle and between Long Valley Creek and the Nevada State Line.

SAN DIEGO & IMPERIAL COUNTIES, Cal.—Matich Bros., Elsinore, at \$10,867.50 awarded contract by State Highway Commission, Sacramento, to treat with fuel oil 15.6 ml. between Tecate Divide and Boulder Park.

SAN FRANCISCO.—A complete list of the bids received by U. S. Forest Service to furnish trucks follows. Items involved are:

- (1) 60 ½-ton pick-up trucks;
- (2) 10 1½-ton dump trucks;
- (3) 140 1½-ton stake side trucks.

Bidders follow:

- (A) Ford Motor Company.
- (B) International Harvester Co.
- (C) Chevrolet Motor Car Co.
- (D) Earle C. Anthony, Inc.
- (E) White Company.
- (F) Dodge (J. E. French Co.)

Total bids follow:

	(1)	(2)	(3)
(A)	\$25,551.47	\$ 6,914.77	\$ 84,733.49
(B)	32,889.80	10,709.10	158,362.40
(C)	27,356.40	7,814.40	92,457.40
(D)	38,305.80		
(E)		12,681.50	173,517.40
(F)	33,697.08	9,095.70	118,097.00

Bids held under advisement.

LOS ANGELES COUNTY, Calif.—Until May 13, 10 A. M., bids will be received by S. V. Cortelyou, District Engineer, State Highway Commission 808 California State Office Bldg., Los Angeles, to treat with heavy fuel oil 2.3 miles of graded roadbed at San Gabriel Canyon, near Azusa, involving 2318 bbls. heavy fuel oil in place.

PLUMAS & LASSEN Counties, Cal.—C. F. Frederickson & Sons Co., Lower Lake, at \$7716.80 submitted low bid to District Engineer, State Highway Commission, Redding, to treat with fuel oil as a dust palliative 21 miles of existing roadbed between Beckwith and a junction with State Highway route 29, near Chat, involving 3710 bbls. heavy fuel oil in place. Complete bids follow:

C. F. Frederickson & Sons Co., \$2.08 \$7716.80.
Basalt Rock Co., Napa, \$2.09; \$7,753.90.

Tiffany - McReynolds - Tiffany, San Jose, \$2.28; \$8458.80.
Oilfields Trucking Co., Taft, \$2.45; \$9089.50.

Bids held under advisement.

SONOMA COUNTY, Cal.—Basalt Rock Co., 900 8th St., Napa, at \$2240 submitted low bid to District Engineer, State Highway Commission, San Francisco, to treat with fuel oil as a dust palliative 16 ml. existing roadbed shoulders between Lytton and Santa Rosa, involving 1600 lbs. light fuel oil. Complete bids follow
Basalt Rock Co., Napa, \$1.40; \$2240.
Pacific Truck Service, San Jose, \$1.47; \$2352.

Palo Alto Road Materials Co., Palo Alto, \$1.554; \$2486.

E. A. Forde, San Anselmo, \$1.64; \$2624.
Chas. Kupplinger, Lakeport, \$1.64; \$2624.

Hein Bros. Basalt Rock Co. and A. Hellwig, Sebastopol, \$1.74; \$2784.
C. F. Frederickson & Sons, Lower Lake, \$1.89; \$3024.

Bids held under advisement.

FAIRFAX, Marin Co., Calif.—City council postpones action on Manor Hill Section street improvement until June 9, 8 P. M. Project includes paving curb and gutters, and involves:

- (1) 15,104 cu. yds. grading;
- (2) 10,380 lin. ft. conc. curb and gutter;
- (3) 63,437 sq. ft. asph. pavement;
- (4) 206 ft. 10-in. metal pipe culvert;
- (5) 356 ft. 12-in. do;
- (6) 192 ft. 18-in. do;
- (7) 46 ft. 48-in. do;
- (8) 22 concrete catchbasins, c.i. grating;
- (9) 33 cu. yds. reinf. concrete retaining wall;
- (10) 250 lin. ft. 6-in. sanitary sewer;
- (11) 1 lamphole.

Estimated cost, \$30,000. J. C. Oglesby, city engineer.

STANISLAUS COUNTY, Cal.—Until May 19, 3 P. M., bids will be received by R. E. Pierce, District Engineer, State Highway Commission, Room 502, State Office Bldg., Sacramento, to grade and pave with asphalt concrete 0.3 miles at Modesto, involving:

- (1) 1,085 cu. yds. rdwy. excav., unclass.;
- (2) 53,500 sta. yds. overhaul;
- (3) 2,300 tons asph. concrete;
- (4) 3,030 sq. yds. subgrade for pave.;
- (5) 110 tons untr. cru. gravel or stone surf. (approaches);
- (6) 15 sta. finish roadway;
- (7) 53 cu. yds. salvaged surf. (sub-base);
- (8) 25 cu. yds. asph. conc. remove from existing pavement.

Specifications obtainable from above office. Certified check 10% required with bid.

SANTA ROSA, Sonoma Co., Cal.—All bids rejected by county supervisors and work will be done by day labor, to construct 7-mi. asphaltic oil surfacing from Salmon Creek to Russian River Bridge, 5th Supervisorial District.

E. A. Forde, San Anselmo, submitted low bid. Geo. P. Sanborn, county clerk; E. A. Peugh, county engineer.

INGLEWOOD, Los Angeles Co., Cal.—Until 8 P. M., May 22, bids will be received by City Council to furnish asphaltic road oil to improve Freeman Ave. and Prairie Ave., involving: 335 bbls. 80 per cent asphaltic road oil;
265 bbls. 90 per cent asphaltic road oil.

Arthur W. Cory, city engineer. Certified check, 10%. Otto H. Duellke, city clerk.

LOS ANGELES, Calif.—Until 10 A. M., May 24, bids will be received by board of public works to improve Las Palmas Ave. bet. Milner Road and Highland Ave., 396 ft. center line, involving:

- (1) grading (392 cu. yds. cut, 212 cu. yds. fill);
- (2) 29 sq. ft. 8-in. conc. local depressions;
- (3) 7383 sq. ft. 6-in. concrete paving;
- (4) 60 sq. ft. 4-in. conc. pave. (driveways);
- (5) 579 sq. ft. 4-in. asph. conc. wearing surface;
- (6) 48 sq. ft. asphalt conc. wearing surface (variable thickness);
- (7) 100 sq. ft. Class C resurfacing;
- (8) 80 sq. ft. Class D do;
- (9) 711 ft. reinf. integral curb;
- (10) 80 ft. unplastered light curb;
- (11) 9 ft. steel curb plate, ¼-in. thick;
- (12) 1265 sq. ft. 1-course sidewalk;
- (13) 196 sq. ft. 6-in. conc. gutter;
- (14) storm drain complete;
- (15) 561 sq. ft. 2-in. rock and oil rdwy.
- (16) 27 ft. ornamental iron railing;
- (17) sanitary sewer complete;
- (18) 99 ft. house connection sewers;
- (19) remodel manholes (lump sum);
- (20) water system;
- (21) reinf. conc. retaining wall;
- (22) one water service.

Remove: 49 ft. curb, 124 sq. ft. walk, 48 sq. ft. gutter, 48 sq. ft. wearing surface, 397 sq. ft. driveway, 14 concrete steps, 12 ft. side walls and bottom for open concrete storm drain, 5 ft. concrete wall, 29 sq. ft. concrete paving, one stone pillar, 129 ft. wire fence, 49 ft. lattice fence, one tree, 3 trees to be trimmed, one stump and one bridge.

Engineer's estimate, \$5784.67.

SISKIYOU COUNTY, Cal.—A. Teichert & Son, P. O. Box 1118, Sacramento, at \$15,077.34 submitted low bid May 10 to State Highway Commission, Sacramento, to treat with asphaltic road oil as a dust palliative 58.7 miles of existing roadbed between Weed and Dorris, involving 6642 bbls. asphaltic road oil. Complete bids follow:

A. Teichert & Son, Sacramento, \$2.27; \$15,077.34.

C. F. Frederickson & Son, Lower Lake, \$2.38; \$15,807.96.

Tiffany, McReynolds, Tiffany, San Jose, \$2.47; \$16,405.74.

Basalt Rock Co., Napa, \$2.61; \$17,335.62.

Oilfields Trucking Co., Bakersfield, \$2.88; \$19,128.96.

Pacific Truck Service, Inc., San Jose, \$2.89; \$19,195.38.

Dunn & Baker, Klamath Falls, Ore. \$2.94; \$19,527.48.

Bids held under advisement.

LOS ANGELES, Cal.—G. W. Jones, County Road Commissioner, preparing plans to improve S Figueroa St. bet. 190th St. and East Road, and of Brooklyn Ave. from Mednick St. east to Atlantic Ave. The proposed work will require 10,000 man days labor and material and equipment casting \$22,500.

The Figueroa St. improvement will be approximately 1.5 miles of 30-foot roadway, surfaced with disintegrated granite, involving 70,000 cu. yds. grading. The cost of materials is estimated at \$15,000.

The Brooklyn Ave. work will be 4600 lin. ft. of 30-ft. roadway, surfaced with disintegrated granite and involving 10,000 cu. yds. grading. The cost of materials is estimated at \$7500.

According to present indications the rights of way will be donated by owners.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

BERDOO CAMP ROADS—MET. WATER DISTRICT

LOS ANGELES, Cal.—V. R. Dennis Const. Co., Box F, Station A, San Diego, (3911 5th Ave.) submitted low bid to Metropolitan Water District May 2 at \$15,318 to construct approximately 3.2 miles of roads for the Colorado River Aqueduct located in Berdoo Canyon about 7 miles northeast of Indio, Riverside County, from a point on the Coachella Valley Road up Berdoo Canyon to Berdoo Camp, involving:

- (1) 25,200 cu. yds. earth excav.;
- (2) 1700 cu. yds. rock excav.;
- (3) 35,000 sta. yds. excav. overhaul;
- (4) 550 cu. yds. struc. excav.;
- (5) 100 cu. yds. concrete;
- (6) 2200 lbs. reinf. steel;
- (7) 96 lin. ft. furnish and place 24-in. dia. corr. pipe culvert;
- (8) 150 cu. yds. hand-placed riprap;
- (9) 600 cu. yds. dumped riprap;
- (10) 60 M. gals. water embank.;
- (11) 135 M. gals. water subgrade;
- (12) 5600 cu. yds. furnish sel. material for subgrade and oil treat.;

- (13) 13,400 cu. yd. ml. haul sel. material;
- (14) 74,800 gals. road oil, haul and spread;
- (15) 39,900 sq. yds. prepare surface, mix, spread and finish oil-treated surface;
- (16) 500 cu. yds. stockpile oil-treated material.

The total bids were:

- (A) V. R. Dennis Const. Co., San Diego, \$15,318.
- (B) Yglesias Bros., San Diego, \$20,963
- (C) A. Teichert & Son, Sacramento, \$23,511.50.
- (D) Clark & Campbell and A. J. Callahan, Los Angeles, \$24,875.70.
- (E) Geo. Rowland, Los Angeles, \$26,169.20.
- (F) Morrison-Knudsen Co., Los Angeles, \$27,351.30.
- (G) Pearson & Dickerson, Riverside, \$28,239.10.

LUMBER ORDERS OVER 200 MILLION FEET FOR WEEK

**National Association Reports
New Business Highest
Since Fall**

For the first time this year or last, lumber orders booked at the mills exceeded 200,000,000 feet during the week ended May 6, 1933, and lumber production was highest since last fall, according to telegraphic reports to the National Lumber Manufacturers' Association from regional associations covering the operations of 643 leading softwood and hardwood mills. The gain in new business was shared by both hardwoods and softwoods. All production totaled 123,845,000 feet; orders 208,665,000 feet; shipments 149,544,000 feet.

Orders reported by Southern pine and Western pine mills did not reach the high levels of the previous week but those booked at West Coast, Northern pine and Southern hardwood mills showed large gains, accounting for the spectacular total. The big West Coast increase was due to gain in orders for domestic cargo delivery, although rail, export and local orders showed some advances. For the first time this year or last, West Coast orders exceeded 100,000,000 feet and Southern hardwood orders 20,000,000 feet. The week ended May 9, the former were 108,448,000 feet and the latter 26,330,000 feet. All regions showed excess of orders over production.

Compared with the corresponding week of last year, all regions reported substantial order gains except Northern hemlock. For all softwoods this gain was 57 per cent and for all lumber 62 per cent. Hardwood orders were more than twice those of the corresponding week of 1932. Total production was about the same as last year and shipments were 12 per cent above.

Forest products carloadings during the week ended April 29 were 18,749 cars, the highest record since October. They were lower by 1,187 cars than during the same week of 1932.

THE WEEK'S NEWS Highlights

LICENSE REDUCED. California legislators found time during the rush of last-minute law making to complete passage of the amendment to the Contractors' License Law, reducing the annual fee to \$5, effective July 1. The change was recommended by Registrar Huntington. It is the only major change in contractor legislation enacted.

CEMENT BIDS. Harold Ickes, new Interior Department secretary, ordered all bids rejected for 400,000 barrels low-heat cement for Boulder Dam. The secretary said the price was too high, and intimated that a cement company combination was attempting to increase prices to U. S. President Treanor, Riverside Portland Cement Company, firm that perfected manufacture of cement to Boulder Dam specifications, said Secretary Ickes was uninformed as to conditions, and expects controversy to be settled to satisfaction of all parties. (Page 5.)

EMPLOYMENT GAINS. Increasing industrial employment, including the construction industry, throughout the State of California, shown in the April report of State Division of Labor Statistics. Employees more than March by 14.4% and payrolls by 13.9% in the construction industry. Further gains are seen for this month. Ninth Army Corps, headquarters at S. F., will handle more than 85,000 of conservation army recruits, meaning big unexpected purchases of supplies in the local market. (Page 7.)

SCHOOL REPLACEMENT. San Francisco voters will be asked to ballot on June 27 on a replacement program for obsolete school buildings. Supervisors are expected to recommend approximately \$3,000,000 in bonds at request of Board of Education.

APRIL INCREASE IN CALIFORNIA PAYROLL 13.9%

Substantial Gain For Construction Industry Over March Reported

A gain of 14.4 per cent in the number of employes and an increase in the total weekly payroll of 13.9 per cent between March and April is reported for the construction industry in California by the State Division of Labor Statistics.

An increase of 5 per cent in employment for April compared with the same month a year ago also is reported.

San Francisco and Alameda counties show a gain of 22.2 per cent in number of employes compared with March and an increase in total payrolls of 17.8 per cent. In Los Angeles the increase is 8.3 per cent in employment and 8.4 per cent in payrolls. The area outside the metropolitan districts reports an increase of 22.1 per cent in employment and 29.7 per cent in payrolls.

The average per capita weekly earnings for the state are reported at \$18.47; Los Angeles, \$18.28; Alameda-San Francisco, \$19.73. The average decrease in weekly earnings for the state from April, 1932, is 23.7 per cent; Los Angeles, 17.7 per cent; Alameda-San Francisco, 23.9 per cent.

A general increase in employment in all industries in the state over March is reported by Commissioner Frank C. MacDonald. Employment increased 15.3 per cent and payrolls 9.4 per cent in April in 1206 reporting representative California manufacturing establishments. These firms employed 132,412 workers in April, compared with 114,881 in March. The total weekly payroll was \$2,726,980 in April and \$2,493,648 in March.

Figures compared with April last year show an increase of two-tenths of one per cent in employment and a decrease of 14.6 per cent in payrolls.

A preliminary meeting to discuss formation of a builders' exchange has been held by Martinez contractors and material dealers. The exchange would operate as a division of the Martinez Chamber of Commerce.

PRIZES AWARDED IN 1933 BRIDGE DESIGN CONTEST

Chicago Student Wins Cash Offered for Institute Problem Solution

George D. Recher, a student at the Atelier Adams-Nelson, Chicago won first prize in the 1933 annual bridge design competition held by the American Institute of Steel Construction. W. A. Smith, from the University of Alberta, Canada, won second prize. First Honorable Mention was given to W. M. Horowitz of the University of Illinois; Second Honorable Mention to Robt. G. Jahelka of Columbia University, and Third Honorable Mention to L. E. Palumbo of the New York Architectural Club.

The problem was to design a steel highway bridge, crossing a deep gorge with precipitous rock walls. In addition to giving the students engraved certificates of award the first prize this year carries a cash compensation of \$100 and the second prize a cash compensation of \$50.00

These awards were made from the ten best designs selected in a preliminary competition when 134 students from 41 different schools and colleges entered drawings. The Jury of Award consisted of Mr. Leon S. Moisseiff, Consulting Engineer of New York; Mr. Edward A. Byrne, Chief Engineer of the Department of Plant and Structures of the City of New York; Mr. Wm. F. Lamb, Architect of the firm of Shreve, Lamb & Harmon, New York; Mr. Kenneth M. Murchison, Architect of New York, and Mr. H. H. Saylor, Editor of "Architecture."

INCREASE ARIZONA GAS TAX ONE CENT

Arizona has increased the state gasoline tax from 4 cents to 5 cents a gallon by act of the legislature, now effective, according to the Association of Highway Users.

Revenue from the levy will be distributed six-tenths to state treasury, three-tenths to the several counties in proportion to sales within their boundaries and one-tenth to a special reconstruction fund to be expended under direction of the governor. Money distributed to the counties is to be used for construction, improvement and maintenance of county roads and bridges and for the retirement of outstanding county highway bonds and payment of interest thereon.

STATE LICENSE REDUCED TO \$5

SACRAMENTO, May 15—Reduction of the contractor's license fee to \$5 per year will become effective with the beginning of the fiscal year, July 1, under terms of an amendment to the state licensing act finally passed today by the legislature.

The bill goes to the governor for signature and, with an emergency clause attached to make it effective at once, will enable contractors to renew their license at half the current rate. The reduced rate was the only important change in the licensing system voted by the legislature. A proposal to lower the exemption limit to \$100 was defeated and the present exemption of \$200 will continue.

NAPA COUNTY SCALE ADOPTED

Supervisors Fix Wages To Be Paid On Public Work

The prevailing wage scale for Napa county was approved yesterday by the board of supervisors. The schedule will be effective for one year.

The scale follows:

Asbestos workers, \$6.80; Bricklayers, \$9; Bricklayers' hod carriers, \$6; Carpenters, \$6; Carpet linoleum workers, \$7; Cement finishers, \$6; Electrical workers, \$6; Elevator constructors, \$9.08; Elevator constructors' helpers, \$6.36; Engineers, hoisting, portable, quarries, tractors, over 58-hp., \$9; Engineers, rollers, mixers, asphalt, plants, stone, derricks, \$10; Engineers, bridge and structural, \$10; pile drivers, derrick barges, cableways, \$10; Engineers, firemen and apprentices, \$7; Glass workers, \$6; Granite setters, \$6; Granite cutters, \$6; Hardwood floormen, \$6; Housemovers, \$6.00; Housesmiths, architectural iron, \$8; Housesmiths reinforced concrete, \$9; Iron workers, bridge and structural \$9; Laborers, building and common, \$3.50; Laborers, cement, \$4.00; Lathers, Chanut iron, \$9; Lathers, wood, \$7.50; Marble workers, \$6; Marble workers' helpers, \$4.00; Millmen, planing mill dept., \$6; Millmen, sash and door, \$6; Millwrights, \$6; Model casters, \$8; Model makers, \$9; Painters, \$6; Plumbers, \$6; Sheet metal workers, \$6; Shovel Operators, \$10; Shovel operators, underground, \$11; Shovel cranesmen, \$8.50; Shovel cranesmen, un-

\$3,000,000 SET AS S. F. SCHOOL BOND MINIMUM

Board of Education Sends Recommendation To Supervisors

President Philip Lee Bush of the Board of Education this week recommended to the Board of Supervisors that the amount of the proposed bond issue for the replacing of San Francisco's wooden "fire-trap" school structures be set at \$3,000,000.

City Attorney John J. O'Toole was directed to prepare a resolution for the Board's approval, and it was expected that the measure would be passed without opposition.

The bond issue, authorized by the supervisors last week, will be submitted to voters at the state special election June 27.

Meanwhile, engineers and building inspectors, under the direction of the Board of Education, were making an intensive survey of school buildings to determine the exact amount of work necessary. Report of the engineers, according to D. P. Hardy, Deputy Superintendent of Schools, will not be ready for several months.

Action on the bond issue was urged upon the supervisors by Mayor Rossi and President Bush three weeks ago following the disastrous fire which destroyed the Fremont School.

AUTHORIZE ALTERNATE BIDS ON PAVEMENTS

The State Highway Commission is authorized to call for alternate bids on cement and asphalt type of pavement for state roads under terms of a measure introduced by Kern County legislators and passed by both houses. The act is not mandatory, according to its authors, but directs the commission to specify alternate bids when it is considered practical and might result in a saving on construction costs.

The bill was introduced by As-Wagy in the senate.

derground, \$9.50; Shovel firemen and watchmen, \$7; Shovel oilers, \$7; Sprinkler fitters, \$6; Steam fitters, \$6; Stone setters, \$6; Stone cutters, \$6; Stone derricks, \$6; Tile setters, \$8; Tile setters' helpers, \$5.

Legal holidays including Saturdays and Sundays where crafts work a five day work week and other overtime to be paid for at the rate of double time.

BOULDER CEMENT BIDS REJECTED; INQUIRY ASKED

**Riverside Company President
Says Controversy Caused
By Misunderstanding**

A complaint has been filed with the Federal Trade Commission alleging an agreement among cement manufacturers to raise prices to the government by Secretary of the Interior Harold L. Ickes, following rejection of bids on 400,000 barrels of low-heat cement for Boulder Dam. The bids were opened April 24.

A joint bid was submitted by Riverside Cement Company, California Portland Cement Company, Southwestern Portland Cement Co. and Monolith Cement Co. These firms bid \$1.55 a barrel, which Mr. Ickes declared was an unwarranted increase in price over a bid of \$1.24 a barrel received last September.

It is understood that the complaint filed by the secretary with the trade commission was primarily in connection with bids to the state of Illinois for highway work. However, the complaint was made public after the Boulder Dam bids had been rejected.

Reclamation Service engineers estimated a five-cent increase in price due to the difference in manufacturing costs of low-heat cement and standard portland was justified. The cost of cement under the prices received would add \$1,500,000 to the cost of the dam compared with purchase at the price received in September.

Secretary Ickes declared he was prepared to order erection of a cement mill near the dam site unless lower prices are forthcoming from the private companies. This attitude is characterized as hasty and ill-advised by cement manufacturers. They point out that it is inconsistent with the policy of President Roosevelt to aid industries in controlling production and maintaining prices that will benefit capital, labor and the public mutually.

John Treanor, president of Riverside Cement Company, Los An-

geles, has issued the following statement:

"The recent bids were not upon ordinary portland cement but upon special low-heat cement to be furnished under exacting specifications peculiar to this job.

"My company has spent several years and many thousands dollars developing this special cement, and we placed complete information concerning it at the government's disposal without charge. These special low-heat specifications involve additional cost to manufacturer and considerable manufacturing and commercial risk not incurred in making ordinary portland cement. The specifications also require unusual and burdensome storage conditions peculiar to this job.

"Recent prices were not, as stated in the Ickes interview, identical or uniform but covered a wide range of both factory and delivered prices. The last prior bidding was not two months ago, as stated in the interview, but on September 26, 1932, and was for ordinary commercial portland cement. These bids likewise covered a wide price range. We are now furnishing somewhat similar low-heat cement to Pasadena for its Pine Canyon dam, but this cement is cheaper and easier to make than under the Boulder Dam specifications. The price to Pasadena, submitted July 26, 1932 was \$1.50 per barrel, at mill; the April 24 bid to the government on its more severe specification was \$1.55 at the mill.

"Further, the recent call for bids for Boulder Dam cement contained no time limit for taking the cement which might extend over many months, involving serious contingencies of increased manufacturing costs, especially in view of the government's inflation policy.

"We know from experience that the Boulder Dam engineers and the Reclamation Bureau desire to be fair and are always willing to take practical circumstances into consideration. A serious misunderstanding concerning the recent bids undoubtedly exists temporarily but I am convinced it will be satisfactorily cleared up."

DOUBLE STATE ROAD MILEAGE BY NEW LAW

**Legislature Puts 6600 Miles Of
Local Routes In High-
way System**

Addition of approximately 6600 miles of main county roads and through routes in cities to the state highway system has been voted by the legislature and is expected to receive the approval of the governor. The same bill provides for allocation of one-quarter of a cent of the gasoline tax to incorporated cities.

Director of Public Works Earl Lee Kelly announced that plans are being completed for the state to assume immediately the maintenance obligations now being borne by local taxpayers for the care of routes to be taken into the state system. State highway mileage will be nearly doubled.

The extension of the state highway system is in accordance with a plan sponsored by Senator Arthur H. Breed and supported by various groups, including the California State Automobile Association, League of California Municipalities, County Supervisors Association, California State Federation of Labor, State Chamber of Commerce, Redwood Empire Association and Highway Protective Committee.

These organizations will join in the campaign to defeat proposals for diversion of the gasoline tax revenues from the highway fund in order to protect the state's road system. The legislation decided yesterday to place the proposed diversion on the ballot for decision by the people at a state election.

SEEK APPOINTMENT

Candidates who have filed applications with the Santa Clara county board of supervisors for appointment as county purchasing agent include Lewis E. Downer, W. F. Herman, Arthur M. Grant, Thomas L. Carey, Allen Boomer, Walter M. Stevens, Lewis E. Richards, Louis A. Lopes, Joseph A. Amori and J. Haviland.

STRESS CODE IS VOTED IN STATE EMERGENCY ACT

All Building To Be Governed By New Minimum Resistance Regulations

A state law to regulate construction of buildings in respect to resistance to horizontal forces, introduced by Assemblyman Harry B. Riley has been passed by the legislature, according to word received by Building Inspector John B. Leonard of San Francisco, last Saturday.

The bill carries an emergency clause which places it in effect as soon as it is signed by the governor.

Enforcement of the law is vested in the building department of incorporated cities and in the county authorities when the structure is located outside an incorporated area.

Principal provisions of the act are as follows:

Section 1. Every building of any character, and every part thereof which is hereafter constructed in any part of the State of California, including every incorporated city, incorporated city and county, and county except such buildings as are hereinafter expressly excepted from the operation of this act, shall be designed and constructed to resist and withstand horizontal forces from any direction of not less than either two (2) per cent of the total vertical design load or twenty (20) pounds per square foot wind pressure on the vertical projection of the exposed surface, the horizontal force used to be the one that produces the greater stresses in the building.

Sec. 2. For the purposes of computing the resistance of any building to such horizontal forces as required by section 1 hereof, the computed stresses resulting from the combined vertical forces and horizontal forces shall not exceed one and one-third (1 $\frac{1}{3}$) times the allowable working stresses as hereinafter provided.

Sec. 3. For the purposes of this act, allowable working stresses shall be those specified in the ordinances governing the erection and construction of buildings in the city or city and county in which the building is to be constructed or if in unincorporated territory then of the county where-in the work is done.

If no such ordinance is in effect at the place at which the work is done then the allowable working stresses shall be those specified by the Division of Architecture of the State Department of Public Works, which is hereby fully authorized and empowered to specify such allowable working stresses for the purposes of this act as to any city, city and county, or county in which no such ordinance is in effect.

Sec. 4. This act shall not apply to the following buildings:

a. Any building not intended primarily for occupancy by human

Revised Order for Masonry Construction Issued by Long Beach Building Inspector

As a result of the March 10 earthquake which wrecked many masonry walls in Long Beach buildings, C. D. Wailes, Jr., chief building inspector of the city, has issued a brief specification, whose effect is to revise masonry construction practices on all new and repair work in the city. Several important changes from the stipulations of the old building code are involved. The new order specifies portland cement mortar exclusively, allowing a small proportion of lime for workability; lime and lime-cement mortar, previously permitted, are eliminated. The new order requires one header course in every four courses as compared with one in six previously.

Whereas the old code required parapet walls on masonry buildings to be at least 30 in. high above the roof and when the height exceeded six times the thickness that they should be laterally supported (method not outlined), the new order states that all masonry parapet walls shall be not less than 18 in. and not more than 36 in. high above the roof and that a horizontal belt course tie of reinforced concrete shall be placed at the top of

all parapet walls; minimum reinforcement shall be a continuous $\frac{1}{2}$ in. square bar.

The ties must be not less than one course of brick deep and at least 8 in. wide.

All masonry parapet walls must be reinforced vertically with $\frac{3}{8}$ -in. round bars 12-in. on centers, extending into the belt course tie below and hooked around the horizontal reinforcing bar in the top tie. Such vertical bars shall be placed 4 in. from the roof side of the wall.

The order also requires horizontal belt course ties of concrete to be placed under the floor joists of each floor above the first and under the ceiling joists or roof rafters. The depth of such horizontal ties must be equal to at least four courses of brick and their width shall be at least equal to the wall thickness minus the width of a brick but in no case less than 8 in.

Lintels over openings more than 4 ft. wide which are of structural steel shall be encased over the top and sides with concrete.

Vertical ties are required at each corner of a building and not more than 50 ft. apart in the walls; they must not be less than 8 in. in any dimension and in no case less than 4 in. thinner than the wall.

Relative to workmanship the order requires full-shoved mortar joints and that all masonry units be thoroughly wetted not more than one hour before laying and that they shall be damp at the time of laying.

PROPOSED COPPER NAIL STANDARD

A proposed simplified practice recommendation covering copper wire nails has been mailed to all interests in the industry by the division of simplified practice, Bureau of Standards, for their consideration and written approval.

This recommendation, which was proposed and formulated by representatives of the industry, is concerned with the length designation and decimal equivalent, in inches, together with the gauge of common copper wire nails and copper wire slating nails.

INSPECTION FEES WILL BE REDUCED

Inspection fees for electrical installations in the city of Sacramento are reduced under the terms of an ordinance introduced in the city council. The minimum fee would be lowered from \$2 to 50 cents.

Fresno city council has ordered the fees for inspection of new gas appliance installations reduced from \$1 to 50 cents.

beings and no part of which is located within the limits of an incorporated city or incorporated city and county.

b. Any building designed and constructed for use exclusively as a dwelling for not more than two families and no part of which is located within the limits of an incorporated city or incorporated city and county.

c. Any building on which work has actually been commenced prior to the effective date of this act.

DISTRIBUTION OF U. S. CONSTRUCTION SHOWN IN CENSUS

New Statistical Survey Locates Work Awarded and Contractors

The Bureau of the Census announces that a special study of the location and agencies of the construction industry in the United States has been issued. The statistics presented in this publication are derived from data gathered in 1930 as a part of the 15th decennial census.

The original census data presented in the individual State and United States summary reports gave the value and analysis of construction statistics classified according to the location of reporting contractors. They do not show the actual value of construction work done on projects within each State. Some part of the aggregate work of contractors of almost every State was done on construction projects located in other States. In the present study of the location and agencies of construction throughout the United States, the operations have been allocated to the State in which the work was actually done. In order to arrive at this presentation, an analysis and projection of the basic figures has been made, assembling the several projects done in each State by contractors of the home State and by outside contractors of every other State.

Some interesting phases of the analysis are brought out under the following topics: Comparability of projected totals with existing statistics of construction contracts awarded and building permits issued; the problem of outside competition; distribution of construction work throughout the United States per square mile and per capita; and the actual value of construction work in each State according to the location of the offices of executing establishments.

Of the aggregate volume of construction work actually executed within the United States, valued at \$5,759,774,790, 18 per cent was located in the State of New York, 8.5 per cent in Illinois, 8.4 per cent in Pennsylvania, 7.6 per cent in California, and so on throughout the list of States. From the point of view of the agencies by which this volume of work was done, the statistics show that contractors of New York State executed 18.6 per cent of the total; contractors of Illinois, 8.9 per cent; contractors of Pennsylvania, 9.3 per cent; contractors of California, 7.6 per cent, etc. Contractors of the New England, Middle Atlantic, East North Central and West North Central divisions did more construction than that which was actually executed within those localities, whereas the reverse was the case in the five southern and western geographic divisions. Omitting the District of Columbia, the greatest value of construction per square mile occurred in Rhode Island,

Emergency Forest Conservation Program To Employ 37,500 Workers in State

Thirty different kinds of conservation work, from the building of fire breaks and lookout houses to the digging out of poisonous forage plants and the control of insect infestations, will be done by the 37,500 forest workers in the 165 camps to be established in the national forests of California under the President's emergency conservation program, according to a statement made today by Regional Forester S. B. Show, chief of the U. S. Forest Service at San Francisco and regional coordinator of emergency conservation work for this State. The plans proposed are based on needed improvements for the protection and betterment of the national forests, previously prepared by the United States Forest Service, but never carried out because of the lack of Government appropriations.

"First in importance," said Mr. Show, "is the construction and maintenance of 6,350 miles of truck trails to open up inaccessible parts of the forests and to allow of the rapid transport of men to fires. Wide firebreaks, totaling 1000 miles in length, will also be built, principally in the chaparral forests of southern California, to break up large areas of inflammable brush and to aid the fire fighters in their battle against the flames. In the northern timbered forests, 800 miles of narrower fire lines will be constructed for the same purpose. An additional prevention measure will be the reduction of fire hazards through the falling of dead trees and snags and the cleaning up of inflammable material, particularly along 3,700 miles of roads and trails and on 77,000 acres of adjacent national forest lands. Another item of importance in fire fighting is telephone communication, and the plans call for the building of 1,000 miles of new line to tie in lookouts and guard stations with the forest rangers' and supervisors' headquarters, and the reconditioning of 1,400 miles of existing telephone lines.

"The vacation public," continued Regional Forester Show, "will be particularly interested in our plans to make the forests more attractive and accessible to recreationists and sportsmen. With this in mind, we will construct and improve 2,100 miles of foot and horseback trails into the inaccessible parts of the national forests, establish 725 new public camp grounds, and develop several hundred water systems. Additional pastures for tourist stock will also be fenced in some of the forests of the Sierra Nevada which are popular with camping parties.

"Of particular benefit to the owners of livestock who graze their cattle and sheep on the national forests will be the development of 325 new stock watering places, the building of 235 miles of drift fences to allow of better handling of stock on the range, and the clearing of 175 miles of new stock driveways

into the forests. The eradication of plants poisonous to livestock will be done on many areas, thus increasing the carrying capacity of the forest ranges.

"Insects, rodents and erosion are three very detrimental influences found in our forests," said Show. "These problems will receive special attention and we plan to make a thorough survey of existing conditions and start control work. Erosion will be combated by the building of check dams, reseeding barren areas, and by planting. Field projects to control the heavy timber losses occasioned by pine beetles will be undertaken on several hundred thousand acres. The control of rodents, which destroy the range and cause serious erosion in high mountain meadows, will be done in cooperation with the U. S. Biological Survey in practically all national forests.

"The planting of little seedling trees on burned and denuded areas, will have but a small part of the work program for the national forests of California. This is due to the fact that the spring planting season is already over and no planting can be done until after the fall rains. Also, the supply of young trees at the two Forest Service nurseries in this State is totally inadequate for a large planting program.

"Nearly 100 new lookouts will be established on high peaks as an aid to the detection of fires; 150 fire guard and ranger stations will be built at strategic points, and other much needed administration buildings constructed. Other special jobs that will be undertaken are: construction of airplane landing fields in the mountains; the improvement thinning of dense stands of young Christmas trees; research projects in fire and erosion control; the eradication of wild currants and gooseberries in sugar pine forests of the Sierra, to guard against future damage by the destructive blister rust fungus which is transmitted by these host plants. Blister rust has not yet been found in California but is advancing toward the State from the Pacific Northwest.

"When these many and varied jobs are accomplished by the President's emergency conservation workers," concluded Mr. Show, "we will have made the most forward step in the protection and administration of the national forests of California that has been taken since their creation in this State nearly thirty years ago."

AUTHORIZE VENTURA BUILDING EXPENDITURE

A bill authorizing the state expenditure of \$570,463 remaining in the fund previously allotted for major construction and equipment at the new state hospital in Ventura county has been passed by the senate.

T. & S. F. Ry. about four miles north of Bakersfield, consisting of a 49-ft. 5-in. steel girder beam span with creosoted timber deck supported by concrete abutments with wing walls.

TULARE COUNTY, Cal.—Until May 31, 2 P. M. (instead of June 3, as reported in our issue of May 9), bids will be received by State Highway Commission, Sacramento, to grade and pave with asphaltic concrete about 4.2 miles between Plaza Garage and Goshen; and to construct an undergrade crossing under tracks of the S. P. Co. near Plaza Garage.

PARKER, Ariz.—The Santa Fe Railway has under consideration planing of its bridge across the Colorado river near Parker to provide a passageway for automobile traffic. The cost is estimated at \$25,000 and \$30,000. The railway company also has under consideration the establishment of a warehouse and yard base at Parker.

SAN BERNARDINO, Cal.—Until 11 A. M., June 5, bids will be received by County Supervisors for the moving of a steel span bridge from the old Mojave River bridge on the National Old Trails Highway, 2 miles from Oro Grande and reconstructing same across the Santa Ana River between Greenspot and East Highlands, 11 miles east of San Bernardino. The bridge will have a 250-ft. span and a 20-ft. roadway.

22—DREDGING, HARBOR WORKS, EXCAVATION

SAN DIEGO, Cal.—Lipscomb & Arnett, 4367 Florida St., San Diego, awarded contract by the Bureau of Yards and Docks, Navy Department, Washington, D. C., May 8, at \$1286.56 for constructing moorings, dolphins and piles at the Navy Operating Base (Air Station) San Diego; Spec. No. 7205.

PORTLAND, Ore.—Until June 1, 3 P. M., under Bid No. 33-351, bids will be received by U. S. Engineer Office, 321 Customhouse, Portland, for rock excavation and removal, reconstruction of miter sill and thrust walls, lock gate and timber fenders, construction of emergency dam and riprap for dike, all in Willamette river, in and between Lock No. 1 (lowest lock of locks at Willamette Falls, near Oregon City, Ore.) and a point about one mile downstream from Willamette Falls, involving:

- (1) lump sum, cofferdam;
 - (2) remove exist. lower lock gates;
 - (3) remove exist. timber fenders;
 - (4) 2700 cu. yds. rock excav., cofferdam;
 - (5) 2650 cu. yds. do, lock approach;
 - (6) 3400 cu. yds. do, Clackamas Reef
 - (7) 8100 cu. yds. riprap, Dike 25.0;
 - (8) 100 sq. ft. rock channeling;
 - (9) 1100 lin. ft. drill holes for anchors;
 - (10) 285 cu. yds. concrete;
 - (11) 36 MFBM Doug. fir, dense struc. grade;
 - (12) 85 MFBM do, No. 1 common;
 - (13) 8 MFBM oak;
 - (14) 43,000 lbs. struc. steel;
 - (15) 2900 lbs. steel, castings;
 - (16) 1300 lbs. steel, forgings, Class C
 - (17) 210 lbs. steel do, Class H;
 - (18) 4800 lbs. steel reinf. bars;
 - (19) 12,200 lbs. bolts;
 - (20) 83,300 lbs. iron castings;
 - (21) 90 lbs. bronze.
- Specifications obtainable from the above office; no deposit required.

SAN DIEGO, Cal.—Captain George A. McKay, assistant chief of the Bureau of Yards and Docks, has reported to the San Diego Chamber of Commerce that naval authorities favor the construction of two harbor projects at San Diego.

Project No. 1 is the proposal to dredge 13,300,000 cu. yds. material from the southeast side of the main channel and to fill 500 acres at North Island along 15,500 lin. ft. of bulkhead.

Project No. 2 is the proposal to dredge 7,618,000 cu. yds. material north of the mole pier and to dispose of same in the area between Lindberg Field and the marine base.

LOS ANGELES, Cal.—Until 2 P. M., May 29, bids will be received by the county supervisors for diamond core drilling at the west abutment of the Sierra Madre dam in Sierra Madre Canyon.

Bids will be received as follows:

- (1) approximately 16 1/4-in. diameter holes with diamond core drill, each hole about 60 ft. in depth (960 lin. ft.);
- (2) redrilling through grout in any

hole as specified (2400 lin. ft.)

E. C. Eaton, County Flood Control Engineer, 202 N Broadway, Mame B. Beatty, Clerk of the Board, 501 Hall of Records.

25—MACHINERY AND EQUIPMENT

SAN DIEGO, Cal.—Moore Electric Co., 321 W. Third St., Los Angeles, awarded contract at \$10,465, for improvements for night flying seaplane operations at the Naval Operating Base (Air Station), San Diego; Specification 7118. The work consists of a lighting system for the station pier, a lighting system for landing area adjacent to Buildings Nos. 29 and 68, and two flood light stations with timber shelters and auxiliary equipment.

FRANCE FIELD, C. Z.—Bid call cancelled and project will not be undertaken at all for night lighting system, bids to have been opened June 8 by Quartermaster Office, Quarry Heights, C. Z., estimated cost, \$6,297.

OAKLAND, Cal.—Until, May 24, bids will be received by Concrete Products Sales Co., 1522 Latham Square Bldg., Oakland, to furnish miscellaneous equipment, as follows:

- 4 5 h. p.;
- 10 10 h. p.;
- 20 20 h. p.;
- 4 30 h. p.;
- 6 40 h. p.;
- 6 60 h. p.

To be on alternates of plain bearings and anti-friction bearings; with starters and/or compensators; f.o.b. cars or delivered by truck on the Oakland waterfront.

An alternate bid is desired on 1200 or 1800 RPM.

12 concrete mixers—6 2-cu. yd. and 6 3-cu. yd. Power take off and clutch, but without motor; without tanks and without batch hoppers. F.o.b. cars 2500 lin. ft. conveyor belting, as follows—1000 ft. 24-in., 5-ply, 28-oz. duck, 1/4 and 1/8-in. cover; 1000 ft. 30-in. and 500 ft. 36-in., 6-ply, 32-oz. duck, 1/4 and 1/8-in. cover; an alternate bid desired on 7-ply. Quantities on this items may be doubled.

250 troughing rolls—125 24-in. belt, 100 30-in., and 25 36-in.

135 return rolls—50 24-in. belt, 75 30-in. belt, and 10 36-in. belt. Bids desired on plain and anti-friction bearings.

Further information obtainable from above office.

PETALUMA, Sonoma Co., Calif.—Until May 31, 8 P. M., bids will be received by A. F. Tomasini, secretary, Board of Education, Petaluma City High School District, City Hall, to furnish:

(1) school bus chassis, for a 60-passenger school bus body, to comply with all state regulations.

(2) 60-passenger school bus body to be built on above chassis.

Bids must be submitted on items separately. Certified check 10% required with bid.

OAKLAND, Cal.—Until May 26, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to furnish one 5-passenger 8-cylinder 1933 model Dodge sedan. Specifications obtainable from above office.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

OAKLAND, Cal.—Until June 1, 9 P. M., bids will be received by W. W. Chappell, City Clerk, for three trucks.

27—FIRE ALARMSYSTEMS

OAKLAND, Alameda Co., Cal.—Crouse Hinds, Syracuse, New York, at \$716 awarded contract for timers and the General Electric Co., at \$432 awarded contract for signals by City Council to furnish and install 18 traffic signals and four timers.

28—FIRE EQUIPMENT

SANTA ROSA, Sonoma Co., Calif.—Until May 26, 12 M., to be opened at 1:30 P. M., bids will be received by George P. Sanborn, county clerk, to construct four miles of new road on Skaggs Springs-Stewarts Point road, Fifth Supervisorial District, involving (1) 66,000 cu. yds. excavation; (2) 1,000 ft. 12-in. culvert pipe; (3) 1,000 ft. 15- or 16-in. culvert pipe (4) 600 ft. 24-in. do; (5) 500 ft. 36-in. do; (7) 85 MFBM redwood timber; (8) 5,000 lbs. bolts, plates and dowels (9) 18 cu. yds. concrete; (10) 1,800 lbs. reinf. steel.

Specifications obtainable from the above office and from E. A. Peugh, county engineer.

WASHINGTON, D. C.—W. P. Thurston Co., Richmond, Va., at \$61,000 submitted late low bid to Bureau of Yards and Docks, Navy Department, for additions and alterations to existing foam fire protection system and pump houses at the Naval Fuel Depot, Pearl Harbor, T. H.; Spec. No. 7068.

Complete bids follow:

W. P. Thurston, Richmond\$61,000
Pittsburgh Des Moines Steel Co.	
Pittsburgh, Pa.	62,270
E. E. Black, Ltd., Honolulu	63,465
C. C. Moore & Co., S. F.	63,642
Blake Palm Elec. Co., Wash- ington, D. C.	68,600
J. L. Cliff, Honolulu	73,932

30—RESERVOIRS & DAMS

MODESTO, Stanislaus Co., Calif.—J. F. Knapp, 1401 Park Ave., Oakland, at \$7425 awarded contract by the city council to construct collapsible weir dam across the Tuolumne river at Modesto.

CAMP VERDE, Ariz.—Foley Bros., Inc., St. Paul, Minn., tentatively awarded contract at approximately \$3,190,591 for the construction of a dam across the Verde River at Camp Verde for the Verde River Irrigation and Power District. The contract is contingent upon approval of an application to the Reconstruction Finance Cor. for a \$7,600,000 loan to finance a comprehensive development program. The proposed construction includes a diversion dam to cost \$319,350, and canals, laterals, etc., to provide an adequate supply of irrigation water for 99,520 acres. The main dam will have a height of 265 ft. above streambed. A bond issue of \$23,000,000 were voted 12 years ago but were never sold, due to litigation.

31—PIPE LINES & WELLS

SONOMA, Sonoma Co., Cal.—Until May 29, 8 P. M., bids will be received by H. W. Gottenberg, city clerk, to drill two 10-in. wells, complete to a depth of 200-ft., fully cased for entire depth, and pumped and tested by (a) a deep well turbine pump, or by (b) a shallow or low head turbine pump; also price per lin. ft. of depth below 200 ft.

Alternate bids will be taken as

above except for 8-in. wells.

Specifications obtainable from the above office. Certified check 10% required with bid. Edward K. Hussey, city engineer. 31

WALLA WALLA, Wash.—A. A. Durand, Walla Walla, at \$1998 submitted low bid to Supervising Superintendent of Construction, Veterans' Administration, Palo Alto, to drill, develop and test deep well at the Veterans' Administration Hospital Pumping Site No. 2, at Walla Walla. Only other bid submitted by Zalley Iron Works, Yakima, at \$4104.50. Bids held under advisement.

PEARL HARBOR, T. H.—Following have procured plans for the purpose of submitting bids to the 14th Naval District, Pearl Harbor, on May 31, in connection with the construction of a 6-in. cast iron pipe water line approximately 3,736 feet long with 3,180 ft. to be submerged:

- R. D. Wood & Co., 490 Chestnut St., Philadelphia.
- W. P. Thurston Co., P. O. Box 2089, Richmond, Va.
- Honolulu Iron Works, 165 Broadway, New York City.

SAN FRANCISCO.—J. B. Rogers, 110 Sutter St., at \$1264 awarded contract by Constructing Quartermaster Fort Mason, to install a well, turbine pump and pump shelter at Lobos creek, Presidio of San Francisco.

- Unit bids on Rogers' bid were:
- (1) well, to 60-ft., \$9.30
 - (2) well, from 60- to 80-ft., \$9.30
 - (3) dam construction, \$40
 - (4) pump, etc., \$520.

SAN FRANCISCO—Until May 31, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, to lay 16-in. cast iron pipe line on San Pablo, Yerba Buena and Plymouth Sts. from Portola Drive to Wildwood Ave., involving:

- (1) 5500 ft. excav. and backfill, trench
- (2) 50 cu. yds. additional do;
- (3) 340 sq. ft. additional pavement remove and replace, bitumen on concrete;
- (4) 333 tons install pipe and fittings;
- (5) 1850 ft. make joints;
- (6) 1 cu. yd. plain concrete;
- (7) 15,125 s. ft. repave, bitumen on concrete;

Specifications obtainable from San Francisco Water Department, Room 605, 425 Mason St., on deposit of \$10. Certified check 10% required with bid. Estimated cost \$11,710.

SAN FRANCISCO—Until May 29, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, to lay 16-in. cast iron pipe line through Forest Hill subdivision, involving:

- (1) 5500 ft. excav. and backfill of trench;
- (2) 50 cu. yds. oil macadam do;
- (3a) 300 sq. ft. oil macadam, additional pavement remove and replace;
- (3b) 40 sq. ft. bitumen on concrete, additional pavement remove and replace;
- (4) 372 tons install pipe and fittings;
- (5) 1970 ft. make joints;
- (6) 3 cu. yds. plain concrete;
- (7a) 9260 s. ft. oil macadam, repave;
- (7b) 815 sq. ft. bitumen on concrete repave.

Specifications obtainable from San Francisco Water Department, Room 605, 425 Mason St., on deposit of \$10. Certified check 10% required with bid. Estimated cost \$9900.

SAN FRANCISCO—Until June 2, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor,

Secretary, to lay 16- and 12-in. cast iron feeder mainst or Lakeview Hill, Daly City and Crocker-Amazon Districts, involving:

- (1a) 3910 ft. excav. and backfill for 16-in. pipe;
- (1b) 8100 lin. ft. do for 12-in. pipe;
- (2) 100 cu. yds. additional excavation and backfill;
- (3) 680 sq. ft. additional pavement, remove and replace, bitumen on concrete;
- (4) 538 tons install pipe and fittings;
- (5) 3510 lin. ft. make mineral lead joints
- (6) 1 cu. yd. plain concrete;
- (7) 28,575 sq. ft. replacement—bitumen on concrete.

Specifications obtainable from S. F. Water Department, Room 605, 425 Mason St., on deposit of \$10. Estimated cost, \$24,000.

SAN FRANCISCO—Until June 2, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, Secretary, to lay 16- and 12-in. cast iron pipe line on Judah St. from 19th Ave. to 29th Ave. and on Ocean Ave. from Faxon to Phelan, involving:

- (1) excavate and backfill;
- (a) 3150 lin. ft. for 16-in. c. i. pipe;
- (b) 2500 lin.ft. for 12-in. do;
- (2) 50 cu. yds. additional excav. and backfill;
- (3) 340 s. ft. additional pavement, remove and replace, bitumen on concrete;
- (4) 280 tons install pipe and fittings;
- (5) 1950 lin. ft. make mineral lead joints
- (6) 14,163 sq. ft. repavement—bitumen on concrete;

Specifications obtainable from S. F. Water Department, Room 605, 425 Mason St., on deposit of \$10. Estimated cost \$9780.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LOS ANGELES, Cal.—Bids will be taken in about three weeks for the construction of two sections of the Verdugo Wash storm drain project for which the county supervisors recently appropriated \$107,347.81. The work proposed involves:

Section of Verdugo Wash storm drain from the end of the present channel to Pacific St., about 2000 lin. ft., consisting of a reinforced concrete rectangular structure 50 ft. in width, 8 ft. high, with 8-in. walls.

Section of the Verdugo Wash storm drain adjacent to the grounds of the Oakmont Country Club, about 2,000 lin. ft., consisting of an open channel with sloping sides, of reinforced Gunite construction, 1- to 3-in. thickness. The channel section will be 40 feet wide at the bottom, 63 ft. at the top, with walls 6 ft. in height.

E. C. Eaton, 202 North Broadway, County Flood Control Engineer.

LOS ANGELES, Cal.—Plans for a reinforced concrete conduit in Ballona Creek (Venice Blvd.) between Rimpau Blvd. and La Brea Ave., were presented to the city council May 10 by E. C. Eaton, county flood control engineer, for approval as to jurisdiction. Action will be taken by the city council May 11. The work involves:

- (1) 6700 cu. yds. excavating;
- (2) 6700 cu. yds. backfill;
- (3) 3200 cu. yds. reinf. conc., Class A;
- (4) 2400 cu. yds. do, Class B;
- (5) 100 lin. ft. drilling dowel holes;
- (6) 1300 lbs. place corr. iron pipe;
- (7) 50 lin. ft. place tile drains.

The county will furnish materials as follows:

Cement and admixture, reinforcing steel and miscellaneous metal ware, except tie wire for reinf. steel, burlap for curing filler, expansion joints, corrugated metal pipe and drainage tile.

BAKER, Ore.—The city authorized at the election May 2 the construction of a sewage disposal plant to cost \$104,000.

TACOMA, Wash.—City council will seek \$3,500,000 loan from the Reconstruction Finance Corp. for construction of trunk sewer project.

LOS ANGELES, Cal.—A. K. Warren, chief engineer, County Sanitation District, 202 N Broadway, authorized by directors of Districts Nos. 1, 2, 5 and 8 May 10 to take soundings and other submarine surveys at a cost of \$10,000 of the route of the proposed ocean outfall at White's Point in connection with the outfall sewer line and tunnel through the Palos Verdes Hills from the treatment plant, 38,800 lin. ft. The ocean outfall is 5000 ft. in length.

OXNARD, Ventura Co., Cal.—The proposed repairs to the outfall sewer will be postponed indefinitely as the Reconstruction Finance Corp. has rejected the city's application for funds.

LOS ANGELES, Cal.—M. Miller, 877 N. Bunker Hill Ave., awarded contract by Board of Public Works, May 12, at \$18,800, to construct Fish Harbor intercepting sewer in the right-of-way westerly from Ways St., between the alley south from Terminal Way and in a portion of Terminal Way, cash contract.

BURLINGAME, San Mateo Co., Cal. City council tentatively approves plan for constructing sewers and drainage of flood waters from Burlingame Hills to California Drive, estimated to cost \$14,000, of which \$8000, to be appropriated by the city, would be used for materials and \$6,000, from unemployment relief funds, would be used for labor.

Materials will be purchased by F. A. Bloom, City Purchasing Agent.

MONTEREY PARK, Los Angeles Co., Cal.—Alva J. Smith (local representative for Black & Veatch, consulting engineers of Kansas City, Mo.) 810 Boylston St., Pasadena, preparing plans and estimates for the final application to the Reconstruction Finance Corp. for funds with which to construct the proposed sewage treatment plant for Monterey Park. Favorable consideration was given the city's preliminary application and the corporation asked for detailed data on the plant.

The plant, which is to be located on the Rio Hondo, will be of the activated sludge type, involving four units in one structure. These will be: Pre-aeration unit, preliminary settling tank, three aerators and final settling tanks. This structure will be 50x64 feet in size, of reinforced concrete construction.

The power house will be 32x28 feet, of brick construction, with concrete foundation and floors and composition roof.

The pumping equipment which will be housed in the power house will consist of:

One sewage pump of 500 to 700 G. P.M., centrifugal type.

One sludge pump to digestion tank, 500-700 G.P.M., also centrifugal type.

One return pump, centrifugal type, of 50 G.P.M.

The concrete digester tank will be 28x36 feet, of reinforced concrete construction, with reinforced concrete roof, and a steel or cast iron gas dome.

The sludge drying beds will be 40x50 feet, with a glass or greenhouse type roof. The roof will be of glass and light steel construction and have an area of approximately 2000 sq. ft.

Piping around the plant will involve 200 lin. ft. of 12-in. cast iron pipe, and a small amount of 8-in., 6-in and 4-in. cast iron pipe.

The estimated cost is between \$36,000 and \$40,000.

Bids will be taken on the construction of the plant as a unit.

A service charge to users will be made under the terms of Assembly Bill No. 980. This bill allows a city to construct a plant and sewer system and charge to users the cost of plant and interest on the investment under a service charge. This creates a self-liquidating project under the definition of the Reconstruction Finance Corp. regulations. The plant is being designed to serve a population of 4000.

The collection system and trunk lines will be built by city probably by force account. These lines will involve:

7,000 ft. 12-in. pipe for Newmark Ave. secondary trunk;
1,800 ft. 10-in. pipe;
100,000 ft. 8-in. collection mains;
63,000 ft. 8-in. house connections;
300 manholes.

33—WATER WORKS

SALEM, Ore.—H. C. Hastorf, Inc., 457 E. Morrison St., Portland, at \$11,997 submitted low bid to State Purchasing Agent to furnish one steam boiler for State Penitentiary.

FRESNO, Cal.—Jean L. Vincenz, Public Works Commissioner, has withdrawn his proposal to construct a 500,000-gallon tank at Blackstone Ave. and the Santa Fe Railway. Claude H. Weeks, Water Superintendent, states that the tank is not necessary.

HEBER, Imperial Co., Cal.—Plans for a water works system for the town of Heber, 6 miles southeast of El Centro, completed by Philip W. Knights, City Engineer of El Centro. The Heber Public Utility District has made application to the Reconstruction Finance Corp. for a loan of \$15,000 with which to construct the system. Bonds were voted January 13, 1931. The project will involve:

Pumping plant, housed in a corrugated iron pump house, 20x24 ft., with corrugated iron roof and concrete floor, with equipment as follows:

Two 3-in. centrifugal pumps, of 300 G. P. M. each, one driven by electric motor the other by gasoline motor as an auxiliary unit.

Tank and tower; one 16,000-gallon corrugated iron or sheet metal tank, with wood tower, 80 ft. to overflow.

Settling basin: involving 4500 cu. yds. excavation.

Distribution system involving:

1460 ft. 6-in. cast iron pipe;
2340 ft. 4-in. cast iron pipe;
1540 ft. 3-in. cast iron pipe;
5455 ft. 2-in. cast iron pipe,
with fittings, etc.

UPLAND, San Bernardino Co., Cal.—R. G. Manley, City Service Manager, is preparing specifications for between 1600 and 1700 lin. ft. of 4-in. steel pipe for which bids will be called within the next three weeks.

HUNTINGTON PARK, Los Angeles Co., Cal.—Until 7:30 P. M. June 5, bids will be received by city council for furnishing:

6000 ft. 6-in. Class B or 150, American made cast iron pipe.

Vaughn Wood, city engineer and water superintendent, W. P. Mahood, city clerk.

MODESTO, Stanislaus Co., Calif.—Hild Electric & Mfg. Co., Stockton, at \$1298 less \$50 turn-in awarded con-

tract by city council to furnish one centrifugal pump.

All bids for a motor were rejected.

SAN FRANCISCO.—Pacific States C. I. Pipe Co., Rialto Bldg., at \$1.165 per ft., awarded contract by the City Purchasing Agent under Bid No. 991 to furnish 5000 ft. 2-in. cast iron b&s water pipe.

RAYMOND, Wash.—Willapa Valley Water Co. will ask \$75,000 loan from Reconstruction Finance Corporation for community water system project which will serve Menlo, East Raymond and Willapa.

SAN RAFAEL, Marin Co., Cal.—Bigge Drayage Company, 1638 24th St. Oakland, at \$550 awarded contract by Constructing Quartermaster, Hamilton Field, for removing three large steel tanks from Mather Field to Hamilton Field. Only other bids was submitted by E. H. Baker, Santa Rosa, at \$717.

SAN FRANCISCO.—Meyer Rosenberg, 1755 San Bruno Ave., and J. H. Krumlinde & Co., 55 Pilgrim Street, awarded contracts by City Purchasing Agent under Bid No. 997 to haul cast iron pipe.

SAN FRANCISCO.—United Pipe & Supply Co., 729 Brannan St., at \$5.30 per lin. ft., awarded contract by City Purchasing Agent under Bid No. 996 to furnish standard wrought steel galvanized water pipe in ¾- and 1-in. lengths.

OAKLAND, Cal.—Until May 26, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th St., Oakland to furnish:

(1) 73,000 lin. ft. 4-in. cast iron pipe;
(2) 30,000 lin. ft. 6-in. do;
(3) 24,000 lin. ft. 8-in. do;

Specifications No. LS-104, obtainable from above office.

OAKLAND, Cal.—Until May 26, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to furnish 50,000 lin. ft. ¾-in. seamless copper tubing. Specifications No. LS-105, obtainable from the above office.

SONOMA, Sonoma Co., Cal.—City council accepts bid of Beatrice Bulotti, made through her son, Fred Bulotti, for the entire issue of \$33,000 municipal water bonds to finance construction of proposed new municipal water plant. An agreement was made with the buyer that she would sell back any bonds not needed or unused in the improvement and acquiring of the new system.

LOS ANGELES, Cal.—Until 11 A. M., June 1, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish the Department of Water and Power, all materials, labor, etc., for the Bouquet Canyon Reservoir inlet and outlet conduit pipe in accordance with specifications No. 3078 which are on file at the office of the Chief Engineer and General Manager of the Bureau of Water Works and Supply, room 705 207 S Broadway, Los Angeles. Copies may be obtained at above address or at 107 City Hall, upon deposit of \$10. Pipe is to be delivered f.o.b. department's Bouquet Canyon Reservoir Construction site, located approx. 16 miles north of Saugus, at respective delivery points designated in specification. The proposed work involves:

SCHEDULE NO. 1

Furnish and deliver electric fusion

welded steel water pipe, including reducers, bends, ring girders, bents or trestles, butt straps, and/or backup straps.

SCHEDULE NO. II

Furnish and deliver labor, materials, etc., for installation of welded steel pipe, including reducers, bends, bents or trestles, etc.

SCHEDULE NO. III

Furnish labor, materials, etc., for installation of reinforced concrete steel core pipe and appurtenances.

The lists of materials and quantities of work to be furnished follow:

SCHEDULE NO. 1

Furnish and deliver the following listed Electric Fusion Welded Steel Water Pipe, includ. reducers, bends, ring girders, bents or trestles, butt straps and/or back up straps, complete, in accordance with Department of Water and Power Specifications No. 3078, except that Paragraphs 53 to 62 inclusive, 64 to 79 inclusive and 107 to 146 inclusive of said specifications shall not apply, f.o.b. locations shown on Bureau of Water Works & Supply Drawing No. N 177, designated "Pipe Yard," as follows:

- I Plain End Pipe, as follows:
 - (a) 8006 ft. 94-in., 3/8-in. shell;
 - (b) 3759 ft. 94-in. 7/16-in. shell;
 - (c) 2174 ft. 94-in. 1/2-in. shell;
 - (d) 1474 ft. 94-in. 9/16-in. shell;
 - (e) 416 ft. 91-in. 5/8-in. shell;
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- II Bell End Slip Joint Pipe, as follows
 - (a) 8006 ft. 94-in., 3/8-in. shell;
 - (b) 3759 ft. 94-in. 7/16-in. shell;
 - (c) 2174 ft. 94-in. 1/2-in. shell;
 - (d) 1474 ft. 94-in. 9/16-in. shell;
 - (e) 416 ft. 91-in. 5/8-in. shell;
- III Plain End Butt Strap Pipe, as follows:
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;

- IV Beveled End Butt Strap Pipe, as follows:
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;

 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- V Beveled End Back Up Strap Pipe, as follows:
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;

- VI Tapered Slip Joint Pipe, as follows
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- VII Additional Cost of Bends, for a price per each round seam in bends, which shall include cutting and welding or any other extra cost required in fabricating or testing in addition to the price per foot in-

- cluded under Items I to VII inclusive, as follows:
 - 27 bends 94-in. 3/8-in. shell, 45 seams
 - 11 bends, 94-in. 7/16-in. shell, 21 seams;
 - 9 bends, 94-in., 1/2-in. shell, 16 seams
 - 7 bends, 94-in. 9/16-in. shell, 14 seams;
- VIII Additional Cost of Bends, Cont'd.
 - 1 bend, 91-in. 5/8-in. shell, 1 seam;
 - 2 bends, 91-in. 11/16-in. shell, 3 seams;
 - 2 bends, 86-in., 3/4-in. shell, 4 seams
 - 1 bend, 86-in., 13/16-in. shell, 1 seam
 - 1 bend, 86-in., 7/8-in. shell, 2 seams;
 - 1 bend, 86-in., 15/16-in. shell, 1 seam
 - 2 bends, 86-in., 1-in. shell, 2 seams;
 - 1 bend, 80-in., 1-in. shell, 2 seams;
 - 3 bends, 80-in., 1 1/16-in. shell, 7 seams;
- VIII Stress Relieving, as follows:
 - 91-in., 5/8-in. wall, 416 ft.;
 - 91-in., 11/16-in. wall, 386 ft.;
 - 91-in., 3/4-in. wall, 303 ft.;
 - 86-in., 3/4-in. wall, 394 ft.;
 - 86-in., 13/16-in. wall, 187 ft.;
 - 86-in., 7/8-in. wall, 238 ft.;
 - 86-in., 15/16-in. wall, 166 ft.;
 - 86-in., 1-in. wall, 182 ft.;
 - 80-in., 1-in. wall, 200 ft.;
 - 80-in., 1 1/16-in. wall, 240 ft.
- IX Ring Girders, for a price per lb. fabricated scale weight, as follows:
 - 94-in. O. D. pipe—est. total 501,800 pounds.
 - 91-in. O. D. pipe—est. total 61,500 pounds.
- X Bents or Trestles—structural steel frame for same—est. total 90,200 lbs. for a price per lb. fabricated scale weight;
- XI X-Rays or Radiographs of Welds, as follows:
 - 50 ft. up to 100 ft.;
 - 100 ft. up to 500 ft.;
 - 500 ft. up to 1,000 ft.;
 - 1,000 ft. up to 10,000 ft.;
 - 10,000 ft. up to 20,000 ft.

- Point of manufacture. The location of point of manufacture of pipe, etc. proposed to be furnished under Schedule I will be:
- SCHEDULE NO. II**
- Furnishing and delivering all labor, materials, services of equipment, etc. necessary for the furnishing, delivery and installation, complete, of the following listed Electric Fusion Welded Steel Water Pipe, including reducers, bends, ring girders, bents or trestles, butt straps, and/or back up straps, and appurtenances.
- I Plain End Pipe, as follows:
 - (a) 8006 ft., 94-in., 3/8-in. shell;
 - (b) 3759 f., 94-in., 7/16-in. shell;
 - (c) 2174 ft., 94-in., 1/2-in. shell;
 - (d) 1474 ft., 94-in., 9/16-in. shell;
 - (e) 416 ft., 91-in. 5/8-in. shell;
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in. 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- II Bell End Slip Joint Pipe, as follows
 - (a) 8006 ft., 94-in., 3/8-in. shell;
 - (b) 3759 f., 94-in., 7/16-in. shell;
 - (c) 2174 ft., 94-in., 1/2-in. shell;
 - (d) 1474 ft., 94-in., 9/16-in. shell;
 - (e) 416 ft., 91-in. 5/8-in. shell;
- III Plain End Butt Strap Pipe, as follows:
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- IV Beveled End Butt Strap Pipe, as follows:
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;

- V Beveled End Back Up Strap Pipe, as follows:
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- VI Tapered Slip Joint Pipe, as follows
 - (f) 386 ft. 91-in. 11/16-in. shell;
 - (g) 303 ft. 91-in. 3/4-in. shell;
 - (h) 394 ft. 86-in., 3/4-in. shell;
 - (i) 187 ft. 86-in. 13/16-in. shell;
 - (j) 238 ft. 86-in. 7/8-in. shell;
 - (k) 166 ft. 86-in. 15/16-in. shell;
 - (l) 182 ft. 86-in. 1-in. shell;
 - (m) 200 ft. 80-in. 1-in. shell;
 - (n) 240 ft. 80-in. 1 1/16-in. shell;
- VII Additional Cost of Bends, for a price per each round seam in bends, which shall include cutting and welding or any other extra cost required in fabricating or testing in addition to the price per foot in-

- cluded under Items I to VII inclusive, as follows:
 - 27 bends 94-in. 3/8-in. shell, 45 seams
 - 11 bends, 94-in. 7/16-in. shell, 21 seams;
 - 9 bends, 94-in., 1/2-in. shell, 16 seams
 - 7 bends, 94-in. 9/16-in. shell, 14 seams;
- VIII Additional Cost of Bends, Cont'd.
 - 1 bend, 91-in., 5/8-in. shell, 1 seam;
 - 2 bends, 91-in., 11/16-in. shell, three seams;
 - 2 bends, 86-in., 3/4-in. shell, 4 seams
 - 1 bend, 86-in., 13/16-in. shell, 1 seam
 - 1 bend, 86-in., 7/8-in. shell, 2 seams
 - 1 bend, 86-in., 15/16-in. shell, 1 seam
 - 2 bends, 86-in., 1-in. shell, 2 seams;
 - 1 bend, 80-in., 1-in. shell, 2 seams;
 - 3 bends, 80-in., 1 1/16-in. shell, 7 seams.
- VIII Stress Relieving, as follows:
 - 91-in., 5/8-in. wall, 416 ft.;
 - 91-in., 11/16-in. wall, 386 ft.;
 - 91-in., 3/4-in. wall, 303 ft.;
 - 86-in., 3/4-in. wall, 394 ft.;
 - 86-in., 13/16-in. wall, 187 ft.;
 - 86-in., 7/8-in. wall, 238 ft.;
 - 86-in., 15/16-in. wall, 166 ft.;
 - 86-in., 1-in. wall, 182 ft.;
 - 80-in., 1-in. wall, 200 ft.;
 - 80-in., 1 1/16-in. wall, 240 ft.;
- IX Ring Girders, for a price per lb. fabricated scale weight, as follows:
 - 94-in. O. D. pipe—est. total 501,800 pounds.
 - 91-in. O. D. pipe—est. total 61,500 pounds.
- X Bents or Trestles—structural steel for same—est. total 90,200 lbs., for a price per pound fabricated scale weight;
- XI 52,800 cu. yds. excavation, backfill and disposal, est. excavation;
- XII 11,100 cu. yds. concrete, estimated total.
- XIII 168,100 lbs. reinforcing steel, installed in place, estimated total.
- XIV 30 manholes, estimated total.
- XV Blow Off Valves:
 - (a) ten 8-in.;
 - (b) two 12-in.
- XVI 60 4-in. Pass Hole Fittings.
- XVII 20 ft. Venturi Tube, installed, only.
- XVIII 10 Air Valves, installed only.
- XIX 435,000 sq. ft. Painting or Enameling Pipe—Inside.
- XX 436,000 sq. ft. Painting or Enameling Pipe—Outside.
- XI 700 ft. Blow Off Pipe.
- XXII 435,000 sq. ft. est. Sandblasting, inside pipe Item I.
- XXIII X - Rays or Radiographs of Welds, as follows:
 - 50 ft. up to 100 ft.;
 - 100 ft. up to 500 ft.;
 - 500 ft. up to 1,000 ft.;

1,000 ft. up to 10,000 ft.;
10,000 ft. up to 20,000 ft.

SCHEDULE NO. III

Furnishing and delivering all labor, materials, services of equipment, etc. necessary for the furnishing, delivery and installation, complete, of the following listed Reinforced Concrete Steel Core Pipe.

I Reinforced Concrete Steel Core Pipe as follows:

- (a) 750 ft., 90-in., 200 ft. head;
- (b) 5592 ft., 90-in., 250 ft. head;
- (c) 5139 ft., 90-in., 300 ft. head;
- (d) 2889 ft., 90-in., 350 ft. head;
- (e) 1340 ft., 90-in., 400 ft. head;
- (f) 399 ft., 84-in., 450 ft. head;
- (g) 428 ft., 84-in., 500 ft. head;
- (h) 452 ft., 84-in., 550 ft. head;
- (i) 253 ft., 84-in., 600 ft. head;
- (j) 249 ft., 84-in., 650 ft. head.

II Reinforced Concrete Steel Core Pipe Continued.

- (k) 197 ft., 84-in., 700 ft. head;
- (l) 191 ft., 78-in., 750 ft. head;
- (m) 178 ft., 78-in., 800 ft. head;
- (n) 139 ft., 78-in., 850 ft. head;
- (o) 109 ft., 78-in., 900 ft. head.

III 157,800 cu. yds. Excavation, Backfill and Disposal;

IV 6425 cu. yds. Concrete, for appurtenant structures;

V 133,000 lbs. Reinforcing Steel, for appurtenant structures;

VI 30 Manholes, as follows, est. total;

VII 24 12-in. Blow Off Valves;

VIII 40 4-in. Pass Hole Fittings;

IX 25 Air Valves, installed only;

X 2400 ft. Blow Off Pipe, as follows.

29—STREETS AND HIGHWAYS

WASHINGTON STATE — Edwin Neary, 3207 33rd St., Seattle, at \$31,716 awarded contract by State Highway Commission to furnish in stockpiles 14,200 tons fine aggregate and 23,670 tons coarse aggregate for paving between the Upper and Middle Crossings of the South Fork of the Snoqualmie River, State Road No. 2, King County.

LOS ANGELES, Cal.—Hearing of protests on the improvement of Beverly Blvd., between Hilgard Ave. and Paseo Miramar, will be held by City Council May 16. Project involves:

- 18,000 cu. yds. grading;
 - 17,230 sq. ft. concrete pave., 6-in.;
 - 3,900 sq. ft. concrete pave., 8-in.;
 - 183,325 sq. ft. asphalt concr. pave., 6-in.;
 - 145,880 sq. ft. asphalt concr. pave., 7-in.;
 - 8,075 sq. ft. asphalt concr. pave., varying thickness;
 - 44,350 lin. ft. curb;
 - 44,080 sq. ft. gutter;
 - storm drain;
 - walls;
 - water system;
 - 69 water services.
- Engineer's estimate, \$140,397.77.

MERCED COUNTY, Cal. — N. M. Ball, 1889 Yosemite Road, Berkeley, and Willard, Biasotti & Lovatti, 40 W. Clay St., Stockton, at \$32,040.65 awarded contract on their joint bid by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 0.8 mi. of the Merced River Bridge approaches.

LOS ANGELES, Cal.—Griffith Co., Los Angeles Railway Bldg., submitted low bid to harbor department on May 10 at \$23,040 for paving various streets and transit shed floors at Los Angeles Harbor. Sully-Miller Co. submitted the only other bid at \$25,800.

LOS ANGELES, Cal.—Jones Bros., 9430 Santa Monica Blvd., Beverly Hills submitted low bid to board of public

works, May 10 at \$6130, for improving Ocean Front, between 23rd Ave. and 34th Ave., Venice, under cash contract.

MODOC COUNTY, Cal. — Oilfiled Trucking Co., Taft, at \$11,863.97 awarded contract by State Highway Commission to treat with fuel oil and asphaltic road oil as a dust palliative 46.5 miles existing roadbed between Hat Creek and Alturas and between the junction of State Highway Routes 73 and 28 and the Oregon state line.

PLUMAS AND LASSEN CO., Cal. —C. F. Fredericksen & Sons Co., Lower Lake, at \$7716.80 awarded contract by State Highway Commission to treat with fuel oil as a dust palliative 21 miles existing roadbed between Beckwith and a junction with State Highway route 29, near Chat.

WASHINGTON STATE—Until June 6, 10 A. M., bids will be received by L. V. Murrow, State Director of Highways, Olympia, for highway construction as follows:

KING COUNTY — 8.1 mi. Portland cement concrete paving State Road No. 2, Upper Crossing to Middle Crossing, South Fork, Snoqualmie River.

WAHIAKUM COUNTY—1.3 mi. grade and surface State Road No. 12, Svensen's Landing to Wilmi Slough (Deep River Bridge Approaches) involving:

- 25,720 cu. yds. excav.;
- 10,950 cu. yds. cru. stone surf.;
- 36 cu. ft. pipe culverts and other items.

Specifications obtainable from above on deposit of \$2. Certified check 5% payable to State Treasurer required with bid.

SAN RAFAEL, Marin Co., Calif.—Following are additional contractors who have procured plans for the purpose of submitting bids to the Constructing Quartermaster, Hamilton Field, on May 24, 2 P. M., in connection with the paved aprons around the hangar and shop at Hamilton Field (Marin Meadows) Bombing Base:

J. F. Heilmann, 2703 24th Street, San Francisco.

Rocca & Caletti, San Rafael.

Theo. Cohn, Russ Bldg., San Francisco.

ROCKWELL FIELD, Cal. — Weymouth Crowell Co., 2104 E. 15th St., Los Angeles, submitted low bid to the Constructing Quartermaster, Rockwell Field, Coronado, May 11, at \$36,200 to construct approximately 200,000 sq. ft. 6-in. reinforced concrete pavement, with driveways, storm sewers, etc., at Rockwell Field, Coronado. The proposed work will involve the paving of Wright Blvd., about 4000 ft. of 26-ft. roadway with 6-in. reinforced concrete pavement, with 5-in. curb. Incidental work will involve 4-in. walks, 8-6-8-in. R.C. pavement, 6-in., 8-in., 10-in. and 15-in. terra cotta pipe; 6-in., 8-in., 10-in., 12-in. and 15-in. concrete pipe; catch-basins, wire mesh reinforcement, 3/4 in. fiber electric conduit, 4-in. vitrified clay power duct, both with concrete covering.

The other bids were:

T. B. Penick & Son.....	\$36,923.14
Griffith Co., Los Angeles.....	40,900
J. A. Hunt.....	41,132
V. R. Dennis Constr. Co., San Diego.....	42,990
E. G. Carroll, San Diego.....	43,380
Walter Treptke.....	45,964
Nelson & Sloan.....	46,000
Miracle Co., San Diego.....	49,487
Daley Corp., San Diego.....	49,552.78

TORRANCE, Los Angeles Co., Cal. —F. B. Leonard, City Engineer, pre-

paring plans to improve Torrance-Redondo Blvd., between Madrona Ave. and the Redondo city limits, approximately 1.5 miles. The roadway will be graded to a width of 100 ft. and paved to a width of 40 ft. The estimated cost is \$34,000. Grading will be done by force account using R. F. C. labor. The pavement will be furnished and laid by the county road department. The work will involve: 316,800 sq. ft. 6-in. asphaltic concrete pavement.

SEATTLE, Wash.—Northwest Construction Co., Seattle, at \$14,505 was awarded contract by board of public works to pave Albro Place and other streets.

YAKIMA, Wash.—Until June 1, bids will be received by county commissioners to grade and gravel six miles of Glade Road. O. E. Brashears, is county engineer.

ALAMEDA, Cal. — Until June 15, 11 A. M., bids will be received by Constructing Quartermaster, Benton Field Air Depot, 33 Pacific Ave., Alameda, to place bituminous or concrete surfacing on roads and paved areas at Benton Field Air Depot, Alameda. Specifications obtainable from above office on deposit of certified check, 10, payable to Treasurer of the United States.

SONOMA COUNTY, Calif.—Basalt Rock Co., 900 8th St., Napa, at \$2249 awarded contract by State Highway Commission to treat with fuel oil as a dust palliative 16 miles of existing roadbed shoulders between Lytton and Santa Rosa.

ALAMEDA, Alameda Co., Cal.—Until June 15, 10 A. M., bids will be received by Constructing Quartermaster Benton Field Air Depot, 33 Pacific Ave., Alameda, to grade runways, place rock underfill, and construct extension to drainage system at Benton Field Air Depot, Alameda. Specifications obtainable from above office on deposit of certified check, \$10, payable to Treasurer of United States.

SAN JOSE, Santa Clara Co., Cal.—A. G. Raisch, 46 Kearny Street, San Francisco and San Jose, at \$9,276 was awarded contract by county supervisors to improve Cunningham Avenue from King road to White road in Supervisor District No. 2, involving 182,700 sq. ft. oil macadam. Complete bids follow:
A. G. Raisch, San Francisco.....\$9,276
O. G. Ritchie, San Jose.....11,295
Piazza & Greene, San Jose.....11,790

SAN JOSE, Santa Clara Co., Cal.—Until May 29, 11 A. M., bids will be received by Henry A. Pfister, county clerk, to improve Gilman, Dillon, Everett and part of Central Avenue, in Campbell, in Supervisor District No. 4, involving 52,560 sq. ft. oil macadam. Specifications obtainable from Robert Chandler, county surveyor, on payment of \$1, not returnable.

SAN GABRIEL, Los Angeles Co., Cal.—Bids for the paving of Santa Anita St. bet. Las Tunas Drive and Mission Drive will be called by city council as soon as funds have been assured by the Reconstruction Finance Corp. Application has been made for the loan. Grading will be done by local labor. C. N. Wright, city engineer, Pacific Electric Bldg., Los Angeles, has estimated the paving as follows:

- 38,000 sq. ft. 6-in. asph. conc. pave.;
 - 19,000 sq. ft. 2-in. oil macadam.
- The pavement will be 20 feet wide with a 10-ft. strip of oil macadam.

UNIT BID SUMMARY

IMP. 51ST ST. AND WOODLAWN AVE.—LOS ANGELES

LOS ANGELES, Cal.—Associated Constructors, Inc., 1226 S. La Brea Ave., submitted low bid to Board of Public Works, May 10, at \$15,999.20, for improving streets in the 51st St. and Woodlawn Ave. Improvement District, under cash contract, involving:

- (1) grading (3027 cu. yds. excav.);
- (2) 115,107 sq. ft. 6-in. concrete pave;
- (3) 60 sq. ft. 8-in. concrete paving (local depressions);
- (4) 1955 sq. ft. rock and oil;
- (5) 20 tons asphalt concrete wearing surface;
- (6) 584 lin. ft. unplastered light curb;
- (7) 728 sq. ft. 4-in. concrete walk (driveway);
- (8) 99 sq. ft. 6-in. concrete walk (driveway);
- (9) 348 sq. ft. 3-in. walk;
- (10) 98 sq. ft. 8-in. concrete gutter;

- (11) sanitary sewer (consisting of frame and cover sets only);
- (12) 40 ft. vitrified house sewer connections;
- (13) 11 manholes to be reset.

Complete bids follow:

- (A) Associated Constructors, \$15,999.21
- (B) Southern California Roads, \$16,834.80.
- (C) J. L. McClain, \$16,882.30.
- (D) Geo. R. Curtis Paving Co., \$16,963.13.
- (E) George H. Oswald, \$17,140.17.
- (F) Arthur E. Pearson, \$17,329.24.
- (G) Griffith Co., \$17,402.68.
- (H) J. V. Morrison, \$17,595.62.
- (I) John Topich, \$17,693.51.
- (J) Bob Bosko, \$17,764.97.
- (K) J. E. Haddock, \$18,265.43.
- (L) George Nelson, \$19,347.52.
- (M) Engineer's estimate, \$17,210.52.

AMADOR, Alpine and El Dorado Counties, Cal.—Peninsula Paving Co., Standard Oil Bldg., San Francisco, at \$20,388 submitted low bid May 17 to State Highway Commission, Sacramento, to treat with oil and cutback asphalt as a dust palliative 73.8 miles of existing roadbed between Dew Drop Inn and Picketts Junction, between Picketts Junction and Alpine Junction and between Picketts Junction and Hangman's Bridge, near Markleeville, involving:

- (1) 250 bbls. light fuel oil, Loc. A;
- (2) 1850 bbls. heavy fuel oil, do;
- (3) 500 bbls. asph. road oil, do;
- (4) 500 bbls. light fuel oil, Loc. B;
- (5) 900 bbls. heavy fuel oil, do;
- (6) 800 bbls. light fuel oil, Loc. C;
- (7) 200 bbls. heavy fuel oil, do;
- (8) 1100 bbls. asph. road oil, do;
- (9) 400 bbls. light fuel oil, Loc. D;
- (10) 250 bbls. heavy fuel oil, do;
- (11) 250 bbls. asph. road oil, do;
- (12) 175 tons cut-back asph., do.

Complete bids follow:

- (A) Peninsula Paving Co., San Francisco, \$20,388.
- (B) Oilfields Trucking Co., Bakersfield \$21,540.
- (C) C. F. Fredericksen & Son, Lower Lake, \$21,807.50.
- (D) Basalt Rock Co., Napa, \$23,746.

Bids held under advisement.

SANTA BARBARA, Cal.—American Cast Iron Pipe Co., Los Angeles, was awarded contract by city council May 11 at \$1868.97 to furnish 400 ft. 24-in. Class 150 sand cast, cast iron pipe and fittings for the water department. Victor H. Trace, water superintendent. The bidders were:

- (A) American Cast Iron Pipe Co.
- (B) U. S. Pipe and Foundry Co.
- (C) Commercial Iron Works (fittings only).
- (D) Vernon Foundry Co., (fittings only).

Project involves:

- (1) 400 ft. 24-in. Class B pipe;

- (2) 400 ft. 24-in. Class 150 sand cast pipe;
- (3) 16x16x12-in. tee;
- (4) 12-in. adapter, 4-ft. long;
- (5) 10-in. adapter, 18-in. long;
- (6) 10-in. adapter, 18-in. long*;
- (7) 10x10x10-in. wye branch;
- (8) One 10-in. 45-deg. bend;
- (9) total for fittings;
- (10) grand total.

Unit prices follow:

START STEEL ERECTION ON GATE BRIDGE

**Girders on Marin Pier Being
Set as Preliminary Con-
crete is Finished**

The first stage of pouring the concrete for the Marin pier of the Golden Gate Bridge was completed Tuesday night and the heavy work of setting in place the steel girders, that ultimately will tie in the tower to the pier, is under way, bridge engineers reported yesterday.

Beginning of this job, which will take the balance of the week to accomplish, marks the first major steel construction on the Gate span. Steel girders will extend up through the concrete pier to its ultimate surface and the tower members will be riveted and bolted to that.

According to Supt. James Graham, of the Pacific Bridge Company, pier contractors, the steel work will have progressed sufficiently to allow the resumption of concrete pouring next Monday, and the second stage of the pour will continue until the pier is completed.

The steel work now being set in place rests upon a concrete base rising to a height of ten feet above the solid rock bottom, except at the southwesterly corner of the pier where the excavation was sunk an additional 20 feet to gain a solid rock footing. At this point the concrete base is now 30 feet thick.

The first concrete for the Marin anchorage base block was poured the latter part of last week and pouring for the remainder of the base block will be commenced within a few days.

At Fort Point excavations for the anchorage are going ahead according to schedule and the protective seawall that will keep the waters of the Golden Gate back from the anchorage base is rapidly taking form.

Work of blasting out the rock bottom of the Golden Gate in preparation for setting the steel fender forms in place is progressing steadily although it will be several weeks before sufficient rock has been removed for actual work on the fender to commence.

THE WEEK'S NEWS Highlights

\$3,300,000,000 PROGRAM. Construction expects early revival of activity on a large scale as additional support is obtained at Washington for the Administration bill to appropriate \$3,300,000,000 for Federal public works. An early vote in Congress is anticipated, the government authorities having satisfied themselves that widespread expenditure in construction will be one of the surest means of stimulating business to normal speed. A preliminary list of road construction to be financed by Federal money when the new bill is adopted shows that eleven western states can expect \$70,000,000 for highway work alone. California would receive about \$16,500,000.

GAS REVENUES. California faces the prospect of virtual suspension of state highway extension in the biennium starting July 1 if lot June 27 are carried. A favor-proposals on the State election ballot vote on the gas tax diversion plan would encourage the legislature to proceed with its bills for shifting motorists' money on a wholesale scale toward paying the state's bills for fish hatcheries, etc. If the diversion plans now contemplated are finally adopted less than \$5,000,000 will be available for new construction in 1933-35, the state department of public works estimates.

NEW KEY PIER. Reconstruction of the Key System ferry terminal on San Francisco bay, destroyed by fire three weeks ago, will be undertaken at once with expenditure of \$200,000. Kent & Hass, architects.

WEST ALLOTTED \$70,000,000 IN HIGHWAY FUNDS

**California to Get \$16,302,000
From Federal Works
Appropriation**

Eleven western states will receive approximately \$70,000,000 for highway construction under allocations in the pending Federal public works bill, according to a telegram received yesterday by Floyd O. Booe, secretary-manager of the Northern California Chapter, Associated General Contractors.

The allotments are made on the basis of population and on the apportionment of road building money used in the present Federal highway act. It is not required that the states match the Federal appropriations, however, according to preliminary advices.

Under the Federal-aid plan one-third of the total appropriation was allowed to states in proportion to their population, one-third in proportion to postal road mileage and one-quarter in proportion to state area.

Under the allotment system proposed in the new bill one-half of the total appropriation will be allotted in proportion to state population, one quarter in proportion to postal road mileage and one-quarter in proportion to state area.

The administration has requested Congress to enact legislation appropriating \$3,300,000,000 for public works, of which, of which \$400,000,000 will be for highways; \$200,000,000 for military equipment and the balance for public buildings, rebuilding of slums, conservation of natural resources and loans to railroads for equipment maintenance.

Appropriations for road construction in western states are tentatively estimated as follows:

Arizona	\$ 4,761,000
California	16,302,000
Colorado	6,480,000
Idaho	4,134,000
Montana	6,761,000
Nevada	4,018,000
New Mexico	5,250,000
Oregon	5,767,000
Utah	3,882,000
Washington	6,538,000
Wyoming	4,036,000

EDELMAN IS NEW CHIEF OF STATE ARCHITECT BOARD

Examiners Conclude Meeting Here; To Publish Pamphlet of Regulations

The State Board of Architectural Examiners planned today to cooperate with the state association of architects in issuing a pamphlet embodying architectural laws and regulations.

The pamphlet is necessary, the board decided at its annual meeting here this week, especially in view of recent changes in earthquake ordinances.

The board changed the date of semi-annual examinations from January and July to December and June, the forthcoming examination to be held June 12, 13, 14, and 15.

A. M. Edelman, Los Angeles, was elected president of the board, succeeding Albert J. Evers, and C. J. Ryland was elected secretary-treasurer, succeeding Harold C. Chambers. Other board members present were Frederick H. Meyer, Warren C. Perry, Louis J. Gill, Harold E. Burket, and G. Stanley Wilson, A. J. Evers and Harold C. Chambers. This was the initial attendance of Harold E. Burket and G. Stanley Wilson, who were recently appointed by Governor Rolph, succeeding John C. Austin and John Parkinson.

The board held its business session here May 16. The meeting extended to May 17, at which time R. J. Reed, president, Henry D. Dewell, vice-president, H. M. Jones secretary, and other representatives of the Bureau of Registration of Civil Engineers met with the architects to discuss mutual problems and formulate co-operative plans for the coming year.

Col. Carlos W. Huntington, head of the department of professional and vocational standards, addressed the combined boards, urging co-operation in the interests of both professions.

State Certificates were issued by the board to the following holders of Provisional Certificates:

Northern District

Donnell E. Jaekle, Carl Frederick Gromme, Theodore Gottfried Ruegg, Edward R. French, Jr., David Hull Horn, Lloyd Ashley Rasmussen, Arthur L. Herberger, Arthur Veryan Jory, Theodore C. Bernardi, Chas. N. Coseboom, W. Elbert Manhart, Mario Francis Corbett, Elmore G. Ernst, David B. Clark.

CITY CALLS BIDS ON PIPE LAYING

San Francisco Public Utilities Commission issued calls for bids yesterday on four contracts to lay cast iron pipe in various sections of the city. The contracts will aggregate \$55,000, it is estimated.

The jobs include installations on San Pablo, Yerba Buena and Plymouth from Portola drive to Wildwood avenue, estimated at \$11,710; Forest Hill subdivision, estimated \$9,900; Lake View Hill, Daly City and Crocker-Amazon districts, estimated, \$24,000; Judah street from 19th Ave. to 29th Ave. and Ocean Avenue from Faxon to Phelan, estimated, \$9,780.

Bids will be opened May 29 and June 2.

SHOPS EXEMPTED IN 30-HOUR LAW FOR CALIFORNIA

Amendments to the 30-hour week bill adopted by the California legislature have eliminated provisions for a five-day week and six-hour day which the measure originally contained, local contractors have been advised.

A further modification of the act requires the director of the department of industrial relations to investigate and report on the feasibility of the 30-hour week on any public works project prior to its adoption by the awarding body.

The law is an emergency act and will expire by limitation on July 1, 1935.

Construction interests pointed out that enforcement of a five-day week and six-hour day was impractical on many projects and would add materially to the cost of public work.

The law as adopted conforms to the Federal 30-hour week law. It excludes shops and all manufacturing operations and also does not interfere with any work in progress or contracts pending award.

PALO ALTO SELLS \$90,000 BOND BLOCK

Bonds with which to finance construction of the Palo Alto municipal sewage disposal system were sold at a premium by the city council.

Nine bids were received for the \$90,000 block of securities. The highest bid was that of Weeden & Company, San Francisco, offering a premium of \$1067. The interest rate is 4½ percent.

S. F. SCHOOL BOND ISSUE APPROVED BY SUPERVISORS

Voters Will Decide Proposal for Replacement of Buildings

The San Francisco Board of Supervisors yesterday voted unanimously to submit the proposed \$3,000,000 school construction bond issue to voters June 27.

President Philip Lee Bush of the board of education, in a detailed report to the supervisors, declared that the issue could not be set at a lower figure than \$3,000,000.

The bonds are designed to finance replacement of wooden "fire-trap" school buildings. The issue was urged on the supervisors by Mayor Rossi and board of education heads following the \$100,000 fire which destroyed the Fremont School several weeks ago.

If the issue is approved by voters, a building program involving the employment of 1500 men will begin within four months, according to D. P. Hardy, deputy superintendent of schools.

Bush recommended the erection of seven new fireproof buildings, and the modernizing and fireproofing of three existing buildings. This represents the minimum required for safety of pupils and teachers, he said.

The schools included in Bush's report are:

Glen Park, Bosworth street and Prompton avenue; Starr King, 25th and Utah streets; Twin Peaks, Corbett avenue near Iron avenue; Visitation, Schwerin street and Visitation avenue; Buena Vista, Bryant street between 18th and 19th; Douglas, 19th and Collingwood streets; Francis Scott Key, 42nd avenue between Irving and Judah; Irving Scott, Tennessee near 22nd street; Patrick Henry, Vermont street between 18th and 19th; Fremont, McAllister street between Baker and Broderick.

Engineers of the department of public works, under the direction of the board of education, have made a comprehensive survey of the schools.

Meanwhile, engineers are still engaged in a study of San Francisco schools with special reference to probable resistance to earthquake shock.

OPEN CEMENT PLANT

The Salt Lake City plant of the Utah Portland Cement Company will resume operation on a full 24-hour basis June 1, it is announced by Ashby Snow, president. The plant was closed November 1.

BOARD ORDERS GATE BRIDGE STEEL PAYMENT

Engineers Report Local Plants Not Available For Fabrication

Directors of the Golden Gate Bridge project yesterday authorized a \$400,400 progress payment to McClintic - Marshall Corporation, holder of major steel contracts. The payment had been held up by the directors on protest of labor groups and civic organizations, who claimed that the firm planned to fabricate steel in its Alameda plant rather than in San Francisco.

A committee of directors and engineers detailed to inspect the Alameda and San Francisco plants reported that there were no fabricating facilities at Alameda, and that the Union Iron Works plant of the Bethlehem Shipbuilding Corporation was not owned by McClintic-Marshall, but by Bethlehem Steel, "parent" corporation, and hence could not be used for the steel in question.

According to Supervisor Stanton chairman of the committee, the firm plans to fabricate all the steel in its Eastern shops, using the Alameda plant only for storage, with a crew of not more than 12 men.

The directors also approved the letting by Barrett & Hilp, anchorage contractors, of a subcontract to Joe Gerrick and Company, for steel I-bars and chains, in the amount of \$34,000 on the San Francisco side and \$27,000 on the Marin side.

Joseph Strauss, chief engineer of the project, was instructed to prepare a detailed map of the proposed re-routing of the Presidio approach road, for submission at the next meeting of the directors. The new road is to exit from the Presidio at the Palace of Fine Arts instead of at Marina Boulevard as originally planned. Protest of Marina Boulevard residents caused the change.

SWENSON LOW ON BRIDGE REBUILDING

SACRAMENTO, May 24—Carl N. Swenson, San Jose, submitted the low bid today to the State Highway Commission for reconstructing the Manteca bridge across the Stanislaus river. His bid was \$79,932. Neves and Harp, Santa Clara, were second low at \$81,422 and J. F. Knapp, Oakland, third at \$83,480.

The low bid for grading 1.3 miles of road in Los Angeles county between Fullerton and Pomona was that of C. O. Sparks Los Angeles, at \$43,218.

MEYER BROS. OFFER LOW BID ON FIELD WORK

Heafey - Moore First On Proposals For Laying Paved Aprons

Meyer Bros., San Francisco, at \$33,940 submitted the low bid on the general contract for erecting the Hamilton Field headquarters building. Bids were opened yesterday by Captain Howard Nurse, constructing quartermaster.

The building is to be of concrete and hollow tile, 177 feet in length with a two-story tower in the center.

Second and third low bids were submitted by George Petersen, San Leandro, at \$38,985, and Robt. E. McKee, Los Angeles, at \$39,350.

For laying paved aprons around the hangar and shop buildings at the Filed, the low bid was submitted by Heafey-Moore Co., Oakland, at \$53,375.

Second and third low bidders were W. E. Lyons, Oakland, at \$54,900, and V. Maggiora, Sausalito, at \$55,498.

Orders for range boilers in April totaled 43,422 units compared with 39,725 in March, manufacturers reported to the Department of Commerce.

SEVERIN BID ON S. F. BUILDING IS WITHDRAWN

Company Declines to Extend Time for Acceptance of Proposal

N. P. Severin Company, Chicago, low bidders on the general contract for the San Francisco Federal building, have withdrawn their bid, the company advised DAILY PACIFIC BUILDER in a communication received Saturday.

In view of changed business conditions the company decided to withdraw their offer shortly after expiration of the sixty-day period in which the government may accept the proposal, it was stated. Construction forces of the company are to be concentrated at St. Louis on the Federal court house building in that city which was awarded to Severin while the San Francisco contract was pending.

The Severin bid was \$2,548,000. Other low bids were those of Great Lake Construction Company, Chicago, \$2,597,952; Jacobsen Const. Co., Chicago, \$2,675,000; George Wagner, San Francisco, \$2,690,000.

The offices of Arthur Brown, Jr., architect for the building, said they had not received official advices yet as to the government's intention in respect to the bids.

TO READVERTISE JAIL EQUIPMENT CONTRACT

The department of public works yesterday rejected bids received May 5 for equipment for the new San Francisco county jail at Sneath Ranch.

Action was taken on the recommendation of City Architect Chas. Sawyer, who told Wm. H. Worden, Director of Public Works, that the bids received were "far too high," and recommended that the specifications be revised and the contract readvertised.

Worden and Sawyer recently visited San Quentin Prison to inspect types of cell-locking equipment in use there.

Contracts for all other units of the new jail have already been let.

SEEK \$5,000,000 IN WASHINGTON RENOVIZE WORK

Bankers Association Creates Credit Pool to Finance Home Owners

Expenditures reaching \$5,000,000 for labor and materials by local property owners during the next six months, is the goal set by committee of business and civic leaders now actively sponsoring the Renovize Washington Campaign, according to the Home Modernizing Committee, Bureau of Standards.

The first announcements of the drive include a contest for choosing the best plans for completely modernizing and equipping a dilapidated house over 60 years of age. Practically every building trade will be utilized in the public demonstration of home remodeling in connection with the day to day modernization of this old structure with local housing experts in attendance to answer home owners' questions.

In order to make provisions for immediate financing, leading financial institutions are represented on the local committee and the District Bankers' Association has made available a special credit pool to further facilitate the making of needed loans to home owners.

According to current reports received by the home modernizing committee of the Bureau of Standards, this local campaign represents another link in a national chain of similar organized property improvement drives conducted in cities throughout the country to stimulate local employment and business and stabilize home values.

Of these campaigns, the most outstanding to date, is the Renovize Philadelphia Campaign, of which the local organization estimates that \$14,000,000 of the total expenditure by property owners of \$21,000,000 will go directly to labor and furnish approximately one month's work for 135,000 men.

A responsible writer recently stated that "There are millions of residences in the United States of an average age between thirteen and fifteen years. Hundreds of thousands are much older in the East, some running to a century or two."

A community, by making carefully planned repairs in accordance with good designs, raises its real estate values, and advances the common wealth through such improvements. Chambers of commerce, leading newspapers, civic organizations and clubs have joined in campaigns to encourage citizens to improve their properties.

Of large importance is the fact that banks in many cities have announced their willingness to lend liberally to finance improvements.

The advisory home modernizing committee of the Bureau of Standards is composed of 17 housing experts, serving in a voluntary ca-

O. W. DEGEN TO END 38 YEARS IN ARMY CONSTRUCTION WORK

O. W. Degen, civil engineer and superintendent of construction at Fort Mason, retires on June 1 after 38 years' service with the War Department. Starting in 1892 at Fort Slocum, New York, he was employed temporarily until October, 1896, and has been on permanent civil service status since June 1897. All work of any consequence was done under his supervision at the following Army Posts, in consecutive order:

Fort Slocum, Fort Hamilton, N. Y.

Fort Trumbull, Connecticut.
Fort Terry, Fort Michie and Fort H. G. Wright, New York.

Fort Mansfield, Rhode Island.
Fort Thomas, Kentucky.
Fort Casey, Fort Worden and Fort Flagler, Washington.

Mr. Degen was transferred to San Francisco on September 16, 1905. Under his able supervision were built Fort Winfield Scott, Ft. Barry, Crissy Field and the Transport Dock at Fort Mason.

All the important structures since that time at the Presidio, Letterman General Hospital, Fort Mason, Fort Miley, Fort Baker, Fort Funston, Fort McDowell, Alcatraz Island and the arsenal at Ogden, Utah, were constructed under his guidance. In addition, plans have been made by him and work executed in nearly all Army Posts in the Ninth Corps Area.

Mr. Degen is considered one of the best authorities on army construction in the United States. He has worked up a reputation to the highest point of efficiency in the office of the constructing quartermaster at Fort Mason.

FIR ASSOCIATION SETS PAY SCHEDULE

A minimum wage schedule for all plants of the Douglas Fir Plywood Manufacturers' Association has been announced by members following a conference at Portland, Oregon. A trade association and a code of ethics also were agreed upon by the manufacturers.

More than 90 per cent of the Pacific Northwest plywood industry agreed to a minimum wage of 25 cents an hour effective June 1, and 30 cents an hour, effective July 1. As a result, most of the 3,000 plywood workers will be given a wage increase, the percentage depending on the base wage now being paid. On July 1 a second increase will affect all workers in the industry.

capacity, through the division of building and housing. Details of plans used in successful home modernizing and community improvement campaigns in various cities, including reports on expenditures, an operating manual outlining local campaign organization, and information of interest to individual home owners may be secured from the committee on request.

LABOR BUREAU REPORTS GAIN IN U. S. BUILDING

Greatest Improvement in Three Years for Thirty-Day Period, Says Report

Widespread gains in building construction in the United States were disclosed in a survey on April 15 by the labor department. Indicated expenditures during the month ended on that date were 21.2 per cent above those for the month ending March 15, the department reported. Figures were compiled from 778 cities.

The 1933 increase of April over March was greater than the increases shown in comparing these months in any of the previous three years," the department said. "Comparing April, 1933 with March 1933, there was an increase of 29.4 per cent in the number and an increase of 10.3 per cent in the estimated cost of new residential buildings. New non-residential buildings increased 44.7 per cent in number and 43.4 per cent in indicated expenditures."

Comparing 352 identical cities the report said there was a decrease of 41.2 per cent in the number of new residential buildings and a decrease of 32.2 per cent in the number of non-residential construction during the year.

The various agencies of the federal government awarded contracts during April for buildings to cost \$4,720,642, an increase of nearly \$1,500,000 as compared with March but more than \$7,000,000 less than in April, 1932.

ALAMEDA, Alameda Co., Calif.—Stuart Iron Works, Cincinnati, Ohio, submitted low bid and recommended for award by U. S. Bureau of Public Roads, San Francisco, at \$3808 to furnish and install 2050 lin. ft. chain link boundary fence at Government Island, Alameda. Bids on this portion of the work were taken on (a) furnishing and installing fencing, and (b) installing only.

Complete bids follow:
 Stuart Iron Works (a) \$3808 (b) \$.....
 Standard Fence Co., Oakland, (a) \$3925 (b) \$1138.
 Barnes Bros. Iron Works, Oakland, (a) \$4090 (b) \$790.
 Anchor Post Fence Co., San Francisco, (a) \$4200 (b) \$1242.
 Michel & Pfeffer, San Francisco, (a) \$4500 (b) \$1250.
 Engineer's estimate, (a) \$4120 (b) \$900.

Contract Re-Awarded.
TOWER&PENT HOUSE Cost, \$11,000
BERKELEY, Alameda Co., Cal. Sixth and Carlton Streets.
 Steel frame and galvanized iron pent house & steel soap blowing tower. Owner—Colgate Palmolive Peet Co., Sixth and Carlton Sts., Berkeley. Plans by Engineering Dept. of Owner. Contractor—Moore Drydock Co., Foot of Adeline St., Oakland.

Petaluma, Sonoma Co., Cal.—City of Petaluma Park Commission has rejected all bids for constructing tennis courts in Wickersham Park in Petaluma. On bid opening lowest bid was submitted by the Petaluma Construction Company, at \$1340.35 for asphaltic surfacing and \$1430.75 for concrete surfacing. New bids will be asked at a later date.

SAN FRANCISCO—Until May 31, bids will be received by the Signal Corps Officer, Presidio, for the erection of a 105-foot antennae at the Presidio, San Francisco.

SEATTLE, Wash.—The Converse Co., Inc., Seattle, at \$20,950 awarded contract by City of Seattle Port Commission for sprinkler alarm and control systems for the Bell Street Terminal.

SALT LAKE CITY, Utah.—Hadden Company, Alhambra, at \$5,317 submitted low bid to Supervising Superintendent of Construction, Veterans' Administration, Palo Alto, for furnishing and installing lawn sprinkling system at the Veterans' Administration, Salt Lake City. Following bids received:

Hadden Co., Alhambra.....	\$5,317
Muna-Stralawn, Detroit.....	5,500
Peterson Bros., Inglewood.....	5,931
Brooks of Calif., San Francisco	6,195
P. L. Burr, San Francisco.....	6,932
Christensen and Gardner, Salt Lake City	6,947
A. H. Walsh, Salt Lake City.....	7,250
Calif. Lawn Sprinkler Co., Los Angeles	7,435
Carl Pieper, Salt Lake City.....	7,605
K. & K. Pllg. & Heat. Co., Salt Lake City	8,650

Bids held under advisement.

SAN FRANCISCO—All bids rejected and project temporarily abandoned by U. S. Coast Guard, Custom House, San Francisco, to construct extension to launchway at Pt. Bonita. Low bid submitted by M. B. McGowan 74 New Montgomery St., at \$9,279. Complete bids published April 15.

MT. SHASTA, Siskiyou Co., Cal.—M. G. Still, Mt. Shasta, at \$1200 has been awarded contract by Superintendent U. S. Lighthouses for the construction of a frame tank shed for waterproofing tanks at Mt. Shasta.

Planned.
MOTORCYCLE TRACK Cost, \$—
SAN FRANCISCO. Site not selected. Motorcycle speedway (1/5 mile track, 30 ft. wide).
 Owner—Group of San Francisco business men (Wm. Bennett) 16 Laguna Street.
 Architect—Not Given.

Three sites are under consideration, one in the Potrero District, one in the Mission District and one in the old Ocean Shore cutoff.

SAN FRANCISCO—Trask & Squires, 390 Natoma St., at \$239 submitted low bid to Purchasing Department, State Harbor Board, for toilet partitions for Pier No. 35. Following bids received:
 Trask & Squires.....\$239
 Dwan & Company..... 286
 Forrester Cornice Works..... 287
 Bids held under advisement.

SAN RAFAEL. Marin Co., Cal.—City Improvement Company, 2626 Harrison St., Oakland, at \$1434 awarded contract by Ninth Corps Area, Presidio, San Francisco, for the installation of radio towers and buried counterpoise at Hamilton Field (Marin Meadows) Bombing Base, San Rafael. Following bids received:
 City Improvement Co., Oakland, \$1434
 Barnes Bros. Iron Wks., Oakland 1486
 E. Anderson, San Francisco, 1750
 Aristo Painting Co., S. F., 1868

ALAMEDA. Alameda Co., Cal.—E. T. Lesure, 87 Ross Circle, Oakland, at \$1474 submitted low bid to and recommended for award of contract by U. S. Bureau of Public Roads, San Francisco, to construct a part of Unit 9, Ornamental Entrance Gateway on the U. S. 15-acre tract, Government Island, Alameda. Complete bids follows:

Barnes Bros. Iron Works, Oakland	1432
C. Frauneder, Oakland	1965
Anchor Post Fence Co., S. F.	2080
Michel & Pfeffer, S. F.	2135
Star Orn. Iron Works, S. F.	2308
Standard Fence Co., Oakland	2400
Calif. Artistic Metal & Wire Co., San Francisco	2694
Engineer's estimate	3000

SAN DIEGO. Cal.—Garrett Plumbing Co., 3333 Pacific Ave., San Pedro, submitted low bids to the 11th Naval District at San Diego on May 19 for improvements of steam condensate return lines at the Naval Operating Base, San Diego; Spec. No. 7272. Recommendation was made that the contract be awarded the low bidder on proposal No. 2 (copper tubing) at \$8,635. The work will include the provision of materials for and the construction of a new steam condensate return system consisting in general of a combined length of approximately 3500 feet to replace a present cast iron condensate return pipe; (b) new manholes, anchors, expansion joints and miscellaneous work as required for the completion of the system. The bids follow:

Garrett Plumbing Co., (1) wrought iron pipe, \$9235; (2) copper tubing, \$8635.
J. A. Fazio (1) \$10,052; (2) \$9522.
M. H. Golden, (1) \$10,331; (2) \$9527.
A. O. Reed & Co., (1) \$10,339; (2) \$9217.
Harry Barkeley and L. M. Uhler (1) \$10,395; (2) \$9925.
H. H. Peterson, (1) \$10,471; (2) \$9,509.50.
Lohman Bros., (1) \$10,800; (2) \$9846.
J. B. Howell, (1) \$10,900; (2) \$9400.
Associated Piping & Engr. Co., (1) \$11,591; (2) \$11,991.

May 24, 1933

Plans Being Completed.
REPAIRS Cost, \$15,000
SAN FRANCISCO. Golden Gate Park Repairs to conservatory (repair floors, etc.)
 Owner—City and County of San Francisco (Park Commission), Golden Gate Park.
 Architect—Fred H. Meyer, 525 Market St., San Francisco.
 Bids will be asked in about two weeks.

OAKLAND. Cal.—Bids are being received by the Concrete Products Sales Co., 1522 Latham Square Bldg., Oakland, for seven wooden barges, approximately 24x110 with an approximate capacity of 600 tons. Alternate bids will be received for plain barges and for barges equipped with conveying machinery and hoppers for the storage of sand and gravel, etc. Specifications available after May 24 from the above office.

Lumber Bids Being Taken.
DOG TRACK Cost, \$150,000
BAYSHORE. San Mateo Co., Cal. Dog racing track.
 Owner—Bayshore Kennel Club (Thos. Keene, J. Foppiano, et al), Belmont.
 Plans by Thomas Keene, Belmont. Mgr. of Constr.—Thomas Keene.
 Bids are being received by Mr. Keene. Track will be completed in about 50 days.

20—MISC. SUPPLIES AND MATERIALS

LOS ANGELES. Cal.—John A. Roebing's Sons Co. awarded contract by the Metropolitan Water District May 19, at \$30,450 to furnish 50,000 ft. No. 00 metallic armored, 3-conductor, rubber insulated cable. The bids were opened May 8.

C. camps at Spring Flat and Happy Camp and a contract to the Fruit Growers' Supply Company to furnish lumber for the construction of the Hilt Camp.

BOULDER CANYON. Nev.—Bids for furnishing 400,000 bbls. Portland cement for use at Boulder Dam. Specifications No. 591-D, were opened by the U. S. Bureau of Reclamation Denver, Colo., May 17. Bids were taken as follows:

(1) Low heat cement;
(2) Intermediate;
(3) Regular cement.
The bids were;
Joint bid:
Riverside Cement Co., f.o.b. Crestmore.
California Portland Cement Co., f.o.b., Colton.
Southwestern Portland Cement Co., f.o.b., Victorville.
Monolith Portland Cement Co., f.o.b. Monolith, per bbl. \$1.55; \$1.42; \$1.30.
Calaveras Cement Co., f.o.b., Kentucky House, Calif., \$1.65; \$1.65; \$1.60.
*Union Portland Cement Co., f.o.b. Devils Slide, Utah and Salt Lake City, Utah, \$1.34; \$1.34; \$1.25.
*Offers 50,000 barrels under items 1 and 2 and 100,000 barrels under item 3. No award has been made at this

SAN FRANCISCO.—Columbia Steel Co., Russ Bldg., at \$3344 awarded contract by U. S. Forest Service, Ferry Bldg., to furnish:
 (1) eight 1½-in. galv. steel bridge strands, minimum breaking strength 160,000 pounds, equipped with bridge socket, \$972.20 f.o.b. San Francisco, \$1024 del.
 (2) eight 1½-in. minimum breaking strength 270,000 lbs., \$2220.80 f.o.b. San Francisco, \$2320 del.
 Other bids follow:
 John A. Roebing's Sons Co., \$3440.00
 Hazard Wire Rope Co., 3678.40
 Mallory Logging Equip., Portland 4851.36

BERKELEY. Alameda Co., Calif.—Following bids received by the City Council to furnish sand delivered as ordered to the Corporation Yard, Allston Way and West Street, Berkeley, during the fiscal year commencing July 1, 1933.
 (1) fine sand, per ton;
 (2) Medium, 1-M;
 (3) Medium, 4-M;
 (4) Medium, M.T.
 Chas. S. Hughes, (1) \$1.30; (2) \$1.75 (3) \$1.75; (4) \$1.35.
 Contra Costa Building Materials Co. (1) \$1.30; (2) \$1.75; (3) \$1.75; (4) \$1.35.

Transit Concrete Co., Ltd., (2) \$1.75 (3) \$1.75; (4) \$1.35.
 T. G. Foster, (3) \$1.60; (4) \$1.60.
 California Rock & Gravel Co., (4) \$1.25.
 Bids held under advisement.

SAN FRANCISCO.—Following bids received by U. S. Bureau of Public Roads to furnish fuel oil, f.o.b. manufacturers' plant:
 (1) 90,000 gals. 60-70 fuel oil;

(2) 66,000 gals. 60-70 fuel oil;
 (3) 25,000 gals. 50-60 fuel oil.
 Bids submitted by:
 (A) Union Oil Co. (f.o.b. Bakersfield);
 (B) Gilmore Oil Co. (do);
 (C) Shell Oil Co. (do);
 (D) Standard Oil Co. (do);
 (E) Associated Oil Co. (f.o.b. Avon).

Unit bids follow:

	(1)	(2)	(3)
(A)	\$3.70	\$3.70	\$6.60
(B)	.70	.70	.60
(C)	.70	.70	.65
(D)	.70	.70	.65
(E)	.99	.99	.55*

*F.o.b. Oil City.
 Bids held under advisement.
BERKELEY. Cal.—Until June 6, 10 A. M., bids will be received by Florence E. Turner, City Clerk, for:
 (1) 1300 bbls. fuel oil;
 (2) 100 tons asphalt.

BERKELEY. Alameda Co., Calif.—Identical bids were submitted by the following at \$2.45 per cloth sack for furnishing cement delivered as ordered to the Corporation Yard, Allston Way and West Street, Berkeley, during the fiscal year commencing July 1, 1933:
 Rhodes & Jamieson, Oakland.
 Chas. S. Hughes, Oakland.
 Contra Costa Building Materials Co., Oakland.
 Henry Cowell Lime and Cement Co. San Francisco.
 Transit Concrete Co., Oakland, bid \$2.45 per bbl. and \$2.25 for paper sack.
 Bids held under advisement.

OAKLAND. Cal.—Until May 29, 5 P. M., bids will be received by Oakland Board of Park Directors, Walter S. Chandler, Secretary, to furnish:
 (1) 500 yds. loam;
 (2) 5000 yds. fill;
 (3) 1000 yds. manure.
 To be delivered within a radius of 5 mi. of Lake Merritt during the fiscal year ending June 30, 1934. Certified check 10% required with bid.

WESTERN YARDS—Bids for furnishing lubricating oil for the Navy Department, Western Yards, Schedule No. 9935, were opened by the Bureau of Supplies and Accounts, Navy Department, May 5. The bids were:
 Richfield Oil Co., Los Angeles, \$10,875, omitting item 24b.
 Tide Water Oil Sales Corp., New York, \$10,810, omitting item 24b.

PLACERVILLE. El Dorado Co., Cal.—Until June 10, bids will be received by Forest Supervisor, Placerville, for all the live timber marked for cutting and all merchantable dead timber on about 120 acres, approx. 2,200,000 ft. b.m., ponderosa pine, sugar pine, white fir and incense cedar timber. No bid of less than \$2 per M ft. for ponderosa pine, \$2.75 per M. ft. for sugar pine, \$.50 per M ft. for white fir, \$.50 per M ft. for incense cedar will be considered; \$350 deposit required with bid. Further specifications obtainable from above.
SAN FRANCISCO.—Until May 27, 10 A. M., under Circular No. 928-33-246 Misc., bids will be received by Quartermaster Supply Officer, General Depot, Fort Mason, to furnish paint varnish, etc. Specifications obtainable from above office.

21—BRIDGES

SAN FRANCISCO — Joe Gerrick & Co., 74 New Montgomery St., awarded sub-contract by Barrett & Hilp to furnish steel I-bars and chains in connection with the anchorages contract for the Golden Gate Bridge. Amount of contract was \$34,000 on the San Francisco side and \$27,000 on the Marin side.

LOS ANGELES, Calif.—The state railroad commission has rendered its decision in the Tunnel Station Bridge case, directing that the City of Los Angeles pay the entire cost of the proposed construction, estimated by R. W. Stewart, Chief Engineer of Bridges, at \$35,000. The proposed structure will be built on San Fernando Road at Tunnel Station, and will be a reinforced concrete girder type bridge, 300 ft. in length with a 40-ft. roadway and one 5-ft. walk. The work will consist of building two wedge-shaped structures to widen the present structure and to realign the roadway. The work will involve: 116,420 lbs. reinf. steel; 843 cu. yds. Class F concrete; 368 ft. concrete hand rail; 250 cu. yds. grading; 59 ft. special curb; 590 sq. ft. walk; 390 tons asphalt concrete paving; 610 sq. ft. D. G. roadway; 185 ft. bridge curbs; 60 ft. heavy curbs; 57 ft. curb armor; 82 sq. ft. gutter; 28 highway markers; 15 reinf. concrete protection posts; 2 bullseye reflectors; 5 concrete light standards; 300 ft. 2-in. electric conduit; remodel existing bridge.

VANCOUVER, B. C.—Until May 31, 12 M., bids will be received by Monsarrat & Pratley, 909 Drummond Bldg. Montreal, Engineers, to construct the superstructure of the Second Narrows bridge, involving the fabrication and erection of a 282-ft. through truss and span and towers, including all equipment. Specifications obtainable necessary mechanical and electrical from above on deposit of \$100.

EUREKA, Humboldt Co., Cal.—Until June 13, 2 P. M., bids will be received by Fred M. Kay, County Clerk, to clean and paint the Redwood Creek bridge at Bair's and the Trinity River bridge near Willow Creek in Road District No. 5. Specifications obtainable from Frank Kelly, County Surveyor. Certified check 5% required with bid.

PIERCE AND LEWIS CO., Wash.—Until June 7, 10 A. M., bids will be received by W. H. Lynch, District Engineer, U. S. Bureau of Public Roads, 316 New Post Office Bldg., Portland, to construct the Nisqually Glacier Bridge Reconstruction, West Entrance Paradise Inn Road, Pro. E-1A, Mt. Rainier National Park, involving:

- 1,500 cu. yds. struc. excav.;
- 30 cu. yds. class A concrete;
- 210 cu. yds. class B do;
- 420 cu. yds. class D do;
- 59,000 lbs. reing. steel;
- 80 cu. yds. masonry;
- 525 sq. yds. waterproofing;
- remove existing bridge and maintain traffic, lump sum;
- plumbing, lump sum;
- and other items.

Specifications obtainable from above office on deposit of \$10, check payable to Federal Reserve Bank, Portland.

22—DREDGING, HARBOR WORKS, EXCAVATION

PORTLAND, Ore.—Until June 2, 3 P. M., under Bid No. 33-353, bids will be received by U. S. Engineer Office, 321 Customhouse, Portland, to drydock, clean and paint and repair U. S. Dredge "Clatsop." Specifications obtainable from above office.

MARTINEZ, Contra Costa Co., Cal.—Associated Oil Co. applies to War Dept. for permit to dredge channel in Pacheco Creek 7-ft. deep at low water and 10-ft. wide for the purpose of procuring adequate water supply for condensing purposes at the Avon refinery. The proposed dredging would extend 4000 ft. south from the Southern Pacific drawbridge.

PORTLAND, Oregon — Guthrie McDougall Co., Portland, at \$24,150 awarded contract by U. S. Engineer Office to restore The Dalles-Celilo Canal to project dimensions.

STOCKTON, San Joaquin Co., Cal.—C. A. Lounritzen, Antioch, at \$455 awarded contract by U. S. Engineer Office, Sacramento, to remove a sunken barge from the east bank of the San Joaquin river just upstream from the Borden Highway Bridge, and about 1 mi. west of Stockton.

23—IRRIGATION PROJ.

REDLANDS, San Bernardino Co., Cal.—Horace Hinckley, engineer, has completed his preliminary plans for the extension of the Santa Ana river conservation grounds about one mile east of Orange St. The work will involve a network of ditches and ca-

nals, 2 ft. deep and 10 ft. to 15 ft. wide. The plans will be forwarded to the government for approval.

OREGON STATE.—Oregon Irrigation and Drainage districts will seek \$5,000,000 loan from Reconstruction Finance Corp., \$4,000,000 of which will be used to refinance local irrigation projects, the remainder to be used for the drainage districts. The Oregon state engineer will present data to the R. F. C.

24—ST. LIGHT. SYSTEMS

SAN DIEGO, Cal.—Moore Electric Co., 321 W. Third St., Los Angeles, submitted low bid to the Public Works Department, Eleventh Naval District, San Diego, May 16, at \$25,284 for improvements to the electrical system, West Beach Hangars, Naval Operating Base (Air Station,) San Diego; Specification No. 7223. The work consists of the following:

- (a) the relocation of existing flood-light, transformers, controller, etc.;
- (b) the removal of certain lighting panels and cabinets and cables;
- (c) the furnishing and installing of eight double and three single manholes, of conduits between new and existing manholes and to new floodlight location, of 2300-volt and 600-volt light and power cables, telephone cables and fire alarm and contractor cables, of distributing transformers and oil fuse cutouts and fuse boxes and miscellaneous equipment;
- (d) the furnishing and installing in five existing hangars, power and lighting panels and cabinets, main switches, power outlets and conduit and wiring.

The bids were:

	(a)	(b)	(c)	(d)
Moore Elec...	\$21,296	\$5196.00	\$896	\$896
J. E. Peterson	22,130	4965.87	769	770
Capital Elec.	22,489	5182.00	1384	955
Miracle Co.....	22,908	4639.00	750	600
Beacon Elec.	22,914	5436.00	1090	985
H. O. Bauerle	24,738	5100.00	990	650

25—MACHINERY AND EQUIPMENT

OAKLAND, Cal.—Until June 1, 9 P. M., bids will be received by W. W. Chappell, City Clerk, for eight automobiles:

- (1) 7 6- or 8-cylinder sedans;
 - (2) 1 6- or 8-cylinder coupe.
- Cost not to exceed \$725 each.

OAKLAND, Cal.—Until June 1, 9 P. M., bids will be received by W. W. Chappell, City Clerk, for four gasoline operated cranes. Specifications as follows:

- Type A: 12 ft. radius, 5800 lbs.; 25 ft. radius, 1300 lbs.
 - Type B: 12 ft. radius, 8000 lbs.; 25 ft. radius, 3000 lbs.
- Normal working weight not to exceed 22,000 lbs.

OAKLAND, Cal.—Until June 1, 9 P. M., bids will be received by W. W. Chappell, city clerk, for three motor trucks with steel dump bodies.

LOS ANGELES, Cal.—General Elec. Co. awarded contract by Metropolitan Water District May 19, at \$27,296 (based on alternate bid), to furnish ventilating equipment for the Coachella Tunnels under Specifications No. 27. The bids were opened May 2.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

SAN FRANCISCO.—San Jose Tractor & Equipment Co. at \$997.50 awarded contract to Purchasing Officer, 12th Naval District, 100 Harrison St., to furnish a scraper under Bid No. 4200.

DENVER, Colo.—Until June 13, 2 P. M., under Spec. No. 593-D, bids will be received by Chief Engineer, U. S. Bureau of Reclamation, Denver, to furnish:

- (1) bronze guides and guide anchor rods;
- (2) upper bulkhead gate stop plates;
- (3) trash rack beam and seat plates with anchor rods;
- (4) 1 only structural steel maintenance platform;
- (5) stem guide and gate hanger anchors.

OAKLAND, Cal.—Smith Rice Co., Pier 14, San Francisco, at \$1595 were awarded contract by City of Oakland Port Commission to move garbage loaders and miscellaneous equipment from the foot of 14th St. Outer Harbor Terminal to the new wharf, foot of Adeline St., Oakland. Only other bid submitted by Haviside Co. at \$1,675.

LOS ANGELES, Cal.—Until 11 A. M., June 2, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish electric meters under Specifications No 3092 for the department of water and power. The items are:

- (1) 10 wattmeters, synchronous drive, portable type, Easterline utility; model A.W.;
- (2) 2 wattmeters, spring wound 8-day clock, portable type, Easterline utility; model A.W.;
- (3) 1 wattmeter, portable graphic, Easterline, type L.R. spring wound 8-day clock.

PASADENA, Cal.—All bids for furnishing two duplicate conveyors for the incinerator at the municipal light plant rejected by city directors May 23. B. F. DeLanty, superintendent, recommended that the contract be awarded to the Jeffrey Mfg. Co. which was not the low bidder. The board authorized the superintendent to revise the specifications. The bids were opened May 15.

All bids for arch settings for Stirling boilers, opened May 20, were also rejected and the superintendent authorized to revise the specifications. The engineer's recommendation was that the contract be awarded to the Calmo Engr. Co.

28—FIRE EQUIPMENT

OAKLAND, Cal.—Until June 1, 9 P. M., bids will be received by W. W. Chappell, City Clerk, for 10,000 feet of fire hose of 2- and 3/4-in. in 50-ft. lengths.

OAKLAND, Cal.—Until June 1, 9 P. M., bids will be received by W. W. Chappell, City Clerk, for chemical fire extinguisher. Will have two 60-gallon tanks and one 40-gallon tank.

LIVERMORE, Alameda Co., Cal.—City council authorizes Fire Chief L. E. Wright to take bids for 400-ft. fire hose. Furnish specifications with bid.

30—RESERVOIRS & DAMS

SAN DIEGO, Calif.—D. C. Henny, hydraulic engineer, Portland, Oregon, has been retained by the San Diego city council to make a survey of the El Capitan Dam situation. He will be paid \$100 per day and expenses. His investigation will cover the cost of the day and certain angles of the dispute between the contractors and

H. N. Savage, city hydraulic engineer. Mr. Savage has indicated that he will not ask for a renewal of his contract which expires in July.

D. C. Henny is a consulting engineer on the Boulder Dam and a member of the engineering advisory board of the Reconstruction Finance Corp.

LOS ANGELES, Cal.—E. C. Eaton, County Flood Control Engineer, has completed his estimates of quantities for the construction of the Eaton Wash Debris Dam and appurtenant structures. The plans, which have been approved by the state engineer, call for a rolled earth fill dam, 1545 ft. in length, 37 ft. in height, 40.5 ft. from foundations to spillway crest. The upstream side will be faced with concrete.

The cost is estimated at \$441,376.

Bids will be called probably within the next three weeks. Bids will be taken on three proposals, viz: (1) All work complete, (2) Earth work, and (3) Concrete and miscellaneous work. The quantities follow:

PROPOSAL NO. 1

All Work Complete

- (1) 10.5 acres clearing and grubbing damsite;
- (2) 40,000 cu. yds. stripping damsite;
- (3) 9.0 acres preparing foundation for dam;
- (4) 164,000 cu. yds. excav. (struc.);
- (5) 3100 cu. yds. excav. (cut-off trenches);
- (6) 167,000 cu. yds. excavation borrow pit No. 1;
- (7) 196,000 cu. yds. excav. borrow pit No. 2;
- (8) 147,000 cu. yds. embankment, impressions (Class A);
- (9) 265,000 cu. yds. embankment, impressions, (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);
- (12) 930 cu. yds. concrete cut-off walls (Class A);
- (13) 3540 cu. yds. concr. floor slabs (Class B);
- (14) 250,000 sq. ft. gunite facing slab; Alt. to 14 (14-A) 3980 cu. yds. concrete facing slab (Class C);
- (15) 2640 cu. yds. concrete retaining wall (Class D);
- (16) 2125 cu. yds. concr. outlet conduit (Class E);
- (17) 1450 cu. yds. concr. spillway ogee (Class E);
- (18) 1,250,000 lbs. placing relnf. steel;
- (19) 200,000 lbs. placing gates, holsts, stems, etc.;
- (20) 44,000 lbs. placing trash racks;
- (21) 8000 lbs. placing miscellaneous metal;
- (22) 1000 lbs. placing metal handrail;
- (23) 200 lin. ft. placing tile drains;
- (24) 100 lin. ft. drilling dowel holes.

PROPOSAL NO. 2

Earthwork Only

- (1) 10.5 acres clearing and grubbing;
- (2) 40,000 cu. yds. stripping damsite;
- (3) 9.0 acres preparig foundation for dam;
- (4) 156,000 cu. yds. excav. for struc. (Class A);
- (5) 3100 cu. yds. excav. (cut-off trenches) (Class B);
- (6) 167,000 cu. yds. excavation borrow pit No. 1 (Class C);
- (7) 196 000 cu. yds. excavation borrow pit No. 2, (Class D);
- (8) 147,000 cu. yds. embankment impervious, (Class A);
- (9) 265,000 cu. yds. embankment, impervious, (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill untamped, (Class B);

PROPOSAL NO. 3

Concrete and Miscellaneous Work

- (4) 8000 cu. yds. excavation for structures, (Class A);

- (4-A) 5000 cu. yds. excavation final trim upstream (Class E);
- (12) 930 cu. yds. concrete cutoff walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs, (Class B);
- (14) 250,000 sq. ft. gunite facing slab; Alt. to 14 (14-A) 3980 cu. yds. concrete facing slab (Class C);
- (15) 2640 cu. yds. concrete retaining walls, etc., (Class D);
- (16) 2125 cu. yds. concrete outlet conduit (Class E);
- (17) 1450 cu. yds. concrete spillway, ogee, etc., (Class F);
- (18) 1,250,000 lbs. placing reinforcing steel;
- (19) 200,000 lbs. placing gates, holsts, stems, etc.;
- (20) 44,000 lbs. placing trash racks;
- (21) 8000 lbs. placing miscellaneous metal;
- (22) 1000 lbs. placing hand rail;
- (23) 200 lin. ft. placing tile drains;
- (24) 100 lin. ft. drilling dowel holes.

ALTADENA, Los Angeles Co., Cal.—Until June 1 bids will be received by the Las Flores Water Co., at the office of the engineers, Allin Bros., 303 Kendall Bldg., Pasadena, for constructing a circular-shaped reinforced concrete reservoir, 80 ft. in diameter, 13 1/2 ft. in depth, at 560 Poppy St., Altadena. The reservoir will have a wooden roof.

Contractors who have procured plans and who have been invited to submit figures are:

Theisen Co., 525 Stonehurst Drive, Altadena.

J. L. Ackland, 818 S Kingsley Drive, Los Angeles.

V. R. Bush, 826 S Ivy Ave., Monrovia.

H. G. Klusman, Cucamonga.

Wm. T. Loesch & Son, 119 E Union Ave., Pasadena.

Mathews & Murray, 136 Bonnie Ave. Pasadena.

J. B. McIntosh, 1842 Gardena St., Glendale.

Ryan A. Grut, 1007 S Grand Ave., Los Angeles.

Robt. E. Millsap, 1012 Pacific National Bldg., Los Angeles.

J. K. Doolan, Security Bldg., Pasadena.

Anton Johnson Co., 921 Monterey Road, South Pasadena.

J. & B. Const. Co., 5572 Valley Blvd. Los Angeles.

E. A. Nelson, 380 N Madison Ave., Pasadena.

H. A. Teget, 133 Princeton Street, Ontario.

L. A. Cline, 1013 N Sycamore Ave., Los Angeles.

Wm. P. Neil Co., 8414 Loma Vista Ave., Los Angeles.

31—PIPE LINES & WELLS

MOUNTAIN VIEW, Santa Clara Co., Cal.—Pomona Pump Co. at \$949.01 submitted low bid to city council to furnish and install one deep well turbine pumping plant. Complete bids follow:

Pomona Pump Co.....	\$ 949.01
John Bean Mfg. Co.....	1048.00
Fairbanks-Morse Pump Co.....	1121.75
Scott Mach. Co. (Johnston).....	1387.00
Layne-Bowler Pump Co.....	1464.00

Bids held under advisement for one week. 21

SAN FRANCISCO.—Until June 6, 3 P. M., bids will be received by Public Utilities Commission, Felton Taylor, secretary, Room 225, City Hall, to lay 30-in. steel plate pipe lines for San Francisco Water Dept., involving:

- (1) 3060 ft. excavation and backfill of trench;
- (2) 100 cu. yds. additional do;
- (3) 650 sq. ft. add. pave. remove and replace, bitumen on concrete;

- (4) 140 lin. ft. add. field welding, joints;
- (5) 132 tons install pipe and fittings;
- (6) 11,780 sq. ft. repave, bitumen on concrete;
- (7) 3060 lin. ft. fabricate pipe from 3/16-in. steel plate.

Estimated cost, \$22,400. Specifications obtainable from S. F. Water Department, Room 605, 425 Mason St. Certified check 10% payable to City and County of San Francisco required with bid.

32—SEWERS & SEWAGE DISPOSAL PLANTS

BURLINGAME, San Mateo Co., Cal.—City council tentatively approves plan for constructing sewers and drainage of flood waters from Burlingame Hills to California Drive; estimated cost, \$14,000, of which \$8000, to be appropriated by the city, would be used for materials and \$6000 from unemployment relief funds, would be used for labor.

Materials will be purchased by F. A. Bloom, City Purchasing Agent, as follows:

- 500 cu. yds. reinf. concrete;
- 15,000 bricks;
- 10 tons steel;
- 800 ft. 20-in. pipe (vit. or conc.);
- 1100 ft. 6-in. vit. sewer pipe;
- 180 ft. 48-in. corr. iron pipe;
- fittings for 8 catchbasins;
- 4 manholes.

SEATTLE, Wash.—The King Co. commissioners have appointed a committee to prepare plans for a sewage disposal plant to free Lake Washington from pollution. The \$10,000,000 public works bond issue is now before the state supreme court for approval. The commissioners expect to get R. F. C. funds to aid the project. The members of the committee include: Thomas D. Hunt, county engineer; E. French Case, Sanitation Engineer; Dr. C. L. Dixon, county health officer.

PALO ALTO, Santa Clara Co., Cal.—Weeden & Co., 315 Montgomery St., San Francisco, purchased the \$90,000 sewer bonds at 4 1/2% interest, \$1067 premium, to construct proposed sewage system. Plans are being prepared and bids will be called probably within a month.

LOS ANGELES, Cal.—E. C. Eaton, county flood control engineer, has submitted completed plans and specifications to board of supervisors for approval to construct gunite and concrete lined conduit on Verdugo Wash from Canada Blvd., 2625 ft. upstream. The work involves:

- 8,100 cu. yds. excavation;
- 5,100 cu. yds. backfill;
- 230 cu. yds. reinforced concrete;
- 110,000 sq. ft. gunite floor slab;
- 65,000 sq. ft. gunite facing slab;
- 160 lin. ft. fencing on channel walls;
- 25 lin. ft. drilling dowel holes;

A call for bids will probably be issued for next week.

LOS ANGELES, Cal.—Until 2 P. M., June 5, bids will be received by County Supervisors to construct gunite and concrete lined conduit on Verdugo Wash from Canada Blvd., 2625 ft. upstream. The work involves

- 8,100 cu. yds. excavation;
- 5,100 cu. yds. backfill;
- 230 cu. yds. reinforced concrete;
- 110,000 sq. ft. gunite facing slab;
- 65,000 sq. ft. gunite facing slab;
- 160 lin. ft. fencing on channel walls
- 25 in. ft. drilling dowel holes.

E. C. Eaton, 202 N. Broadway, County Flood Control Engineer. Mame B. Beatty, 501 Hall of Records, Clerk of the Board.

LOS ANGELES, Calif.—Until 10 A. M., June 7, bids will be received by board of public works to construct sewers in Colfax Ave. bet. Magnolia Ave. and 1320 ft. south of Moorpark Ave., under the 1911 act. The work involves:

- 207 ft. 6-in. house connection sewer, including 39 6-in. 1/4 bends;
- 23 ft. 8-in. extra strength pipe;
- 324.94 ft. 12-in. stand. strength pipe, including 11 12x6-in. wyes;
- 1838.75 ft. 12-in. extra strength pipe, including 74 12x6-in. wyes;
- 4163.98 ft. 15-in. extra strength pipe, including 130 15x6-in. wyes;
- 220.27 ft. 15-in. stand. strength pipe, including 14 15x6-in. wyes;
- 8 manholes "B";
- 7 junction chambers "F";
- 2 drop manholes "S";
- 1 junction chamber "G";
- 1 trap manhole;
- 3 structures to be remodeled;
- 38 ft. tunnel for 15-in. pipe.

Average depth of structures, 12.3 ft.

Bids will be taken as follows:

- Type I—6570.94 ft. vit. sewer;
- 207 ft. vit. house sewers;
- Type II—20.27 ft. vit. sewers;
- 6550.67 ft. centrif. conc. or cement pipe;
- 207 ft. concrete house sewers.

OAKLAND, Cal.—As previously reported, until June 13, 10:30 A. M., bids will be received by Geo. E. Gross, County Clerk, to construct a reinforced concrete box culvert on the Valle Vista Road, Eden Township, involving:

- (1) 260 cu. yds. struc. excav.;
- (2) 275 cu. yds. concrete in struc.;
- (3) 44,000 lbs. reinf. steel;
- (4) remove existing bridge, lump sum.

Estimated cost, \$6500. Plans obtainable from County Clerk on deposit of \$25. Geo. Wilhelm, County Surveyor.

SAN FRANCISCO—Chas. L. Harney 74 New Montgomery St., at \$4653.60 awarded contract by Department of Public Works, to construct a sewer in Blanken St., consisting of a wood box sewer.

33—WATER WORKS

May 19, 1933

BIDS WANTED

SONOMA, Sonoma Co., Cal.—Until June 7, 8 P. M., bids will be received by H. W. Gottenberg, city clerk, to furnish pipe and construct reservoir in connection with municipal water system for which \$33,000 worth of bonds have recently been sold. This portion of the project involves the complete water main, service lines and construction of a 400,000-gal. reinforced concrete reservoir with roof. Quantities will be published in an early issue. Edward K. Hussey, Hussey & Belcher, Syndicate Bldg., Oakland, prepared the plans. 33

MADERA, Los Angeles Co., Cal.—Until 8 P. M., June 19, bids will be received by city council to furnish a pump with a 140 brake-hp. Diesel engine for city water pumping plant. The bidder must submit a bid on both the Diesel engine and a 1500-GPM. deep well belt driven turbine pump. The cost of the complete equipment is not to exceed \$16,000. The bid call is the result of an offer by Fairbanks Morse & Co. to install such a plant and accept payment out of savings effected. E. K. Hussey, 719 Syndicate Bldg., Oakland, consulting engineer. Jas. Wakefield, city clerk.

SAN FRANCISCO—Standard Oil Co. at \$18 per ton submitted low bid May 19 under Bid No. 1002 to City Purchasing Agent to furnish approximately 304 tons of 30-inch cast iron

b&s pipe, involving 152 pieces, 12-ft. lengths, Class B. Complete bids follow:

- Standard Oil Co. \$18.00
- U. S. Pipe & Foundry 38.00
- National C. I. Pipe Co. 40.00

SAN JOSE, Santa Clara Co., Cal.—City council abandons project to incorporate in the June 27 election a proposition as to whether city will purchase San Jose Water Works.

SAN FRANCISCO—Joshua Hendy Iron Works, 200 Pine St., at \$6650 submitted low bid under Bid No. 1000 to T. A. Brooks, city purchasing agent, to furnish two 60-in. butterfly valves for Hetch Hetchy Project. Only other bid submitted by Pelton Water Wheel Co. at \$6916. Allis-Chalmers Mfg. Co. and Reading, Pratt & Kaney also invited to bid, but were unable to do so.

LOS ANGELES, Cal.—Wm. Davidson, chief county mechanical engineer, Hall of Records, has completed preliminary plans for a water well and pumping plant in Lancaster Water Works District No. 4. The site for this project was purchased by the supervisors last January. The cost is estimated at \$7500.

POMONA, Los Angeles Co., Cal.—Bids are wanted immediately by the office of the City Manager for furnishing 5700 ft. of 12-in. I. D. welded steel pipe. Specifications may be obtained from F. C. Froehde, city engineer. The welding may be let under a separate contract but the trenching and laying will be done by unemployment relief forces.

SAN FRANCISCO—Until June 2, 3 P. M., under Bid No. 1010, bids will be received by T. A. Brooks, City Purchasing Agent, 270 City Hall, to furnish lawn boxes and hydrants for Park and Recreation Departments for one year, July 1, 1933, to June 30, 1934. Specifications obtainable from above.

SAN FRANCISCO—Until June 5, 3 P. M., bids will be received by T. A. Brooks, City Purchasing Agent, 270 City Hall, under Bid No. 1011, to furnish one 30-in. double disk gate valve for Hetch Hetchy Project. Specifications obtainable from above office.

35—TUNNELS

PLANNED

LOS ANGELES, Calif.—An appropriation of \$900,000 toward the cost of constructing the New Figueroa St. Tunnel No. 4 and the improvement of Solano St. to Second St., was made by the County Supervisors May 22. The item will be included in the 1933-34 budget. Figueroa St. Tunnel No. 4 will be approximately 755 ft. in length, 46 ft. 6-in. wide, with a 40-ft. roadway and a 5-ft. walk and 1 1/2-in. wheel guard, and will be driven thru the ridge of hills between Bishop's Road and Solano St., the latter street being the present south portal of the recently completed series of three tunnels connecting Dayton Ave. with Solano St. and thence to North Broadway. The distance between the completed tunnel measured from the Solano St. entrance and the north entrance to the proposed tunnel will be approximately 800 ft. Extension and widening of Figueroa St. bet. College Ave. and the south entrance to the proposed tunnel is under way. The tunnel work is estimated to cost \$500,000, all of which will be paid in cash. R. W. Stewart, 657 City Hall, Engineer of Bridges and Viaducts.

29—STREETS AND HIGHWAYS

AMADOR, Alpine and El Dorado Counties, Cal.—Peninsula Paving Co., Standard Oil Bldg., San Francisco, at \$20,388 awarded contract by the State Highway Commission, Sacramento, to treat with oil and cutback asphalt as a dust palliative 73.8 miles of existing roadbed between Dew Drop Inn and Picketts Junction, between Picketts Junction and Alpine Junction, and between Picketts Junction and Hangman's Bridge, near Markleeville.

SPOKANE, Wash.—Until June 1st, 9:30 A. M., bids will be received by city council to pave a 20-ft. strip on Boone Ave. from Division to Monroe St. Specifications obtainable from A. D. Butler, city engineer. Estimated cost, \$21,280. Certified check \$2060 required with bid.

CHEHALIS, Wash.—Lewis county commissioners will call bids this week to construct Boistfort-Winlock highway from Winlock to Curtis, 5 miles, a farm-to-market project; estimated cost, \$50,000.

SEATTLE, Wash.—Until June 6, 10 A. M., bids will be received by Board of Public Works, G. W. Roberge, Secretary, to improve Railroad Ave. from Madison to Bay Sts., including construction of a concrete sea wall.

Approximate quantities involved on previous call for bids were:
245,000 cu. ft. embankment;
3,561 tons steel sheet piling;
585,000 lin. ft. timber piling;
3,290 M. ft. b.m. lumber;
1,754 tons reinf. steel;
15,090 cu. yds. concrete;
47,475 sq. yds. 9-in. conc. paving;
3,740 lin. ft. water mains;
6,200 lin. ft. pipe sewer.

Estimated cost, \$1,200,000. Certified check 5% required with bid. Specifications obtainable from above on deposit of \$25.

A group of local bankers has agreed to take \$600,000 worth of improvement bonds to finance the work. On the previous bid call, no bids were received as stipulation was made that successful bidder must take bonds in part payment of the work.

LOS ANGELES, Cal.—Oswald Bros. 366 E 58th St., awarded contract by county supervisors May 22 at \$49,-451.82 to improve Pomona Blvd. west of El Monte from Ellis Lane east to the Rio Hondo and along Baldwin Ave. from Pomona Blvd. south to Ramona Blvd. and along Ramona Blvd. from Baldwin Ave. west to Eaton Wash, 7500 lin. ft. or 1.42 miles, under Cash Contract No. 455.

The bids were opened May 15.

ROCKWELL FIELD, Cal.—George Gardner, 445 E Cypress Avenue, Redlands, awarded contract by Constructing Quartermaster, Rockwell Field, Coronado, at \$37,400, or 11c sq. yd., for grading and oiling the landing field, involving about 340,000 sq. yds. The oil will be laid 3 gals. to the sq. yd., requiring approximately 1,020,600 gallons. The bids were opened May 17.

ALAMEDA, Cal.—Approximate quantities for the grading and placing of rock underfill and extension to drainage system at Benton Field, for which bids are to be opened by the Constructing Quartermaster, Benton Field, at 10 A. M., June 15 (previously noted), are:

Grading (based on amount of underfill):

104,300 cu. yds. underfill, truck measurement, disintegrated rock or

quarry waste, to finish 6-in. above subgrade elevation as shown on plans. Brick manholes with reinf. concr. bottom slabs, complete;

Miscellaneous length of vitrified and concrete pipe, in 30-in., 21-in., 18-in., 15-in., 12-in. and 10-in. sizes.

LOS ANGELES, Calif.—Until 10 A. M., June 14, bids will be received by board of public works to improve the first alley west of Hope St. between the alley south of 7th St. and 8th St., under the 1911 Act. The quantities are:

- (1) grading (190 cu. yds. cut, 20 cu. yds. fill);
- (2) 7916 sq. ft. 7-in. conc. paving;
- (3) 60 sq. ft. 8-in. asph. conc. paving
- (4) 240 sq. ft. 3-in. asph. conc. wearing surface;
- (5) 39 ft. light unplastered curb;
- (6) 158 sq. ft. 1-course walk;
- (7) concrete retaining wall.

Remove: 2130 sq. ft. concrete paving, 240 sq. ft. wearing surface, 60 sq. ft. gutter, 1100 sq. ft. walk, 40 ft. curb, 115 cu. ft. brick wall, 190 cu. ft. concrete wall.

Engineer's estimate, \$2188.33.

LOS ANGELES, Cal.—Southern California Roads Co., 2235 E 25th Street, awarded contract by board of public works, May 22, at \$51,472.88 to improve Santa Barbara Ave. and other streets in the Santa Barbara Avenue and Crenshaw Blvd. Imp. Dist., under cash contract.

The bids were opened April 26.

STOCKTON, San Joaquin Co., Cal.—Until June 12, 11 A. M., bids will be received by Eugene D. Graham, County Clerk, to improve Davis and Telegraph roads, from the Five Mile house on the Davis road and from the north end of Wagner heights road over the first drainage canal on the Telegraph road, involving:

- (1) 900 cu. yds. grading;
- (2) 1230 tons gravel;
- (3) 80 bbls. fuel oil;
- (4) 3350 tons top course, asphaltic concrete, plant mix.

Estimated cost, \$11,000. Certified check 10% required with bid. County Surveyor, Julius B. Manthey.

LOS ANGELES, Cal.—Hall-Johnson Co., 905 Westminister, Alhambra, were awarded contract by county supervisors May 22 at \$5525 or \$2.21 ton, to improve Covina Blvd. from its intersection with Holt Ave. and El Monte St. in Baldwin Park, west to a point beyond Merced Ave., 3350 lin. ft. or 0.63 mile, Cash Contract No. 456.

Construction or base or subgrade, grading, settling and removal of headers will be done by the county under work order No. 6054.

Geo. W. Jones, county road commissioner.

The bids were opened May 15.

SAN DIEGO, Calif.—R. E. Hazard Const. Co., 2548 Kettner Blvd., San Diego, submitted low bid to the 11th Naval District at San Diego on May 19 at 6½¢ per sq. ft., for paving at the Naval Operating Base (Supply Depot) San Diego; Spec. No. 7317. Award of contract will not be made until it has been definitely determined what area will be paved. The work includes the smooth grading, preparation and rolling of subgrade and paving of areas with one-course asphalt cement concrete two inches thick. The total area to be paved will be not less than 10,000 nor more than 15,000 sq. ft. The bids follow:

- R. E. Hazard Const. Co., 6½¢.
Griffith Company, 7¢.
Daley Corporation, 7¼¢.

INGLEWOOD, Los Angeles Co., Cal.—Until 8 P. M., May 29, bids will be received by city council to furnish

and spread approx. 22,275 gallons of emulsified asphalt in four applications to the surface of Freeman Ave. bet. Redondo Blvd. and Edith St.; Olive St. bet. Freeman Ave. and Ash St., and Pralier Ave. bet. Regent St. and Redondo Blvd. The applications shall be made as follows: First, ⅛-gallon to sq. yd.; second, ¼-gallon to sq. yd.; third, ⅜-gallon to the sq. yd.; and fourth, ½-gallon to the sq. yd. A. W. Cory, city engineer. O. H. Duelle, city clerk.

YAKIMA, Wash.—Larry Coluccio, 1638 Lane, Seattle, at \$10,693 submitted low bid to Yakima county commissioners to improve 3.5 miles of lateral highway 34, Plank road in the Satus district.

FORT LOGAN, Colo.—Until June 2, bids will be received by Construction Superintendent, Fort Logan, Colo., for bituminous concrete, premixed surface, coarse road.

TACOMA, Wash.—Until June 12, 11 A. M., bids will be received by Pierce County Commissioners to construct 3.9 mi. Puyallup-Graham road, estimated cost \$17,576. Specifications obtainable from W. E. Berry, county engineer, on deposit of \$5.

SEATTLE, Wash.—Until June 1, 10 A. M., bids will be received by Board of Public Works, G. W. Roberge, Secretary, Room 511, County-City Bldg., to pave Youngstown Place Grade Separation. Specification obtainable from above office. Certified check 5% required with bid.

LOS ANGELES, Cal.—Proceedings for the improvement of Marmont Ave. and other streets in the Marmont Ave. and Woodhill Terrace Imp. Dist. were abandoned by city council.

SAN FRANCISCO.—Architect H. A. Minton, 525 Market St., awarded contract to Eaton & Smith, 715 Ocean Ave., at approximately \$20,000 for grading and road work at the San Francisco College for Women, Turk St. and Parker Ave. Roman Catholic Archbishop of San Francisco, owner.

SAN FRANCISCO.—Chas. L. Harney, 74 New Montgomery Street, at \$9132.74 awarded contract by the Department of Public Works to improve Ortega St. bet. 22nd and 24th Aves., including crossing 23rd and 24th.

OAKLAND, Calif.—Emeryville Motorcycle Speedway, Inc., 217 12th St., Oakland, awarded contract to Lee J. Inmuel, 1031 Evelyn Ave., Berkeley, to grade, excavate and for concrete work in connection with construction of one-fifth mile oval motorcycle race track at 47th and San Pablo Ave., Oakland.

STANISLAUS COUNTY, Cal.—A. Teichert & Son, P. O. Box 1118, Sacramento, at \$11,303.25 awarded contract by State Highway Commission, Sacramento, to grade and pave with asphalt concrete 0.3 mi. at Modesto.

SAN RAFAEL, Cal.—Until June 12, 11 A. M., bids will be received by Rob E. Graham, County Clerk, to treat with emulsified asphalt and screenings from 6 mi. northwest of Inverness Store, on the Point Reyes Light House Road, 2 mi., involving 200,000 sq. ft. emulsified asphalt and screenings in place. Specifications obtainable from Rodney Messner, County Surveyor.

SAN FRANCISCO.—Chas. L. Harney, 74 New Montgomery St., at \$1818.62 awarded contract by Department of

Public Works to Improve Kirkham St., between 33rd and 34th Aves., 34th Ave between Kirkham and Lawton Sts., Ortega St., between 39th & 41st Aves.

SAN FRANCISCO—Central Foundry Co., 100 Potrero Ave., at prices shown below, submitted low bid under Bid No. 1004 to T. A. Brooks, City Purchasing Agent, 270 City Hall, to furnish:

- (1) 4210 lin. ft. 16-in. Class 150 cast iron water pipe.
 - (2) 5100 lin. ft. 12-in. do.
- Bidders follow:
 (A) Central Foundry.
 (B) Utilities Supply Co.
 (C) American C. I. Pipe Co.
- | | | |
|-----------|-------|-------|
| | (1) | (2) |
| (A) | 2.063 | 1.252 |
| (B) | 2.17 | 1.315 |
| (C) | 2.23 | 1.36 |
- Bids held under advisement.

ALAMEDA, Cal. — Approximate quantities for the surfacing of roads and paved areas at Benton Field, Alameda, for which bids are to be received by the Constructing Quartermaster at 11 A. M., June 15 (previously noted), are:

- 368,535 sq. ft. 4-in. bituminous surf. (plant mix3);
 - 4,800 ft. straight combined curb and gutter;
 - 1,790 ft. curved combined curb and gutter;
 - 3,285 ft. straight flush curb;
 - 705 ft. curved flush curb;
 - 2,595 ft. 4x4-in. creosoted curb.
- CONCRETE SURFACING (Alternate)
 365,510 sq. ft. 6-in. conc. surfacing;
 13,020 sq. ft. 4-in. bituminous paving over railroad tracks;
 4,800 ft. straight plain curb;
 1,790 ft. curved plain curb;
 70 tons reinforcing steel;
 8½ ton dowels (steel);
 20,600 lin. ft. expansion joints;
 2,275 lin. ft. weakened joints.
- The following will be required, whichever surfacing is selected:
- 11 catchbasins, curb type;
 - 4 storm drain inlets;
 - 80 lin. ft. 8-in. cast iron pipe;
 - 120 lin. ft. 6-in. cast iron pipe;
 - 20 lin. ft. 3-in. wrought iron pipe (galvanized);
 - 300 lin. ft. 8-in. terra cotta or plain concrete pipe.

LOS ANGELES, Cal.—July 11 has been set by the Public Works Committee as date for hearing on the improvement of Curson Ave., between Rosewood Ave. and Beverly Blvd., 1473 ft. centre line length. The engineer's estimate of quantities follows:

- (1) grading (1017 cu. yds. cut);
- (2) 503 sq. ft. 8-in. concrete paving;
- (3) 1038 sq. ft. 6-in. concrete paving;
- (4) 39,645 sq. ft. Warrenite bitulithic paving (2-in. wearing surface on 4-in. asphaltic concrete base);
- (5) 1134 sq. ft. remodel with 4-in. Warrenite wearing surface;
- (6) 62 ft. unplastered light curb;
- (7) 190 sq. ft. 4-in. concrete walk (driveways);
- (8) 411 sq. ft. 3-in. concrete walk (one-course);
- (9) 2765 sq. ft. concrete gutter;
- (10) storm drain;
- (11) water system;
- (12) remodel 6 manholes.

Remove: 62 ft. curb, 190 sq. ft. driveway, 411 sq. ft. walk, 5889 sq. ft. gutter, 297 sq. ft. pavement.
 Engineer's estimate, \$10,849.49.

LOS ANGELES, Cal.—Griffith Co., Los Angeles Railway Bldg., awarded contract by harbor department May 17 at \$23,040, for paving various streets and transit shed floors at Los Angeles Harbor, involving 5000 tons asphaltic concrete wearing surface and 2500 tons sheet asphalt wearing surface.

LOS ANGELES, Cal.—Plans to improve 32nd St. from Figueroa St. to Shrine Place, and Royal St. from 32nd St. to Jefferson St. in the 32nd St. and University Ave. Imp. Dist., have been completed by J. J. Jessup, city engineer. This work, for which bids will be called in the near future, will be paid for in cash. The work will involve:

STREET IMPROVEMENT:
 Grading (not figured)
 150 sq. ft. 8-in. conc. (local depressions);
 139,460 sq. ft. 6-in. comp. conc. pave.;
 3,088 sq. ft. 6-in. conc. pave. (alleys)
 1,955 sq. ft. 4-in. asph. conc. wearing surface;

142 sq. ft. 3-in. do;
 1,665 sq. ft. 2-in. do;
 17 sq. ft. 8-in. do;
 1,169 sq. ft. asph. conc. wearing surf. (various thickness, aver. 3-in.);
 50 sq. ft. do, average 2-in.;
 631 sq. ft. 6-in. walk (driveways);
 400 sq. ft. 4-in. walk (driveways);
 32 sq. ft. 6-in. gutter;
 55 sq. ft. 8-in. gutter;
 1,022 ft. unplas. heavy curb;
 17 ft. special steel curb;
 868 sq. ft. 1-course walk.

SANITARY SEWER, including:
 217.82 ft. 8-in. sewer, inc. 11 8x6-in. wyes;
 398 ft. 6-in. sewer, inc. 17 6-in. ¼th bends;
 One standard flush tank, No. 2;
 One standard manhole frame & cover
 One exist. flush tank to be remodeled to manhole "B".

STORM DRAIN, including:
 454 ft. 21-in. pipe;
 42 ft. 18-in. pipe;
 21 ft. 15-in. pipe;
 24 ft. 12-in. pipe;
 2 catchbasins, No. 31;
 1 catchbasin, No. 29;
 3 catchbasin frame and cover sets;
 1 manhole "EZ";
 2 manhole frame and cover sets;
 Remodel ornamental lighting conduit;
 One special manhole "EZ."

REMOVALS:
 1,032 ft. curb;
 1,225 sq. ft. walk;
 3,389 sq. ft. gutter;
 797 sq. ft. driveway;
 343 sq. ft. wearing surface;
 70 sq. ft. concrete paving;
 15,294 sq. ft. asphalt surface.

LOS ANGELES, Calif.—Until 10 A. M., June 7, bids will be received by board of public works, to improve Strickland Ave. bet. Burwood Terrace and 220 ft. west, under the 1911 Act. The quantities are:

- (1) grading (128 cu. yds. cut, 11 cu. yds. fill);
 - (2) 300 sq. ft. 6-in. conc. paving;
 - (3) 3752 sq. ft. 2-in. rock and oil roadway;
 - (4) 676 lin. ft. light unplas. curb;
 - (5) 633 sq. ft. 4-in. sidewalk (driveway);
 - (6) 2448 sq. ft. 1-course walk;
 - (7) 1305 sq. ft. 6-in. conc. gutter (2-ft. wide);
 - (8) reset manhole.
- Remove: 36 sq. ft. walk, 6 ft. curb, and 148 sq. ft. driveway (included in yardage).

ORANGE COUNTY, Cal. — C. H. Purcell, State Highway Engineer, has completed plant to improve North Los Angeles St., in the city of Alhambra, from Palm St. to Sycamore St. The work will include grading and paving of the street from La Palma St. to Palm St. and the resurfacing from Sycamore St. to La Palma St. The work will involve approximately:
 6,000 cu. yds. excavation (incl. 1000 cu. yds. removal of old concrete pavement);
 295,680 sq. ft. 7-in. asphaltic concrete pavement;
 295,000 sq. ft. asphaltic concrete re-

surfacing of variable thickness (average 2½-in. thick);
 5,200 lin. ft. 18-in. concrete curb of special state design.
 The cost, estimated at between \$40,000 and \$46,000 will be borne jointly by the state, county and city.

LOS ANGELES, Calif.—Until 10 A. M., June 14, bids will be received by board of public works to improve Strickland Ave., bet. Burwood Terrace and 220 ft. west, under the 1911 Act. The quantities are:
 (1) grading (128 cu. yds. cut, 11 cu. yds. fill);
 (2) 300 sq. ft. 6-in. concrete paving;
 (3) 3752 sq. ft. 2-in. rock and oil rdwy.
 (4) 676 lin. ft. light unplas. curb;
 (5) 633 sq. ft. 4-in. sidewalk (driveway);
 (6) 2448 sq. ft. 1-course walk;
 (7) 1305 sq. ft. 6-in. conc. gutter (2 ft. wide);
 (8) reset manhole.
 Remove: 36 sq. ft. walk, 6 ft. curb and 148 sq. ft. driveway (included in yardage).

LOS ANGELES, Cal.—City council, May 18, adopted an ordinance of intention for the improvement of Beaudry Ave. bet. Figueroa St. and Alpine St., under the 1911 Act. The quantities are:
 (1) grading (352 cu. yds. cut);
 (2) 14,084 sq. ft. 4-in. rock and oil roadway;
 (3) 45 sq. ft. asph. conc. pave. (2-in. asph. conc. wearing surf., 6-in. conc. base);
 (4) 2245 ft. unplas. light curb;
 (5) 1987 sq. ft. 1-course walk;
 (6) 4680 sq. ft. 6-in. conc. gutter;
 (8) 38 sq. ft. 8-in. comb. gutter;
 (9) storm drain and appurtenances;
 (10) 10 ft. 4-in. cast iron soil pipe.
 Remove: 329 ft. curb, 6855 sq. ft. gutter as follows: 6128 sq. ft. cobblestone, 131 sq. ft. brick, and 596 sq. ft. concrete; 1854 sq. ft. walk, 647 sq. ft. driveways, 2 trees, 10 ft. 10-in. pipe.

SAN LEANDRO, Alameda Co., Cal. —Until June 5, 4:30 P. M., bids will be received by E. F. Hutchings, city clerk, to furnish and spread oil on street surfaces in the City of San Leandro for the year ending June 30, 1934. Certified check \$500 required with bid.

LOS ANGELES, Cal.—No bids submitted to Board of Public Works May 17 to improve Avenue 46, between Clermont St. and Frontenac Ave. The Board has asked the city council to abandon proceedings for this work.

LOS ANGELES, Cal.—Until 10 A. M., June 7, bids will be received by Board of Public Works to improve Burwood Terrace and 220 ft. west, under the 1911 Act. The quantities are:
 (1) grading (128 cu. yds. cut, 11 cu. yds. fill);
 (2) 300 sq. ft. 6-in. concrete paving;
 (3) 3752 sq. ft. 2-in. rock and oil rdwy.
 (4) 676 lin. ft. light unplas. curb;
 (5) 633 sq. ft. 4-in. sidewalk (driveway);
 (6) 2448 sq. ft. one-course walk;
 (7) 1305 sq. ft. 6-in. conc. gutter (2 ft. wide);
 (8) reset manhole.
 Remove: 36 sq. ft. walk, 6 ft. curb and 148 sq. ft. driveway (included in yardage).

SAN LEANDRO, Alameda Co., Cal. —Until June 5, 4:30 P. M., bids will be received by E. F. Hutchings, city clerk, to furnish rock and screenings for the year ending June 30, 1934, to the City of San Leandro. Certified check \$1000 required with bid.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

UNITS 2, 3, 4 AND 8 — GOVERNMENT ISLAND

ALAMEDA, Alameda Co., Calif.—Hutchinson Co., 1450 Harrison St., Oakland, at \$24,499.15 submitted low bid to, and recommended for award by U. S. Bureau of Public Roads, San Francisco, to construct portions of Units 2, 3, 4 and 8, Government Island construction, Government Island Alameda, involving:

- (1) 1000 cu. yds. excav. for sewer outlet ditch;
- (2) street lighting system, lump sum
- (3) bridge lighting sys., lump sum;
- (4) 1300 lin. ft. resurf. r.r. track;
- (5) 5600 lin. ft. comb. curb and gutter
- (6) 263 lin. ft. curb only;
- (7) 13,700 sq. ft. valley gutters;
- (8) 11,300 sq. ft. sidewalks;
- (9) 1500 sq. ft. reinf. conc. driveways
- (10) 1 valley catchbasin and trap;
- (11) 4 curb catchbasins without trap
- (12) 150 lin. ft. lay Govt. furnished 6-in. pipe;
- (13) 350 cu. yds. sand-clay material;
- (14) 300 cu. yds. loam;
- (15) 1000 cu. yds. unclass. excav.;
- (16) 300 cu. yds. addn. base rock;

- (17) 27 tons liquid asph. road material, M. C. 1;
- (18) 112 tons do, type M. C. 5;
- (19) 18,000 sq. yds. prepare base for surface;
- (20) 100 cu. yds. crushed rock, leveling course;
- (21) 1860 tons asph. treated crusher rock surface;
- (22) 180 tons screenings, seal coat.

Complete bids follow:
 (A) Hutchinson Co., Oakland, \$24,499.15.

LUMBER ORDERS NOW ONE-THIRD OF INVENTORIES

West Coast Mills Report Steady Improvement In Sales Ratio

The week's accumulation of new business at lumber mills reporting to the West Coast Lumbermen's Association was three million feet less than the peak reached the week previous but was larger than for any other week since April, 1931.

Production, compared with orders and shipments, continues low. For the year to date orders exceed those of the same period in 1932 by 7 percent; production is less by 6 percent. Stocks are 18.3 percent less than at this time last year while unfilled orders are now 33 percent of stocks, the highest since April, 1930.

A total of 252 down and operating mills which reported for the week ending May 20 produced 79,827,127 board feet of lumber. This was an increase of 7,047,705 feet or 9.7 percent over their cut in the preceding week. The average week's production of this group of sawmills in 1933 has been 60,766,650 feet; during the same period of 1932, their weekly average was 66,649,300 feet.

The new business reported last week by 180 mills was 113,975,782 board feet against a production of 73,014,812 feet and shipments of 80,884,583 feet. Their shipments were over their production by 10.70 percent, and their current sales were over production by 56.10 percent. The orders booked last week by this group of identical mills were less than their orders of the preceding week by 3,003,376 feet, or 2.57 percent.

Details of orders and shipments as reported by these 180 mills are:

	Orders	Shipments
Rail	33,986,225	27,229,853
Domestic	52,629,273	34,644,211
Export	20,591,614	12,241,849
Local	6,768,670	6,768,670

113,975,782 80,884,583

The unfilled order file at these mills stood at 350,741,006 board feet, an increase of 31,176,417 feet from the week before.

THE WEEK'S NEWS

Highlights

\$125,000 SAVED. Carlos Huntington, registrar, estimates California contractors will save \$125,000 in the year beginning July 1 as the result of reduction in the annual license fee from \$10 to \$5. Governor Rolph has signed the bill, and 22,000 licenses, more or less, will be renewable next month at the bargain rate.

CITY PERMITS. San Francisco permits for building issued in May make a startling showing by including \$31,247,364 as the county's share of the San Francisco-Oakland bay bridge contracts so far awarded. Deleting these leaves a balance of \$568,312, principally for private work. In view of previous records the report is encouraging, showing both an increase in value and increase in number of permits over April. Permits for alterations show an increase to more than double the value for the corresponding month a year ago.

FEDERAL MONEY. United States senators are completing their work on the National Trade Recovery Act, which has already been passed by the House. The bill is expected to pass with no change in the \$3,300,000,000 public works appropriation. Federal bureaus that plan construction have been uneasy for two months now are preparing to expedite the tremendous volume of work which the new avalanche of cash will float. L. W. Roberts, new assistant secretary of the treasury in charge of buildings, says \$50,000,000 in new building will be advertised immediately after the bill is signed, with an equal amount within 90 days thereafter.

BAY PROJECTS ASSURED MONEY IN WORKS BILL

Oakland Congressman Says Federal Provisions Cover Local Construction

Bay district projects involving the expenditure of millions of dollars will be eligible for completion under the industrial control public works bill, according to advices received from Congressman Abert E. Carter, of Oakland.

Carter declared he had already taken steps to have included in works to be completed under the bill, the completion of Benton Field in Alameda, construction on Government Island, certain dredging in Richmond Harbor and the California water plan providing for salinity control in the Delta region and industrial water for Contra Costa County.

Also eligible for consideration, he said, are such projects as the \$3,000,000 Broadway tunnel to link Alameda and Contra Costa counties and the Park Street bridge over the estuary.

Carter pointed out that under the provisions of the bill, an administrator will have final selection of all projects and that indications in Washington point to the probable naming of Hugh S. Johnson to the post.

Johnson is familiar with the Bay region, having been stationed at Monterey and graduated from the University of California while in the Army following his graduation from West Point. He first achieved note for his work in caring for refugees from the San Francisco earthquake and fire.

Dispatches from Washington several days ago said Johnson had been selected as administrator of the industrial control-public works plans by President Roosevelt.

Work on Benton Field, the Army air base in Alameda, and on Government Island has been in progress for several months. The State water plan would call for the expenditure of \$175,000,000 in conservation and flood control projects throughout the State, among them the control of salt water encroachment in the Delta area.

NEW PLANS FOR GATE SPAN ROAD TO BE PREPARED

Bids Asked on Removal of Gun Battery at S. F. Presidio

Definite plans for relocation of the eastern approach road to the Golden Gate Bridge through the Presidio of San Francisco will be presented to the board of directors for action when they meet in regular session Wednesday, June 14, according to General Manager Jas. Reed.

Mr. Reed informed the directors that a decision by them on the revised plans for the approach road on June 14 will allow ample time to obtain the necessary rights of way from the War Department so that they can be presented for acceptance to the state legislature when it convenes in July.

It was pointed out that a decision on this matter along the lines worked out and submitted to the board by City Engineer John Casey of San Francisco, will make possible the speedy letting of contracts on the eastern approach road.

Bids will be received June 11 by the bridge district for dismantling and removing an obsolete disappearing gun battery at the Presidio of San Francisco. The guns are designated as Battery Lancaster, Fort Winfield Scott.

Equipment to be removed includes three disappearing mounts, each weighing 188 tons, of which 108 tons are steel and 80 tons are lead; and three ammunition handling trucks weighing 1000 pounds and made of steel. The contract will provide that the articles be broken into pieces that can be conveniently handled and that no single piece exceed five tons. The material is to be moved to and unloaded at the railroad siding on Crissy Field.

Bidding is restricted to established firms doing business in the bridge district. A bond for faithful performance equal to the amount of the bid will be required.

THREE OFFICIALS ARE RE-APPOINTED

Three city officials have been re-appointed to new terms by the Santa Clara city council. They are George L. Sullivan, city engineer; George P. Fallon, superintendent of streets, and A. E. Roll, building and plumbing inspector.

MATERIAL PRICES SHOW NEW GAIN

The index number of building prices stood at 71.1 for the week ending May 20, registering a further gain and a new high for the year. The index for the previous week was 70.8, according to statistics compiled by the United States Department of Labor. The index is derived from wholesale price quotations weighted according to the importance of each commodity and compared with the price level of 1926 a base of 100.0.

Metal and metal products price index for the week of May 20 was at 77.9, the same as the week previous.

KELLOGG IS NAMED FIRST MANAGER OF SAN MATEO COUNTY

Walter T. Kellogg, Redwood City district manager for the Pacific Gas and Electric Company, has been named San Mateo county manager, the first appointment under the new charter.

Mr. Kellogg was selected from 27 candidates who filed applications. He is appointed for a four-year term commencing July 1.

The new county manager was born in Oakland. He is 50 years of age and has been with the Pacific Gas and Electric Company since 1905. For the past ten years he has been a member of the Redwood City board of education and he is treasurer of the San Mateo county chamber of commerce.

MEYER APPOINTED DISTRICT DEPUTY

Architect Frederick H. Meyer has been appointed Northern district deputy for the California Architects Association by David J. Witmer of Los Angeles who succeeded Meyer this year as regional director of the American Institute. Announcement of the appointment was made at the semi-annual meeting here this week of the association.

The association has decided to cancel the annual state convention this year in accord with the economy program adopted by the national directors. Section meetings probably will be held in October, however, at about the time the state convention ordinarily is held, according to Ellsworth Johnson, secretary of the association.

BILL TO LOWER STATE LICENSE FEE IS APPROVED

Governor Signs Act Amending Contractors' Registration Regulations

SACRAMENTO, May 29—Legislation reducing the license renewal fee of California contractors fifty per cent and providing for tightening of the state contractors, act was enacted into law here today with the approval by Governor Jas. Rolph Jr., of Assembly bill 780.

Under provisions of the measure, the fee for renewal of licenses for the new fiscal year beginning July 1, will be cut from \$10 to \$5.

This economy measure, it is expected, will result in a saving of more than \$115,000 for California's army of 23,000 registered contractors. The measure carried an urgency clause, making it effective immediately upon approval by Governor Rolph.

In addition to providing a reduction in the fee, the measure provides for tightening the provision of the act and also more stringent regulation of the unscrupulous or unethical fly-by-night contractor or "jerry builder", according to Col. Carlos W. Huntington, registrar of contractors and director of professional and vocational standards in the governor's cabinet. The measure will in no way interfere with the legitimate operations of the honest and reputable contractor, Registrar Huntington said.

Under the budget finally adopted by the legislature and approved by the governor, the registrar's office is apportioned \$279,000 for support for the ensuing biennium. The original budget request provided for \$314,000 for the department, but this was cut to \$236,242 by the house ways and means committee, and subsequently raised to \$270,000 in the final budget.

The measure retains the present \$200 exemption clause. A move to lower this to \$50 having been defeated on the floor of the senate and assembly.

BANKERS TO BUY SEATTLE BONDS

A syndicate of Seattle bankers has agreed to purchase a block of \$600,000 in municipal improvement bonds to enable the city to proceed with a major improvement plan for Railroad avenue.

LEAGUE REPORTS MANY LOANS FOR REMODELING WORK

More Than Fifteen Million Advanced Since First of Year to Home Owners

Families which are making wise expenditures to keep up the value of their homes this spring already number 18,150, according to Morton Bodfish, executive manager of the United States Building & Loan League, in announcing the results of the league's national survey of modernization and repair loans to home-owners.

Funds advanced for this purpose since the first of the year by building and loan associations total about \$15,500,000, according to the league estimates, and at least half of this volume of lending has been made possible by the local associations' access to money from the federal home loan bank.

Of the building and loan associations reporting to the United States league, 65 percent have made some loans for renovation of homes in their localities. The two associations with the highest score in this activity, each having made loans to forty home-owners are located in cities of 300,000 and 20,000 population respectively. The home-owners they served have borrowed between \$850 and \$1,000 each to make the improvements.

These associations are advertising that financing is available for such undertakings and thus encouraging the activity. Several of the cities in which a number of such loans have been made are in the midst of city-wide modernizing campaigns, it was pointed out.

"Inflationary moves now underway strengthen the indications that this is but a beginning of more modernizing of homes in the months to come," said Bodfish. "The sensible home-owner realizes that a reconditioning or modernizing job contracted for at a low cost in May or June, 1933, will probably look like a bargain six or eight months from now. Besides this natural tendency to strike while the iron is hot there are many reports

ELECTRICAL BUREAU SAVES CONTRACTORS DUPLICATE SURVEY

A new procedure in assessing inspection fees on contemplated installations which may be figured by several contractors is announced by Ralph W. Wiley, chief of the department of electricity, as a means of relieving the industry of unnecessary costs.

The following announcement of the change is made by Wiley:

"In the past on electrical installations such as portions destroyed by fire, extensive alterations, additions to existing installations, or various other jobs where contractors have been in doubt as to the requirements of this department, it has been the practice for the contractors figuring the work to request a survey.

"Under this system, ten contractors might ask, and pay a fee, for a survey, and another contractor, one who had not asked for a survey, might get the job, and consequently the work would not be installed according to the survey.

"In the future, on such installations, upon request of a contractor, the department will make a survey, and report of this survey will be given to any contractor who might wish to figure the job, and the cost of the survey will be borne by the contractor who makes the installation.

"This change I believe will prove to be a more equitable arrangement for all concerned."

SACRAMENTO PLANS CITY HALL ANNEX

Federal aid for the construction of an annex to the Sacramento city hall is to be sought by City Manager James S. Dean. The estimated cost of the annex is \$60,000. It would house the health and water department offices and include a central fire station. Dean hopes to obtain the money from the Federal public works bill under terms that would allow the city one-third of the cost as a gift from the Federal government.

of cities which are just beginning their campaigns to get the home-owners to modernize."

PRIVATE WORK INCREASE SHOWS IN S. F. PERMITS

Bay Bridge Contracts Boost City Totals by \$31,000,000 For May

San Francisco building permits, exclusive of totals for the San Francisco-Oakland bay bridge awards, totaled \$568,312 in May, compared with \$538,112 for the month of April. Under a special classification of harbor work the department includes the San Francisco portion of the bridge structure for which contracts have been awarded, the amount being \$31,247,364. This covers all of the bridge work excepting part of the eastbay foundations and superstructure.

With the bridge contracts included the city's permit total is \$31,815,676.

Private building compares favorably both with the month of April and the corresponding month of 1932. Although the dollar value is less than for May of 1932, this is due principally to a single major permit in the last year's total, while alteration work last month was valued at more than twice the total of the same month in 1932, and in number of permits issued this year is ahead of last year's figure.

Residential building totals \$229,105 for the month, 61 permits being issued. This compares with 63 permits and a total of \$224,356 in April and 62 permits and a value of \$289,358 in May of 1932.

Following are the comparative figures for last month and the corresponding month of 1932:

	May, 1933		May, 1932	
	No. P'mts	Est. Cost	No. P'mts	Est. Cost

WESTINGHOUSE QUARTER REPORT IS OPTIMISTIC

**Electric Firm Orders in March
Largest for Month
Since July**

Expressing confidence in the leadership of President Roosevelt and the belief that a real business revival is imminent Westinghouse Electric and Manufacturing Company has announced to its stockholders that bookings for March were the largest of any month since July, 1932.

While showing a substantial loss for the first quarter of 1933 attributed to low volume of business the announcement had this to say:

"In spite of the financial situation during the first quarter of this year, March bookings were the largest of any month since July, 1932. While the company secured its share of available business, yet it was so low that operations for the three months ended March 31, 1933, resulted in a net loss of \$3,491,572.

"The prompt and constructive moves of the new administration at Washington have had a stimulating effect on public sentiment. The President is providing the aggressive leadership needed to insure genuine business revival. Confidence in the banking situation is being gradually restored. Definite aid is assured for agriculture. Reorganization of transportation facilities is being pushed to early completion. Reclamation and reforestation are under way. It would seem inevitable that business in general will soon begin to show improvement. Already it is being felt in some directions and while it may yet require several months for the full effect to be translated into actual bookings by Westinghouse, your management believes that the situation at this time is encouraging."

EMERGENCY ACT IN EFFECT AT LAGUNA

An emergency ordinance passed by the city council of Laguna Beach provides that all persons, firms or corporations that have been operating from a fixed place of business as contractors on building work or other construction, for at least 60 days, will pay the regular yearly license fee of \$15. All other general contractors, not coming within this classification, must pay \$100 and all subcontractors \$50.

A resolution adopted at the same time provides that if any contractor or subcontractor desires to employ any person who has not lived in Laguna Beach or within five miles of its borders for a period of at least 30 days he may do so by first obtaining a permit from the building inspector to make such employment upon payment of a fee of \$25 for each such employe.

PAINT INDUSTRY IN RAPID GAIN SURVEY INDICATES

A sudden reversal of trend in the paint industry during April is reported by Dun and Bradstreet, Inc., in a survey of this field just completed.

During the first quarter of the current year, both production and distribution of paints receded to nearly the lowest level in the history of the industry. The dollar total of sales for that period was approximately 25 percent under the comparative record of 1932, while the decrease in gallonage ranged from 5 to 10 percent, the survey reported.

"There was a sudden reversal in the trend in April, however, sales running nearly one-third larger than in March. The gain in distribution is being extended constantly, and if weather conditions continue favorable this will be one of the best seasons in many years for the paint trade.

"As there has been so little painting done during the last three years," the survey continues "when the demand once gains its full force it will be marked and sustained over a long period. Much work already is in prospect, as the broadening trend of general business, supported by wider employment and higher wages, is giving the public new purchasing power. Availability of cheap labor and the necessity for protecting weather-worn surfaces, long neglected, are expected to increase substantially the use of paint products during the balance of the season.

"The paints sold during April were chiefly for inside work, as the rainy weather retarded many of the outside jobs. Interior enamels and washable wall finishes continue popular, both in amateur and professional application. Current sales on the other hand, are in exterior house paints, with materials for industrial buildings and institutions bulking large. The various 'Renovizing' campaigns which are being conducted by civic organizations are stimulating sales to some extent. As prospects of new construction are subnormal, the principal volume must come for repair and alteration work. Prepared outside paints are, in a large degree, replacing the use of lead and oil."

RAISE CONTRACTORS' LICENSE IN GILROY

New license fees for non-resident general contractors and sub-contractors were adopted at a special meeting of the Gilroy city council recently.

The fees are as follows:

For general contractors not having a fixed place of business in the city of Gilroy, \$150 per year; sub-contractors, not having a fixed place of business in the city of Gilroy, \$50.

Heretofore outside contractors have been permitted to take contracts in Gilroy without a difference in the license fees paid by local contractors.

ARMY ENGINEER APPROVES SOUTH BAY DREDGING

**Channels and Turning Basin
In San Jose Development
Recommended**

San Francisco bay dredging projects to cost \$560,000 have been recommended as part of the San Jose port development by Maj. Gen. Lytle Brown, chief of army engineers.

Before the Federal government will proceed local interests must appropriate \$260,000 as a share of the cost.

A 500-foot channel, 27 feet deep across San Bruno shoals, south of Hunters Point and a 300-foot channel 27 feet deep from the mouth of the Guadalupe river are advised by General Brown. The government would also create a turning basin 600 by 1200 feet and 30 feet deep at the lower end of the Guadalupe channel.

The San Jose Port Association has been formed to represent local interests in the port development.

Redwood City harbor improvement will be an issue on the June 27 ballot, it was decided by the San Mateo county supervisors who approved submission of an enabling measure at the special election.

The supervisors acted on a petition of citizens for a ballot on the proposal to create a harbor district.

21—BRIDGES

LOS ANGELES, Cal.—R. W. Stewart, city bridge engineer, has completed preliminary estimate of cost of \$19,141 to construct a wooden bridge at the intersection of Imperial Highway, from Central to Fadsworth Ave., over Compton Creek. It will be a two-span 25-ft. structure with 40-ft. roadways on Central Ave. and Imperial Highway, involving:

- 67 creosoted wood piles, 25-ft. long;
- 10,000 B.M. ft. creosoted Douglas fir;
- 47,000 B. M. ft. structural do;
- 2,500 lbs. obits and rods;
- 10 cu. yds. concrete;
- 3,660 sq. ft. 2-in. asph. conc. wearing surface.

SAN FRANCISCO.—Plans for the relocation of the eastern approach road to the Golden Gate Bridge will be ready for the approval of the Board of Directors, Golden Gate Bridge and Highway District, at their June 14 meeting. Approval of the War Department and the State Legislature is necessary for the rights of way before the contracts can be let.

LOS ANGELES, Cal.—Plans for a concrete and steel bridge to be built on Anaheim-Puente Road over San Jose creek, filed with the board of supervisors May 25 by W. D. Armstrong County Bridge Engineer, for approval. A date for bids will probably be set by the board of supervisors May 29. Bids will be taken on two types, viz: using concrete piles and using steel piles. The proposed bridge will consist of one 40-ft. span and two spans of 32 ft. 10 in. each. The roadway will be 30 ft. in width. The engineer's estimate of quantities follow:

Summary for Concrete Piles

- 295.6 cu. yds. Class A conc. (including piles);
- 53,250 lbs. reinforcing steel;
- 211 lin. ft. concrete railing;
- 8,874 sq. ft. form area;
- 1,200 lin. ft. concrete piles to drive;
- 96,543 lbs. struc. steel furnished by the county;
- 12,340 lbs. structural steel bracing;
- 6,624 sq. ft. paint area;
- 2,899 lbs. castings;
- 735 lbs. bearing plates;
- 48 pieces tile;
- 50 cu. yds. excavation;
- removing old bridge.

Summary for Steel Piles

- 234.58 cu. yds. Class A concrete;
- 22,518 lbs. reinforcing steel;
- 211 lin. ft. concrete railing;
- 9,090 sq. ft. form area;
- 1,200 lin. ft. steel piles to drive;
- 79,200 lbs. steel piles;
- 96,543 lbs. structural steel furnished by county;

12,340 lbs. structural steel bracing;
6,624 sq. ft. paint area;
2,899 lbs. castings;
735 lbs. bearing plates;
48 pieces tile;
50 cu. yds. excavation.
removing old bridge.

SAN JOSE, Santa Clara Co., Cal.—Until June 19, 11 A.M., bids will be received by Henry A. Pfister, county clerk to widen Evelyn Ave. Bridge, lump sum for widening existing bridge, also involving 17,600 sq. ft. oil macadam paving. Specifications obtainable from Robert Chandler, county surveyor, on payment of \$1, not returnable.

SANDPOINT, Idaho—A. E. Carsealen, Coeuer d'Alene, awarded contract by the Bonner county commissioners to construct concrete piers, steel superstructure and timber deck of 102 ft. bascule span under Sec. 3 at \$24,553, Sandpoint Bridge, North & South Highway. Arthur Tiggelbeck, engineer. The bids were opened April 20.

HANFORD, Cal.—Central Lumber Co. awarded contract by county supervisors at \$3568.72 to furnish lumber for the new Alcorn bridge to be erected seven miles north of Hanford.

22—DREDGING, HARBOR WORKS, EXCAVATION

PORTLAND, Ore.—Until June 9, 2 P. M., bids will be received by U. S. Engineer O'Tee, 321 Custom House, Portland, to dredge approximately 256,000 cu. yds. of material from Skipanon channel, on the south side of the Columbia river 3 miles west from Astoria, Ore., and about 10 mi. from the mouth of the river. Specifications obtainable from above office.

SEWARD, Alaska.—Nicholas Fleiness, 1203 James St., Seattle, Wash., at \$13,000 submitted lone bid to U. S. Engineer Office, Seattle, to place 2,000 cu. yds. armor rock on the rock mound breakwater at the Harbor of Refuge, Seward. Engineer's estimate was \$8575, and bid will probably be rejected.

REDWOOD CITY, San Mateo Co., Cal.—County Supervisors will incorporate in June 27 election proposition on county port district, it was decided at protest hearing held May 25.

23—IRRIGATION PROJ.

IDAHO STATE—Until June 9, under Spec. 594-D, bids will be received by U. W. Bureau of Reclamation.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street

Sacramento :: California

Denver, Colo., to construct lateral structures, Gooding Division, Minidoka project, Idaho, involving:
875 cu. yds. excavation;
465 cu. yds. backfill about structures;
180 cu. yds. concrete;
165 cu. yds. rubble masonry;
7750 lbs. place reinf. bars;
500 lin. ft. 12- to 24-in. lay corr. metal pipe;
4200 lbs. gates and gate holsts, Install;
3 MFEM erect timber.
No deposit required for plans from prospective bidders; to others, \$1 not returnable.

24—ST. LIGHT. SYSTEMS

SAN DIEGO, Cal.—Moore Electric Co., 321 W Third St., Los Angeles, awarded contract by the Navy Department on May 25 at \$16,100, for improvements to the electrical system, West Beach Hangars, Naval Operating Base (Air Station) San Diego; Spec. No. 7223. Work consists of the relocation of existing floodlights transformers, controller, etc. In making the award, the Navy Department omitted the work called for under Proposal B. Bids were opened May 16.

GLENDALE, Los Angeles Co., Cal.—The South Glendale Improvement Association has proposed that the city council abandoned previous proceedings for the installation of an ornamental lighting system in Brand Blvd, and start entirely new proceedings so that the city may take advantage of lower prices. The contract which was awarded a year ago to the Public Service Department of Glendale at \$126,250, has been held up by litigation instituted by several property owners. The appellate court decided in favor of the city.

P. Diederich, plant superintendent, will probably await advice from the council before starting construction under the contract.

25—MACHINERY AND EQUIPMENT

SAN FRANCISCO.—Until June 14, 2 P. M., bids will be received by the Board of Directors of the Golden Gate Bridge and Highway District, W. W. Felt, Jr., Secretary, at the chambers of the Board of Supervisors of the City and County of San Francisco, City Hall, to dismantle, break-up and remove three disappearing cannon mounts, 188 tons weight each, and three ammunition handling trucks, steel, 1000 lbs. weight each, to be unloaded at the railroad siding near Warehouse No. 5, south border at Crissy Field, Presidio. Certified check \$250 payable to Secretary required with bid.

OAKLAND, Cal.—J. E. French & Co., 2345 Broadway, Oakland, at \$1345.50 net, submitted low bid to East Bay Municipal Utility District, Oakland, to furnish one 5-passenger 8-cylinder 1933 model Dodge sedan, allowance being made for trade-in on used Buick. Complete net bids follow:
J. E. French & Co., Oakland.....\$1345.50
C. A. May, Hayward.....1411.50
F. S. Wildman, Alameda.....(1425.00
Bids held under advisement.

SAN FRANCISCO.—Until June 5, 3 P. M., under Bid No. 1115, bids will be received by T. A. Brooks, City

Purchasing Agent, 270 City Hall, to deliver and return voting machines and deliver election stationery at special election to be held June 27. Specification obtainable from above office.

LOS ANGELES, Cal.—Sangamo Electric Co. awarded contract by A. J. Holm, City Purchasing Agent, May 24, at \$42,906 (estimated total), for electric meters under Spec. No. 2884. Bids were opened Sep. 2, 1932.

PASADENA, Cal.—Until 11 A. M., June 6, new bids will be received by board of directors to furnish two duplicate conveyors at the city incinerator plant to supply dry rubbish and waste materials as fuel for two waste heat oiler furnaces. Revised specifications obtainable from B. F. DeLanty, Superintendent of Municipal Light & Power Department. Certified check, 5%. The bids received May 15 were rejected May 23.

28—FIRE EQUIPMENT

OAKLAND, Calif.—W. H. Larson, 2805 Parker St., Berkeley, submitted low bid to Purchasing Department, Oakland Port Commission, for surface paving materials at the Airport, involving approximately 5000 sq. ft. Items involved follow:

- (1) 125 tons asphaltic base;
- (2) 33 tons asph. wearing surface.

Complete bids follow:

- W. H. Larson, Berkeley, (1) \$3.98; (2) \$4.48.
Heafey-Moore Co., Oakland (1) \$4.75 (2) \$4.95.

Award recommended to low bidder.

30—RESERVOIRS & DAMS

LAKEPORT, Lake Co., Cal.—Frank R. Phillips, Lakeport, at \$749 awarded contract by city council to construct roof for the new reservoir, to be of timber with asbestos coated shingles. Complete bids follow:

F. R. Phillips, Lakeport.....	\$ 749
R. A. Woodward, Lakeport.....	968
T. J. Doyle, San Francisco.....	937
C. S. Good, Nice.....	1065

WHITTIER, Los Angeles Co., Cal.—Until 7:30 P. M., June 19, bids will be received by city council to furnish redwood lumber for re-roofing of the Greenleaf Reservoir, involving about 67,000 sq. ft. surface to be covered with timbers, etc., in accordance with specifications which may be obtained from engineering department probably about June 1. M. R. Bowen, city engineer and water superintendent. Mrs. Debie E. Allen, city clerk.

ARCADIA, Los Angeles Co., Cal.—City council rejected all bids received on May 2 for furnishing and delivering 275 barrels of asphaltic road oil and will purchase the oil in the open market.

LOS ANGELES, Cal.—Bids to be opened June 26, 2 P. M., by county supervisors for the construction of Eaton Wash Debris Dam and appurtenant structures, estimated cost, \$441,376, have been temporarily held up on account of failure to obtain right-of-way. Plans call for a rolled earth fill dam, 1545 ft. long, 37 ft. high, 40.5 ft. from foundations to spillway crest, upstream faced with concrete.

LOS ANGELES COUNTY, Cal.—J. E. Haddock, Ltd., 357 Chester Ave., Pasadena, at \$4496 awarded contract by State Highway Commission to treat 3.3 miles graded roadbed at San Gabriel Canyon near Azusa with heavy fuel oil.

31—PIPE LINES & WELLS

SAN FRANCISCO—Bids will be called within 10 days by Public Utilities Commission, Felton Taylor, Secretary, to construct steel or concrete pipe line across Alameda Creek for the City and County of San Francisco, to start at 3-mi. south of Sunol involving 3000 ft. steel pipe line or alternate concrete with steel cylinder enclosed, and 600 ft. pipe at east end of tunnel, 7-mi. south of Tracey. Estimated cost, \$125,000. Plans prepared by L. W. Stocker, S. F. Water Department, 425 Mason St.

WASHINGTON, D. C.—E. E. Black, Ltd., Honolulu, at \$11,728 submitted low bid to Bureau of Yards and Docks Navy Department, under Spec. No. 7209 for construction of a six inch cast iron pipe water line approximately 3736 feet long with 3180 feet to be submerged at Pearl Harbor, T. H. Second low bid was submitted by Kahill Contracting Company, Honolulu, at \$12,750. Complete list of bids will be published shortly.

ALAMEDA, Cal.—Wilkinson & Co., Gilroy, at \$3500 submitted only bid for the well and Byron Jackson Pump Co., 5th and Carleton Sts., Berkeley, at \$1995 submitted low bid for the pump to Constructing Quartermaster, Benton Field Air Depot, in connection with the testing and drilling of a 12-in. well and furnishing and installing 180 GPM capacity deep well turbine pump with electric motor, control panel, etc. Specification No. 9-OCQM. Wilson Machinery Co., Oakland, submitted only other bid on the pump at \$2190. Bids held under advisement.

32—SEWERS & SEWAGE DISPOSAL PLANTS

LONG BEACH, Cal.—Until 10 A. M. June 8, bids will be received by city council to furnish and deliver vitrified clay sewer pipe as follows:

- 1,080 lin. ft. of 8-in. pipe;
21,328 lin. ft. of 10-in. pipe;
6,676 lin. ft. of 12-in. pipe.

Certified check, bank draft or bidder's bond in the sum of 10% must accompany each bid. E. S. Dobbin, city manager.

The pipe will be used for the installation of a 6-mile trunk sewer in the North Long Beach area. The city of Long Beach will pay the cost of the pipe amounting to \$30,000 and R.F.C. funds in the amount of \$64,000 will pay for the labor.

BERKELEY, Alameda Co., Calif.—Until June 6, 10 A. M., bids will be received by Florence E. Turner, city clerk, to construct storm sewer in Ensenada Ave. from Capistrano Ave. south to the existing culvert south of Tacoma Ave., involving:

- (1a) 335 lin. ft. 33-in. sewer pipe reinf. concrete, centric;
- (1b) 335 lin. ft. 33-in. reinf. concrete sewer pipe, machine made (alt. to 1a);
- (1c) 335 lin. ft. 33-in. vit. ironstone sewer pipe (alt. to 1a);
- (2) 75 lin. ft. 10-in. vit. pipe;
- (3) 3 catchbasins;
- (4) 1 manhole with water seal;
- (5) 1 ordinary manhole.

Specifications obtainable from the above office on deposit of \$10. Certified check 10% required with bid.

LOS ANGELES, Calif.—Until 10 A. M., June 21, bids will be received by board of public works to construct the sewage pumping plant to be built in the vicinity of Terminal Way and Dock St., Terminal Island. Bids will be received as follows:

(1) construct a reinforced concrete pumping structure and a reinforced concrete gate chamber structure, including furnishing and installing all equipment and appurtenances, grading, paving all walks, curbs; furnish and apply sulphur-silica compound retazing and paint;

(2) furnishing and installing two duplicate sewage pumping units with all piping, also a sump pump and its connections and floor covering;

(3) lump sum bid for items (1) and (2).

The buildings will be of reinforced concrete construction, waterproofing, steel doors, galvanized iron hand railings, steel and wood ladders, steel gratings and plates, redwood gate skylights, wire glass, copper flashings and gutters, fan ventilator, 60-ft. flag-pole to serve as a ventilation pipe, portable work, Mastipave floor covering, cast iron gates, centrifugal cast iron pipe, galvanized cast iron container and plumbing.

The two pumps will be vertical, centrifugal, single stage, 3150 G.P.M., 50-ft. head, and by change of impellers have required capacity to pump 4275 G.P.M., 60-ft. head. Also includes shaft guard, valves, floats, flow meter, instrument board, surge tank, electrical equipment, etc.

F. L. Weisenheimer, assistant chief engineer of sanitary sewer design.

SAN FRANCISCO.—Bids will be asked in one week by Public Utilities Commission, Felton Taylor, Secretary to construct sewer disposal plant in Tuolumne County, at the Mocassin Creek Power House, Hetch Hetchy involving 1400 ft. 8-in. cast iron pipe concrete work, etc. Estimated cost, \$10,000, which includes cost of pipe which will be furnished by city. Work will consist of excavating and concreting. Plans prepared by L. W. Stocker, San Francisco Water Department, 425 Mason St.

LOS ANGELES, Cal.—The Health and Sanitation Committee has ordered the city attorney and city engineer to prepare an ordinance of intention for the construction of sewers in Pine Crest Drive and right of way west of Lomitas Drive Sewer District. The committee ordered the proceedings at its meeting May 25. The quantities as prepared by J. J. Jessup, city engineer, follow:

(1) Sewer complete (not including house connections and resurfacing, estimated at \$3184.

The main sewer includes:
1603.15 ft. 8-in. pipe inc. 72 8x6-inch wyes;

57.68 ft. conc. reinf. for 8-in. pipe.

- Type X;
3 special manholes "B";
2 standard manholes "B";
1 drop manhole "S";
2 junction chambers "F";
1 flush tank No. 2 (no apparatus);
2 lampholes "Z";
1 existing struc. to be remodeled to drop manhole "S";
10 standard manhole frame and covers.

Average depth of struc., 11.6 ft.

Average depth of house conn., 13.7

(2) 166 ft. house sewers, inc. 16 8-in.

1/2-in. bends;

(4) 81 sq. ft. Class D resurface.

Engineer's estimate, \$3864.30.

33—WATER WORKS

SOUTH PASADENA, Los Angeles Co., Cal.—Until 2 P. M., June 7, bids will be received by city council to furnish cast iron pipe as follows:

(1) 5000 ft. 10-in. class 250 centrifugally cast iron pipe, or class B cast iron pipe, or 10-in. cast iron pipe as manufactured under U. S. Master Specifications No. W.W.P. 423.

All pipe shall conform to specifications No. 53 of the City of South Pasadena or U. S. Master Specifications No. 537 for centrifugally cast iron pipe or U. S. Master Spec. No. W.W.P. 423 and to A.W.W.A. Standard Specifications adopted May, 1908, for cast iron pipe.

Bidders shall state date of delivery. Delivery shall be f.o.b. trenchside at South Pasadena. Certified check, 10%. C. S. Roen, city manager. Frank H. Clough, city engineer.

LOS ANGELES, Cal.—Metropolitan Water District, 306 W 3rd St., Los Angeles, will petition Reconstruction Finance Corporation for an additional loan of \$59,750,000 with which to proceed with construction of the Colorado river aqueduct; loan of \$40,000,000 already authorized, of which \$6,000,000 has been expended.

MOUNTAIN VIEW, Santa Clara Co. Cal.—Leitch Pump Co., San Jose (Pomona pump) at \$949.01 awarded contract by city council to furnish and install one deep well turbine pump.

LOS ANGELES, Cal.—Hearing on the improvement of Beverly Blvd., bet. Hilgard Ave. and Paseo Miramar, has been continued by the city council to July 11. The proposed work involves: 18,000 cu. yds. grading; 17,230 sq. ft. concrete pave., 6-in.; 183,325 sq. ft. asphaltic conc. pavement, 6-in.; 145,880 sq. ft. asphaltic concrete pavement, 7-in.; 3,900 sq. ft. concrete pave., 8-in.; 8,075 sq. ft. asphalt concrete pavement, varying thickness; 44,350 lin. ft. curb; 44,080 sq. ft. gutter; storm drain; walls; water system; 69 water services. Engineer's estimate, \$140,397.77.

SELMA, Fresno Co. Cal.—City votes to make survey for municipal water system at election held May 25.

SONOMA, Sonoma Co., Cal. — As previously reported, until June 7, 8 P. M., bids will be received by H. W. Gottenberg, city clerk, to furnish pipe and construct reservoir in connection with municipal water system for which \$33,000 bonds have been sold. This portion of the project involves the complete water main, service lines and construction of a 400,000 gal. reinforced concrete reservoir with roof, including:

DISTRIBUTION SYSTEM

- (1) 970 lin. ft. 8-in. mains under conc. pavement, incl. fittings ALT. c. i. OR steel pipe;
- (2) 1180 lin. ft. do, under asphalt pavement, incl. fittings ALT. c. i. OR steel pipe;
- (3) 280 lin. ft. do, under or in rock cut near reservoir site ALT. c. i. OR steel pipe;
- (4) 2720 lin. ft. do, under dirt surf., incl. fittings, ALT. c. i. OR steel pipe;
- (5) 1220 lin. ft. 6-in. do under conc. pave., incl. fittings, ALT. c. i. OR steel pipe;
- (6) 1830 lin. ft. do, under asph. pave. incl. fittings, ALT c. i. OR steel pipe;
- (7) 1300 lin. ft. do, under oil macadam, incl. fittings, ALT. c. i. OR steel pipe;
- (8) 2770 lin. ft. do, under dirt surface, incl. fittings, ALT. c. i., OR steel pipe;
- (9) 200 lin. ft. 4-in. do, under conc. pave., incl. fittings, ALT, c. i. OR steel pipe;
- (10) 2430 lin. ft. 4-in. do, under asph. pave., incl. fittings, ALT. c. i.

- OR steel pipe;
- (11) 800 lin. ft. do, under oil macadam, incl. fittings, ALT. c. i. OR steel pipe;
- (12) 6400 lin. ft. do, under dirt surface, incl. fittings, ALT. c. i. OR steel pipe;
- (13) 140 lin. ft. 2-in. do, under conc. pave. incl. fittings, ALT. galv. wr. iron OR steel pipe;
- (14) 450 lin. ft. 2-in. do, under asph. pave., incl. fittings, ALT. galv. wr. iron OR steel pipe;
- (15) 300 lin. ft. 2-in. do, under oil mac. pave., incl. fittings, ALT. galv. wr. iron OR steel pipe;
- (16) 9200 lin. ft. do, under dirt surf., incl. fittings, ALT. galv. wr. iron OR steel pipe;
- (17) 6 8-in. gate valves, ALT. hub ends for c. i. pipe or flanged ends for steel;
- (18) 12 6-in. do, ALT. hub ends, or flanged ends;
- (19) 14 4-in. do, hub or flanged ends ALT.;
- (20) 12 2-in. gate valves, provided with screwed ends;
- (21a) 17 disconnect exist, fire hydrants from old system and re-connect same to new system complete, 6-in. connections, including pipe
- (21b) 15 do, 4-in. connections, incl. pipe;
- 21c) 2 do, 2-in. do;
- (22a) 200 ¾-in. furnish and install services from main to stop cock including meter, meter box and re-connecting to house service lines;
- (22b) 1 1-in. do;
- (22c) 1 1½-in. do;
- (23) 148 ¾-in. furnish and install services from main to point of re-connecting to lead to houses, excluding the meter and meter box and re-connecting to existing house lines.

ADD OR DEDUCT for unit on the following, to complete SERVICE CONNECTIONS:

- (24a) 302 ¾-in. copper service expansion leads, 15-in. long, complete with corporation cock at main and with union at other end;
- (24b) 8 1-in. do;
- (24c) 4 1½-in. do;
- (24d) 4 2-in. do;
- (25a) 8100 lin. ft. ¾-in. galv. iron or steel service pipe;
- (25b) 1470 lin. ft. 1-in. do;
- (25c) 440 lin. ft. 1½-in. do;
- (25d) 200 lin. ft. 2-in. do;
- (26a) 344 ¾-in. service connections;
- (26b) 1 1½-in. do;
- (26c) 3 2-in. do;
- (27a) 200 ¾-in. meters and meter boxes;
- (27b) 1 1-in. do;
- (27c) 1 1½-in. do;
- (28) 148 ¾-in. meter and meter boxes to be furnished only;
- (29a) 20 lin. ft. 2-in. galv. wrought iron pipe;
- (29b) 20 lin. ft. 2-in. steel pipe;
- (29c) 180 lin. ft. 4-in. cast iron pipe;
- (29d) 180 lin. ft. 4-in. steel pipe ALT.;
- (29e) 230 lin. ft. 6-in. cast iron pipe;
- (29f) 230 lin. ft. 6-in. steel pipe;
- (30a) 400,000 gal. reinf. concrete reservoir, with wood roof, including all redwood in roof wood structure OR including part redwood (posts and sills) and the balance in Oregon Pine materials; Alternate A complete;
- (30b) do, Alternate B complete, as above.

Specifications prepared by Edward K. Hussey, Hussey & Belcher, Syndicate Bldg., Oakland.

CULVER CITY, Los Angeles Co., Cal.—International Filter Corp., 514 E. 8th St., Los Angeles, awarded contract by the American States Water Corp. at \$12,000 to furnish and install a filter system at the Sentney Pumping Plant, located at Sentney

Ave., near Washington Blvd. The plant will consist of a battery of three horizontal pressure activated carbon filters and will be rated at about 1,250,000 gallons per day. Concrete and other work incidental to the construction of the plant will be done by the water company by force account under the direction of the engineer. C. P. Harnish, 1140 Western Pacific Bldg., Los Angeles, is the chief engineer of the American States Water Company.

EUREKA, Humboldt Co., Cal.—Brizards, Arcata, at approximately \$1200 awarded contract by District Quartermaster, U. S. Forest Service, to install outside water system in three Civilian Conservation Corps camps at Big Bar, Hyampom and Gasquet.

PASADENA, Cal.—Until 11 A. M., June 6, new bids will be received by board of directors to furnish and deliver f.o.b. the municipal light plant, Glenarm and Fair Oaks Avenue, one arch and two walls and appurtenances for furnaces for both single and twin setting for Stirling boilers, in accordance with revised specifications for air cooled suspended arches and walls obtainable from Superintendent of the Light and Power Department, B. F. DeLanty. Certified check 5%. The bids received May 20 were rejected May 23.

OAKLAND, Cal.—Until June 9, 8 P. M., bids will be received by East Bay Municipal Utility District, 512 16th St. Oakland, John H. Kimball, secretary, to furnish:

- (1) 3150 concrete meter boxes;
- (2) 5150 concrete covers.

Specifications LS-106 are obtainable from above office.

OAKLAND, Cal.—Until June 9, 8 P. M., bids will be received by East Bay Municipal Utility District, 512 16th St. Oakland, John H. Kimball, secretary, to furnish two steel storage tanks, 120,000-gal. capacity, one for the Sarnap County Water District and the other for the Fairview County Water District, in connection with construction of reservoirs and pipe lines, work being done by the East Bay District by force account. Further information obtainable from above office.

OAKLAND, Cal.—Identical bids at \$4625 submitted by the following firms to East Bay Municipal Utility District, Oakland, to furnish 50,000 lin. ft. ¾-in. seamless copper tubing:

- C. W. Marwedel, San Francisco.
- Oakland Plumbing & Supply Co.
- Richmond Sanitary Co.
- Phelps-Dodge Copper Co.
- Pacific Metals Company.
- Tay-Holbrook Company.
- Dunham, Carrigan & Hayden Co., San Francisco.
- Grinnell Company of California, San Francisco.
- American Brass & Copper Sup. Co.
- Walworth-California Company.
- Marshall Newell Supply Co.
- Ducommun Corporation.
- Mueller Company.
- Crane Company.

Baltimore Tube Co. bid \$5000. All bids 1% discount for cash 10 days. Bids held under advisement.

35—TUNNELS

LOS ANGELES, Cal.—A. Teichert & Son of Sacramento, awarded a sub-contract by Winston Bros. Co. to construct 12 miles of graded and oiled access road in connection with the construction of the Iron Mountain and Coxcomb tunnels. A. Teichert & Son have the contract for constructing for the Metropolitan Water District 21 miles of highway in the Des-

ent Center-Grommet section.

Winston Bros. Co.] have opened an office at 920 Title Guarantee Building, Los Angeles, with J. C. Agnew of Minneapolis in charge.

29—STREETS AND HIGHWAYS

SAN FRANCISCO.—Department of Public Works, S. J. Hester, Secretary plans to improve crossing of Innes Ave. and Mendell, involving:

- (1) 110 ft. unarmored conc. curb;
- (2) 880 sq. ft. 1-course concrete sidewalk;
- (3) 3 brick catchbasins;
- (4) 100 ft. 10-in. V.C.P. sewer;
- (5) 4190 sq. ft. asph. conc. pave.

Estimated cost, \$1527. Specifications will be available from the office of John J. Casey, city engineer, 3rd floor, City Hall. 29

SAN FRANCISCO.—Department of Public Works, S. J. Hester, Secretary plans to improve crossing of Gaven and Merrill, involving:

- (1) 400 cu. yds. excavation;
- (2) 63 ft. armored concrete curb;
- (3) 284 sq. ft. 1-course concrete sidewalk;
- (4) 25 ft. 12-in. V.C.P. sewer;
- (5) 3 brick catchbasins;
- (6) 60 ft. 10-in. V.C.P. culvert;
- (7) 2686 sq. ft. asph. conc. pave.

Estimated cost, \$1150. Specifications will be available from the office of John J. Casey, city engineer, 3rd floor, City Hall. 29

SAN FRANCISCO.—Department of Public Works, S. J. Hester, Secretary plans to construct sidewalks on Oneida Ave., Otsego to Delano, et al, involving 6000 sq. ft. 1-course concrete sidewalks. OAKLAND, Cal.—Until June 9, 8 P. M. bids will be received by East Bay Municipal Utility District, 512 16th St. Oakland, John H. Kimball, secretary, for 40,000 sq. ft. street repair work, as follows:

- (1) 1,300 cu. ft. asph. conc. base, complete in place;
- (2) 35,000 sq. ft. asph. street paving, complete surface;
- (3) 3,000 sq. ft. asph. street paving repair, skin patching only;
- (4) 500 cu. yds. concrete, wet mix, delivered at trench, exclusive of spreading.

Specifications LS-107 are obtainable from above office.

MADERA AND FRESNO Counties, Cal.—Until June 15, 2 P. M., bids will be received by C. H. Sweetser, District Engineer, U. S. Bureau of Public Roads, 461 Market St., San Francisco, for approximately 30 miles of asphaltic surface treatment on Sections A, B and C, Route 74, Northfork National Forest Highway, Sierra National Forest, involving 230,000 gals. furnish and apply liquid asphaltic road material. Specifications obtainable from above office on deposit of \$10, check payable to Regional Fiscal Agent, U. S. Forest Service. 29

RED BLUFF, Tehama Co., Calif.—Directors of Joint Highway District No. 18, Butte and Tehama counties, have authorized Martin Polk, district engineer, to prepare plans and specifications for construction on district road between Proberta and Los Molinos, bids to be opened by June 20. Estimated cost, \$30,000, of which \$500 will be borne by Butte County, \$16,000 by Tehama County, and the

balance by the state from the gas tax. 9

SAN JOSE, Santa Clara Co., Cal.—Until June 12, 11 A.M., bids will be received by Henry A. Pfister, county clerk, to improve Day Road from Monterey Road to Watsonville Road, involving 409,600 sq. ft. oil macadam. Specification obtainable from Robert Chandler, county surveyor, on payment of \$1, not returnable.

LOS ANGELES, Cal.—Until 10 A. M., June 7, bids will be received by Board of Public Works for improving 32nd St., from Figueroa St. to Shrine Place, and Royal St. from 32nd St. to Jefferson St., in the 32nd St. and University Ave. Improvement District, under Cash Contract. The work will involve:

- STREET IMPROVEMENT—**
- Grading (not figured);
 - 150 sq. ft. 8-in. concrete (local depressions);
 - 139,460 sq. ft. 6-in. compressed concrete paving;
 - 1,955 sq. ft. 4-in. asph. concr. wearing surface;
 - 142 sq. ft. 3-in. asph. concr. wearing surface;
 - 1,665 sq. ft. 2-in. asph. concr. wearing surface;
 - 17 sq. ft. 8-in. asph. concr. wearing surface;
 - 1,169 sq. ft. asph. concr. wearing surf. (var. thickness, average 3-in.);
 - 50 sq. ft. asph. concr. wear. surf. (var. thickness, average 2-in.);
 - 631 sq. ft. 6-in. walk (driveways);
 - 400 sq. ft. 4-in. walk (driveways);
 - 32 sq. ft. 6-in. gutter;
 - 55 sq. ft. 8-in. gutter;
 - 1,022 ft. unplas. heavy curb;
 - 17 ft. special steel curb;
 - 868 sq. ft. one-course walk.

SANITARY SEWER, including:

- 217.82 ft. 8-in. sewer, incl. 11 8x6-in. wyes;
- 398 ft. 6-in. sewer, incl. 17 6-in. 1/8th beds;

One standard flush tank, No. 2;
One standard manhole frame & cover;
One existing flush tank to be remodelled to manhole "B."

STORM DRAIN, including:

- 454 ft. 21-in. pipe;
- 42 ft. 18-in. pipe;
- 21 ft. 15-in. pipe;
- 24 ft. 12-in. pipe;
- 2 catchbasins, No. 31;
- 1 catchbasin, No. 29;
- 3 catchbasin frame & cover sets
- 1 manhole "EZ.;"
- 2 manhole frame and cover sets
- R-model ornam. lighting conduit;
- One special manhole "EZ."

REMOVALS:

- 1,032 ft. curb;
- 1,225 sq. ft. walk;
- 3,389 sq. ft. gutter;
- 797 sq. ft. driveway;
- 343 sp. ft. wearing surface;
- 70 sq. ft. concrete paving;
- 15,294 sq. ft. asph. surface.

PEARL HARBOR, T. H. — Jonah Kumalae at \$4700 submitted low bid under Spec. No. 7134 for additional paving in the vicinity of Seaplane Hangar, Fleet Air Base, Pearl Harbor. Complete bids follow:

Jonah Kumalae	\$4700
E. E. Black, Ltd.....	6200
Walker & Olund.....	5161

Pong & Figueira.....	6950
Hawaiian Contracting Co.....	7628

Bids held under advisement.

ALAMEDA, Alameda Co., Calif.—Following have procured plans for the purpose of submitting bids to the Constructing Quartermaster, Benton Field Air Depot, 33 Pacific Ave., Alameda, in connection with the grading of runways, placing rock underfill, and con-

structing extension to drainage system at the Benton Field Air Depot, Alameda:

- F. W. Snook, 596 Clay St., San Francisco.
- Oakland Sewer Construction Co.
- J. Catucci, 1212 18th Ave., Oakland.
- J. A. Fazio, 402 Castro St., Oakland.
- Peninsula Paving Co., 225 Bush St., San Francisco.
- W. H. Larsen, 432 Michigan, Berkeley.
- Hutchinson Co., 1450 Harrison St., Oakland.
- Central California Roads, 2779 Poplar St., Oakland.

ALAMEDA, Alameda Co., Calif.—Following have procured plans for the purpose of submitting bids to the Constructing Quartermaster, Benton Field Air Depot, 33 Pacific Ave., Alameda, on June 15 in connection with placing bituminous or concrete surfacing on roads and paved areas at Benton Field Air Depot, Alameda:

- Central California Roads, 2779 Poplar St., Oakland.
- Heafey-Moore Co., 344 High Street, Oakland.
- Hutchinson Co., 1450 Harrison St., Oakland.
- Independent Concrete Co., 46th and Clement Ave., Oakland.
- W. H. Larsen, 432 Michigan, Berkeley.
- Peninsula Paving Co., 225 Bush St., San Francisco.
- J. Catucci, 1212 18th Ave., Oakland.
- K. E. Parker Co., 135 South Park, San Francisco.

ORANGE COUNTY, Cal. — Griffith Co., 502 Los Angeles Railway Bldg., Los Angeles, at \$3560 submitted lone bid May 31 to District Engineer, State Highway Commission, Los Angeles, for highway construction between Dohney Park and San Juan Creek; portions of existing pavement to be widened and curves to be super-elevated with asphalt concrete, involving:

- (1) 1000 sq. yds. subgrade for pave.;
- (2) 800 tons sq. yds. concrete in place;
- (3) 1500 sq. yds. asph. paint linder in place.

LOS ANGELES, COUNTY, Cal.—Until June 21, 2 P. M., bids will be received by State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 0.3 ml. San Gabriel River bridge approaches, involving:

- (1) clear and grub right-of-way;
- (2) 34,000 cu. yds. imp. borrow;
- (3) 5300 sq. yds. subgrade for pave.;
- (4) 1110 cu. yds. class A Port. cem. conc. (pave.);
- (5) 25,000 lbs. bar reinf. steel (pave.);
- (6) 200 bbls. heavy fuel oil;
- (7) 950 M gal. water;
- (8) 600 lin. ft. bank protection fence;
- (9) 1900 lin. ft. lam. timber guard rail;
- (10) 14 sta. finish roadway.

SAN JOSE, Santa Clara Co., Cal.—Until June 12, 11 A. M., bids will be received by Henry A. Pfister, county clerk, to improve Middlefield Road, from Matadero Creek to Bayshore Highway, involving 302,900 sq. ft. oil macadam. Specifications obtainable from Robert Chandler, county surveyor, on payment of \$1, not returnable.

SACRAMENTO, Cal.—County supervisors plan highway improvements totaling \$15,000, involving construction in the 4th and 5th supervisory districts. Chas. W. Deterding, Jr., county engineer. 9

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

IMPROVE LAS PALMAS AVE.—LOS ANGELES CITY

LOS ANGELES, Cal.—Carl Ehrhart, 2700 Exposition Place, submitted low bid to board of public works May 24 at \$5139.03 to improve Palmas Ave., between Milner Road and Highland Ave., 396 ft. center line. The work will involve:

- (1) grading (392 cu. yds. cut, 212 cu. yds. fill);
- (2) 29 sq. ft. 8-in. concrete local depression;
- (3) 7383 sq. ft. 6-in. conc. paving;
- (4) 60 sq. ft. 4-in. concrete paving (driveways);
- (5) 579 sq. ft. 4-in. asphalt concrete wearing surface;
- (6) 48 sq. ft. asphalt concrete wearing surface (variable thickness)
- (7) 100 sq. ft. Class C resurfacing;
- (8) 80 sq. ft. Class D resurfacing;
- (9) 711 ft. reinf. integral curb;
- (10) 80 ft. unplastered light curb;
- (11) 9 ft. steel curb plate, 1/4-in. thick
- (12) 1265 sq. ft. 1-course sidewalk;
- (13) 196 sq. ft. 6-in. concrete gutter;
- (14) storm drain complete;
- (15) 561 sq. ft. 2-in. rock and oil road-way;

- (16) 27 ft. ornamental iron railing;
- (17) sanitary sewer complete;
- (18) 89 ft. house connection sewers;
- (19) remodel manholes (lump sum);
- (20) water system;
- (21) reinf. conc. retaining wall;
- (22) one water service;
- (23) reconstruct ornamental lighting conduit, etc.

Remove: 49 ft. curb, 124 sq. ft. walk, 48 sq. ft. gutter, 48 sq. ft. wearing surface, 397 sq. ft. driveway, 14 concrete steps, 12 ft. side walls and bottom for open concrete storm drain 5 ft. concrete wall, 29 sq. ft. concrete paving, one stone pillar, 129 ft. wire fence, 49 ft. lattice fence, one tree, 3 trees to be trimmed, one stump and one bridge.

The total bids were:

- (A) Carl Ehrhart, \$5439.03.
- (B) John Topich, \$5791.62.
- (C) Bob Bosko, \$6106.43.
- (D) R. A. Wattson, \$7332.54.
- (E) Engineer's estimate, \$5949.67.

RECON. MANTECA BR.—STANISLAUS & SAN JOAQUIN

STANISLAUS AND SAN JOAQUIN Co., Cal.—Carl N. Swenson, 355 Stockton Ave., San Jose, at \$79,932.23 submitted low bid May 24 to State Highway Commission, Sacramento, to reconstruct a bridge across Stanislaus River 7.6 ml. south of Manteca consisting of redecking the two 103-ft. earth filled arch spans and replacing timber trestle approach span with concrete decks on concrete pile bents, and grading and paving approaches with Portland cement concrete and bituminous treated crushed gravel or stone surfacing, involving:
(1) 5 trees remove and dispose of;
(2) 1 timber detour bridge;
(3) 514 cu. yds. remove and dispose of Port. cem. conc. waste pile;
(4) 4800 cu. yds. rdwy. excav., unclassified;
(5) 160 cu. yds. struc. excav.;
(6) 1100 cu. yds. excav. (arch filling);
(7) 700 sta. yds. overhaul;
(8) 4000 cu. yds. imp. borrow;
(9) 1486 sq. yds. subgrade for pave.;
(10) 1535 tons untreated crushed stone or gravel (detour & base course)
(11) 154 tons crushed gravel or stone (bit. treated surf.);
(12) 8 tons cut-back asphalt;
(13) 16 bbls. light fuel oil (base course and borders);
(14) 182 bbls. heavy fuel oil (detours)
(15) 3810 lin. ft. reinf. conc. piles (including test piles);
(16) 1240 cu. yds. Class A Portland cem. conc. (struc.);
(17) 320 cu. yds. do (pave.);

- (18) 180,000 lbs. bar reinf. steel (pave. and struc.);
(19) \$27,000 lbs struc. steel;
(20) 4324 lbs. cast steel;
(21) 84 lin. ft. 24-in. corr. metal pipe
(22) 1 existing bridge to be removed;
(23) .24 mile new property fence;
(24) 1 14-ft. x 58-in. tubular steel gate
(25) 2475 lin. ft. solid timber railing;
(26) 170 cu. yds. salvage surfacing;
(27) 90 M. gals. water apply to base, surfacing and borders;
(28) 104 cu. yds. Port. cem. conc. in existing pave. to be removed;
(29) 34 sta. finish roadway;
(30) 7 monuments complete in place;
(31) 1 lot misc. items of work.

State will furnish corrugated metal pipe.

Complete bids follow:

- (A) Carl N. Swenson, San Jose, \$79,932.23.
(B) Neves & Harp, Santa Clara, \$81,422.25.
(C) J. F. Knapp, Oakland, \$83,480.
(D) Bodenhamer Constr. Co., Oakland, \$84,469.96.
(E) Fredrickson & Watson, Oakland, \$85,995.08.
(F) N. M. Ball and F. O. Bohnett, Berkeley, \$86,508.20.
(G) Rocca & Caletti, San Rafael, \$90,876.50.
(H) J. F. Shepherd, Stockton, \$94,310.96.
(I) M. B. McGowan, San Francisco, \$348,417.

Unit bids follow:

Table with 11 columns (A-I) and 31 rows of unit bid prices for various construction items.

IMPROVE WOODSIDE AVE. — SAN FRANCISCO

SAN FRANCISCO. — Fay Imp. Co., Pbelan Bldg., at \$20,478.85 submitted low bid May 31 to Department of Public Works to improve Woodside Ave., Portola to Laguna Honda Blvd., involving:
(1) 4100 cu. yds. grading (excav.);
(2) 100 cu. yds. do (fill);
(3) 3960 ft. unarmored conc. curb;
(4) 25 ft. conc. curb, reset;
(5) 11 brick catchbasins;

- (6) 309 ft. 10-in. V.C.P. culvert;
(7) 2 brick catchbasins, reset;
(8) 18,000 sq. ft. 1-course concrete sidewalk;
(9) 15 ft. 8-in. V.C.P. sewer;
(10) 160 cu. yds. rubble wall reconstr.;
(11) 80,400 sq. ft. asph. conc. pave.;
(12) 2400 sq. ft. asph. conc. conform wearing surface.

Complete bids follow:

Table with 12 columns (1-12) and 6 rows (A-F) of unit bid prices for Woodside Ave. project.

SANTA ROSA, Sonoma Co., Calif.—All bids rejected by county supervisors and work will be done by day labor to construct four miles of new road on Skaggs Springs-Stewart's Pt. road, 5th Supervisorial District, involving:

- (1) 66,000 cu. yds. excavation;
(2) 1,000 ft. 12-in. culvert pipe;
(3) 1,000 ft. 15- or 16-in. do;
(4) 600 ft. 24-in. do;
(5) 500 ft. 30-in. do;
(6) 500 ft. 36-in. do;
(7) 85 MFBM redwood timber;
(8) 5,000 lbs. bolts, plates & dowels;
(9) 18 cu. yds. concrete;
(10) 1,800 lbs. reinf. steel;
(11) 1,000 ft. place and haul 12-in. culvert pipe;
(12) 1,000 ft. place and haul 16-in. do;
(13) 600 ft. place and haul 24-in. do;
(14) 500 ft. place and haul 30-in. do.

Complete bids follow:

- (A) Rocca & Caletti, San Rafael, \$32,398.00.
(B) Meyer Rosenberg, San Francisco, \$43,311.00.

LOS ANGELES, Cal.—Chas. Booth, 5922 1/2 Estrella St., submitted low bid to Board of Public Works, May 24, at \$1029.05 to improve second alley west of Cabrillo Ave., between 17th St. and 18th St., under the 1911 Act. The engineer's list of quantities follow:

- (1) grading (168 cu. yds. cut, 2 cu. yds. fill);
(2) 5401 sq. ft. 5-in. concrete paving;
(3) 6 ft. unplastered light curb;
(4) 10 sq. ft. one-course walk.

Remove: 6 ft. curb, 10 sq. ft. walk.

The bids were:

- (A) Charles Booth.
(B) John Topich.
(C) Arthur E. Pearson.
(D) Griffith Co.

(E) Engineer's estimate.

Table with 5 columns (A-E) and 5 rows of bid prices for Los Angeles project.

OAKLAND, Cal.—U. S. Pipe and Foundry Co., Monadnock Bldg., San Francisco, at \$60,267.50 (if awarded all items) and at \$61,412.50 total bid, submitted low bid to East Bay Municipal Utility District, Oakland, to furnish:

- (1) 73,000 lin. ft. 4-in. cast iron pipe;
(2) 30,000 lin. ft. 6-in. do;
(3) 24,000 lin. ft. 8-in. do.

Complete bids follow:

- (A) U. S. Pipe & Foundry Co., San Francisco, \$60,267.50.
(B) R. D. Wood & Co., \$61,865.00.
(C) Pacific States C. I. Pipe Co., \$63,280.00.
(D) American C. I. Pipe Co., \$64,550.
(E) Ipamco Pipe Corp., \$67,495.00.

Unit bids follow:

Table with 3 columns (1-3) and 5 rows (A-E) of unit bid prices for Oakland project.

Bids held under advisement.

SAN PABLO PIPE LINE — SAN FRANCISCO

SAN FRANCISCO—E. J. Treacy, 309 Call Bldg., San Francisco, at \$7390.25 submitted low bid May 31, to Public Utilities Commission to lay 16-in. cast iron pipe line on San Pablo Ave., Yerba to Wildwood Ave., involving: (1) 5560 ft. excav. and backfill, trench (2) 50 cu. yds. additional do; (3) 340 sq. ft. additional pavement remove and replace, bitumen on concrete; (4) 333 tons install pipe and fittings;

(5) 1850 ft. make joints; (6) 1 cu. yd. plain concrete; (7) 15,215 sq. ft. repave, bitumen on concrete; Specifications obtainable from San Francisco Water Department, Room 605, 425 Mason St., on deposit of \$10. Certified check 10% required with bid. Estimated cost \$11,710. Complete bids follow: (A) E. J. Treacy, \$7390.25. (B) Lowrie Paving Co., \$7477.80.

(C) J. O'Shea, \$7772.625. (D) S. F. Water Dept., \$8725.55. (E) Fred W. Snook, \$7976.35. (F) W. J. Tobin, \$8169.96. (G) Theo. Cohn, \$8481.35. (H) Eaton & Smith, \$8538.25. (I) Pacific Pavements, \$8766.90. (J) M. B. McGowan, \$8791.23. (K) Fay Improvement Co., \$9540.82. (L) Harvey E. Conner, Redwood City, \$9574. Unit bids follow:

Table with 12 columns (A-L) and 7 rows of unit bid prices for items 1 through 7.

1.3-MI. GRADE & CEMENT CONCRETE PAVE — L. A. CO.

LOS ANGELES CO. Cal. — C. O. Sparks, 2309 E. 9th St., Los Angeles, at \$43,218.25 submitted low bid May 24 to State Highway Commission, Sacramento, to grade and pave with Portland cement concrete 1.3 mi. between Fullerton and Pomona at Brea Canyon Summit, involving: (1) 64 sta. clear & grub right-of-way (2) 64,000 cu. yds. rdwy. excav., unclass; (3) 310,000 sta. yds. overhaul; (4) 1800 cu. yds. struc. excav.; (5) 14,600 sq. yds. subgrade for pave; (6) 2135 cu. yds. class A Portland cement concrete (pave.); (7) 220 cu. yds. do (struc.); (8) 91,800 lbs. bar reinf. fl steel (pave and struc); (9) 200 lin. ft. 8-in. corr. metal pipe; (10) 370 lin. ft. 24-in. do;

(11) 130 lin. ft. 30-in. do; (12) 8 lin. ft. 36-in. corr metal pipe; (13) 1700 M. gals. water; (14) 80 tons broken stone (bit. macadam); (15) 3.5 tons grade E asph. (bot. macadam); (16) 2200 cu. yds. concrete remove from existing pavement; (17) 14 culvert markers; (18) 2 mi. type A property fence; (19) 0.6 mi. type B do; (20) 6 fence gates; (21) 69 sta. finish roadway; (22) 13 monuments complete in place; State will furnish corrugated metal pipe and spillway assemblies. Complete bids follow: (A) C. O. Sparks, Los Angeles, \$43,218.25. (B) J. L. McClain, Los Angeles, \$46,832.50.

(C) Oswald Bros., Los Angeles, \$48,236.70. (D) B. G. Carroll, San Diego, \$48,585.45. (E) Weymouth Crowell Co. and E. Penn Watson, Pasadena, \$48,787.30. (F) Basich Bros., Torrance, \$49,295.75. (G) Gogo & Rados, Los Angeles, \$50,832.20. (H) Matich Bros., Elsinore, \$51,504.90. (I) Sander Pierson, Santa Monica, \$53,558.25. (J) United Conc. Pipe Corp., Los Angeles, \$53,837. (K) J. L. Conner and K. Kristlich, Los Angeles, \$55,585. (L) Griffith Co., Los Angeles, \$242,311.50. Unit bids follow:

Table with 12 columns (A-L) and 22 rows of unit bid prices for items 1 through 22.

FOREST HILL PIPE LINE — SAN FRANCISCO

SAN FRANCISCO—Eaton & Smith, 715 Ocean Ave., at \$5989 submitted low bid May 29 to Public Utilities Commission to lay 16-in. cast iron pipe line through Forest Hill subdivision, involving: (1) 5500 ft. excavation and backfill of trench; (2) 50 cu. yds. oil macadam do; (3a) 300 sq. ft. oil macadam, additional pave, remove and replace; (3b) 40 sq. ft. bitumen on concrete, additional pave, remove and replace; (4) 372 tons install pipe and fittings; Unit bids follow:

(5) 1970 ft. make joints; (6) 3 cu. yds. plain concrete; (7a) 9260 sq. ft. oil macadam, repave; (7b) 815 sq. ft. bitumen on concrete, repave. Complete bids follow: (A) Eaton & Smith, \$5989.00. (B) W. J. Tobin, \$6188.34. (C) J. O'Shea, \$6189.35. (D) S. F. Water Dept., \$6648.90. (E) Lowrie Paving Co., \$7321.65. (F) F. W. Snook, \$8081.90. (G) E. J. Treacy, \$8263.00. (H) M. B. McGowan, \$8476.75. (I) Fay Imp. Co., \$8704.45.

Table with 12 columns (A-L) and 7 rows of unit bid prices for items 1 through 7.

Table with 12 columns (A-L) and 7 rows of unit bid prices for items 1 through 7.

AWARD

NAPA, Napa Co., Cal.—R. L. Norris, Sacramento, at \$7840 awarded contract by State Department of Architecture, Geo. B. McDougall, State Architect, to drill a water well at the Napa State Hospital. Bids were opened May 24. Only other bid submitted by Western Well Drilling Co., San Jose, at \$14,120.

SAN JOSE, Santa Clara Co., Cal.—O. G. Ritchie, 154 No. 11th St., San Jose, at \$2668 awarded contract by county supervisors to improve Gilman, Dillon, Everett and part of Central Ave. in Campbell, Supervisors District No. 4, involving 52,560 sq. ft. oil macadam. Complete bids follow: O. G. Ritchie, San Jose, \$2668. A. J. Raisch, San Jose, \$3365. Granite Constr. Co., Watsonville \$425. Engineer's estimate, \$3470.

SAN FRANCISCO, CALIF., JUNE 10, 1933

No. 21

MILL PRODUCTION IS INCREASED AS NEW ORDERS GAIN

Current Sales Reported By West Coast Association Over Cut 52 Pct.

A total of 252 down and operating mills which reported to the West Coast Lumbermen's Association for the week ending May 27 produced 82,188,205 board feet of lumber. This was an increase of 2,361,078 feet or 2.96 percent over their cut in the preceding week.

The average week's production of this group in 1933 has been 61,797,863 feet. During the same period of 1932, their weekly average was 66,303,436 feet.

In the four weeks from May 6 to May 27, inclusive, 180 mills reported total production of 278,877,000 board feet of lumber and orders of 442,090,000 feet; orders greater than production by 59 per cent. Unfilled orders increased 61 per cent from April 29 and now represent 36 per cent of the lumber in stock, the highest ratio since March, 1930. Stocks are lower by 18.8 per cent this year than last, while orders since January 1 exceed those of last year by 11 per cent and production in the same period is 6 per cent less.

The new business reported last week by 180 mills are 112,858,615 board feet against a production of 73,644,507 feet and shipments of 81,364,508 feet. Their shipments were over their production by 10.44 per cent and their current sales were over production by 52.03 per cent. The orders booked last week by this group of identical mills were less than their orders of the preceding week by 1,117,167 feet or 0.97 per cent.

Details of orders and shipments as reported by these 180 mills are:

	Orders	Shipments
Rail	33,674,757	28,944,445
Domestic	55,914,923	26,939,192
Export	16,444,959	18,656,895
Local	6,823,976	6,823,976

112,858,615 81,364,508
The unfilled order file at these mills stood at 378,872,564 board feet, an increase of 28,131,558 feet from the week before.

THE WEEK'S NEWS Highlights

FEDERAL MONEY. California State Chamber of Commerce is collecting data on projects eligible for financing in whole or part under the Federal public works program, which it is expected will receive final approval in Congress early next week. More than \$300,000,000 in California state and local works will seek financing through the new bill, it is estimated. Among these are additions and betterments for the San Francisco water department aggregating \$33,000,000.

BUILDING PERMITS. Gains over the previous month and over the corresponding month of last year are shown in many cities reporting their May building permit totals. All bay cities report improvement in ordinary building operations, while San Francisco enjoys the distinction of more than thirty-one millions of the bay bridge contracts in addition to increases in the usual classifications.

GAS TAX. California state highway work is virtually at a standstill, with layoff of 200 engineers and draftsmen ordered due to uncertainty over the allocation of gasoline tax revenues for the coming biennium. Legislators will decide finally the fate of the tax fund when they reconvene in July. Meanwhile many organizations are campaigning for a decisive protest vote on proposals for diversion which will appear on the ballot June 27. Addition of 6600 miles of county roads to the state secondary system obligates the state to spend about \$6,000,000 additional for maintenance annually, while the same bill, signed by the Governor, gives to municipalities approximately \$6,000,000 more that heretofore has been expended by the State Highway Department on new construction.

LUMBER. This continues to be the brightest spot among industries affiliated with construction. New orders are climbing from week to week, now are highest in two years. Prices are being revised upward also as the manufacturers gain optimism.

SIX COMPANIES START CONCRETE ON BOULDER DAM

Five And Half Million Barrels Of Cement to be Required In Two Years

Six Companies, Inc., have started pouring concrete for the Boulder Dam, well ahead of schedule on the job that will use 5,500,000 barrels of cement, according to word received here yesterday.

Approximately two years will be required to pour the dam, it is estimated. During the peak of operations it is planned to pour 150,000 to 200,000 cubic yards of concrete a month, which will require continuous operation of six to eight 4-cubic yard mixers.

Concrete will be poured from 8-cubic yard buckets suspended on five 20-ton cableways over the dam site.

According to present plans the Hi-Mix concrete plant recently completed near No. 9 head tower will manufacture most of the concrete for spillways, intake towers, valve houses and upper portion of the dam, completing its work in 1937. The Lo-Mix plant in Black Canyon, 4,000 feet upstream from the dam site, has been in operation since February 28, 1932, and has manufactured approximately a third of a million cubic yards of concrete, most of which has been placed in the linings of diversion tunnels. It is planned that this plant will mix the concrete for the lower portion of the dam and be dismantled in 1935, preceding the storage of water back of the partially completed dam.

A railroad has been partly constructed from the Lo-Mix plant, running downstream beneath Cableways Nos. 5 to 8, inclusive, and another is planned to be built from the Hi-Mix plant running upstream beneath all cableways. Bottom dump buckets of 8-yard capacity mounted on flat cars will receive the concrete from the plants. The buckets will be transported by rail to a position beneath the designated cableway and then will be conveyed by cableway to the pouring site. Each bucket with its load will weigh approximately 20 tons.

STATE TO SPEND \$207,000 ON NEW HIWAY PROJECTS

Program for Last Month of
Fiscal Year Completed
By Department

Continuation of California's highway building program during the first five months of the year provided for the expenditure of more than \$16,000,000 on new and carry-over projects, records of the state division of highways reveal.

The item of new construction and reconstruction totaled \$5,075,700; maintenance, \$2,259,000, and the fund to complete work carried over from 1932, \$8,673,000.

Work orders for new projects have been issued in the amount of \$608,300, projects advertised total \$287,000 and projects anticipated for advertising during June, \$207,000. At the beginning of the month there were 85 going contracts for state highway work in force, of which 67 were for road construction and 18 for bridges and grade separations.

The spring oiling program for the alleviation of dust on shoulder and earth roads is virtually all under way, according to reports. Contracts for the oiling of 426 miles of state highway at a cost of \$124,800 have been awarded. The program contemplates the expenditure of \$150,000 for oiling 500 miles of roads.

SACRAMENTO SCHOOLS GET LOWER INSURANCE

Revision of insurance coverage on Sacramento city schools has been approved by the board of education which will reduce the annual premium by \$1700. Reappraisal of the school properties by the Federal Appraising Company resulted in reduction of the blanket coverage from \$5,544,500 to \$4,165,414, excluding three new junior high schools which are being completed. The new buildings are included at a valuation of \$838,474. The rate to the school district has been reduced from 61 cents to 60 cents per \$1000.

New orders booked during the first quarter of 1933, as reported to the Bureau of the Census by 78 manufacturers of electrical goods, were \$57,897,333, as compared with \$62,911,874, for the fourth quarter of 1932, and \$77,351,480, for the first quarter of 1932.

BREWING COMPANY TO BUILD PLANT

Plans are being prepared for a new brewery to be built either in San Francisco or Oakland by the Samarkand Brewing Co., 893 Folsom street, San Francisco, officials of the company announced yesterday. The plant will cost \$275,000, it is estimated. The engineering department of the company, which is associated with the Samarkand Ice Cream Company, is drafting plans, but a decision on the location has not yet been reached, according to J. P. Rettenmayer, a director. Directors of the new corporation, which is capitalized at \$500,000, include Paul L. Schmidt, Frank M. Kenny, Lee M. Olds, Philip H. Hess, L. A. Emge and Walter K. Olds, all of San Francisco.

TAX DIVERSION WILL CUT ROAD FUND TO \$5,000,000

New Construction Threatened
By Plans to Appropriate
Revenue

California will have but \$5,000,000 to spend on new highway construction during the next 2 years if the \$17,000,000 gasoline tax diversion is approved and other legislation now pending is signed by the governor.

Officials estimated the income for state highway construction and maintenance during the next two years will be \$53,000,000.

If Governor Rolph approves the bill taking 6,600 miles of county roads into the state's secondary system an unexpected obligation of \$6,000,000 biennially will be incurred by the state. Another \$6,000,000 is to be diverted to municipalities.

To maintain California's existing highway mileage will require \$19,000,000 during the forthcoming biennium.

"Therefore," remarks Eric Culenward, deputy director of public works and authority for the figures, "it becomes a matter of simple mathematics that if \$17,000,000 more is diverted from the gasoline tax fund to the general fund, there will remain only \$5,000,000 for new highway construction during the next two years."

TO ASK \$15,000,000 LOAN FOR SOUTH

State Will Guarantee Funds
Advanced by R. F. C.
To Rebuild

A bill enabling the state to negotiate a loan from the Reconstruction Finance Corporation for \$15,000,000 to replace Southern California school buildings destroyed in the earthquake has been signed by Governor Rolph.

The act is one introduced by Assemblyman Samuel M. Greene. It establishes a board of public construction to consist of the state directors of education, finance and public works, the state controller and the chief of the division of schoolhouse planning.

The Governor is authorized to accept not to exceed \$15,000,000 payable to the state treasury and to the credit of the board. The money is to be expended for replacement or repair of public buildings wholly or partially destroyed by earthquake since January, 1933.

The funds may be obtained from the state by the governing body of any political subdivision for reconstruction within their jurisdiction. The state fund would be reimbursed through rentals or budgetary appropriations of the borrowing agencies. The loan from the Reconstruction Finance Corporation is guaranteed by the state.

The state law setting up minimum horizontal stress requirements for all buildings other than single-family or duplex dwellings also was signed by the Governor. This act becomes effective immediately under an urgency clause.

WATER DISTRICT SEEKS NEW LOAN

Los Angeles Metropolitan Water District will petition the Reconstruction Finance Corporation for an additional loan of \$59,750,000 with which to proceed with construction of the Colorado river aqueduct, it was decided by the board of directors.

The district already has an authorization for a loan of \$40,000,000 of which \$6,000,000 has been expended.

ADOPT UNIFORM RATE

A uniform scale of pay for work on county roads has been adopted by the Fresno board of supervisors, eliminating variations between different supervisorial districts for the same type of labor. The scale ranges upward from \$3.60 a day paid common labor.

NINE MILLION HOMES IN U. S. NEED PLUMBING

Master Plumbers Executive Says Huge Market For Bathrooms

"If we are going to spend federal funds on construction projects, why not give preference to work that will improve the American standard of living and contribute to the health and comfort of millions of people?"

This question was raised by E. B. Kleine of Cincinnati, president of the National Association of Master Plumbers, who was a recent visitor on the Pacific Coast.

Mr. Kleine believes that the federal government should give preference to slum clearance work, small house construction, sewerage and water works construction and extension, and all types of home and industrial modernization.

"With plumbing materials selling at 43 per cent below the prices prevailing during the peak of construction, and plenty of skilled labor available, this is an ideal time for plumbing modernization and the installation of additional plumbing equipment.

"There is possibly no other improvement which has such a direct bearing on the nation's health and well-being as the bringing of running water to every small town and rural home in America," the head of the nation's plumbing contractors said.

"Statistics show that those states with the largest number of homes equipped with running water have the lowest percentage of infant mortality, while the states with the smallest number of homes equipped with plumbing have the highest percentage of infant death rate."

Pointing out that there are approximately 9,000,000 homes without bath-tubs, the head of the nation's plumbers called attention to what the equipping of this number of bathrooms would mean to other industries.

"The installation of 9,000,000 bathrooms in existing houses would mean 9,000,000 window shades, curtains, soap dishes, medicine cabinets, lighting fixtures, electric switches, and door stops in addition to such items commonly associated with bathrooms, as for instance the bath tub, the closet, and the lavatory.

"A large percentage of the 9,000,000 bathrooms would naturally be equipped with shower baths, either the over-the-tub or stall type.

"In addition there would be involved the purchase of 18,000,000 towel bars, 18,000,000 faucets, 18,000,000 valves, and more than a billion feet of iron and steel pipe for the hot and cold water supply and millions of feet for soil and waste pipe."

STATE BOARDS COOPERATE IN ENFORCING ACTS

Architects and Engineers Agree On Mutual Aid In Regulation

An agreement for mutual assistance in enforcement of their respective regulations has been reached by the Board of Architectural Examiners and the Board of Registration for Civil Engineers, according to the report of Carlos W. Huntington, director of the Division of Professional Standards, filed with the governor.

All violations by architects of the civil engineers act are to be reported first to the architectural examiners, this agency to advise the engineers' board of the disposition of the case. In return the engineers board will be notified first of infringements of the architects' act and will advise the architectural examiners.

There are now 695 licensed architects, the board reported, following certification of five candidates during the month. Eight licenses were issued during the month by the engineers' board, bringing the total licentiates to 5192.

BAY FACTORIES HAVE CONTRACTS FOR SPAN WORK

Caisson Construction Engaging Crews in Three Plants

Fabrication of materials for two of the deep water piers of the western half of the San Francisco-Oakland Bay Bridge is now well under way in three plants, two in the East Bay and one in South San Francisco, according to a report from Chief Engineer C. H. Purcell to State Director of Public Works Earl Lee Kelly.

Two of the great caissons for Piers 6 and 4 have been under construction for two weeks at the Moore Dry Docks, according to B. J. Osborne of the Moore Company. Rivets are being driven in the steel cutting edges of these caissons, which represent great barges, the smaller being 127 feet long by 74 feet 6 inches wide, and the larger one—which will be the foundation of the Center Anchorage—197 feet long by 92 feet wide.

Structural bracing for these cutting edges is being fabricated in the Judson Pacific Iron Works in Oakland, and the cylindrical wells in the cells of these caissons are being manufactured at the Western Pipe and Steel Company's plant in South San Francisco.

The caisson for Pier 6, Chief Engineer Purcell reported, should be ready for launching early in July. This pier is the first suspension bridge foundation west of Yerba Buena Island.

The caisson for Pier 4, which is the concrete Center Anchorage midway between San Francisco and Yerba Buena Island, will not be launched until August, according to Osborne.

New orders for oil burners totaled 2878 units in March this year compared with 1956 in February, according to statistics collected from manufacturers by the Department of Commerce.

Warren & Co., Jefferson and Washington Avenues, Chicago, at \$344.45 submitted low bid to Treasury Department for interior lighting fixtures in the U. S. post office at Weiser, Idaho. Only other bid was submitted by Edward J. Guth Co., St. Louis, Mo., at \$395. Bids held under advisement.

8—CLUB BUILDINGS

Bids Wanted—To Close June 13th, 7 P. M.
LODGE BLDG. Cost, \$45,000

FRESNO, Fresno Co., Cal. Tuolumne St. and Van Ness Ave.

Two-story stucco and tile lodge building (auditorium to seat 800, 2 secondary lodge rooms, banquet hall to seat 800, clubrooms, ballroom, lighting and ventilating system, etc.; replace lodge building destroyed by fire).

Owner—Woodmen of the World (Jas. Nielsen, clerk) Fresno.
 Architect—E. J. Kump, Rowell Bldg., Fresno.

Following is a partial list of bidders:
 W. T. Harris, 577 McKinley Street, Fresno.
 T. C. Irwin, 269 N Fulton Street, Fresno.
 W. J. Ochs, American Trust Company Bldg., Fresno.
 R. Hodgson & Son, Porterville.
 J. Frank Brown, Hanford.
 Low bids on all portions of the work reported May 29.

Preparing Preliminary Plans.
MEMORIAL Cost, \$80,000
SAN LEANDRO, Alameda Co., Cal. Bancroft Ave. near Estudillo.
 Two-story concrete Veterans' Memorial.
 Owner—County of Alameda.
 Architect—Henry H. Meyers, Kohl Bldg., San Francisco.

Preparing Plans.
CLUB HOUSE Cost, \$55,000
LONG BEACH, Los Angeles Co., Cal. Third and Cerritos Streets.
 Reinforced concrete club house (metal lath and stucco).
 Owner—Ebell Club.
 Engineer—R. D. Van Alstine, 410 E. 9th St., Long Beach.
 A contractor will be selected by the building committee of the club.

Sub-Contracts Awarded.
ALTERATIONS Cost, \$40,000
SAN FRANCISCO, Sutter and Powell Streets.
 Alterations to third and fourth floors of the Sir Francis Drake Hotel.
 Owner—Sir Francis Drake Hotel.
 Architect—W. P. Day, Financial Center Bldg., San Francisco
 Lessee—Bohemian Club.
 Contractor—Lindgren & Swinerton, Inc., 225 Bush St., San Francisco.
Hollow Tile—W. S. Dickev Clay Mfg. Co., 116 New Montgomery St.
Ventilating—Ace Sheet Metal Works, 444 Clementina St.

Plans Being Completed.
LODGE BLDG. Cost, \$—
SAN FRANCISCO, Fourteenth and Landers Streets (125x85 feet).
 Two-story and mezzanine floor and basement Class B reinforced concrete lodge building (auditorium 55x100 ft.) handball and basketball courts, showers, banquet rooms, seven lodge rooms, two card rooms and two committee rooms.
 Owner—United Irish Societies.
 Architect—John J. Foley, 770 Fifth Ave., San Francisco.
 Bids will be asked in about one week from a selected list of contractors.

Contract To Be Awarded.
LODGE BLDG. Cost, \$4000
HOLLISTER, San Benito Co., Cal. One-story wood frame lodge building (paper roof, maple and pine floors etc.) lodge room, 40x70 ft.; kitchen, banquet rooms, retiring rooms, stage.
 Owner—The Union Benefica de Hollister.
 Plans by E. C. Griffin, % Owner.
 Contractor—Hayward Lumber Co., South and East Sts., Hollister. (Mr. Frank Sparling in charge).

9—HOSPITALS

Contracts Awarded.
HOSPITAL Cont. Price, \$73,995
CAMARILLO, Ventura Co., Cal. Lewis Ranch.

Two 1-story reinforced concrete ward buildings (accommodate 900 patients) each unit to contain 10,800 sq. ft. of floor space.
 Owner—State of California.
 Architect—Geo. E. McDaugall, State Architect, Public Works Building, Sacramento.
 Consulting Architect—Harold Burket, 455 E. Main St., Ventura.
 Contractor—Louls A. Geisler, 6212 Middleton St., Huntington Park.
Electric—H. O. Bauerle, 8952 Ellis Ave., Los Angeles, at \$2400.
Heating and Ventilating—Jones Heating Co., 497 S. Broadway Pasadena, at \$7200.

Preparing Plans.
HOSPITAL Cost, \$150,000
SEDRO WOOLLEY, Washington.
 Two-story and attic T shaped hospital (136x126 ft.) concrete construction, plastered exterior, tile roof, attic of mill construction).
 Owner—State of Washington.
 Architect—James E. Blackwell, Medical Arts Bldg., Seattle.
 Bids will be asked within thirty days. Another building may be added to present group at a later date.

Sub-Contracts Awarded.
SAN FRANCISCO—Clinton Stephenson Construction Co., 550 Montgomery St., awarded the following sub-contracts in connection with the construction of the deep therapy pavilion at the University Hospital, Third and Parnassus Aves.:
Concrete Materials—Bode Gravel Co., 235 Alabama St., San Francisco.
Mill Work—National Mill & Lumber Co., 230 California St., S. F.
Glass—W. P. Fuller & Co., 301 Mission St., San Francisco.
Roofing and Damproofing—Malott & Peterson, 20th and Harrison Sts., San Francisco.
Painting—Chas. Gordon, 666 Mission St., San Francisco.
Steel Sash—Soule Steel Co., 1750 Army St., San Francisco.
Miscellaneous Iron—Star Ornamental Iron Co., 1271 Folsom St., San Francisco.
Finish Hardware—Marshall Newell Co., Spear and Mission Sts.
 As previously reported, excavation awarded to J. D. Neall, Lomita Park. Lumber to Loop Lumber Co., Central Basin; reinforcing steel to Gunn, Carle & Co., 20 Potrero Ave.

Planned.
HOSPITAL WING Cost, \$71,750
RENO, Washoe Co., Nevada.
 Wing addition to hospital (second unit).
 Owner—County of Washoe.
 Architect—F. J. DeLongchamps, Gazette Bldg., Reno, Nevada.
 Amounts budgeted for hospital building this year as follows:
 Wing addition.....\$33,000
 Elevator..... 11,400
 Complete surgery..... 9,000
 Linoleum..... 1,850
 Furniture..... 10,500
 Equipment..... 6,000

YOUNTVILLE, Napa Co., Cal.—E. C. Shindler, 1114 Main St., Napa, at \$2,201.85 awarded contract by State Purchasing Department for furnishing and installing venetian blinds, awnings and window shades for the Veterans' Home at Yountville.

SAN FRANCISCO—Until June 16, 3 P. M., bids will be received by T.

A. Brooks, Purchaser of Supplies, for X-Ray films for the San Francisco Hospital. Specifications available from Room 251, City Hall.

LOS ANGELES, Cal.—The superintendent of Rancho Los Amigos has requested the Los Angeles county supervisors to instruct Wm. Davidson, county mechanical engineer, to prepare plans for two infirmary ward buildings to be erected at Hondo. The request was referred to Supervisor Jessup.

10—HOTELS

Planned.
HOTEL Cost, \$—
TAHOE CITY, Placer Co., Calif. Two miles north.
One-story log lodge hotel (50 rooms and baths, 30 camping cottages) knotty pine trim, colored rock veranda and pillars, etc.
Owner—A. L. Nichols, Tahoe City.
Architect—Not Given.

11—ICE AND COLD STORAGE PLANTS

SEATTLE, Wash.—Cork Insulation Co., awarded contract for insulation and the refrigeration work awarded to York Ice Machine Company in connection with the factory building at 1229 Sixth Ave., South, Seattle, for George A. Hormel & Co.

Contract Awarded.
REFRIG. PLANT Cont. Price \$920
SAN RAFAEL, Marin Co., Cal. Lucas Valley.

Refrigeration plant.
Owner—County of Marin (Rob. E. Graham, clerk, Board of Supervisors).

Plans by M. J. Lamperti and L. W. Hunton, San Rafael.
Contractor—George Kaenel, San Rafael (Frigidaire).

Following is complete list of bids:
Geo. Kaenel, San Rafael.....\$920
M. J. Lamperti San Rafael..... 980
Baker Ice Machine Co., Oakland.. 992
Allied Industries, S. F..... 997
Cyclops Iron Works, S. F..... 998
Western Engr. Co., S. F.....1053

PHOENIX, Ariz.—Phoenix Carbonic Ice Corp., 131 W Jefferson St., Phoenix, contemplates erecting a dry ice and carbonic gas manufacturing plant at 19th Ave. and Magnolia St., Phoenix. It will have a daily capacity of 15 tons of ice. James H. Palmer is president of the corporation.

12—POWER PLANTS

LOS ANGELES, Calif.—Until 2 P. M. June 13, bids will be received by the Metropolitan Water District, 306 W 3rd St., Los Angeles for constructing an electric power transmission line in accordance with Spec. No. 38. The work consists of the construction of approximately 17 miles of 33,000-volt transmission line located between Cabazon Substation, about five miles west of Banning, and a point in Blg Morongo Canyon about six miles north of Garnet siding on the Southern Pacific Railway, in Riverside county. Specifications may be obtained from the engineer at Room 1004, 306 W Third St., Los Angeles, upon payment of \$2.00. Certified or cashier's check, 10%. Julian Hinds, acting chief engineer.

LOS ANGELES, Cal.—H. O. Bauerle 8522 Ellis Ave., Los Angeles, awarded a contract by the Metropolitan Water District of Southern California, 306 W. Third St., Los Angeles, May 26, at \$9394, for constructing telephone lines in the Valverde Section. The

work consists of construction of 11.5 miles of 6-conductor telephone trunk line, 16.8 miles of 4-conductor telephone line on existing poles and cross-arms, 1.5 miles of telephone bracket line and three telephone terminal assemblies. Julian Hinds, acting chief engineer.

Contract Awarded.
SUBSTATION Cost, \$—
LOS ANGELES, Cal. Valley Junction.

One-story and gallery reinforced concrete substation (52x103) concrete wood and mastic floors, steel sash metal louvers, plastered partitions hollow tile, steel grilles, reinforcing and structural steel, etc.
Owner—Pacific Electric Railway Co., Los Angeles.

Plans by Engr. Dept. of Owner.
Contractor—R. E. Campbell Const. Co., 108 W 6th St., Los Angeles.

13—PUBLIC BUILDINGS FIRE HOUSES & JAILS

Preparing Preliminary Plans.
ANNEX Cost, \$70,000
SACRAMENTO, Sacramento Co., Cal. SE Tenth and I Streets.

Two-story reinforced concrete annex to City Hall.

Owner—City of Sacramento.
Architect—Harry Devine, California State Life Bldg., Sacramento.

Plans Being Completed.
FIRE HOUSE Cost, \$14,000
SACRAMENTO, Sacramento Co., Cal. L Street near Alhambra Blvd.

One-story brick firehouse (57x92 ft.): tile and composition roof, concrete floors, etc.

Owner—City of Sacramento.
Architect—Charles Dean, California State Life Bldg., Sacramento.

Plans will be completed in about ten days.

SAN FRANCISCO.—O. Monson, 475 6th St., at \$2,346 submitted only bid to Department of Public Works for alterations to the fourth floor windows on the Polk Street side of the Civic Auditorium. Bid held under advisement.

21—BRIDGES

LOS ANGELES, Cal.—Until 2 P. M., June 19, bids will be received by county supervisors to construct concrete and steel bridge on Anaheim-Puente Road over San Jose Creek. W. D. Armstrong, County Bridge Engineer.

Bids will be taken as follows:

- (1) using concrete piles;
- (2) using steel H piling encased in concrete.

The proposed bridge will consist of one 40-ft. span and two spans of 32 ft. 10 in. each. The roadway will be 30 ft. in width. The engineer's estimate of quantities follow:

SUMMARY FOR CONCRETE PILES

- 295.6 cu. yds. class A concrete (including piles);
- 58,250 lbs. reinforcing steel;
- 211 lin. ft. concrete railing;
- 8,874 sq. ft. form area;
- 1,200 lin. ft. concrete piles to drive;
- 96,543 lbs. structural steel furnished by county;
- 50 cu. yds. excavation;
- 12,340 lbs. structural steel bracing;
- 6,624 sq. ft. paint area;
- 2,899 lbs. castings;
- 735 lbs. bearing plates;
- 48 pieces tile;
- removing old bridge.

SUMMARY FOR STEEL PILES

- 234.58 cu. yds. class A concrete;
- 22,518 lbs. reinforcing steel;
- 211 lin. ft. concrete railing;
- 9,090 sq. ft. form area;
- 1,200 lin. ft. steel piles to drive;
- 79,200 lbs. steel piles;
- 96,543 lbs. structural steel furnished by county;
- 12,340 lbs. structural steel bracing;
- 6,624 sq. ft. paint area;
- 2,899 lbs. castings;
- 735 lbs. bearing plates;
- 48 pieces tile;
- removing old bridge.

Mame E. Beatty, 501 Hall of Records, Clerk of the Board.

MARICOPA-VENTURA CO., Cal.—Chas. W. Petit, Chief Engineer of Joint Highway District No. 6 has completed plans for a timber bridge to be constructed on the route of the Maricopa-Ventura Highway across the Cuyama River, located in the northwest corner of Ventura County, between Maricopa in Kern County and Santa Maria in Santa Barbara County. This bridge will cost about \$15,000, but funds will not be available until after July 1. The bridge will be a pile trestle structure, 300 ft. in length, involving:

- 125,000 bd. ft. structural grade redwood;
- 2,240 lin. ft. creosoted (8-lb. treatment) timber piling (32 foot lengths).

Bids will be called within the next 60 days.

STANISLAUS and San Joaquin Cos. Cal.—Carl N. Swenson, 355 Stockton Ave., San Jose, at \$79,932.23 awarded contract by State Highway Commission to reconstruct a bridge across Stanislaus River 7.6 miles south of Manteca, consisting of redecking the two 103-ft. earth filled arch spans and replacing the timber trestle approach span with concrete decks on concrete pile bents, and grading and paving approaches with Portland cement concrete and bituminous treated crushed gravel or stone surfacing.

ORANGE COUNTY, Calif.—Until June 21, 2 P. M., bids will be received by S. V. Cortelyou, District Engineer, State Highway Commission, 808 California State Office Bldg., Los Angeles, to construct approach spans and repair existing bridge at Anaheim Bay Bridge, near Seal Beach involving:

- (1) 1,950 cu. yds. excavation;
- (2) 1,760 lin. ft. furnish crec. Douglas fir piles;
- (3) 44 drive do;
- (4) 65 cu. yds. Class A Portland cement concrete;
- (5) 6 cu. yds. Class E do;
- (6) 8,000 lbs. bar reinf. steel;
- (7) 39,000 lbs. struc. steel;
- (8) 7 MFBM crec. Douglas fir timber, selected struc. grade;
- (9) 150 hours rental of compressor;
- (10) 150 hours rent chipping hammer
- (11) 150 hours rent Gunite outfit;
- (12) 50 hours rent sandblast outfit;
- (13) 20 hours rent tank truck;
- (14) 350 sacks Port. cem. for gunite;
- (15) 90 tons sand for gunite;
- (16) 10 tons sand for sandblasting;
- (17) 1 lot staging complete;
- (18) move equip. to and from job;
- (19) repairs to removable span.

Specifications obtainable from the above office. Certified check 10% required with bid.

SAN BERNARDINO, Cal.—Halsey Machinery & Supply Co., San Bernardino, awarded contract by county supervisors June 5 at \$1825 to move steel span bridge from the old Mojave Highway, 2 miles from Oro Grande and reconstruct same across the Santa Ana River between Greenspot and East Highlands, 11 miles east of San Bernardino. The bridge will have a 250-ft. span and a 20-ft. roadway. The present contract involves the transporting of approximately 70 tons of steel 50 miles and re-erecting same in place.

LOS ANGELES, Cal.—The American Bridge Co., Chicago, awarded contract by the Santa Fe Railway

for fabricating the steel superstructure for the grade separation structure at Orange Ave. and the Santa Fe Railway tracks. The company will start work erecting the steel spans about July 1 when the county will have completed the abutments under a contract awarded March 27 to the Atlas Const. Co. The railway company's work involves about 105 tons of steel.

MONTEREY COUNTY, Cal.—State Railroad Commission authorizes construction of underpass on the Coast highway at the Southern Pacific tracks near Soledad. Cost will be borne by the S. P. Company and the State jointly, or by the State alone.

22—DREDGING, HARBOR WORKS, EXCAVATION

SANTA MONICA, Los Angeles Co., Cal.—Abandonment of the caisson type of construction on new harbor breakwater and the substitution of a rock mounted structure ordered by city council May 26. The council adopted a resolution authorizing the Puget Sound Bridge & Dredging Co. and W. F. Way, Inc., Santa Monica, to change the present contract to cover the proposed round mound type of structure at a cost of \$561,035.40. A credit of \$87,660.40 will be allowed for work already done. The change order calls for 220,000 tons of stone with additional stone, if required, at \$2.03 per ton.

The work is to be completed in 330 days.

The contractors have agreed to complete the pier extension for \$11,122; the marina for \$21,378; and the superstructure for the breakwater at \$22,125.

The proposed breakwater will be 2000 ft. in length, 10 ft. wide at the top, with an elevation of 10 ft. above mean low tide.

A taxpayer's suit to enjoin the city from making this change will come up for hearing in the superior court May 31. The legality of the new contract will thus be determined by the court.

SAN DIEGO, Cal.—The call for bids for dredging Alexander's Shoal, previously set for June 5, rescinded by city council pending result of the June 27 election, at which time disposition of the harbor's annual appropriation of \$150,000 will be decided.

STOCKTON, San Joaquin Co., Cal.—City Planning Engineer J. H. Tarrant to prepare plans for McLeods Lake yacht harbor, involving fill at the west end of the city hall, construction of boulevard at the west end of Miner Ave., and also dredging a portion of Banner Island. Plan will necessitate securing approval of the War Department to change the shore line of the lake.

LONG BEACH, Los Angeles Co., Cal.—Construction of a concrete seawall along the south side of Ocean Blvd., to replace the present wooden structure between Termino Ave. and 44th Place, about 2000 lin. ft. will be considered at the city council meeting. The cost is estimated at \$100,000. The council hopes to finance the work from the federal public works fund.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

NYSSA, Oregon—Until June 26, 10 A. M., under Specifications No. 595-D, bids will be received by U. S. Bureau of Reclamation, Denver, Colo., to construct earthwork and structures, North Canal, Station 260 (Owyhee River Siphon) to Station 513, Mitchell Butte Division, Owyhee Project, Oregon-Idaho; work located near Nyssa and Adrian, Ore., on the Oregon Short Line Railroad, and involves: 505,000 cu. yds. open-cut excav., all classes;

15,000 sta. cu. yds. overhaul;
2,600 cu. yds. backfill;
260 cu. yds. concrete (structures);
23,000 lbs. reinf. bars, place;
2,500 lbs. gates and gate hoists, place.

Materials part furnished by contractor and part by Government. Specifications obtainable from above on payment of \$.75 to non-bidders; no charge to bidders. Proposal guarantee, 10%.

PORTLAND, Ore.—Commercial Iron Works, 412 SE Stephens St., Portland, at \$11,869.75 submitted low bid to U. S. Engineer Office, Portland, to drydock, clean and paint and repair U. S. dredge "Clatsop." Complete bids follow:

Commercial Iron Works, Portland	\$11,869.75
Helsler Machine and Marine Works	13,241.60
Albina Engine and Machine Works	13,385.20
Government estimate	8,550.00

Bids held under advisement.

STOCKTON, San Joaquin Co., Cal. U. S. Engineer Office, California Fruit Bldg., Sacramento, will call bids in the near future for widening the turn at Turner Cut and removing a series of minor shoals at the mouth of New York slough at Pittsburgh, in connection with the Stockton deep water channel.

PITTSBURGH, Contra Costa Co., Cal.—R. P. Easley, Antioch, awarded contract by Shell Chemical Co. to dredge 5000 ft. channel from San Joaquin river to plant. Channel will be 40 ft. wide.

23—IRRIGATION PROJ.

MONTE VISTA, Colo.—The San Luis Valley drainage district will request Congress for an \$800,000 appropriation for the construction of a drain through the closed basin of the eastern side of the valley.

Cowden, President, will take bids for the construction of two tunnels for irrigation purposes between Roaring Fork River on the western slope and Twin Lakes Reservoir on the eastern slope. The proposed work includes the raising of the dam 11 ft. to increase the capacity. One tunnel will be 3.82 miles in length, 8x2½ ft., horseshoe shape, the other 1.75 miles in length 7x2½ ft., both concrete lined. A loan of \$1,125,000 has been granted by the Reconstruction Finance Corp. R. J. Tipton, 2083 Clermont St., Denver, Colo., consulting engineer.

24—ST. LIGHT. SYSTEMS

LOS ANGELES COUNTY, Cal.—C. O. Sparks, 2309 E. 9th St., Los Angeles, at \$43,218.25 awarded contract by State Highway Commission to grade and pave with Portland cement concrete 1.3 ml. between Fullerton and Pomona at Brea Canyon Summit.

25—MACHINERY AND EQUIPMENT

OAKLAND, Cal.—J. E. French and Co., 2345 Broadway, Oakland, at \$1-345.50 net, awarded contract by East Bay Municipal Utility Dist., Oakland, to furnish one 5-passenger 8-cylinder 1933 model Dodge sedan, allowance being made for trade-in on used Buick.

SAN FRANCISCO.—San Jose Tractor & Equipment Co., at \$375 awarded contract by Purchasing Officer, 12th Naval District to furnish a scarifier under Bid No. 4201.

SAN FRANCISCO.—The following awards made for the rental of trucks, bids opened by Regional Forester, U. S. Forest Service, May 19:

Poulos & McEwen, 2522 17th Sts., Sacramento.

Two 1½-ton stakeside, \$4 per day, Pro. D. M. M. Kirk, Whitehorse, one 1½-ton, \$3, B. L. Green, 2017 Vicksburg Ave., Oakland.

Two 1½-ton, dump, \$4.19, B and \$4.18, D. J. M. McMorris, Route No. 1, Redding, one 1½-ton dump, \$5.25, B.

Albert H. Watt, 1037 Normal Ave., Chico, 20 1½-ton dump, \$5, D.

C. E. Huls Trucking Co., Merced, two 1½-ton dump, \$4.50, B.

F. A. Nystrom, McCloud, ½-ton pickup, \$2.50, D.

Fred A. Ruffley, Auburn, ten 1½-ton dump, \$5, D.

Proposal B—Forest Service furnishes driver, owner furnishes upkeep, tires and assumes responsibility for accidents.

Proposal D—Forest Service furnishes driver and repairs.

OAKLAND, Cal.—Chevrolet Motor Co. at \$813.65 awarded contract by city council to furnish three motor trucks with steel dump bodies.

OAKLAND, Calif.—Chevrolet Motor Co. at \$593.37 each for seven sedans and \$492.75 for coupe awarded contract by city council to furnish eight automobiles.

SAN FRANCISCO.—Until June 14, 10 A. M., under Bid No. 999, bids will be received by T. A. Brooks, City Purchasing Agent, for the rental of automotive trucks, horse-drawn vehicles, drivers, horse teams with harness, and drivers only. Specifications obtainable from above.

OAKLAND, Cal.—Jenison Machinery Co., 900 Tennessee St., San Francisco, at \$4450 for Type A crane, \$4-570 for Type B crane and \$345 for clam shell bucket, awarded contract by city council to furnish gasoline operated cranes.

LOS ANGELES, Cal.—Pacific Iron & Steel Co., awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, June 6, at \$3150 f. o. b. Los Angeles; \$3220 f. o. b. Indio, for furnishing cranes under Bid No. 10,732.

28—FIRE EQUIPMENT

OAKLAND, Cal.—American Rubber Mfg. Co., Park Ave. and Watts, Oakland, at \$.625 per ft. awarded contract by city council to furnish 10,000 ft. 2¼-in., 50-ft. lengths, fire hose.

30—RESERVOIRS & DAMS

VERDE, Ariz.—The application of the Verde River Power & Irrigation District for a loan of \$7,600,000 for

construction of a dam on the Verde River and canals and other appurtenant works, has been denied by the Reconstruction Finance Corporation on the grounds that the district could not comply with the requirements.

30

LOS ANGELES, Cal.—Until 2 P. M., June 26, bids will be received by the county supervisors to construct Eaton Wash Debris Dam and appurtenant structures. The plans, which have been approved by the state engineer, call for a rolled earth fill dam 1545 ft. in length, 37 ft. in height, 40.5 ft. from foundations to spillway crest. The upstream side will be faced with concrete.

The cost is estimated at \$441,376.

Bids will be taken on three proposals, viz.:

- (1) all work complete;
- (2) earth work;
- (3) concrete and miscell. work.

The quantities follow:

PROPOSAL NO. 1

All Work Complete

- (1) 10.5 acres clear and grub damsite
- (2) 40,000 cu. yds. strip damsite;
- (3) 9.0 acres prepare foundation for dam;
- (4) 164,000 cu. yds. excav. (struc.);
- (5) 3100 cu. yds. excavation (cut-off trenches);
- (6) 167,000 cu. yds. excav. for borrow pit No. 1;
- (7) 196,000 cu. yds. excav. borrow pit No. 2;
- (8) 147,000 cu. yds. embank., impressions (Class A);
- (9) 265,000 cu. yds. do, (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);
- (12) 930 cu. yds. concrete cut-off walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs (Class B);
- (14) 250,000 sq. ft. gunite facing slab; Alt. to 14 (14-A) 3980 cu. yds. concrete facing slab;
- (15) 2640 cu. yds. concrete retaining wall (Class D);
- (16) 2125 cu. yds. concrete outlet conduit (Class E);
- (17) 1450 cu. yds. conc. spillway ogee (Class E);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists, stems, etc.;
- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place miscel. metal;
- (22) 1,000 lbs. place metal handrail;
- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drilling dowel holes.

PROPOSAL NO. 2

Earthwork Only.

- (1) 10.5 acres clear and grub damsite
- (2) 40,000 cu. yds. strip damsite;
- (3) 9.0 acres prepare foundation for dam;
- (4) 156,000 cu. yds. excav. for struc. (Class A);
- (5) 3100 cu. yds. excavation (cut-off trenches) Class B;
- (6) 167,000 cu. yds. excav. for borrow pit No. 1 (Class C);
- (7) 196,000 cu. yds. excav. borrow pit No. 2 (Class D);
- (8) 147,000 cu. yds. embank., impressions, (Class A);
- (9) 265,000 cu. yds. do (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);

PROPOSAL NO. 3

Concrete and Miscellaneous Work

- (4) 8000 cu. yds. excava. for struc. (Class A);
- (4-A) 5000 cu. yds. excav. final trim upstream (Class E);
- (12) 930 cu. yds. concrete cut-off walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs (Class B);
- (14) 250,000 sq. ft. gunite facing slab;

Alt. to 14 (14-A) 3980 cu. yds. concrete facing slab;
 (15) 2640 cu. yds. concrete retaining wall (Class D);
 (16) 2125 cu. yds. concrete outlet conduit (Class E);
 (17) 1450 cu. yds. conc. spillway ogee (Class F);
 (18) 1,250,000 lbs. place reinf. steel;
 (19) 200,000 lbs. place gates, hoists, stems, etc.;
 (20) 44,000 lbs. place trash racks;
 (21) 8,000 lbs. place miscel. metal;
 (22) 1,000 lbs. place metal handrail;
 (23) 200 lin. ft. place tile drains;
 (24) 100 lin. ft. drilling dowel holes.
 E. C. Eaton, County Flood Control Engineer, 202 N Broadway, Mame B. Beatty, clerk of the board, 501 Hall of Records.

PASADENA, Cal.—Until 11 A. M., June 20, bids will be received by the city directors to furnish pier plates and appurtenances ofr spillway gates for the Pine Canyon Dam. Bids will be taken on items as follows:
 (1) 84 tons semi-steel pier plate castings;

GRADE, PAVE AND UNDERGRADE CROSSING—TULARE COUNTY

TULARE COUNTY, Cal. — Basich Bros., 20,550 Normandie Ave., Torrance, at \$146,117.05 submitted low bid May 31 to State Highway Commission, Sacramento, to grade and pave with asphaltic concrete about 4.2 mi. between Plaza Garage and Goshen; and to construct an undergrade crossing under the tracks of the S. P. Co. near Plaza Garage, involving:

- (1) 25 sta. clear and grub right of way;
- (2) 38,000 cu. yds. rdwy. excav., unclass.;
- (3) 800,000 sta. yds. overhaul;
- (4) 5,900 cu. yds. struc. excav.;
- (5) 55,000 cu. yds. imported borrow;
- (6) 53,650 sq. yds. subgrade for pave.;
- (7) 24,000 tons asph. concrete;
- (8) 425 cu. yds. Class A Port. cem. conc. (slope paving);
- (9) 540 cu. yds. do (struc.);
- (10) 295 cu. yds. do (curbs & gutters)
- (11) 760 cu. yds. Class B do (abutments);
- (12) 95,000 lbs. bar reinf. steel (slope paving, struc., curbs & gutters)
- (13) 4200 lbs. cast steel;
- (14) 5500 tons crushed gravel or stone (blt. treated surf.);
- (15) 270 tons cut-back asphalt;

- (16) 800 tons crushed run base;
- (17) 750 bbls. light fuel oil;
- (18) 900 cu. yds. existing conc., remove and dispose of;
- (19) 1600 sq. yds. asph. paint binder;
- (20) 7400 M. gals. water;
- (21) 750 lin. ft. 8-in. corr. metal pipe
- (22) 925 lin. ft. 10-in. do;
- (23) 400 lin. ft. 12-in. do;
- (24) 42 lin. ft. 15-in. do;
- (25) 2716 lin. ft. 18-in. do;
- (26) 606 lin. ft. 24-in. do;
- (27) 152 lin. ft. 30-in. do;
- (28) 2300 lin. ft. 8-in. perf. underdrain
- (29) 650 lin. ft. 10-in. do;
- (30) 21 lin. ft. 10-in. cast iron pipe;
- (31) 784 lin. ft. 12-in. stand. reinf. concrete pipe;
- (32) 2912 lin. ft. 12-in. plain concrete pipe;
- (33) 35 conc. joints, pipe culverts;
- (34) 530 cu. yds. rock backfill under drains and sidewalks;
- (35) 25 cu. yds. sand fill;
- (36) 220 sq. yds. waterproofing;
- (37) 14 lin. ft. pipe handrail;
- (38) 1 lot pumping equip. (2 units);
- (39) 75 cu. yds. drainage sumps;
- (40) 7.5 miles new property fence;
- (41) 50 fence gates;
- (42) 1.25 miles remove and dispose of existing fences;

- (43) .25 mile move and reset property fence;
- (44) 1350 lin. ft. laminated timber guard rail;
- (45) 222 sta. finish roadway;
- (46) 50 monuments complete in place. State will furnish corrugated metal pipe and perforated metal pipe.

Complete bids follow:

- (A) Basich Bros., Torrance, \$146,117.05.
- (B) Union Paving Co., \$154,440.10.
- (C) Peninsula Paving Co., San Francisco, \$163,594.40.
- (D) Frederickson & Watson and Jones & King, Oakland and Hayward, \$164,321.70.

UNDERGRADE CROSSING — KERN COUNTY

KERN COUNTY, Cal.—Franklin B. Gridley, 256 South Lake Ave., Pasadena, at \$15,863.50 submitted low bid May 31 to State Highway Commission, Sacramento, to construct an undergrade crossing under the tracks of the Minkler branch of the A. T. & S. P. Railway about 4 miles north of Bakersfield, consisting of a 49-ft. 5-in. steel girder beam span with creosoted timber deck supported by concrete abutments with wing walls, involving:

(1) 425 cu. yds. struc. excav.;
 (2) 1260 cu. yds. struc. backfill;
 (3) 485 cu. yds. class B Portland cement concrete;
 (4) 190 cu. yds. class A do;
 (5) 16,500 lbs. bar reinf. steel;
 (6) 163,000 lbs. struc. steel;
 (7) 12,000 ft. b.m. creosoted Douglas fir timber select struc. grade;
 (8) 185 sq. yds. waterproofing;

- (9) 110 lin. ft. pipe handrail;
 (10) 1 lot misc. items of work.
- Complete bids follow:
- (A) Franklin B. Gridley, Pasadena, \$15,863.50.
 (B) Oberg Bros., Los Angeles, \$16,989.25.
 (C) Gogo & Rados, Los Angeles, \$16,989.50.
 (D) Weymouth-Crowell Co., Pasadena \$17,297.50.
 (E) Stroud Bros. & Seahrooke, Bakersfield, \$17,556.20.
 (F) Fredrickson & Watson, Oakland, \$17,602.50.
 (G) Valley Constructors, Inc., Modesto, \$17,669.80.
 (H) Merritt-Chapman-Scott, San Pedro, \$18,018.86.
 (I) Associated Constructors, Inc., Los Angeles, \$18,341.75.

FALLEN LEAF LAKE DAM—TALLAC, CALIF.

TALLAC, Placer Co., Cal.—Following bids received May 29 by H. L. Haehl, 1317 Humboldt Bank Bldg., to furnish 1000 cu. yds. sand and gravel and/or construct concrete dam, for Mrs. Anita M. Baldwin, to be constructed at the outlet of Fallen Leaf Lake near Tallac, Lake Tahoe, Calif. Specifications call for furnishing aggregate this year and constructing dam next year, involving:

- (1) 1000 cu. yds. aggregate only;
 (2a) cu. yd. fine aggregate add or ded.;
 (2b) cu. yd. med. do;
 (c) cu. yd. coarse do;
 (3) dam only, aggregate furnished (lump);
 (4a) cu. yd. conc. thin section, add or ded.;
 (4b) cu. yd. do, heavy section do;
 (4c) lb. reinforcing steel;
 (4d) cu. yd. excav. with drainage, add
 (4e) cu. yd. do, ded.;
 (4f) cu. yd. do, without drainage, add;
 (4g) cu. yd. do, red.;
 (4h) ft. pipe railing 2½-in.;
 (4i) MBM lumber excluding forms;
 (4j) acre clear roots grubbed;
 (4k) acre clear stumps cut;
 (5) aggregate and dam (lump sum);

- (6a) cu. yd. fine aggregate (add or ded.);
 (6b) cu. yd. med. do;
 (6c) cu. yd. coarse do;
 (6d) cu. yd. concrete, thin section;
 (6e) cu. yd. concrete, heavy section;
 (6f) lb. reinf. steel;
 (6g) cu. yd. excav. with drainage;
 (6h) cu. yd. excav. without drainage;
 (6i) ft. pipe railing (2½-in.);
 (6j) MBM lumber excluding forms;
 (6k) acre clearing roots grubbed;
 (6l) acre clearing stumps cut level.

- Bidders follow:
 (A) H. C. Vensano Co., San Francisco
 (B) Wm. T. Loesch, Pasadena.
 (C) A. V. Alder, San Francisco.
 (D) Lord & Bishop, Oroville and Sacramento.
 (E) A. Teichert & Son, Sacramento.
 (F) C. Mankel, Sacramento.
- The following stipulations were made by bidders:
 (A) Dam to be constructed this year.
 (B) Dam to be constructed this year, adjustments for next year.
 (D) Dam to be built next year. Deduct \$300 for this year.
 (E) Dam to be constructed this year. Add for next year.
 (F) Bid withdrawn.

R.F.C. CASH FOR S. F. BAY BRIDGE IS TRANSFERRED

**State Receives Initial \$2,000,-
000 of Construction
Loan**

Cash for the San Francisco-Oakland bay bridge was in the state treasury yesterday to the amount of \$2,000,000, the initial advance from the Reconstruction Finance Corporation.

The corporation presented its check through the San Francisco Federal Reserve Bank to the California Toll Bridge Authority in exchange for an interim certificate in lieu of \$2,000,000 worth of revenue bonds.

The money was immediately deposited by State Director of Public Works Earl Lee Kelly on behalf of Governor James Rolph, Jr., head of the Toll Bridge Authority, in the Anglo-California National Bank and Bank of America.

Intensive preparations for sinking a coffer dam for the most westerly pier on the San Francisco-Oakland bridge are now going on at the tip end of Pier 24. Charles F. Swigert, President of Transbay Construction Company, informed Chief Engineer C. H. Purcell yesterday. Alterations on Pier 24 are already in progress to make way for the bridge pier to be sunk to a depth of 100 feet on this site.

The next work will start on Yerba Buena Island where the Clinton Construction Company is to dig the 540-ft. largest bore tunnel in the world through the solid rock island.

At the same time Healy-Tibbitts Construction Company are assembling equipment with which to gorge out the base of Rincon Hill for the huge concrete monolith of 68,000 cubic yards which will serve as the San Francisco cable anchorage.

Bridge Builders, Inc., have announced the award of a contract to the Moore Drydock Company for construction of three caissons for the deep water piers of the Eastbay substructure.

The Moore company already has a \$1,250,000 contract for four gigantic caissons for the west span.

THE WEEK'S NEWS Highlights

WORK STIMULANT. Outstanding news of the week to all industry is passage of the National Industrial Recovery Act. President is given absolute control over United States industry, authorized to approve competitive codes adopted by majority in any industry and compel dissenting elements to agree or go out of business. Trade associations are working rapidly to present acceptable regulations for their respective groups, sensing official recognition finally of practices which majority of industry has tried to enforce with indifferent success for many years.

Second title of the new act is that carrying authorization for \$3,300,000,000 public works program. Of this amount \$400,000,000 will be distributed to states specifically for highway construction, allotments based on usual Federal aid proportions (California more than \$15,000,000). Balance to be expended virtually as President may determine through his public works administrator. Part will be used to carry forward public buildings program already planned by treasury department and interrupted with the change of administration. Promised \$50,000,000 awards immediately (within six weeks), an equal amount withing ninety days.

Municipalities and other political subdivisions will be allowed to borrow for all types of public projects, a portion of the amount loaned may be an outright gift of the Federal government.

Federal rivers and harbors program and forestry road improvements also are provided for amply.

First benefits to coast are in authorization to architects to proceed with plans for various federal buildings, including Salinas, Hayward and Lodi.

33 MILLION L. A. FLOOD CONTROL PROGRAM READY

**Approval of Federal Govern-
ment on Financing Plan
Expected**

Twenty-one flood control projects, estimated to cost \$33,000,000 are included in the Los Angeles county flood control district's program which has been placed before the Reconstruction Finance Corporation to be financed under the terms of the National Industrial Recovery Act, according to E. C. Eaton, chief engineer.

Mr. Eaton has just returned from Washington where he conferred with the directors and engineers of the corporation and administrators of the public works program.

During his month's leave of absence, Mr. Eaton visited New Orleans, Washington, New York, Boston, Cleveland, Toronto, Montreal and various points in Nova Scotia. His chief comment was that a general air of prosperity pervaded practically all of the cities he visited, especially in New England and New York State, where returning business is being manifested in the reports of manufacturers and banking circles.

The comprehensive plan for flood control and conservation submitted to the federal engineers will be checked thoroughly by engineering representatives who will be sent from Washington to make first-hand studies of the projects. A formal application by the board of supervisors will have to be made to set in motion the machinery to procure the funds. All of the 21 projects have received favorable preliminary attention by the federal board.

ASSOCIATION PREPARES LEGISLATIVE SUMMARY

Industrial Association of San Francisco has issued a summary of important bills affecting business and industry which were passed at the last session of the California legislature.

RENOVIZE DRIVE COMMITTEE TO BE NAMED BY MAYOR

Meeting at City Hall Endorses Campaign for Property Modernization

Preliminary steps to launch a community renovize campaign as a stimulant to local building were taken yesterday at a meeting in the San Francisco city hall called by Mayor Angelo Rossi.

Mayor Rossi was asked by the representatives of many civic groups present to appoint an executive committee with authority to arrange the campaign and a committee to organize the house to house canvass that will be undertaken to obtain pledges for remodeling and repair work, termed "renovizing" in similar drives that have been successful in other cities.

R. F. Byrnes, secretary-manager of the San Mateo County Building Industries Association, was the principal speaker at yesterday's meeting. He described other campaigns which have created millions of dollars worth of work for building and allied industries.

He cited the Philadelphia drive which netted pledges of \$21,500,000 for work to be done by property owners. Of this total 24,700 pledges were obtained from home owners for \$8,018,000. Employment by building contractors increased 16 percent in March in that city compared with February and payrolls increased 22 percent.

The Philadelphia campaign has been followed by similar programs in about sixty cities, according to reports to the Bureau of Standards at Washington. The idea has spread even into state campaigns.

Impetus would be given a local drive at the present time, it was pointed out, by the rapidly rising prices of building materials which may be expected to accelerate as the industrial recovery program gains momentum.

The goal set for San Francisco's campaign will probably be set at \$10,000,000. San Mateo County is already underway with organization of a similar campaign with the goal at \$1,000,000.

"The Federal Reserve Bank estimates that every dollar put into the channels of trade changes hands twenty-five times within a year," said Mayor Rossi in his opening remarks. "That means that if San Francisco can pledge \$10,000,000 worth of work, no less than \$250,000,000 dollars will be placed in circulation in this city. It will

DETERDING NAMED FIRST MANAGER OF SACRAMENTO COUNTY

Charles W. Deterding, Jr., Sacramento county engineer for the past twelve years, has been appointed the first county manager under the new charter. His appointment is effective July 1.

Mr. Deterding has been in Sacramento county public service since 1908 when he entered the county engineer's office as an assistant. He was born in Sacramento and graduated from the Sacramento schools.

In his new position he will receive a salary of \$6000 a year. The appointment is for a minimum of two years, the new charter providing that the first manager cannot be removed within two years except on charges of incompetency or malfeasance.

Mr. Deterding announced that he would continue to handle the duties of the county engineer, thereby eliminating the \$4500 salary for this office.

LUMBER WAGE MEET IN PORTLAND JUNE 23

Loggers and lumbermen of the Pacific Northwest will meet in Portland on June 23 and 24 to consider rates of pay and working conditions for the lumber industry to be approved in compliance with the National Industrial Recovery Act. Wage rates for logging camps planing mills, shingle mills and other wood products plants will be determined at the meeting.

HESTER TO BECOME CHIEF WORKS DEPUTY

Appointment of Sidney J. Hester, since 1927 secretary of the Department of Public Works, to the post of chief deputy director of public works, was announced yesterday by Wm. H. Worden, Director.

flow into every pocket and till in San Francisco. Fear is the only thing that has brought about economic depression. If we all work together on a definite program looking toward recovery, the depression will be behind us."

The Mayor announced that he would organize his campaign committee within the next few days, choosing as general chairman of the campaign some outstanding citizen of San Francisco willing to devote his time to work for the public good.

DECISIVE VOTE AGAINST RAID ON FUND URGED

State Organizations in Campaign To Prevent Loss of Highway Money

Efforts of statewide groups opposing Propositions No. 9 and No. 10 on the June 27 ballot (diversion of gasoline tax money from the Highway Fund to the General Fund) are being directed not only toward defeat of the proposals but to rolling up a "No" vote so decisive that it will serve as a lasting mandate for the people on the subject of diversion," reports the California State Automobile Association.

The statement points out that the fight against No. 9 and No. 10 is being led by statewide organizations representing practically a cross-section of the population of California, including such groups as the California State Federation of Labor, League of California Municipalities, County Supervisors Association, California State Automobile Association, Automobile Club of Southern California, and many chambers of commerce and other civic and business groups.

Opponents to diversion of the gasoline tax for general fund purposes declare that the principle involved is identical with the one presented in a diversion proposal at the election last November, which was defeated by a vote of 1,103,891 to 544,222, or more than two to one. It is pointed out that the proposition defeated at that time called for the diversion of a comparatively small sum from the highway fund to the general fund, and that the heavy "No" vote was mainly significant as an expression of public opinion against use of highway money for any other purposes than those to which it has been specifically pledged.

\$290,000 BERKELEY WORK IS ADVISED

A ten-year plan for street improvements in the city of Berkeley, involving an estimated expenditure of \$290,000 has been presented to the city council by the Regional Advisory Committee of Berkeley, that will be needed to facilitate traffic movement toward the bay bridge.

Major items include widening of Tunnel road at a cost of \$73,750; repaving of San Pablo avenue between street car tracks, \$60,000; northerly extension of Seventh St., \$30,000; widen Los Angeles avenue \$25,000.

LOAN COMPANIES PROMISE MONEY FOR NEW BLDG.

Oakland Real Estate Board Reports Relaxation of Lending Restrictions

Resumption of the lending of mortgage money for the financing of home purchases, announced to the Oakland Real Estate Board during the past week by several lending agencies, has been an immediate stimulus to the local realty market, according to a market letter by James H. L'Hommedieu, president of the board.

One of the lending companies reported that restrictions on its lending policies which have been effective for many months have been removed as of June 7, and it now has available for local home loans many millions of dollars. Interest rates, terms and conditions are to be substantially the same as those commonly in operation prior to 1930 when stringently restrictive loan policies were adopted by practically all lending institutions.

Although decision to resume the making of home loans has been announced by relatively few concerns, it is expected that others will do so in the near future and that the effect on the realty market will be one of steady and dependable advance in general activity.

Of special significance, L'Hommedieu points out, is the fact that one of the lending companies which has resumed the making of loans, is prepared to lend for home building. This concern reports that it has more than \$8,000,000 now available for such purposes.

"The greatest obstacle to the selling of homes and the building of homes during the last two or three years has been the almost total absence of mortgage money," L'Hommedieu states. "A return of capital to the field of home financing is of the greatest importance to the realty dealer handling existing homes and the resumption of building loans in the Eastbay will have an immediate beneficial effect on the entire community

BIDS JUNE 22 ON KEY PIER

Bids on three departments of the Key System pier reconstruction will be received Thursday, June 22, Architects Kent and Hass, 525 Market street, announced yesterday. The work on which proposals are invited is the following: (1) fabrication delivery and erection of structural steel; (2) sheet metal, including steel, decks, glazed skylights, flag poles, steel ladders, rolling doors, tar and gravel roofs; (3) steel sash installed and glazed. Bids will be received for general and segregated contracts. Plans and specifications will be available at the offices of Kent and Hass after 1 o'clock today.

through stimulation of employment.

"Reports to the Realty Board from members dealing in residence property clearly indicate the need for new home construction in almost every area of the city and almost every class of property. Existing properties of desirable types and locations and reasonably priced are almost eliminated from the current market.

"No new homes have been built of any consequence of numbers for several years. Local occupancy of single-family homes is far above normal and many of the Eastbay's 100,000 such homes are now occupied by more than one family. Gradual resumption of employment and the return of confidence has, during the last two weeks, brought a marked increase in home purchases. The potential shortage of homes which now exists in this district will soon be an actual shortage which can be met only by new construction.

"Many builders of the Eastbay have been ready to launch new construction projects for several months but have been unable to finance their operations. Individuals planning the building of new homes have been prevented from doing so because of the unresponsive policy of lending institutions. Announcement that these concerns are beginning to lend

LUMBER STOCK RATIO LOWEST IN THREE YEARS

West Coast Association Says Industry in Best Position Since 1931

For the first time in two years the lumber industry is in a favorable statistical position, reports the West Coast Lumbermen's Association in its weekly bulletin, which shows another increase in production.

"The volume of new business continues to be unusually high and more than 50 percent greater than production," says the bulletin.

"Since January 1 orders have averaged 22.6 percent in excess of production and 13 percent more in volume than in the same period last year. Production since January 1 has been 5 percent under the same period in 1932. Stocks are 18 percent lower than at this time last year and unfilled orders now represent 38 percent of the lumber in pile, the largest ratio since January, 1930."

A total of 252 down and operating mills which reported to the West Coast Lumbermen's Association for the week ending June 3 produced 82,815,943 board feet of lumber. This was an increase of 627,738 feet or .76 per cent over their cut in the preceding week. The average week's production of this group of sawmills in 1933 has been 62,758,041 feet; during the same period of 1932, their weekly average was 65,704,180 feet.

The new business reported last week by 180 mills is 111,993,830 board feet against a production of 74,137,558 feet and shipments of 88,370,179 feet. Their shipments were over their production by 19.77 percent and their current sales were over production by 51.39 percent. The orders booked last week by this group of identical mills were less than their orders of the preceding week by \$64,785 feet or .77 percent.

money for such purposes again is of the greatest importance and significance."

LOS ANGELES, Calif.—Until 10 A. M., June 28, bids will be received by board of public works to construct sewers in the Chicago St. and alley south of Marengo St. Sewer District. The work involves:

- (1) sanitary sewer, involving \$17.91 ft. 8-in. cement pipe, including 44 8x 6-in. wyes, one manhole B, one drop manhole S, one flushing tank No. 2, three manhole frame and cover sets, 188 lin. ft. concrete reinforcing type X, for 8-in. pipe.
- (2) 175 ft. house connections, including seven one-eighth bends, 7 ft. deep, joint compound throughout.
- (3) 802 sq. ft. Class A resurfacing.
- (4) 15 sq. ft. gutter resurfacing.
- Average depth of structures, 10.3 ft. Engineer's estimate, \$1699.80.

CAPITOLA, Santa Cruz Co., Cal.—County supervisors continue action on outfall sewer system for Capitola, bids for which were opened May 29, for two weeks until their next meeting June 23.

Complete bids were published June 1st.

LONG BEACH, Calif.—Pacific Clay Products Co., 1151 S Broadway, Los Angeles, submitted low bid to City Manager E. S. Dobbin, June 8 at \$6,500 to furnish and deliver vitrified clay sewer pipe.

BERKELEY, Alameda Co., Calif.—All bids rejected and new bids will be received until June 20, 10 A. M., by Florence E. Turner, city clerk, to construct storm sewer in Ensenda Ave. from Capistrano Ave. south to the existing culvert south of Tacoma Ave., involving:

- (1a) 335 lin. ft. 33-in. sewer pipe, reinforced concrete, centrif.;
- (1b) 335 lin. ft. 33-in. reinf. concrete sewer pipe, machine made (alt. to 1a);
- (1c) 335 lin. ft. 33-in. vit. ironstone sewer pipe (alt. to 1a);
- (2) 75 lin. ft. 10-in. vit. pipe;
- (3) 3 catchbasins;
- (4) 1 manhole with water seal;
- (5) 1 ordinary manhole.

LOS ANGELES, Cal.—Case Constr. Co., 1927 Thayer Ave., Westwood, awarded contract by County Supervisors, June 12, at \$16,485.75 to construct gunite and concrete lined conduit on Verdugo Wash from Canada Blvd., 2625 ft. upstream.

LOS ANGELES, Cal.—The board of directors of County Sanitation District No. 5 met June 13 in regular monthly meeting with Los Angeles City Councilman Charles H. Randall, President of the Los Angeles City Council and member of the board, presiding, and adopted a resolution approving a report of the Investigating Committee relative to the White's Point Outfall

and recommending that the districts proceed with the ocean outfall construction. The resolution authorized the chief engineer, A. K. Warren, to proceed with the preparation of plans for the outfall.

About thirty days will be required for the compilation of data gathered from the test drilling and submarine survey now under way. The engineer believes that a call for bids for the construction may be issued within sixty days, at least.

MONTEREY PARK, Los Angeles Co., Cal.—The state department of public health has granted to the City of Monterey Park a permit to construct a sewage disposal plant to serve a population of 6000. The appointment to the zoning committee of county regional planning commission for a ruling on the city's right to establish the plant on the Rio Hondo. A decision will be made by the commission June 21. Data to be incorporated in a final application for Reconstruction Finance Corp. funds is being prepared by the engineers, Black & Veatch (Alva J. Smith, local representative, 918 Boylston Street, Pasadena).

LOS ANGELES, Cal.—Five identical bids were received by county supervisors, June 12, at \$2.40 per bbl., total \$9000, for furnishing 3750 barrels of portland cement for the construction of conduit on Verdugo Wash from Canada Blvd. 2625 feet upstream. E. C. Eaton, 202 N. Broadway, clerk of the board. The bidders follow: Southwestern Portland Cement Co., Monolith Portland Cement Co., Blue Diamond Corp., Riverside Cement Co. and California Portland Cement Co.

33—WATER WORKS

LOS ANGELES, Calif.—Rich Mfg. Co. awarded contract by A. J. Holm, City Purchasing Agent, June 8, at \$17,320 for furnishing Water & Power Department with gate valves under Spec. No. 3068.

OAKLAND, Cal.—Until June 23, 8 P. M., bids will be received by John H. Kimball, secretary, East Bay Municipal Utility District, 512 16th St., Oakland, to furnish 1515 cast iron b&s water pipe fittings, sizes from 4- to 8-in. Specifications No. LS-110 obtainable from above office.

OAKLAND, Cal.—California Steel Products Co., 452 Bay St., San Francisco, at \$1627 each submitted low bid to East Bay Municipal Utility District to furnish two steel storage tanks, 120,000-gal. capacity, one for the Saranap County Water District and the other for the Fairview County Water District, in connection with construction of reservoirs and pipe lines, work being done by the East Bay District by force account. Complete bids follow:

California Steel Products Co., \$1,627 each.

Steel Tank & Pipe Co., \$1794 each.

Boiler Tank & Pipe Co., \$2195 for Saranap; \$2160 for Fairview.

Bids held under advisement.

SOUTH PASADENA, Los Angeles Co., Cal.—Bids for furnishing 5000 ft. 10-in. Class 250 centrifugally cast, cast iron pipe or Class B pipe opened by city council June 7. The bids, which were referred to the city manager until June 14, were:

U. S. Pipe & Foundry Co.—Class 250 DeLavaud 18-ft. lengths, \$1.20 ft.; alt. Class "150", 99¢; second alt. Class "150", 18-ft. lengths, \$1.09.

Ipamco Pipe Corp.—Class B, five-metre lengths, 86¢ ft.

Utilities Supply Co.—Class "250", \$1.0675 ft.; alt. Class "150", 89.5¢ ft.

Central Foundry Co.—Class "250", \$1.10 ft.

Pacific States Cast Iron Pipe Co.—no check—Class "250", \$1.39 ft.

SELMA, Fresno Co., Calif.—City council appropriates funds and appoints Hussey & Belcher, Sundicate Bldg., Oakland, as engineers to make survey for proposed municipal water system. 33

ALHAMBRA, Los Angeles Co., Cal.—The \$340,000 bond issue for the development of the Rio Hondo Water Project and other improvements to the city water system was defeated at the election June 6.

SAN FRANCISCO—F. J. Behneman, Receiver for the Joshua Hendy Iron Works, 200 Pine St., at \$6650 awarded contract under Bid No. 1000 by T. A. Brooks, city purchasing agent, to furnish two 60-in. butterfly valves for Hetch Hetchy Project.

SAN FRANCISCO—Standard Oil Co. at \$18 per ton awarded contract under Bid No. 1002 by T. A. Brooks, city purchasing agent, to furnish approximately 304 tons of 30-in. cast iron b & s pipe, involving 152 pieces, 12-ft. lengths.

SAN FRANCISCO—Central Foundry Co., 100 Potrero Ave., at \$2.063 for 16-in., and \$1.252 for 12-in. awarded contract under Bid No. 1004 by T. A. Brooks, city purchasing agent, to furnish 4210 ft. 16-in. and 5100 ft. 12-in. class 150 cast iron water pipe.

WAPATO, Wash.—Union Concrete Pipe Co., Yakima, at \$8553 submitted low bid to U. S. Indian Service, Wapato, to furnish concrete pipe for the reservation. Only other bid submitted by Yakima Cement Prod. Co., Yakima, at \$9580.

LOS ANGELES, Cal.—Kimball-Krogh Pump Co., awarded contract by Saul A. Joseph, Purchasing Agent of the Metropolitan Water District, June 10, at \$1345, for furnishing turbine pump under Bid No. 11281.

LOS ANGELES, Cal.—E. E. Mc-Nerney, Pacific Coast Manager of the Valvoline Oil Co., 124 Center St., has announced that the company will expend about \$25,000 for the construction of petroleum storage tanks on the company's property at the southeast corner of Union Pacific Ave. and Esperanza St.

POMONA, Los Angeles Co., Cal.—Southern Pipe & Casing Co., Azusa, awarded contract by Water Department at 79.4¢ ft. to furnish 5600 ft. 12-in. I. D. electric welded steel pipe, 25 lbs. to the foot.

SAN FRANCISCO—The Worthington Co., Inc., 543 Howard St., at \$786.15 (delivered) awarded contract by Quartermaster Supply Officer, Fort Mason, to furnish one pump horizontal duplex piston, for sanitary purposes, 10x10 $\frac{1}{4}$ x12-in.

DALY CITY, San Mateo Co., Cal.—Until July 18, 8 P. M., bids will be received by Stella L. Jensen, clerk, Jefferson Union High School, Daly City, to furnish one pump and motor; pump to be multistage horizontal split case centrifugal pump, connected to 15-hp, 3-phase 60-cycle 220-volt 1750-rpm. motor. Further specifications obtainable from above office.

SEATTLE, Wash.—Queen City Construction Co., Seattle, at \$72,915 submitted low bid to board of public

works to construct water main on Alki Ave., involving 15,600 ft. 20-in pipe, concrete, steel, cast iron or wood. Joe Coluccio second low bidder at \$75,045.

HAYWARD, Alameda Co., Calif.—Until June 23, 8 P. M., bids will be received by M. E. Templeton, city clerk, to construct a 25,000-gal. elevated steel tank, 60-ft. to bottom capacity, for the municipal water system. Specifications obtainable from city clerk's office or from office of John A. Mancini, city engineer, on deposit of \$5, returnable.

LOS ANGELES, Cal.—Until 11 A. M., June 26, bids will be received by A. J. Holm, City Purchasing Agent, 107 City Hall, to furnish and deliver to Water and Power Department f.o. b. locations shown below, miscellaneous bell and spigot cast iron water pipe under Specifications No. 3123. The items are as follows:

F. o. b. bidder's trucks, Department of Water and Power, Hewitt St. yard, Los Angeles:

(1) 15,000 ft. 6-in. I.D. pipe, delivery to be made on or about Nov. 15, 1933;

(2) 25,000 ft. 8-in. I.D. pipe, delivery to be made on or about Oct. 7, 1933;

(3) 25,000 ft. 8-in. I.D. pipe, delivery to be made on or about Jan. 7, 1933;

(4) 20,000 ft. 12-in. I.D. pipe, delivery to be made on or about Sept. 1, 1933;

F. o. b. cars or trucks, Department of Water and Power, Slausen and Compton Ave. yard, Aqua Siding, A. T. & S. F. Railway delivery, Los Angeles:

(5) 15,000 ft. 6-in. I.D. pipe, delivery to be made on or about Sept. 15, 1933;

(6) 25,000 ft. 8-in. I.D. pipe, delivery to be made on or about Dec. 7, 1933;

(7) 15,000 ft. 12-in. I.D. pipe, delivery to be made on or about Nov. 1, 1933.

F. o. h. bidder's trucks, Department of Water and Power's yard at Aetna and Vesper Sts., Van Nuys:

(8) 15,000 ft. 6-in. I.D. pipe, delivery to be made on or about Aug. 15, 1933;

(9) 15,000 ft. 6-in. I.D. pipe, delivery to be made on or about Oct. 15, 1933;

(10) 25,000 ft. 8-in. I.D. pipe, delivery to be made on or about Sept. 7, 1933;

(11) 25,000 ft. 8-in. I.D. pipe, delivery to be made on or about Nov. 7, 1933;

(12) 20,000 ft. 12-in. I.D. pipe, delivery to be made on or about Aug. 1, 1933;

(13) 15,000 ft. 12-in. I.D. pipe, delivery to be made on or about Oct. 1, 1933;

(14) 15,000 ft. 12-in. I.D. pipe, delivery to be made on or about Dec. 1, 1933.

EL CENTRO, Imperial Co., Calif.—The Imperial Inter-Cities Water District has applied to the Reconstruction Finance Corp. for a loan of \$900,000 to finance the development of a water supply and the construction of a supply line to serve the cities of Calexico, Heber, El Centro, Imperial, Brawley and Mexicali. The proposed project will involve the drilling of four or five wells, to develop about 3000-gpm., the well to be between 300 and 350 ft. in depth, with deep well turbine pumping plants. The proposed supply line will be of gravity type, 55 miles in length, covered conduit with flat top (varying up to 52-in. width) and parabolic invert of reinforced Gunlite construc-

tion. The wells are to be sunk in the sand hills east of Calexico between the edge of the Imperial Valley and the city of Yuma. The total supply will probably amount to 14,400,000 gallons daily. Chas. N. Perry, 732 N. Heliotrope Drive, Los Angeles, consulting engineer.

LA MESA, Imperial County, Cal.—American Concrete and Steel Pipe Co. 4635 Firestone Blvd., South Gate, has been awarded contract by the La Mesa, Lemon Grove and Spring Valley Irrigation District at about \$35,000 for replacing about 1.5 miles of wooden flume east of El Cajon with 36-inch reinforced concrete siphon. The pipe will be constructed at the company's plant near Old Town, San Diego. Work will start in July.

LOS ANGELES, Cal.—Southern Pipe & Casing Co., at \$4140 and \$260, Indio, awarded contract by Saul A. Joseph Purchasing Agent, Metropolitan Water District, June 12, for furnishing pipe under Bid No. 11362.

SAN FRANCISCO—Until June 23, 3 P. M., under Bid No. 1032, bids will be received by T. A. Brooks, City Purchasing Agent, to furnish:
(1) 50,000 ft. 6-in. b&s cast iron pipe;
(2) 50,000 ft. 8-in. do.
Specifications obtainable from above office.

PANAMA CANAL ZONE.—Bids submitted to the Purchasing Office, Panama Canal, Washington, D. C., June 6, to furnish valves, pipes, etc., under Schedule No. 2870, were:

American Cast Iron Pipe Co., Birmingham, Ala., Item 6, \$6002.60; item 7, \$2010.52.

American District Steam Co., North Tonawanda, New York, Class 3, \$447. Chris., 7 days, on board; 2%, 10 days.

Ladger Fire Extinguisher Co., 61 St. James Ave., Boston, Mass., Class 3, \$3290; Chris. 40 days; 2%, 10 days.

M. L. Bayard & Co., Inc., 20th and Indiana Ave., Philadelphia, Pa., Class 3, \$676.50; Chris. 40 days.

Birdsboro Steel Foundry & Machine Co., Birdsboro, Pa., Class 1 (part) \$607.95; Chris. 38 days. Items 1 and 16 only.

Consolidated Ashcroft-Hancock Co., Inc., Bridgeport, Conn., Class 1 (part) \$44.22. Item 15 only; Chris. 35 days, 2% 10 days. Class 5, \$56.70; Chris. 35 days; 2%, 10 days.

Construction Supplies Co. of America, 500 5th Ave., New York City—Class 6 (part) \$2978.68. All items except 1 to 35, 37, 38, 35, 45, 60; 60 days; 2%, 20 days.

Cooper Mfg. Co., 411 S 1st St., Marshalltown, Ia., Class 11, \$30.26; 2%, 10 days.

Crane Export Corp., 4730 29th St., Long Island City, N. Y., Class 5, \$91.-47. 40 days, 2% 10 days. Class 6, \$6.-682.23. 40 days, 2% 10 days. Class 8, \$214.80, 40 days, 2% 10 days. Class 9, \$337.86, 40 days, 2% 10 days. Class 10, \$170.06, 40 days, 2% 10 days. Class 11, \$53.05, 40 days, 2% 10 days.

Davis Regulator Co., 2541 S Wash-
tew Ave., Chicago, Class 4, \$35, 15 days, 2% 1 day.

The Fairbanks Co., 393 Lafayette St., New York City, Class 1 (part) \$6815.97, 30 to 45 days, 2% 10 days. All items except 12 to 18, inclusive.

The Fischer Governor Co., Marshalltown, Ia., Class 4, \$29.16; 2 days, New Orleans, 2% 10 days.

B. F. Goodrich Rubber Co., Akron, O., Class 11, \$45, 60 days, 2% 10 days.
Goslin Birmingham Mfg. Co., Inc., Birmingham, Ala., Class 6 (part) \$3-586, 40 days. Items 21, 35, 37, 38 and 44 only. Class 7, \$1956, 40 days.

Green-Wolfe Co., Inc., 30 Church St., New York City, Class 1, \$7348.92; 40 days, 1% 20 days. Class 2, \$1,-241.25; 40 days, 2% 10 days. Class 3,

\$529.80, 40 days, 2% 1 day, 1% 20 days. Class 5, \$62.25, 40 days, 2% 1 day, 1% 20 days.

Hajoca Corp., Roslyn, Va., Class 1 (part) \$1322.22, 40 days. Items 4 to 12, inclusive, 7 and 16 only 5% 10 days; 2% 20 days.

Homestead Valve Mfg. Co., Coraopolis, Pa., Class 2, \$1110.48, 40 days 2% 10 days.

Howard Iron Works, 287 Chicago St. Buffalo, N. Y., Class 3, \$359, 25 days; ½% 10 days.

C. G. Hussie & Co., 2850 2nd Ave., Pittsburgh, Pa., Class 10, \$127.19; 30 days; 1% 10 days.

Jinkins Bros., 133 N 7th St., Philadelphia, Pa., Class 1 (part) \$4334.15; 45 days, 2% 10 days. Items 1, 4 and 10 only.

Kennedy Valve Mfg. Co., Elmira, N. Y., Class 1 (part) \$5359, 40 days; 2% 10 days. Items 15, 16 and 17.

J. E. Lonergan Co., 213 Race St., Philadelphia, Pa., Class 1 (part) \$27; shipment 15 days; 2% 1 day. Item 15 only. Class 5, \$56.70; 19 days shipment; 2% 10 days.

Ledlow Valve Mfg. Co., Troy, N. Y. Class 1 (part) \$5956.30. All except items 15, 16 and 17.

Metalla Gasket Co., 16 Bethany St., New Brunswick, N. J., Class 10, \$101.91 2% 10 days, 1% 20 days. Class 11, \$45.50; 30 days, 2% 10 days, 1% 20 days.

M. & H. Valve & Fitting Co., P. O. Box 773, Anniston, Ala., Class 6, \$4630.33; 40 days, 2% 10 days.

Mneller Steam Specialty Co., Inc., 349 W 26th St., New York City, Class 4, \$28; 15 days; 2% 10 days; 1½% 20 days, 1% 30 days.

National Cast Iron Pipe Co., Birmingham, Ala., Class 6 (part) \$7156; 40 days. All except \$5 and \$6. Class 7, \$1893.92; 40 days.

Phoenix Specialty Mfg. Co., 155 Wooster St., New York City, Class 10, \$89.92; New York, 20 days; 2% 1 day. Class 11, \$33.72; New York, 20 days; 2% 10 days.

Pittsburgh Pipe & Equip. Co., 43rd St. and A. V. R. R., Pittsburgh, Class 1, \$6923.75; 40 days; 2% 10 days. Class 2, \$1167; 40 days; 2% 10 days.

HUNTINGTON PARK, Los Angeles Co., Cal.—U. S. Pipe & Foundry Co., 2326 E 8th St., Los Angeles, awarded contract by city council June 5 at 54.5e ft., for 6000 ft. 6-in. cast iron pipe.

35—TUNNELS

LOS ANGELES, Cal.—Walsh Construction Co., Davenport, Iowa, and 904 Chester Williams Bldg., Los Angeles, for schedules 1, 2, 3, 4, 5 and 6, total including all deductions as contained in stipulations, \$4,357,780.40.

West Construction Co., Boston, Mass., or 616 Richfield Oil Bldg., Los Angeles, at \$1,051,637.50 for Schedule 7, submitted low bids June 12 to Metropolitan Water District, Los Angeles, to construct the Colorado River, Copper Basin, Whipple Mountain and Whitewater Tunnels, schedules and quantities as follows:

SCHEDULE 1

Construct Colorado River tunnel and appurtenant works, between Station 10+40 and Station 67+40. Tunnel length 5640 ft.

Note: No bid will be considered for less than all the items of a schedule.

- (1) Does not apply here;
- (2) 2100 cu. yds. excav. in approach cut;
- (3) 61,000 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. tunnel enlargement;
- (5) Does not apply here;
- (6) 15,900 cu. yds. conc. in tunnel;
- (7) 35 M. feet b.m. furnish and place

- permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 150 cu. yds. Gunite coat rock, tunnel;
- (10) 80 connections for grouting;
- (11) 100 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinf. steel;
- (13) 5000 cu. yds. mi. overhaul conc. agg.;
- (14) 700 ton-mil. haul. steel;
- (15) 73,000 ton-mile overhaul cement;

SCHEDULE 2

Construct entire No. 1, and East portion No. 2, Copper Basin tunnels and appurtenant works, between Station 179+70 and Station 246+60. Tunnel length 6140 ft.

Note: No bid will be considered for less than all the items of a schedule.

- (1) Does not apply here;
- (2) 12,000 cu. yds. excavation in approach cut;
- (3) 66,800 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 560 cu. yds. concrete in approach section;
- (6) 17,400 cu. yd. concrete in tunnel;
- (7) 45 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 150 cu. yds. Gunite coat rock, tunnel;
- (10) 80 connections for grouting;
- (11) 100 cu. yds. mixing and placing grout;
- (12) 175,000 lbs. placing reinforcing steel;
- (13) 6000 cu. yds. mi. overhaul conc. aggregates;
- (14) 1800 ton-miles hauling steel;
- (15) 80,000 ton-miles hauling cement

SCHEDULE 3

Construct West portion, Copper Basin No. 2 tunnel and appurtenant works, between Station 246+60 and Station 309+10. Tunnel length, 6140 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here;
- (2) 4000 cu. yds. excavation in approach cut;
- (3) 66,800 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. tunnel enlarge;
- (5) Does not apply here;
- (6) 17,400 cu. yds. concrete in tunnel;
- (7) 25 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erecting steel support in tunnel;
- (9) 150 cu. yds. Gunite coat, rock in tunnel;
- (10) 80 connections for grouting;
- (11) 100 cu. yds. mix and place grout;
- (12) 40,000 lbs. placing reinforcing steel;
- (13) 6000 cu. yds. miles overhaul of concrete aggregates;
- (14) 400 ton-miles hauling steel;
- (15) 57,000 ton-miles hauling cement;

SCHEDULE 4

Construct East portion, Whipple Mountain tunnel and appurtenant works, between Station 350+90 and Station 452+70. Tunnel length 10,000 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here;
- (2) 7300 cu. yds. excav. in approach cut;
- (3) 109,800 cu. yds. evcav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) Does not apply here;
- (6) 28,600 cu. yds. concrete in tunnel;
- (7) 210 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 20 tons erect steel support in tunnel;
- (9) 150 cu. yds. Gunite coat rock, tunnel;
- (10) 75 connections for grouting;
- (11) 100 cu. yds. mix and place grout;
- (12) 50,000 lbs. place reinforcing steel
- (13) 10,000 cu. yd. miles overhaul of concrete aggregates;

- (14) 600 ton-miles hauling steel;
- (15) 92,000 ton-miles hauling cement;

SCHEDULE 5

Construct Central portion, Whipple Mountain tunnel and appurtenant works, between Station 452+70 and Station 620+60. Tunnel length 16,790 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) tunnel access work (lump sum);
- (2) Does not apply here;
- (3) 185,400 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) Does not apply here;
- (6) 48,200 cu. yds. concrete in tunnel
- (7) 350 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 30 tons erecting steel support in tunnel;
- (9) 260 cu. yds. Gunite coat rock in tunnel;
- (10) 125 connections for grouting;
- (11) 150 cu. yds. mix and place grout;
- (12) 75,000 lbs. place reinf. steel;
- (13) 16,000 cu. yd. miles overhaul of concrete aggregates;
- (14) 900 ton-miles hauling steel;
- (15) 147,000 ton-miles hauling cement;

SCHEDULE 6

Construct West portion, Whipple Mountain tunnel and appurtenant works, between Station 620+60 and Station 676+10. Tunnel length 5400 ft.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here;
- (2) 7300 cu. yds. excav. in approach cut;
- (3) 59,300 cu. yds. excav. in tunnel;
- (4) 40 cu. yds. excav. for tunnel enlargement;
- (5) 280 cu. yds. concrete in approach section;
- (6) 15,400 cu. yds. concrete in tunnel;
- (7) 110 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 10 tons erect steel support in tunnel;
- (9) 40 connections for grouting;
- (10) 50 cu. yds. mix and place grout;
- (11) 25,000 lbs. place reinf. steel;
- (12) 5000 cu. yd. miles overhaul of concrete aggregates;
- (13) 120 ton-miles hauling steel;
- (14) 21,000 ton-miles hauling cement;

SCHEDULE 7

Construct Whitewater Nos. 1 and 2 tunnels and appurtenant works, bet. Station 9961+80 and Station 9787+70. Tunnel length 10,040 feet.

Note: No bid will be considered for less than all items of a schedule.

- (1) Does not apply here
- (2) 37,300 cu. yds. excav. in approach cut;
- (3) 123,900 cu. yds. excav. in tunnel;
- (4) 50 cu. yds. excav. for tunnel enlargement;
- (5) 1400 cu. yds. concrete in approach section;
- (6) 28,600 cu. yds. concrete in tunnel;
- (7) 870 M. feet b.m. furnish and place permanent timbers in tunnel;
- (8) 1150 tons erect steel support in tunnel;
- (9) 300 cu. yds. Gunite coat rock in tunnel;
- (10) 20 connections for grouting;
- (11) 25 cu. yds. mix and place grout;
- (12) 100,000 lbs. place reinf. steel;
- (13) Does not apply here;
- (14) 1850 ton-miles hauling steel;
- (15) 14,300 ton-miles hauling cement.

LOS ANGELES, Calif.—Culjak and Zelko, 1358 S Bonnie Beach Place, awarded contract by board of public works, June 9, at \$2196.14, for constructing a sanitary sewer in Montecito Drive, between Griffin Avenue and a point 651.83 ft. south, under 1911 Act.

LOS ANGELES, Cal.—The Triple Tunnel Assn., has requested the park board to approve rights-of-way for tunnel extension in Western, Bronson and Vermont Aves. in connection with

a plan to construct a series of tunnels through the Hollywood Hills to facilitate traffic from San Fernando Valley reaching Los Angeles by the most direct route. The proposed projects involve three tunnels under Griffith Park, one in Western Ave. Canyon and one in Vermont Canyon to connect with a road in Brush Canyon at the head of Bronson Ave., where a third tunnel will carry the traffic through the main ridge into the valley. The cost is estimated at \$7,000,000. The Bronson Ave. tunnel, which will be the main tunnel, the others being branches, will be about 3500 ft. in length, with a 40-ft. roadway.

29—STREETS AND HIGHWAYS

LOS ANGELES, Calif.—Until 10 A. M., June 28, bids will be received by board of public works to improve first alley south of Pico Blvd. bet. Wooster St. and Robertson Blvd., under 1911 act. The proposed work involves:

- (1) grading (138 cu. yds. cut);
- (2) 5315 sq. ft. 6-in. concrete paving;
- (3) 761 sq. ft. 4-in. rock and oil surfacing;
- (4) reset one manhole.

LOS ANGELES, Cal.—A. O. Nelson 136 N Huntington Drive, Pasadena, submitted low bid to board of public works June 7 at \$1423.23 to improve Strickland Ave. bet. Burwood Terrace and 220 ft. west, under the 1911 act.

BURBANK, Los Angeles Co., Cal.—Geo. R. Curtis Paving Co., 2440 East 26th St., Vernon, submitted low bid to city council June 6 at \$5920.90 to improve Hollywood Way between Empire St. and Winona Ave. The existing roadway is paved with cement concrete to a width of 24 ft. The improvement consists of paving a strip 18 ft. wide on the west side and a strip 22 ft. wide on the east with asphaltic concrete. The rough grading will be done by unemployment relief forces.

ALAMEDA, Alameda Co., Calif.—Date of opening bids has been postponed indefinitely in connection with the placing of bituminous or concrete surfacing on the roads and the paved areas at the Benton Field Air Depot, Alameda.

Bids were scheduled to be opened June 15 by the Constructing Quar-master, Benton Field Air Depot.

ALAMEDA, Alameda Co., Calif.—Date of opening bids has been postponed indefinitely in connection with the grading or runways, placing rock under fill and constructing extension to drainage system at Benton Field Air Depot.

Bids were scheduled to be opened June 15 by the Constructing Quar-master, Benton Field Air Depot.

ROCKWELL FIELD, Cal.—All bids rejected June 6 by Construction Division, Army Department, to construct approximately 200,000 sq. ft. 6-in. reinforced concrete pavement, with driveways, storm sewers, etc., at Rockwell Field, Coronado. On bid opening May 1, low bid was submitted by Weymouth Crowell Co., 2104 E 15th St., Los Angeles, at \$36,200.

LOS ANGELES, Cal. — The city council has authorized the city engineer to prepare plans for improving Lincoln Blvd., from Venice Blvd. to Washington Blvd., utilizing the eighty-foot width of street acquired by condemnation proceedings in 1929. The Board of Supervisors will be asked to allocate the sum of \$40,000 toward the cost.

STOCKTON, San Joaquin Co., Cal.—Willard, Biasotti & Lovatti, 40 W. Clay St., Stockton, at \$10,649 awarded contract by county supervisors to improve Davis and Telegraph roads from the Five Mile House on the Davis road and from the north end of Wagner Heights road over the first drainage canal on the Telegraph road, involving:

- (1) 900 cu. yds. grading;
- (2) 1230 tons gravel;
- (3) 80 barrels fuel oil;
- (4) 3350 tons top course, asph. conc., plant mix.

Complete bids follow:
(A) Willard, Biasotti & Lovatti, \$10,649.00.

(B) C. W. Wood, Stockton, \$12,935.50. Unit bids follow:

	(A)	(B)
(1).....	\$.40	\$.50
(2).....	1.05	1.85
(3).....	1.50	2.00
(4).....	2.65	3.00

OAKLAND, Calif.—Hutchinson Co., 1450 Harrison St., Oakland, at prices shown below, submitted low bid for first three items to East Bay Municipal Utility District for 40,000 sq. ft. of street repair work, as follows:

- (1) 1,300 cu. ft. asph. conc. base, complete in place;
- (2) 35,000 sq. ft. asph. street paving, complete surface;
- (3) 3,000 sq. ft. asph. street paving repair, skin patching only;
- (4) 500 cu. yds. concrete, wet mix, delivered at trench, exclusive of spreading.

Bidders follow:

- (A) Hutchinson Co., Oakland.
- (B) Independent Const. Co., Oakland.
- (C) W. H. Larson, Berkeley.
- (D) Transit Concrete, Ltd., Oakland.
- (E) Makin & Kennedy, Oakland.
- (F) Melrose Bldg. Materials Co., Oakland.

Bids held under advisement.

SEATTLE, Wash.—Until June 22, 10 A. M., bids will be received by Board of Works, Seattle, to construct Railroad Ave. improvement, including sea wall, sewers, sidewalks, etc., and paving work bet. Madison and Bay Sts., involving:

- 3,561 tons steel sheet piling;
 - 245,000 cu. yds. embankment;
 - 403,000 lin. ft. piling;
 - 2,288 MFBM lumber;
 - 1,754 tons reinf. steel;
 - 15,000 cu. yds. concrete;
 - 40,640 sq. yds. 9-in. conc. paving;
 - 9,740 ft. c. i. watermains;
 - 6,200 ft. pipe sewers.
- Estimated cost, \$1,200,000. Previous bids returned unopened.

PORT TOWNSEND, Wash.—Until June 27, bids will be received by U. S. Treasury Dept., Washington, D. C. for construction of a boat basin and grading in connection with the Port Townsend Quarantine Station.

LOS ANGELES, Cal. — Bids will be called at once by the Board of Public Works for improving streets in the Gaffey St. and Fourth St. Improvement District, San Pedro, under the 1911 Act. The council previously allocated \$200,000 toward this work and approximately fifty per cent of the waivers of damages have been obtained by the city engineer. The board of public works was also authorized to award the contract when all the waivers have been obtained. The streets to be improved are: Gaffey St., Channel St., to 9th St.; Channel

St., Wilmington-San Pedro Rd. to Gaffey St.; First St., Grand Ave. to Cabrillo Ave.; Third St., Grand Ave. to Gaffey St.; Marshall Court, and General Ave., Elberon Ave. to Summerland Ave. The work involves:

- Grading (73,500 cu. yds. cut, 48,000 cu. yds. fill);
- 241,718.91 sq. ft. 6-in. concrete base with 2-in. asphalt concrete wearing surface;
- 183,543.36 sq. ft. 6-in. asphalt concrete base with 2-in. asphalt concrete wearing surface;
- 434.19 sp. ft. 7-in. asphalt conc. pavement;
- 21,490.76 sq. ft. 8-in. asphalt concrete pavement;
- 4,598.47 sq. ft. 8-in. conc. pavement
- 45,989.31 sq. ft. 7-in. conc. pavement
- 481.46 sq. ft. 6-in. conc. pavement
- 8,744.68 sq. ft. 5-in. conc. pavement
- 2,580 sq. ft. 8-in. concrete (local depressions);
- 2,566.86 sq. ft. 6-in. concrete (drive-ways);
- 94,493.92 sq. ft. resurfacing (variable thickness, average 3½-in.);
- 8,600.09 ft. combination gutter;
- 5,565.19 sq. ft. concrete curb;
- 16,102.19 ft. heavy curb;
- 53,254.52 sq. ft. walk;
- 25,246.03 sq. ft. oiled roadway;
- 4,260 ft. lighting conduit.

SAN FRANCISCO.—Until June 23, 3 P.M., bids will be received by the Public Utilities Commission, Felton Taylor, secretary, to repave street or sidewalk openings where pavement has been removed for San Francisco Water Department for fiscal year ending June 30, 1934, involving:

- (1) 60,000 sq. ft. light traffic concrete pavement;
 - (2) 100 sq. ft. heavy concrete with binder;
 - (3) 27,000 sq. ft. 6-in. Class E concrete pavement;
 - (4) 500 sq. ft. brick pave, on conc. base, incl. brick gutter;
 - (5) 100 sq. ft. asph. conc. 3½-inch base and 1½-in. wearing surf.;
 - (6) 400 basalt blocks on conc. base;
 - (7) 5000 do on sand;
 - (8) 47,000 sq. ft. sidewalk, all types;
 - (9) 100 sq. ft. 2-in. sheet asph. wearing surface;
 - (10) 100 sq. ft. 6-in. Class F concrete base;
 - (11) 120,000 sq. ft. asph. concrete 6-in. base and 2-in. wear. surf.;
 - (12) 100 sq. ft. do 8-in. base, 1½-in. binder course and 1½-in. wearing surface;
 - (13a) 100 sq. ft. oiled macadam, 4-in. base;
 - (13b) 2500 sq. ft. do, 8-in. base.
- Specifications obtainable from S. F. Water Dept., 425 Mason St., room 605.

FAIRFAX, Marin Co., Cal.—No further bids received and project abandoned by city council on Manor Hill Section street improvement. Project includes paving, curb and gutters, involving:

- (1) 15,104 cu. yds. grading;
 - (2) 10,380 lin. ft. conc. curb and gutter;
 - (4) 206 ft. 10-in. metal pipe culvert;
 - (5) 356 ft. 12-in. do;
 - (6) 192 ft. 18-in. do;
 - (7) 46 ft. 48-in. do;
 - (8) 22 concrete catchbasins, c.i. grating;
 - (9) 33 cu. yds. reinf. concrete retaining wall;
 - (10) 250 lin. ft. 6-in. sanitary sewer;
 - (11) 1 lamphole.
- Estimated cost, \$30,000. J. C. Oglesby, city engineer.

SPOKANE, Wash.—Chas. A. Power, S. 1703 Grand, Spokane, at \$18,467 with \$2 additional per cu. yd. solid rock excavated and backfill below base line, awarded contract by city council to pave a 20-ft. strip on Boone Ave. from Division to Monroe St.

SAN RAFAEL, Marin Co., Cal.—U. B. Lee, 1059 Carpentier St., San Leandro, at \$3940 awarded contract by county supervisors to treat with emulsified asphalt and screenings from 6-mi. northwest of Inverness Store, on the Point Reyes Light House Road, 2 mi., involving 200,000 sq. ft. emulsified asphalt and screenings in place. Complete bids follow:

- U. B. Lee, San Leandro.....\$3940
- Lee J. Immel, Berkeley..... 4140
- P. S. Harless, San Rafael..... 4320
- Helwig Constr. Co., Sebastopol.... 4360
- E. A. Forde, San Anselmo..... 4580
- Heafey-Moore Co., Oakland..... 5000

SAN JOSE, Santa Clara Co., Cal.—Until June 26, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, to improve San Salvador St., from Meridian Road to the east line of Hannah St., in Supervisor District No. 4, involving 65,240 sq. ft. oil macadam. Specifications obtainable from Robert Chandler, county surveyor, on payment of \$1, not returnable.

SAN DIEGO COUNTY, Cal.—Until 2 P. M., June 21, bids will be received by S. V. Cortelyou, District Engineer, State Highway Commission 808 California State Office Bldg., Los Angeles, for highway construction between Sorrento Creek and Del Mar about 0.25 mile in length, to be graded and paved with portland cement concrete, involving:

- (1) 1000 cu. yds. imported borrow in place;
- (2) 5300 sq. yds. subgrade for pave.;
- (3) 1120 cu. yds. Class A portland cement conc. in place (pave.);
- (4) 25,000 lbs. bar reinf. steel in place (pave.);
- (5) 125 bbis. heavy fuel oil in place;
- (6) 150 cu. yds. existing surfacing to be removed and disposed of;
- (7) 460 lin. ft. existing guard rail to be removed and salvaged;
- (8) 14 stations finishing roadway.

FRESNO, Cal.—Until 11 A. M., June 23, bids will be received by the City of Fresno for furnishing 3000 feet of 2½-in. double jacket, rubber lined fire hose and couplings coupled in 50-ft. lengths for the fire department. A certified check in the amount of 10% must accompany each bid. H. S. Foster, City Clerk.

MONTEREY PARK, Los Angeles Co., Cal.—Woods Rock & Sand Co., Box 145, Azusa, awarded contract by city council to furnish rock, gravel and sand for a period of one year as follows:

- No. 1, 2, 3 and 4 rock at 90c ton.
- Gravel at 90c ton.
- Concrete and plaster sand at 95c ton.

SAN JOSE, Santa Clara Co., Cal.—Until June 26, 11 A. M., bids will be received by Henry A. Pfister, County Clerk, to improve Kooser Road from San Jose to Almaden Road to the Los Gatos and Almaden Road, Supervisor District No. 4, involving:

- (1) 223,600 sq. ft. asph. concrete;
 - (2) 4,460 sq. ft. additional 16-ft. pavement.
- Specifications obtainable from Robt. Chandler, county surveyor, on payment of \$1, not returnable.

TULARE COUNTY, Cal.—Basleh Bros., 20,550 Normandie Ave., Torrance, at \$146,117.05 awarded contract by State Highway Commission, Sacramento, to grade and pave with asphaltic concrete about 4.2 mi. between Plaze Garage and Goshen; and to construct an undergrade crossing under the tracks of the S. P. Co. near Plaza Garage.

UNIT BID SUMMARY

Compiled from the Daily News Service of Pacific Constructor

IMP. VENICE BLVD. — LOS ANGELES

LOS ANGELES, Calif.—Associated Constructors, Inc., 1226 S La Brea Ave., submitted low bid to the board of public works May 31 at \$101,004.30 for the improvement of Venice Blvd. (south roadway) between La Cienega Blvd. and Overland Ave., cash contract, involving:

- (1) grading (9154 yds. excav., 1181 yds. fill);
- (2) 399,609 sq. ft. 8-in. compressed concrete paving;
- (3) 16,733 sq. ft. 8-in. Class E concrete paving;
- (4) 511 sq. ft. 8-in. concrete paving (including local depressions);
- (5) 484 sq. ft. 8-in. concrete gutter;
- (6) 472 sq. ft. 6-in. concrete gutter (Class E concrete);
- (7) 417 tons asphalt concrete wearing surface;
- (8) 507 tons asphalt concrete base;
- (9) 420 sq. ft. 6-in. asphalt concrete paving (4-in. base & 2-in. wearing surface);
- (10) 25,308 sq. ft. 4-in. asphalt concrete wearing surface;

- (11) 2511 ft. unplastered heavy curb;
- (12) 86 ft. unplastered heavy curb with vertical back;
- (13) 519 ft. curb armor;
- (14) 5407 sq. ft. 3-in. concrete walk;
- (15) 318 sq. ft. 4-in. concrete walk (driveways);
- (16) 230 sq. ft. 7-in. concrete gutter;
- (17) 350 sq. ft. 6-in. do;
- (18) storm drain;
- (19) 74 ft. galv. iron pipe guard rail;
- (20) concrete curtain walls and concrete curb walls, not including guard rail;
- (21) ornamental lighting reconstruction and installation;
- (22) 22 manholes to be reset.

The total bids were:

- (A) Associated Constructors, Inc., \$101,004.30.
- (B) Geo. H. Oswald, \$102,104.15.
- (C) Southern California Roads Co., \$105,084.13.
- (D) J. L. McClain, \$105,556.56.
- (E) Griffith Co., \$106,775.55.
- (F) Engineer's estimate, \$106,517.13.

LUMBER BACKLOG NOW 41 Pct. OF MILL INVENTORY

New Business Increases To Set Weekly Record For Two Years

Orders at western lumber mills reporting to the West Coast Lumbermen's Association for the week of June 10, increased 17,000,000 feet from the previous week, reaching the highest point recorded since the corresponding week in 1931.

Gains were registered in the rail and domestic cargo markets, foreign and local trades both decreasing.

Unfilled orders are 41 per cent of the stocks in the Douglas fir region, the highest ratio since October, 1929. Since January 1 orders have averaged 24.6 per cent in excess of production and 17 per cent more in volume than during the same period last year. Production since January 1 has been 2.9 per cent under the same period in 1932.

"These factors combined with active buying result in a better marketing position for the industry than at any time in two years. The weakness is lack of consumption through building," says the association report.

A total of 252 down and operating mills in the week ending June 10 produced 94,268,283 board feet of lumber. This was an increase of 1,452,340 feet or 13.8% over their output of the preceding week. The average week's production of this group of sawmills in 1933 has been 54,160,650 feet; during the same period in 1932, their weekly average was 65,615,503 feet.

The new business reported last week by 180 mills is 123,855,768 board feet against a production of 83,518,409 feet and shipments of 104,286,119 feet. Their shipments were over their production by 23.47% and their current sales were over production by 54.45%. The orders booked last week by this group of identical mills were more than their orders of the preceding week by 16,861,938 feet or 15.06%.

The unfilled order file at those mills stood at 422,064,944 board feet, an increase of 24,755,835 feet from the week before.

THE WEEK'S NEWS Highlights

MATERIAL PRICES—Increases in the price of both lumber and steel were announced in the bay district during the week. Lumber was advanced \$2 per thousand. Steel prices were established at approximately 20 per cent above former quotations. Other increases in principal lines are expected daily.

TRADE CODES—Various contractor and material groups are hastening to complete competitive fair practice codes under terms of the National Industrial Recovery Act. California State Builders' Exchange directors voted to call conferences of builders in San Francisco and Los Angeles at an early date to consider a workable code for the state industry. Associated General Contractors will meet in Chicago June 26 to approve a national code for general contractors embracing all contractors undertaking construction work in its entirety to cost more than \$1000. Lumbermen will be among the first material groups to operate under national regulation, the National Lumber Manufacturers Association having taken the leadership in drafting regulations which will be submitted for final approval at a Chicago meeting June 30.

HIGHWAY WORK—First contracts to be advertised under the new Federal highway program are those for forest road work authorized by the Bureau of Public Roads. State highway departments are preparing to issue bid calls as soon as money is available. Work in California has been suspended pending a decision on the allocation of gasoline tax money. When the legislature convenes again in July it will decide finally whether or not \$17,000,000 of revenue to be collected from the gasoline tax in the next biennium will be diverted to pay old bonded indebtedness for state highways. Legislators are expected to take their cue from the state vote on Propositions 9 and 10 next Tuesday.

CITY IS ASSURED FEDERAL BENEFITS, MAYOR INFORMED

San Francisco In Excellent Position To Obtain Public Work Assistance

In response to a telegram asking whether outstanding long term bonds for city construction projects would be purchased by the federal government under the National Industrial Recovery Act, Mayor Angelo J. Rossi Saturday received word from Paul V. Betters, secretary of the United States Conference of Mayors at Washington, to the effect that the government would decidedly favor cities having such bonds for sale.

"San Francisco is singularly fortunate in being able to offer such unsold bonds," Betters said. "The government, in my opinion, is anxious to consider first projects against which bonds have been issued."

"The city may either sell the bonds to cover the total cost of the project, and use the federal thirty per cent grant to meet principal and interest payments for a number of years, or use the grant for construction and sell the bonds to make up the remaining seventy per cent."

Answering the mayor's query as to the system of allocation of funds to be followed by the federal administrator, Betters said:

"There has been no official statement as yet. I believe no fixed allocation of limit to states or cities will be made. Each project will be considered on the grounds of necessity and merit, and with regard to unemployment relief and financial condition of the city in question."

"On the above basis, I believe that San Francisco is in a very favorable position to obtain assistance."

Betters pointed out that the proposed hundred per cent grant for municipal highway projects would especially affect San Francisco.

He assured Mayor Rossi that he will keep him posted on developments at Washington.

The mayor has on file in his office a list of tentative projects submitted by city department heads, ready to be forwarded to the federal or state administrator of the \$3,300,000,000 federal fund.

FIRMS JOIN IN COMMITTEE TO PROMOTE FIBRE

Eleven Manufacturers of In- sulation Materials Form Technical Board

The eleven companies constituting the Insulation Statistical Bureau have organized a committee to deal with technical phases of the manufacture and use of fibre insulating boards. Formation of this committee is the result of the rapid growth of the fibre insulation board industry since 1920.

The committee consists of E. C. Lloyd, Chief Engineer, Armstrong Cork & Insulation Co.; R. T. Miller, Chief Engineer, The Masonite Corp.; E. W. Morrill, Assistant to General Sales Manager, The Insulite Co.; C. K. Roos, Manager, Research Dept., United States Gypsum Co., and T. B. Munroe, The Celotex Co., Chairman.

The general functions of the committee include the following five specified activities:

1. To acquire and circulate data of technical nature which affects the insulation board industry.
2. To associate itself with assistance such as American Society of Testing Materials, National Committee on Wood Utilization, etc., or the Technical Department of any member company.
3. The study of standards and specifications of insulation board in manufacture and in use. This to include the study of sizes, thicknesses, specifications for various uses.
4. To collect through its members all building codes affecting fibre board industry and report to the Bureau with recommendations for action thereon.
5. Keeping contact with various government departments and following government specifications of a technical nature so as to make recommendations regarding government specifications of a technical nature so as to make recommendations regarding government specifications as affecting the products of members.

The companies constituting the bureau are: Armstrong Cork Co., The Celotex Co., The Insulite Co., Johns-Manville Co., Masonite Corporation, National Gypsum Company, Stewart Inso-Board Corp.; U. S. Gypsum Co., The Upson Co., Wood Conversion Co., Wood Fibre Board Corp., Hawaiian Cane Products, Ltd.

NAME ARCHITECTS FOR NEW BREWERY

O'Brien Brothers and W. D. Peugh, architects, have been commissioned to prepare plans for a brewery to be built by the Samarkand Brewing Co. of San Francisco. The brewery will be located in Oakland, on a site to be announced later. It will cost \$275,000 and will be of 100,000 barrel capacity. Original announcement of the project was made coincident with incorporation of the company, which is associated with the Samarkand Ice Cream Company, 893 Folsom street.

LICENSE FEES

DUE JUNE 30

Delinquency Doubles Registra- tion Cost, Registrar

Warns

California contractors are cautioned by Col. Carlos W. Huntington, state registrar of contractors, that they must apply for their new license for the ensuing year before June 30, if they intend to continue in business.

With improved economic conditions and an optimistic business outlook prevailing, it is expected that the number of contractors who will obtain a license during the ensuing fiscal year will show a sharp increase, according to the registrar. Approximately 22,000 contractors are now registered.

Under the provisions of Assembly Bill 780, recently approved by Governor James Rolph, Jr., the renewal fee for persons engaged in the building and construction industry was reduced 50 percent, or from \$10 to \$5. New applicants are required to pay a fee of \$10.

Col. Huntington, who is also director of professional and vocational standards in the Governor's cabinet, estimated that the cut in license renewal fee would result in a saving of \$110,000 yearly for the building and construction industry.

"Under the provisions of the amendments to the contractors' registration act," Col. Huntington said, "we are compelled to require every person engaged in the building and construction industry to apply for their license before June 30.

WORK RUSHED ON S. F. BAY BRIDGE BY CONTRACTORS

Kelly Inspects Preparations for Actual Construction of Span

After inspecting San Francisco Oakland Bay Bridge preparatory work on both sides of the bay in company with contractors and Chief Engineer C. H. Purcell State Director of Public Works Earl Lee Kelly expressed satisfaction that every possible effort was being made to rush the actual construction of this project.

"Governor Rolph's order that the bridge work start as early as possible on as many sectors as possible to give the greatest number of men employment at the earliest possible date is being carried out with enthusiasm by every man on this bridge," Director Kelly declared.

By July 9, when ground will be officially broken, everything will be in readiness to start work on both the east and west bay substructures and Yerba Buena Island.

Director of Public Works Kelly and Chief Engineer Purcell were accompanied on the tour of inspection by H. Buford Fisher, chairman of the Junior Chamber of Commerce Ground Breaking Committee, and Barrett G. Hinds, Vice-Chairman.

Chas. F. Swigert, President, and J. A. McEachern, Vice President of the Transbay Construction Co. which has made a construction office of Pier 24, showed the visitors the work on the piling at the end of Pier 24, which piles are being removed to make way for the most westerly pier of the San Francisco Oakland bridge.

After an inspection of this work the state officials and junior chamber officers were taken in a speed boat owned by Henry J. Kaiser President of Bridge Builders, Inc. to the east bay where preparations for the substructure between Yerba Buena Island and Oakland were viewed.

They also visited the construction office and storage yard of Bridge Builders, Inc., on the Pier Terminals in the east bay, and the site of the three concrete mixing plants to be installed by the Kaiser Paving Company on the Western Pacific Railroad mole, Southern Pacific mole, and Yerba Buena Island, which will supply ready mixed concrete by barge to the contractors building piers in the bay.

\$65,000,000 S. F. STREET PROGRAM IS RECOMMENDED

Planning Commission Outlines Traffic Routes To Bay Bridge Approaches

A \$65,000,000 program for street improvement in San Francisco, treating traffic arteries to facilitate vehicle movement toward the two bay bridges, has been prepared by the City Planning Commission.

The special study of arterial highway needs for the city includes the following recommendations:

Harrison - Duboce - Panhandle Golden Gate Park route to Funston and thence through Presidio, to create main highway between two bridgeheads. Cost \$3,600,000.

Lombard street widening, Van Ness to Lyon with diagonal new street to reach elevated viaduct through Presidio to the Golden Gate bridge. Cost, \$1,400,000

Nineteenth avenue widening, from Lincoln Way to Sloat Boulevard and sunken road across Golden Gate Park to Funston avenue and Fulton street. Cost, \$1,765,000.

Panhandle extension to Duboce to Harrison and second route northerly to Scott to any suitable street between Oak and Fulton. Cost, \$3,100,000.

Broadway tunnel—Gives a direct route from down town to Western Addition. Cost, \$1,500,000.

Fulton street, Franklin to Masonic, widening. Cost, \$1,150,000.

Potrero, widening and extension, Harrison to Army. Cost, \$1,550,000. San Jose Ave. widening. Cost, \$1,800,000.

Dolores street, tunnels to avoid heavy grades at two points. Cost indefinite, depending upon plan adopted.

Divisional highway, Castro to Divisadero. Cost, \$250,000.

BEWARE OF FAKE LICENSE INSPECTOR

Complaints have been received by the San Francisco office of the State Registrar of Contractors of the operations of a subscription solicitor who poses as a collector of license fees for the state bureau. His methods are similar to those used to victimize contractors in other parts of the state last fall. The solicitor pretends to issue a license receipt in return for a subscription to a contractors' magazine. Investigation by N. J. Morrissey, district inspector from the local office, has provided the bureau with a description of the imposter who is said to have displayed faked credentials in soliciting license renewals.

CIVIL SERVICE EXES FOR ROAD ENGINEERS

Examinations for federal civil service lists in the classifications of senior highway construction supervisor and senior highway design engineer have been announced by the United States Civil Service Commission to close July 14.

The examinations are to fill vacancies in the Bureau of Public Roads, Department of Agriculture, Washington, D. C., and vacancies occurring in positions requiring similar qualifications throughout the United States.

The entrance salaries for these positions range from \$4,600 to \$5,400 a year, less a deduction of not to exceed 15 per cent as a measure of economy and a retirement deduction of 3½ per cent.

Competitors will not be required to report for a written examination, but will be rated on their education and experience. Applicants must have had certain specified education and experience.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or customhouse in any city, or from the United States Civil Service Commission, Washington, D. C.

PENINSULA MEN SEEK POSITION AS INSPECTOR

San Mateo Manager Will Name County Building Authority Next Week

The race for position of San Mateo county building inspector under the new charter, which attracted a dozen candidates from all parts of the county, has narrowed down to three men, one of whom will be recommended to the board of supervisors next week, it was announced by County Manager Walter P. Kellogg at Redwood City yesterday.

The first county building inspector will be one of the following men it was reported:

William Logue, Jr., 1400 B street, San Mateo, business agent of the County building trades council; Wm. Watson, 11 East Carol avenue Burlingame, prominent San Francisco architect; Stanley W. Schawler, Atherton, builder.

The large number of candidates, all well fitted for the job, necessitated the list being narrowed down to those with the highest qualifications, the manager explained. He is now studying the merits of those three. Numerous endorsements from San Mateo county civic and business leaders makes the final selection difficult, Kellogg stated.

The new building chief will take an active part in the drafting of new county building codes, particularly as they apply to the unincorporated areas and will work hand in hand with the county planning commission, according to Kellogg. The inspector's salary is not fixed by the charter so must be set by the supervisors.

OFFICES MOVED

T. E. McNulty, manufacturer's representative for Corry Metal screens and blackboards, has moved to a new location at 130 Battery street. His offices formerly were at 320 Market street residence.

YOUNG OPPOSES PLAN TO RAID HIGHWAY FUND

**Proposal is Betrayal of State's
Promise in Levying Tax,
Says Ex-Governor**

Diversion of \$17,000,000 of gasoline tax monies in the State general fund, as provided for in Propositions 9 and 10 on the June 27 special election ballot, would be unwise and dangerous, former Governor C. C. Young said yesterday in a statement issued through the Highway Protective Committee.

An ardent supporter of California's highway program through a long legislative career and as lieutenant governor and then governor of the state, ex-Governor Young views with apprehension the move to use gas funds for purposes other than those for which they were authorized, namely the construction and maintenance of good roads. Young said:

"In my opinion, Propositions 9 and 10 are unwise and dangerous, as creating a precedent of transferring to the general fund money which was raised by a special tax on the motorist for the specific purpose of maintaining and improving our highways. I do not believe that gas taxes which have been willingly paid for this purpose can justly be diverted to any other purpose, and I believe that this first attempt at such diversion should be strongly rebuked at the polls.

"The payment of interest on old highway bonds was from the first clearly regarded as a charge against the general fund, and has always been paid from that fund, the gas tax being devised ten years ago, not to pay the bills for previous highways, but to pay for highway construction and maintenance in the future.

"The proposed diversion of gas tax funds is especially unwise at the present time for two reasons:

1. The legislature has just enacted laws taking over 6600 miles of county roads to be hereafter maintained by the State, and furthermore devoting a portion of the gas tax for the improvement of city streets. By these two actions, to preserve every cent of our present gas tax funds is doubly necessary, and at the same time sharp reductions in local road and street taxes is made possible.

2. The proposed diversion of gas tax money will so restrict highway construction as to throw thousands of men out of work, since 90% of highway costs goes to labor. It seems a little absurd to vote \$20,000,000 in bonds for the relief of unemployment and at the same election to vote away nearly the same amount of practical unemployment relief.

"This gas tax diversion is asked as an aid to balancing the present budget; but I urge that it be balanced otherwise than by the unjust confiscation of money paid by the motorist for another district purpose."

NEW WOOD UTILITY TO CHANGE MILLING

Saw mill operators will soon be called upon to deliver prefabricated structural lumber, bored, drilled and shaped, guaranteed as to quality and moisture content and ready for immediate erection without further cutting, according to Axel H. Oxholm, Director, National Committee on Wood Utilization, of the Department of Commerce.

Only in this manner can full advantage of the modern connector system be secured. This new construction method recently was introduced by the National Committee on Wood Utilization and the Forest Products Laboratory of the Department of Agriculture. An engineering report under the title of "Modern Connectors for Timber Construction," was released.

According to Oxholm, who has followed the practical application of this system in Europe, the most important European sawmills catering to this trade are equipped to furnish the lumber cut, shaped, drilled and bored according to blue prints. Our sawmills must go one step further and in addition deliver stocks seasoned to a definite guaranteed moisture content. Under certain conditions seasoned lumber is twice as strong as green material. It is therefore easily seen that the engineers must definitely know the moisture content of each piece in order to determine its load carrying capacity. Each structural member might also be marked so as to show its minimum strength.

Undoubtedly this modern connector system will require a further development of standard sizes and grades of prefabricated building lumber.

Through a process of simplification of sizes and grades distributors will be able to keep in stock certain prefabricated building lumber items most in demand. It is also possible to visualize the development of standard designs of certain wood structures partly made up of interchangeable wooden members.

This new construction system also permits chemical treatment after prefabrication thereby protecting against exposed surfaces.

"A new era of wood construction has arrived. It is up to the lumber industry to make this new construction system a success," concludes Oxholm.

OAKLAND ENGINEERING SERVICE IS FORMED

G. F. Dodge and J. E. Searles announce their association in the practice of mechanical and industrial engineering, with headquarters at 142 McGee avenue, Oakland. They will offer consultation in all engineering work with special experience in mine, mill and smelter construction, sand and gravel and crushed rock plants, building heating and ventilation and industrial power plants.

FOUR-YEAR TREND REVERSED BY MAY GAIN IN BUILDING

**Residential Work Increases
Over April for First Time
Since 1929**

Indicated expenditures for total building construction in May were 128.6 percent greater than in April 1933, according to reports received by the Bureau of Labor Statistics of the United States Department of Labor from 761 identical cities having a population of 10,000 or over. The 1933 increase of May over April was over five times greater than the increase shown in comparing these two months in 1932.

Comparing May 1933 with April 1933, there was an increase of 32.8 percent in the number and an increase of 75.6 percent in the estimated cost of new residential buildings. This is the first time in four years that indicated expenditures for residential buildings was greater in May than in April.

New nonresidential buildings increased 16.2 percent in number and 240.9 percent in indicated expenditures. There was an increase of 12.7 percent in the number of additions, alterations and repairs and an increase of 31.7 percent in indicated expenditures for this type of structure. The total number of building operations increased 14.6 percent during this period. During May 1933, 3,732 family-dwelling units were provided in new buildings. This is an increase of 61.0 percent as compared with April. The index number of total building operations increased from 9.5 in April to 21.7 in May.

The various agencies of the United States Government awarded contracts during May for buildings to cost \$2,127,603. This is over \$2,500,000 less than the value of contracts awarded during April 1933, and more than \$27,000,000 less than in May 1932.

Comparing permits issued in 347 identical cities having a population of 25,000 or over in May 1933 and May 1932, there was a decrease of 12.1 percent in the number of new residential buildings, but an increase of 5.4 percent in indicated expenditures for new residential buildings. New nonresidential buildings decreased 16.8 percent in number and 15.9 percent in estimated cost.

There was an increase in both the number and estimated cost of additions, alterations, and repairs. The number increased 12.8 percent and indicated expenditures 19.1 percent. The total number of building operations, comparing May 1933 with May 1932, increased 3.7 percent, while indicated expenditures decreased 7.4 percent. The number of family-dwelling units provided in these 347 cities increased 16.1 percent, comparing May 1933 with May 1932.

2—BONDS

SEAL BEACH, Orange Co., Calif.—City of Seal Beach defeated \$65,000 bond issue at election held June 19. Proceeds were to have been used for the erection of a new school building to replace the structure damaged by the recent earthquake. Marsh, Smith & Powell, architects, 816 W 5th St., REDWOOD CITY, San Mateo Co., Cal.—Weeden & Co., 315 Montgomery St., San Francisco, awarded contract for \$114,000 bonds, 6% interest; bid for par and accrued interest.

LONG BEACH, Los Angeles Co., Cal.—The Long Beach Board of Education is considering plans for holding a bond election to provide funds for rehabilitation of all city schools. The only other means of financing the work is through a Reconstruction Finance Corporation loan. Estimates of the Long Beach Architectural Club on the replacement or repair of school buildings follow: Poly High, \$820,000; Woodrow Wilson High and Junior College, \$200,000; John Dewey Vocational Junior High, \$100,000; Edison Junior High and Elementary, \$210,000; Franklin Junior High, \$400,400; Hamilton Junior High, \$400,000; Jefferson Junior High, \$400,000; Lindbergh Junior High, \$125,000; Washington Junior High and Elementary, \$140,000; Jane Adams, \$85,000; Atlantic Avenue, \$45,000; Bryant, \$45,000; Burbank, \$250,000; Burnett, \$150,000; Fremont, \$280,000; Garfield, \$55,000; Grant, \$65,000; Starr King, \$20,000; Lafayette, \$25,000; Lincoln, \$165,000; Longfellow, \$100,000; Los Cerritos, \$40,000; Lowell, \$100,000; Horace Mann, \$135,000; McKinley, \$20,000; John Muir, \$200,000; Naples, \$15,000; Roosevelt, \$280,000; Seaside, \$40,000; Signal Hill, \$35,000; Temple, \$125,000; Whittier, \$125,000; Willard, \$280,000; new elementary for North Long Beach, \$100,000; new junior high, Belmont Shore, \$150,000. The figures, which total \$5,755,000, are on the basis of earthquake resistive types. No inspection of the Avalon Junior and Senior High and Elementary Schools was made. The damage there was slight it is understood Los Angeles.

21—BRIDGES

EUREKA, Humboldt Co., Cal.—Ranta & Gray, Eureka, at \$575 awarded contract by county commissioners to clean and paint the Redwood Creek Bridge at Bair's and the Trinity River bridge at Willow Creek in Road District No. 5. Complete bids follow:
Ranta & Gray, Eureka.....\$ 575.00
H. A. Anderson, Rio Dell..... 589.50
Smith Bros. Co., Eureka..... 925.00
R. J. Minnie, Eureka..... 1264.00
John E. Howard, Arcata..... 1422.00

OREGON STATE.—Until June 28, 9 A. M., bids will be received by State Highway Commission, Multnomah Hotel, Portland, to construct bridges as follows:

LINN COUNTY

Bridge over South Fork of Santiam river on Albany - Lyons Secondary Highway No. 211, about two miles west of Crabtree. Requires approximately:

1,200 cu. yds. excavation;
3,800 lin. ft. piling;
480 cu. yds. concrete;
20,000 lbs. metal reinforcement;
135 MFBM lumber;
205,000 lbs. new structural steel;
move and re-erect 130 ft. steel span and re-erect 352 ft. steel span.

POK COUNTY

Bridge over Mill Creek on Dallas-Coast Secondary Highway No. 192 about one-half mile east of Buell. Requires approximately:
65 cu. yds. excavation;
400 lin. ft. piling;
16 cu. yds. concrete;
3,400 lbs. metal reinforcement;
17 MFBM lumber;
118 lin. ft. trestle superstructure;
39,000 lbs. structural steel and removal of old bridge.

The contractor will also be required to construct the approaches to this bridge which involves approximately 6,500 cu. yds. excavation and 800 cu. yds. surfacing.

Specifications obtainable from the State Highway Commission, Rm. 322, State Office Bldg., Salem, on deposit of \$5, returnable.

SAN JOSE, Santa Clara Co., Cal.—Carl N. Swenson, 355 Stockton Ave., San Jose, at \$6795 awarded contract by County Supervisors to widen Evelyn Ave. Bridge. Complete bids follow:
Carl N. Swenson, San Jose.....\$6795
Collins & Martin, San Jose..... 7126
Neves & Harp, Santa Clara..... 7225
Pacific Truck Service, Inc., San Jose..... 7489
F. O. Bohnett, San Jose..... 8000
T. J. Doyle, San Francisco..... 8957
Surveyor's Estimate..... 7360

EUREKA, Humboldt Co., Cal.—Until June 30, 11 A. M., bids will be received by Fred M. Kay, County Clerk, to re-floor the county bridge across the South Fork of Eel River near Miranda, in Road District No. 2. Specifications obtainable from Frank Kelly, County Surveyor. Certified check 5% required with bid.

PIERCE AND LEWIS CO., Wash.—Western Construction Co., Textile Tower, Seattle, Wash., at \$23,332 awarded contract by U. S. Bureau of Public Roads, to construct the Nisqually Glacier Bridge reconstruction, West Entrance Paradise Inn Road, Project E-1A, Mt. Rainier National Park.

VISALIA, Tulare Co., Cal.—Tulare County Supervisors plan to construct five new bridges, as follows: Cottonwood Creek, estimated cost \$3500; Deer Creek, \$12,000; St. John's River, \$10,000, and two bridges over the South Fork of the Kawah River, estimated to cost \$8000. Funds will be obtained under National Industrial Recovery Act.

LOS ANGELES, Cal.—James Noon, 291 E Vineland Ave., Baldwin Park, submitted low bid to county supervisors June 19 at \$8347 (based on Proposal No. 2, using H-steel piling encased in concrete) for the construction of a concrete and steel bridge on Anaheim-Puente Road over San Jose Creek.

E. G. Perham, 1128 Stearns Drive, Los Angeles, submitted the low bid on Proposal No. 1 (concrete piling) at \$8875.

MARION COUNTY, Oregon—Until July 6, 10 A. M., bids will be received by U. S. Bureau of Public Roads, 316 New Post Office Bldg., Portland, W. H. Lynch, District Engineer, to construct one steel I beam stringer bridge over White Water Creek, North Santiam Highway Project E-24-D2, N. F. R. Proj., Willamette National Forest, involving:

- (1) 915 cu. yds. unclass. excav.;
- (2) 72 cu. yds. class A concrete;
- (3) 148 cu. yds. class B concrete!
- (4) 278 cu. yds. class D concrete;
- (5) 27,500 lbs. reinf. steel;
- (6) 309,000 lbs. struc. steel.

Specifications obtainable from above office on deposit of \$10, returnable. Proposal guarantee, 5%.

ORANGE COUNTY, Cal.—R. R. Bishop, 5017 E. Broadway, Long Beach, at \$12,581.50 submitted low bid June 21 to District Engineer, State Highway Commission, Los Angeles, to construct approach spans and repair existing bridge at Anaheim Bay

Bridge, near Seal Beach. Complete bids follow:

- (A) R. R. Bishop, Long Beach, \$12,581.50.
- (B) Weymouth Crowell, Los Angeles, \$14,441.
- (C) John Strona, Pomona, \$17,831.50.
- (D) Oscar Oberg, Los Angeles, \$19,116.
- (E) Lyerts & Dunn, Los Angeles, \$23,443.50.

Complete bids will be published shortly.

22—DREDGING, HARBOR WORKS, EXCAVATION

SONOMA COUNTY, Cal.—Appropriation of \$10,000 made for the construction of jetties at the mouth of the Russian River, work to be handled by the Department of Public Works.

SACRAMENTO, Cal.—Until July 5, 3 P. M., under Circular Proposal No. 33-346, bids will be received by U. S. Engineer Office, California Fruit Bldg., Sacramento, to dredge 489,000 cubic yards material from Suisun Bay near the mouth of New York slough and from New York slough between its mouth on Suisun Bay and the mouth of Middle slough. Specifications obtainable from above office.

25—MACHINERY AND EQUIPMENT

OAKLAND, Calif.—Following contracts awarded by Concrete Products Sales Co., 1522 Latham Square Bldg., Oakland (Kaiser Paving Co.) in connection with their sub-contract for mixed concrete on the San Francisco-Oakland Bay Bridge:

Motors—Howell Electric Motors Co., 38 Natoma St., San Francisco.

Motorized Units—Howell Elec. Motors.

Starting Switches—Howell Electric Motors.

Conveyor Belting—Jointly to American Rubber Co., 7 Front Street, and Pioneer Rubber Co., 353 Sacramento St., San Francisco.

Conveyor Equipment—Bodison Mfg. Co., Inc., 4401 San Bruno Ave., San Francisco.

SAN FRANCISCO.—Overland Freight Transfer Company and A-B-C Transfer & Storage Co. awarded contract under Bid No. 1115 by T. A. Brooks, City Purchasing Agent, to deliver and return voting machines and supplies for special election.

SAN BERNARDINO, Cal.—Bids for furnishing a 35 H. P. track type tractor for delivery at San Bernardino opened by State Purchasing Agent, June 10. The bids were:

Crook Co.—Allis-Chalmers 35, \$2140.
Smith Booth Usher Co.—Cletrac 35, \$2225.

Freeland Tractor & Equipment Co.—Caterpillar 35, \$2345 (less 2%).

Hulse & Anderson, El Centro—Caterpillar 35, \$2365.

J. D. Adams Co.—McCormic-Deering T-40, \$2514.

WASCO, Kern Co., Cal.—Until 8 P. M., June 30, bids will be received by the Wasco Union High School District to furnish one Indiana school bus chassis, model 14B, with 42-passenger body and equipment in accordance with specifications on file with C. W. Glenn, clerk. Bids will be received for chassis and body separately or chassis and body complete.

CAPITAL CITY TITLE COMPANY

J. C. PALEN,
Manager

914 Seventh Street
Sacramento :: California

PASADENA, Calif.—Link-Belt Co., Pacific Division, San Francisco, was awarded contract by city directors June 20 at \$9800 to furnish two duplicate conveyors at the city incinerator to supply dry rubbish and waste materials as fuel for two waste heat boiler furnaces. The bids were opened June 13.

EUREKA, Humboldt Co., Cal. — Until June 26, 2 P. M., under Quo. No. 44717, Req. No. 11875, bids will be received by State Purchasing Agent, Sacramento, to furnish one one-man motor grader unit, mounted on track-laying type tractor with 10-ft. blade. Further specifications obtainable from above office.

EUREKA, Humboldt Co., Cal. — Until June 26, 2 P. M., under Quo. No. 44718, Req. No. 11874, bids will be received by State Purchasing Agent, Sacramento, to furnish one pneumatic-tired, dual or tandem-drive one-man motor grader unit, 10-ft. blade. Further specification obtainable from above office.

30—RESERVOIRS & DAMS

LOS ANGELES, Calif.—The flood control committee of the county board of supervisors decided June 14 to readvertise for bids for the construction of the Eaton Canyon Dam in accordance with specifications which were adopted.

The 30-hour provisions of the new law relating to public works will probably not have to be included as the action taken by the board May 29 was merely a postponement and not a rescission of the board's previous action in authorizing the advertisement.

The new date for bids will be fixed either at the supervisors' meeting on June 19 or June 26, bids to be received either the 17th or 31st of July.

The plans call for a rolled earth fill dam, 1545 ft. in length, 37 ft. in height 40.5 ft. from foundations to spillway crest. The upstream side will be faced with concrete.

The cost is estimated at \$441,376.

Bids will be taken on three proposals, viz: (1) all work complete; (2) earth work, and (3) concrete and miscellaneous work.

The quantities follow:

PROPOSAL NO. 1.

All Work Complete

- (1) 10.5 acres clear and grub dam-site;
- (2) 40,000 cu. yds. stripping damsite;
- (3) 9 acres prepare foundation for dam;
- (4) 164,000 cu. yds. excavation;
- (5) 3100 cu. yds. excavation (cut-off trenches);
- (6) 167,000 cu. yds. excav. borrow pit No. 1;
- (7) 196,000 cu. yds. do, pit No. 2;
- (8) 147,000 cu. yds. embankment, impressions (Class A);
- (9) 265,000 cu. yds. do (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);
- (12) 930 cu. yds. concrete cut-off walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs (Class B);
- (14) 270,000 sq. ft. gunite facing slab; Alt. to 14 (14-A) 3980 cu. yds. concrete facing slab;
- (15) 2640 cu. yds. concrete retaining wall (Class D);
- (16) 2125 cu. yds. concrete outlet conduit (Class E);
- (17) 1450 cu. yds. concrete spillway ogee (Class E);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists, stems, etc.;

- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place miscel. metal;
- (22) 1,000 lbs. place metal handrall;
- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drill dowel holes.

PROPOSAL NO. 2.

Earthwork Only

- (1) 10.5 acres clear and grub dam-site;
- (2) 40,000 cu. yds. stripping damsite;
- (3) 9 acres prepare foundation for dam;
- (4) 156,000 cu. yds. excavation for struc. (Class A);
- (5) 3100 cu. yds. excavation (cut-off trenches) Class B;
- (6) 167,000 cu. yds. excav. borrow pit No. 1 (Class C);
- (7) 196,000 cu. yds. excav. borrow pit No. 2 (Class D);
- (8) 147,000 cu. yds. embankment impervious (Class A);
- (9) 265,000 cu. yds. do (Class B);
- (10) 1450 cu. yds. backfill, tamped (Class A);
- (11) 8850 cu. yds. backfill, untamped (Class B);

PROPOSAL NO. 3.

Concrete and Miscellaneous Work

- (4) 8000 cu. yds. excavation for struc. (Class A);
- (4A) 5000 cu. yds. excav. final trim upstream (Class E);
- (12) 930 cu. yds. concrete cut-off walls (Class A);
- (13) 3540 cu. yds. concrete floor slabs (Class B);
- (14) 250,000 sq. ft. gunite facing slab; Alt. to 14 (14-A) 3980 cu. yds. concrete facing slab;
- (15) 2640 cu. yds. concrete retaining wall (Class D);
- (16) 2125 cu. yds. concrete outlet conduit (Class E);
- (17) 1450 cu. yds. concrete spillway ogee (Class F);
- (18) 1,250,000 lbs. place reinf. steel;
- (19) 200,000 lbs. place gates, hoists, stems, etc.;
- (20) 44,000 lbs. place trash racks;
- (21) 8,000 lbs. place miscel. metal;
- (22) 1,000 lbs. place metal handrall;
- (23) 200 lin. ft. place tile drains;
- (24) 100 lin. ft. drill dowel holes.

31—PIPE LINES & WELLS

SONOMA, Sonoma Co., Calif.—All bids rejected by city council to drill two wells, bids for which were opened May 29.

32—SEWERS & SEWAGE DISPOSAL PLANTS

SAN FRANCISCO.—Chas. L. Harney, 74 New Montgomery S., at \$17,250 submitted low bid June 15 to the Public Utilities Commission to construct concrete siphon for Crystal Springs Aqueduct.

PALO ALTO, Santa Clara Co., Cal.—Until July 5, bids will be received by Board of Public Works for skimming and sludge removal apparatus for the sedimentation tank, in connection with new sewage disposal system for Palo Alto. Quantities and definite bid call will be published within a few days.

OAKLAND, Cal.—Until July 18, 10:30 A. M., new bids will be received by Geo. E. Gross, county clerk, to construct a reinforced concrete box culvert on the Valle Vista Road, Eden Twp., involving:

- (1) 260 cu. yds. struc. excav.;
 - (2) 275 cu. yds. conc. in structure;
 - (3) 44,000 lbs. reinf. steel;
 - (4) remove existing bridge, lump sum
- Estimated cost \$6500. Plans obtainable from county clerk on deposit of \$25. Geo. Wilhelm, county surveyor. All bids rejected on previous call, bids opened June 13, at which time Geo. Johanns, 2020 15th St., San Francisco, was low bidder at \$4,964.50.

BERKELEY, Alameda Co., Calif.—Martin Murphy, 1321 Milvia St., Berkeley, at \$2495.25 awarded contract by city council to construct storm sewer in Ensenada Ave. from Capistrano Ave. south to the existing culvert south of Tacoma Ave. Complete bids follow:

- Martin Murphy, Berkeley.....\$2495.25
- W. J. Tobin, Oakland..... 2527.00
- Lee J. Immel, Berkeley..... 2646.00
- Schnoor Bros., Oakland..... 2765.00

LONG BEACH, Los Angeles Co., Cal.—All bids for furnishing vitrified clay sewer pipe, opened by City Manager E. S. Dobbin, June 8, have been rejected. The pipe will probably be readvertised. The pipe quantities follow:

- (1) 1,080 lin. ft. of 8-in. pipe;
- (2) 21,328 lin. ft. of 10-in. pipe;
- (3) 6,676 lin. ft. of 12-in. pipe.

The pipe will be used for the installation of a six-mile trunk sewer in the North Long Beach area.

33—WATER WORKS

LOS ANGELES, Cal.—Western Pipe & Steel Co., 5717 Santa Fe Avenue, awarded contract by A. J. Holm, City Purchasing Agent, June 19 at a total lump sum price of \$379,115 to furnish approximately 18,000 feet of steel pipe for the Bouquet Canyon Reservoir inlet and outlet conduit. Specifications No. 3078. Bids were opened June 1. The award was based on bell and slip joint pipe under item (2) and for beveled end butt strap pipe under item (4) Schedule No. 1 (material only).

PANAMA CANAL ZONE.—Contracts for furnishing valves, pipe, etc. under Schedule No. 2870, for Madden Dam Panama Canal, awarded by the Purchasing Office, Panama Canal, Washington, D. C., as follows:

Warren Foundry & Pipe Co., 11 Broadway, New York City, Class 7, at \$1627.09.

H. Bedford Co., 425 Broad Street, Philadelphia, Class 9 at \$6427.42.

Phoenix Specialty Mfg. Co., 155 Wooster, New York City, Class 10 at \$89.82.

U. S. Rubber Products, Inc., 1790 Broadway, New York City, Class 11 at \$29.90.

MADERA, Cal.—Lone bid submitted by San Joaquin Light & Power Corp., at \$17,460 to furnish a pump with a 140 brake-hp. Diesel engine for city water pumping plant.

Bids held under advisement.

OAKLAND, Calif.—Art Conc. W'ks, 24th and Adeline Sts., Oakland, at \$3500 awarded contract by East Bay Municipal Utility District for items (1) and (2) to furnish concrete meter boxes and covers.

Form Mfg. Co., 1379 62nd, Oakland, at \$412 awarded contract to furnish concrete meter boxes and covers under items (3) and (4).

OAKLAND, Calif.—California Steel Products Co., 452 Bay St., San Francisco, at \$1627 each, awarded contract by East Bay Municipal Utility District to furnish two steel storage tanks, 120,000 gal. capacity, one for the Saranap County Water District and the other for the Fairview County Water District, in connection with construction of reservoirs and pipe lines, work being done by the East Bay District by force account.

SAN BERNARDINO, Calif.—Until 7:30 P. M., June 27, bids will be received by board of water commissioners to furnish one direct connected booster pump and electric motor for installation in the artesian well

at the Hanford Pumping Plant on D St. Specifications call for a pump of a capacity of 540-g.p.m. at 208 ft. head and 675-g.p.m. at 175 ft. head. Specifications obtainable from office of Bard Livingstoen, Acting Superintendent. Certified check or bond, 10%.

IDAHO STATE—Until July 14, 2 P. M., under Specifications No. 596-D, bids will be received by U. S. Bureau of Reclamation, Denver, Colorado, to furnish:

- (1) 1 vertical pump, 150 second-feet, head 33½ ft.;
- (2) 1 900 hp. 2200 volt, 3-phase, 60-cycle, vertical synchronus motor
- (3) 1 switchboard panel for control of synchronous motor;
- (4) (alt. to (1) and (2) vertical pump and motor;
- (5) services of erecting engineer.

BOULDER CANYON, Nev.—Newport News Shipbuilding & Drydock Co., 90 Broad St., New York, at \$148,749 awarded contract by U. S. Bureau of Reclamation to furnish one 55 hp. turbine for Boulder Dam.

Woodward Governor Co., Rockford, Ill., at \$12,286 awarded contract to furnish one Governor for the same.

SAN FRANCISCO—Enterprise Foundry Co., 2902 19th St., at \$0.0375 per lb., submitted low bid under Bid No. 1003 to T. A. Brooks, City Purchasing Agent, to furnish cast iron fittings for San Francisco Water Department for term from July 1, 1933 to June 30, 1934.

Complete bids follow:

Enterprise Foundry Co.	\$0.0375
United Iron Works	.039
Steiger & Kerr Foundry Co.	.055
Ipomeo Pine Corp.	irregular

Bids held under advisement.

ALAMEDA, Alameda Co., Calif.—Project cancelled by Constructing Quartermaster, Benton Field Air Depot to test and drill 12-in. well and furnish and install deep well turbine pump with electric motor, for which Wilkinson & Co., Gilroy, at \$3500 for well and Byron Jackson Pump Co., Berkeley, at \$1995, were low bidders.

SONOMA, Cal.—All bids returned unopened by city council to construct reservoir and municipal water system, when offer of Sonoma Water Company to sell system of \$24,000 was accepted. System will be transferred to the city by July or August, and at that time new bids will be called for the construction of reservoir and pipe, etc., necessary to put system in usable condition.

SEATTLE, Wash.—Queen City Construction Co., 603 18th St., Seattle, at \$72,915 awarded contract by board of public works to construct water main on Alki Ave.

SAN FRANCISCO—Chapman Valve Mfg. Co., at \$853.50 awarded contract under Bid No. 1011 by T. A. Brooks, City Purchasing Agent, to furnish one 30-in. double disk gate valve for Hetch Hetchy Project.

SAN FRANCISCO—M. Greenberg & Sons at \$1,835 each awarded contract under Bid No. 1010 by T. A. Brooks, City Purchasing Agent, to furnish 1300 brass lawn boxes for the Park and Recreation Departments.

SAN FRANCISCO—Pacific Brass Foundry at \$95 each awarded contract under Bid No. 1010 by T. A. Brooks, City Purchasing Agent, to furnish 300 brass hydrants for Park and Recreation Departments.

SACRAMENTO, Cal.—Until June 29 8:15 P. M., bids will be received by H. G. Denton, city clerk, to furnish 200 tons Bauxite for City filtration plant. Specifications obtainable from above office. Certified check 5% required with bid.

35—TUNNELS

LOS ANGELES, Cal.—Walsh Construction Co., Davenport, Iowa, represented by J. H. Gill, manager, 904 Chester Williams Bldg., Los Angeles, awarded contract by the Metropolitan Water District, June 16, at \$4,357,780.40, for constructing the Colorado River, the Copper Basin and the Whipple Mountain Tunnels of the Colorado River Aqueduct. The figure upon which the award was made includes deductions as allowed for combined award in accordance with bidder's stipulations. The cost of each tunnel, including deductions, will be:

Colorado River Tunnel, Schedule No. 1, 5640 lin. ft., \$543,884.
Copper Basin Tunnel, East Portion, Schedule No. 2, 6140 ft., and the West Portion, Schedule No. 3, 6140 ft., \$1,192,516.

Whipple Mountain Tunnels, East Portion, Schedule No. 4; Central Portion, Schedule No. 5, and West Portion, Schedule No. 6, \$2,621,080.

Bids were opened June 12.

LOS ANGELES, Cal.—West Constr. Co., Boston, Mass., represented by C. V. Cummings, vice-president, Biltmore Hotel, awarded contract by the Metropolitan Water District, June 16, at \$1,051,637.50, to construct White-water No. 1 and No. 2 Tunnels, Schedule No. 7, 10,040 ft. The bids were opened June 12.

LOS ANGELES, Calif.—Until 10 A. M., June 29, bids will be received by the Metropolitan Water District, 306 W Third St., Los Angeles, to furnish 7500 tons liner plates and other steel for tunnel support for use in the Coachella Tunnels for the remainder of the present year and for completing the tunnel construction. Bids are to be f.o.b. plant.

Specifications obtainable from room 1007, 306 W Third St., Los Angeles on payment of \$2.00.

Certified check, 10%, must accompany each bid. Julian Hinds, Acting Chief Engineer. 35

29—STREETS AND HIGHWAYS

LOS ANGELES, Cal.—P. J. Akmadzich at \$22,200 (estimated total) was awarded contract by A. J. Holm, City Purchasing Agent, under Spec. No. 3074, to furnish 12,000 tons oil and mineral aggregate mixture for roads in Griffith Park. Bids opened June 5.

SAN FRANCISCO—Department of Public Works, S. J. Hester, Chief Deputy Director, plans to improve Rivera St. from 35th to 36th, where not involving:

- (1) 50 ft. 6-in. V.C.P. sewers;
- (2) 50 ft. unarmored concrete curb;
- (3) 1250 sq. ft. asphalt conc. pave.
